THE MISSION of John F. Kennedy University is to provide access to high-quality, innovative educational opportunities that integrate theory and life experience. We inspire personal, professional, and academic growth and advance the well-being of our diverse local and global communities. This mission is built upon our core values:

**Accessibility**

- We are a vibrant and humane learning community that embraces all forms of diversity.
- Our locations, schedules, curricula, and technology afford students maximum flexibility.
- Our culture is welcoming, respectful, and ethical.

**Quality and Innovation**

- Our courses of study are delivered by outstanding scholar-practitioners in a creative and challenging environment.
- We promote holistic, interdisciplinary, experiential learning that balances breadth and depth.
- We are responsive to the changing needs of our students and society.

**Transformative Growth**

- We are dedicated to students who want to continue their formal education; chart new, professional directions; and derive greater meaning from their lives.
- Our rigorous academics and whole-person orientation stimulate intellectual inquiry and inspire students to realize their potential and achieve their dreams.

**Diversity**

- We are committed to a culture that respects and values all forms of diversity and sparks creativity, collaboration, and leadership.

**Global Worldview**

- We respect individual and cultural differences while forging bonds of common understanding essential to our global interdependence.
- Our programs encourage active and sustained contributions to our society and environment.

By accomplishing our mission, living out our core values, and implementing our strategic plan, we will achieve the JFKU vision—to be the learning environment of choice for those seeking a transformative and life-enhancing educational experience.
Catalog Changes

This CATALOG is neither a contract nor an offer to contract between the University and any person or party; thus, the University reserves the right to make additions, deletions, and modifications to curricula, course descriptions, degree requirements, academic policies, schedules and academic calendars, financial aid policies, and tuition and fees without notice. All changes take precedence over catalog statements.

While reasonable effort will be made to publicize changes, students are encouraged to seek current information from appropriate offices because it is the responsibility of the student to know and observe all applicable regulations and procedures. No regulation will be waived or exception granted because students plead ignorance of, or contend that they were not informed of, the regulations or procedures. Questions on regulations and their interpretation should be addressed to the office or college in which the student's major department is located.

The University reserves the right to effect changes without notice or obligation including the right to discontinue a course or group of courses or a degree program. Although the University attempts to accommodate the course requests of students, course offerings may be limited by financial, space, and staffing considerations or may otherwise be unavailable. Students are strongly encouraged to schedule an appointment with their advisor at least once each quarter, preferably before registering for the succeeding term.

Financial Support

The University draws its financial support from tuition, fees, endowments, gifts, and grants; it is entirely independent of any government body, religious order, or fraternal organization.

Non-Discrimination

John F. Kennedy University does not discriminate on the basis of race, color, height, weight, national origin, religion, age, marital status, gender, sexual orientation, veteran status, or disability. In a continuing effort to enrich its academic environment and provide equal educational and employment opportunities, the University actively encourages applications from members of all groups that are underrepresented in higher education.

Green Practices

In keeping with the mission of the University, JFK University is proud to be recognized as a green business. Green businesses are certified for their green practices—conserving water, energy, and other materials and recycling and preventing pollution. More information is available about California green businesses by visiting http://www.greenbiz.ca.gov.

Welcome

Transforming Lives, Changing the World. These goals have been attained by thousands of students since the founding of John F. Kennedy University in 1964. Named in honor of perhaps the most socially conscious president in the history of the United States, John F. Kennedy University provides a unique opportunity to perpetuate the vision of our 34th president by offering innovative undergraduate and graduate programs.

As the French philosopher Henri-Louis Bergeson noted “To exist is to change, to change is to mature, to mature is to go on creating oneself endlessly.” As an affiliate of the National University System (NUS), our university has embraced Bergeson’s admonition. Our faculty and staff are dedicated to continually exploring opportunities to expand, enhance, and strengthen our commitment to transformational education for our students today and for generations to come.

Programs such as Legal Studies and Law, Counseling and Sport Psychology, Business and Management, Museum Studies and Holistic Health Education to name just a few, will enable you to sharpen your minds to address the seminal issues at the core of lifelong learning. An interactive, student-focused learning environment, long a hallmark of the University, will provide you with tools necessary in today’s ever changing world that will enable you to succeed in achieving your educational goals.

All of us look forward to welcoming you to our community, both during the course of your studies and throughout your professional career. Our commitment to your success remains paramount.

Sincerely,

Steven A. Stargardter, PhD, JD
President
John F. Kennedy University
Foreword

JOHN F. KENNEDY UNIVERSITY (JFK University) was founded in 1964 as one of the first universities in the United States dedicated solely to adult education. More than 25,000 adults have attended classes at the University, and over 13,000 women and men hold JFK University degrees. During the University’s early years, typical students were working adults who had completed two years of college, experienced an interruption in their formal education (often to raise a family), and wanted to return to college to complete their degree. By offering graduate and upper-level undergraduate programs, the University helped create educational opportunities for adult students.

Students come to John F. Kennedy University from unusually rich and diverse backgrounds with a wide array of academic, professional, cultural, and artistic experiences. Since 1964, the University has grown steadily, expanding programs and services to meet the full range of adult and traditional student needs. JFK University programs enable graduates to master theoretical knowledge, gain a sense of personal power, and acquire skills to perform effectively in their chosen field. Through a broad range of career-oriented programs, the University encourages intellectual inquiry, breadth of vision and spirit, and active contribution to the community. As practitioner-scholars, the faculty collaborate with students in an environment that values individual and cultural differences while striving to forge bonds of common understanding for an independent world.

As an affiliate of the National University System, John F. Kennedy University is working aggressively to build capacity with system resources, while maintaining independent academic programs and services. Today, the University's three colleges enroll over 1,600 students in degree and certificate programs in the fields of museum studies, liberal arts, management, psychology, holistic studies, and law. Eighty percent of students are enrolled in graduate programs.

Accreditation and Recognition

John F. Kennedy University is accredited by the Western Association of Schools and Colleges (WASC). Accreditation entitles the University to participate in federal student financial aid programs. The University is approved for veterans’ training and an approved participant in the Yellow Ribbon program.

Students and graduates of the University are accepted by other colleges and universities upon transfer. In addition, many businesses, government agencies, industries, and other employers recognize the value of advanced study at the University and approve reimbursement to their employees for all or a portion of their tuition costs. Interested parties may contact WASC at:

Western Association of Schools and Colleges
Accrediting Commission for Senior Colleges and Universities

The College of Law is accredited by The Committee of Bar Examiners of The State Bar of California.

The Doctor of Psychology (PsyD) program is accredited* by the American Psychological Association (APA).

The BA in Legal Studies and the Paralegal Certificate programs are approved by the American Bar Association.

*Accredited - on probation
Campuses and Centers

John F. Kennedy University has campuses and counseling centers that provide optimum opportunities for integrating University programs and community resources.

The Pleasant Hill Campus houses the University’s administrative offices, two libraries, and classrooms for its three colleges: College of Undergraduate Studies, College of Graduate and Professional Studies, and College of Law.

At the University’s campus in Campbell, a suburb of San Jose, psychology programs are offered, including a Bachelor of Arts completion program through the College of Undergraduate Studies and two Master’s programs – the Master of Arts in Counseling Psychology and the Master of Arts in Marriage and Family Therapy – offered by the College of Graduate and Professional Studies. The campus houses its own program administrative offices, classrooms, and library.

The Berkeley Campus offers courses from Arts & Consciousness, Marriage and Family Therapy, and Museum Studies programs in the College of Graduate and Professional Studies. The campus also features a general library and a computer lab. The Berkeley Campus Gallery shows the work of students as well as that of distinguished local artists whose work explores issues related to human consciousness and spirituality.

In Costa Mesa, the University opened a new location in fall 2010 that offers a BA completion program in Health Sciences and the Master of Arts in Sport Psychology.

JFK University maintains two Community Counseling Centers, located in Pleasant Hill and Sunnyvale, and an Oakland-based Center for Holistic Counseling.

1 Offered on the Campbell campus.
2 Program is discontinued. No new students will be admitted to this program. Students currently enrolled may be allowed to complete within a limited timeframe. Contact the department for details.
3 Offered on the Berkeley campus.
4 Offered on both the Campbell and Pleasant Hill campuses.
5 Offered on the Berkeley, Campbell, and Pleasant Hill campuses.
6 Offered at the Pleasant Hill and Costa Mesa campuses.

### Key to Degree Abbreviations

- **BA**: Bachelor of Arts
- **BFA**: Bachelor of Fine Arts
- **BS**: Bachelor of Science
- **GC**: Graduate Certificate
- **JD**: Juris Doctor
- **MA**: Master of Arts
- **MBA**: Master of Business Administration
- **MFA**: Master of Fine Arts
- **PsyD**: Doctor of Philosophy in Psychology
- **M/A**: Master of Art
- **MBA**: Master of Business Administration
- **MFA**: Master of Fine Arts
- **BFA**: Bachelor of Fine Arts
**Admissions**

The admissions process examines both the academic and personal qualifications of all applicants. JFK University aims to ensure that students accepted into its programs have the ability to benefit from and contribute to the integrated educational experience at the University. Admissions decisions are also based on the congruence of the applicant’s educational interests with the philosophy and purpose of the program to which he or she is applying. JFK University values a diverse academic community and is committed by purpose and obligated by law to serve all people on an equal and nondiscriminatory basis. Admissions’ decisions are made independent of need for financial aid.

The admissions office welcomes applications for:

- An undergraduate student in a program leading to a bachelor’s degree;
- A graduate student in a program leading to a master’s, Juris Doctor, or a doctoral degree;
- A certificate student at undergraduate, graduate, and post-master’s levels; and
- A non-degree student taking courses for personal enrichment.

In addition to the University application and admissions requirements, many degree and certificate programs have additional specific requirements described in the college and program sections of this catalog. (For information about law admissions, please review the law catalog.) Failure to follow the required procedures, provide all requested documentation, or declare all prior enrollments in post-secondary institutions may result in a delay in the application process, denial of admission, or dismissal from the University. The University reserves the right to verify the authenticity of any document through contact with the issuing source and/or a request for further documentation.

**Application Information**

All applications must be submitted with a non-refundable application fee by the appropriate priority application deadline. Applications will be accepted after the stated deadline on a space-available basis. For programs that do not have specific application deadlines, it is recommended that prospective students submit their application and all required documentation at least two months prior to the quarter of intended enrollment. (International applicants [F-1 classification] should refer to information on the following pages for deadlines.)

The applicant is responsible for requesting and submitting all documentation necessary to complete the application process.

All documentation submitted in support of an application for admission becomes the property of the University and will not be returned. Photocopies of documents submitted to support an application will not be given to applicants, students, or outside parties. Documentation submitted in advance of the application will be retained for one year. Incomplete applications and files for applicants who were admitted but did not enroll will be destroyed one year after the date of the application.

**Degree and Certificate Students**

Individuals wishing to enroll in a degree or certificate program must apply and be admitted to JFK University. All admission materials must be submitted directly to the admissions office by the application priority deadline (if applicable). An application to JFK University includes, but is not limited to, the following:

- Completed application form and non-refundable application fee.
- Undergraduate and doctoral applicants must submit official transcripts from all previously attended colleges or universities.
- Graduate applicants in master’s programs must submit official transcripts from the bachelor degree-awarding institution(s), and any post-bachelor degree institution including any master’s degrees or credits. Programs with undergraduate prerequisites require official transcripts from the originating institution.
- As may be required by some programs, letters of recommendation, an academic writing sample, resume, personal/goal statement, art portfolio, or an interview. See the admissions requirements for specific programs in this catalog for more detailed information.

**Provisional Admission**

Provisional admission is primarily granted in cases where an applicant is admitted without a complete academic record (e.g., the admissions office has not received transcripts from every previously attended university or college) or in cases where an applicant is completing the requisite degree at the time he or she is applying to JFK University. In such cases, full admission will be granted upon receipt of outstanding transcripts or the posting of degree conferral.

Provisional admission may also be given to an applicant whose previous college grade-point average is below the minimum required by the program. In such cases, completion of one quarter of full-time coursework at the University with grades of B or better will remove the provisional status. Financial aid is not available for students with provisional admittance. Students may hold provisional status for only one quarter.

**Enrollment Deposit**

Upon notification of acceptance into certain degree programs, students are required to submit a non-refundable enrollment deposit by the date on the acceptance letter in order to secure their place in the program. Students who are admitted to a program but who do not pay the deposit are not guaranteed a place in the program. The deposit is credited to the student’s account and is applied toward tuition. Students who submit an enrollment deposit and do not enroll in the intended term or fail to request a deferral will forfeit their enrollment deposit. Students who cannot submit a deposit but who intend to enroll must submit in writing to the director of admissions an explanation which states why he or she is unable to put forward the deposit and that he or she is indeed planning to enroll.

**Deferment**

Pending departmental approval and provided an enrollment deposit is paid (if required), applicants may defer enrollment up to one year from the time of initial acceptance. Applicants who fail to enroll within one year after deferring will forfeit their place in the program and enrollment deposit and will be required to submit another application if they choose to reapply. Requests for deferment must be made in writing to the admissions office.
Readmission

Students who leave the University must reapply before resuming their studies. Upon return, students must provide transcripts from all schools attended during their absence from JFK University, complete a readmission application, and pay any reapplication fees. The University has established a leave of absence policy to accommodate students who must leave their studies for a period of time; see the Leave of Absence policy in this catalog for details.

Students should note that after an absence of five years or more, their files may be destroyed. In that case, students must provide new copies of all transcripts, writing samples, portfolios, and meet any other admission requirement as prescribed for their program in addition to completing a new application form and fees.

Readmission is not guaranteed to a digression of a program. Readmitted students are under the requirements of their program at the time of their readmissions. A student is required to fulfill the current program requirements. Students applying for readmission are not eligible for a deferment of their readmission.

Program Transfer

Some students decide after matriculation that they are better suited for another program at the University. In such cases, students may apply to transfer provided they have the new program complete a Program Transfer Application, which reflects the application requirements the transferring student must meet in order to be admitted into the new program. Please visit the registrar’s office for more information.

Denial

Departments may deny any applicant whose academic record indicates a lack of adequate preparation for university study or whose academic objectives are not congruent with those of the program to which the applicant applied. The department’s decision is final, and appeals of the decision will not be considered. Due to the complexity of the admission and evaluation process, it is not possible to inform unsuccessful applicants of the reasons for the decision of the department.

Non-Degree Students

Individuals interested in taking courses for academic credit but not in pursuing a degree should register as a non-degree student. While non-degree students are not required to undergo a formal admissions process, they are required to be granted departmental approval prior to registering.

Non-degree students who later decide to apply for admission to a degree program must submit an application, pay the appropriate non-refundable fee, and complete all admission requirements for the desired program. Admission as a non-degree student does not guarantee admission to a degree or certificate program. A maximum of 30 percent of a program’s requirements may be completed as non-degree, with the exception of the MA Counseling program where all coursework must be taken in residence and within the qualifying degree program as required by the California Board of Behavioral Sciences.

Non-degree students are not eligible for financial aid.

Auditors

Individuals who want to take a course for no academic credit must register as an auditor and pay the appropriate tuition and fees. Auditors do not pay student association fees, are not members of the student association, and do not receive a student ID card. Audited courses do not appear on official transcripts. Each college determines which courses in their programs are eligible for audit. Individuals wishing to audit a course should obtain an Auditor Application form from the registrar’s office.

International Students

The University requires prospective international students (nonimmigrants) to have an academic background equivalent to the appropriate educational preparation in the United States, to fulfill the specific admissions requirements of the degree or certificate program, and to speak and write English fluently. International students are required to have sufficient financial resources to meet the expenses of studying and living in the United States as there are strict limitations on work authorizations and no financial aid is available for nonimmigrant students.

Proof of English proficiency is required of all international students whose native language is not English. English proficiency may be met by achieving the following:

- on the Test of English as a Foreign Language (TOEFL), 550 and above on the paper-based test, 213 on the computer test, or 79–80 on the Internet-based test (600 paper-based/250 computer-based/100 Internet-based for the Museum Studies program);
- with the International English Language Testing System (IELTS), a score of 6 with no band lower than 5.5 (7 with no band lower than 6.5 for the Museum Studies program); or
- by other measures which may be reviewed on a case-by-case basis.

The TOEFL exam must have been taken within two years prior to submitting an application. In addition to an English proficiency test, applicants and students may be required to take University-administered writing competency examinations.

To apply for admission to the University as an international student, all applicants must submit to the University:

- A completed application form;
- The appropriate non-refundable application fee in U.S. dollars;
- Proof of English proficiency if English is not the native language;
- Certification of finances in U.S. dollars;
- Official transcripts of all post-secondary work, sent directly to JFK University by the institutions attended, in an envelope bearing the institution’s seal or stamp, and/or an appropriate signature across the sealed flap;
- Certified translations of all school transcripts if not in English including any post-secondary work and any degrees or certificates awarded; and
- Transcript evaluation by an approved credential evaluation service showing course-by-course and lower-/upper-division detail for an application to a bachelor’s degree or law program in which the undergraduate units have been earned outside of the United States (required for graduate applicants when...
equivalency cannot be determined by the International Admissions Advisor).

Applicants must also meet any additional requirement(s) established by the specific program within the University. (Please see the admission requirements in the respective college and program sections of this catalog.) Applicants to a master’s program must possess an educational background equivalent to the minimum of a United States bachelor’s degree from an institution whose accreditation is recognized by the Council for Higher Education Accreditation (CHEA), except for applicants to the Doctor of Psychology program, whose education must be equivalent to the minimum of a United States bachelor’s degree from a regionally accredited institution.

The deadline for submission of the application and all supporting documentation is four months prior to the first day of the quarter of anticipated enrollment unless the desired program has an earlier deadline.

The United States Citizenship and Immigration Services (USCIS) Certificate of Eligibility Form will be issued only after an applicant has been admitted to the University. USCIS requires that the name of the applicant match exactly with the name on the passport. If admitted, proof of health insurance is required prior to the end of the first quarter of enrollment.

Questions concerning international student application or admission, including questions about other non-immigrant classifications and evaluation of prior academic work, should be directed to the international admissions advisor in the Office of International Education.

### Undergraduate Applicants

Applicants to bachelor’s degree programs must submit official transcripts from all colleges and universities previously attended. Because John F. Kennedy University offers primarily upper-division programs, applicants are expected to have completed a minimum of 45 quarter units (30 semester units) of the lower-division requirements prior to applying (54 units for the legal studies program with 27 units in undergraduate general education coursework). Individuals who have high potential of completing this unit requirement through College Level Examination Program (CLEP), DANTES Subject Standardized Tests (DSST), or Credit by Assessment are also encouraged to apply, although formal acceptance will not be offered until the lower-division unit requirement has been met.

### Undergraduate Transfer Credit

A maximum of 105 quarter units (70 semester units) may be allowed for a combination of work completed through a community or junior college or other two-year institution, CLEP, Advanced Placement, DSST lower division, military service, American Council on Education credit recommendations for lower-division credit, and training as a registered nurse. Subject credit may be granted beyond this maximum, but not unit credit. DSST upper-division credit is not included in the 105 quarter-unit maximum.

A maximum of nine quarter units may be accepted in transfer for physical education courses and a maximum of six quarter units for cooperative work experience.

Lower- and upper-division courses that are completed with a grade of D or higher and meet the other standards of the University will be accepted for transfer credit. Only applicable upper-division courses completed with a grade of C or higher will be considered for transfer credit in the major, emphasis, specialization, track, or core requirements.

Credit is not allowed for continuing education courses, non-credit workshops, remedial or vocational courses, or for work completed at an institution whose accreditation is not recognized by the Council for Higher Education Accreditation (CHEA).

Effective fall 2006, transfer credit recorded has the computational effect of CR on the student’s record (although courses may not be itemized and the actual symbol used may be different). The units attempted and completed are computed and shown, but the grade points and base hours are zero. Transferred courses do not compute into the cumulative GPA, nor do new students entering fall 2006 and beyond have a JFK University GPA until after their first graded course in residence.

Transfer credit awarded prior to fall 2006 includes grade points and base hours in addition to units attempted and completed. Transfer work prior to fall 2006 contributes to the student’s cumulative GPA.

Effective fall 2007, courses transferred from California universities or community colleges bearing either the UC or CSU designation will be eligible for transfer, unless the course is determined to be vocational in nature. Examples of vocational courses include plumbing, HVAC, and automotive courses. Beginning fall 2007, computer and technology courses are eligible for transfer. To be eligible for transfer, courses must also meet all other University requirements as stated earlier in this section and elsewhere in this catalog.

Courses transferred from California universities and community colleges prior to fall 2007 are eligible for transfer if they bear the UC designation. Other courses are considered for transfer on a case-by-case basis and may not be eligible for transfer even if they bear the CSU designation. Vocational courses are not eligible for transfer and neither are computer and technology courses.

### Extension and Correspondence Courses

A maximum of 36 quarter units of extension or correspondence work from accredited institutions may be used to satisfy degree requirements. No more than 18 of the 36 units will be allowed toward completion of upper-division requirements. Credit will not be allowed for Continuing Education Units (CEUs).

### Advanced Placement (AP)

Lower-division credit will be applied to the general-education breadth areas if appropriate or to the elective area for students receiving a score of 3 or higher on AP examinations. The number of units awarded is based on the recommendations of the American Council on Education (ACE). The University does not allow AP credit if it duplicates credit earned for a college course.

### College Level Examination Program (CLEP)

CLEP, a national testing program, assesses knowledge an individual already possesses. Undergraduate students may use CLEP tests to increase the number of lower-division transfer units and to fulfill lower-division breadth requirements. Graduate students can fulfill undergraduate prerequisite courses through CLEP.

General examinations in English composition, mathematics, humanities, natural science, social sciences, and history may be accepted to fulfill some lower-division general-education breadth
requirements. A maximum of nine quarter units may be allowed for each general examination for which a student receives a passing score. Subject examinations are also available for college-level courses and credit is allowed as recommended by the American Council on Education.

The amount of credit awarded for a CLEP examination depends upon a number of variables including the number of units and distribution of units previously accepted in transfer, prior courses completed, where prior transfer units were completed, and current status relative to the University’s residency policy.

The University does not allow credit for a CLEP examination if (1) the exam content would duplicate transfer credit previously awarded for a college course or (2) the exam content is at an academic level below one at which the student has previously demonstrated competence (academic regression). Units awarded for CLEP examination do not fulfill residency requirements. The registrar’s office should be contacted regarding the transferability and applicability of CLEP tests.

**Corporate or Government Agency Courses**

The American Council on Education (ACE) reviews selected courses offered by corporations or government agencies. The University considers ACE credit recommendations for courses applicable to a student’s degree program.

**DANTES Subject Standardized Tests (DSST)**

Credit may be allowed for DSST exams with consideration given to ACE recommendations. The amount of credit awarded depends on a number of variables including the number of units and distribution of units previously accepted in transfer, prior courses completed, where prior transfer units were completed, and current status relative to the University’s residency policy.

The University does not allow credit for a DSST examination if (1) the exam content would duplicate transfer credit previously awarded for a college course or (2) the exam content is at an academic level below one at which the student has previously demonstrated competence (academic regression). Units awarded for DSST exam do not fulfill residency requirements. The registrar’s office should be contacted regarding the transferability and applicability of DSST tests.

**Military Service**

Credit for military service may be allowed with consideration given to ACE recommendations. A DD214, DD295, or official military transcript form is required to consider credit for military service. A maximum of six quarter units will be allowed for military basic training. John F. Kennedy University is a member of Service Members Opportunity Colleges (SOC).

**Registered Nurse’s Training**

Effective fall 2007, transfer credit may be granted for nursing courses taken at a university, community college, or hospital-based RN program. Courses will be reviewed on a case-by-case basis for eligibility. Students need not have graduated from their nursing program to have their coursework considered for transfer; however, all other University requirements and credit limits apply. Vocational courses taken in LPN or LVN programs are not eligible for transfer.

For nursing courses transferred prior to fall 2007, a maximum of 90 quarter units may be allowed upon evaluation of hospital-based nursing school transcripts and presentation of a current California nurse’s registry card. Nursing coursework taken at a university or community college will be considered for transfer credit up to the 105 quarter-unit maximum with presentation of a current California nurse’s registry card.

**Second Baccalaureate Degree**

Normally, a student who has a bachelor’s degree is discouraged from working toward a second degree at the baccalaureate level. However, changes in academic objectives and other circumstances may make a second bachelor’s degree desirable. Students are never permitted to enroll in any degree program that is the same as or closely related to a previously earned degree at the same level.

To obtain a second undergraduate degree, an applicant must complete at least 45 units of new work beyond the first degree, fulfill all University requirements for a bachelor’s degree (including the 36-unit residency requirement), and any requirements in the major for the second degree that were not previously completed.

**Graduate Applicants**

Applicants to graduate programs must submit official transcripts from the bachelor degree-awarding institution(s), and any post-bachelor degree institution including any master’s degrees or credits. Applicants must possess a bachelor’s degree from an institution whose accreditation is recognized by the Council for Higher Education Accreditation (CHEA), except for applicants to the Doctor of Psychology programs, which require a bachelor’s degree from a regionally accredited institution.

**Graduate Transfer Credit**

Transfer credit may be awarded for applicable graduate courses completed at other institutions whose accreditation is recognized by the Council for Higher Education Accreditation (CHEA) with verification of transferability by the registrar’s office and approval by the program chair. The Doctor of Psychology and the MA Counseling Psychology program in the College of Graduate and Professional Studies require graduate transfer work to have been completed at a regionally accredited institution. At least 70 percent of the work required for a graduate degree must be completed in residence at the University; some programs may require a residency greater than 70 percent.

Graduate-level courses will be considered for transfer credit if relevant to the degree program and completed with a grade of B (or equivalent) or higher. Graduate transfer credit and prerequisite credit may be denied if the course was taken as pass/fail, credit/no credit, satisfactory/unsatisfactory, or another grading system without letter grades.

Graduate transfer credit is not allowed for undergraduate coursework or for continuing education units and non-credit workshops. Graduate coursework applied toward completion of another degree will not be considered for transfer except for the Doctor of Psychology program which may consider transfer credit from a relevant master’s degree.

A maximum of nine quarter units from graduate-level extension courses may be allowed toward a master’s degree. Graduate transfer credit is not allowed into linked-degree programs or into certificate programs.
Registration

Students may register to take courses for credit after complying with admission requirements. Students receive credit only for courses in which they are officially registered and are not allowed to attend courses for which they are not registered. Official registration consists of enrolling in classes over the Internet (at https://express.jfku.edu), calling the registrar's office during specified dates and times, or completing the appropriate registration forms in person. Registration is not complete until all tuition and fees are paid; students with unpaid balances may be prevented from attending or registering for classes, or placed on hold at the University's discretion.

Prior to each registration cycle, the registrar's office sends a notice to all students advising them of the upcoming important registration information. This information will also be on the University's website along with general registration information and class schedule information.

Schedule of Classes

The University maintains scheduling information containing course offerings, registration appointments and instructions, forms, and other useful information for registration on its website. Printed class schedule information is also available in various offices throughout the University.

Changes in Registration

Students are expected to register for classes—including field placements, independent studies, and internships—during the registration period before the first day of the quarter. The web portal closes for registration the night before the first day of the term. Beginning the first day of the term, registration and changes in registration must be done directly with the registrar's office. A late registration fee will be imposed according to the registration schedule published by the registrar prior to each term.

If no written approval from the college is required, students may make a change in registration by using the web portal (https://express.jfku.edu) prior to the first day of the term, or calling the registrar's office at (925) 969-3353 or (408) 874-7770. The registrar's office does not accept voice mail or Email messages to register or change registration.

Students are required to pay any additional tuition charges, and schedule changes are subject to a processing fee. Schedule changes resulting in a reduction of units will be credited according to the refund schedule described in the following sections.

If the student is on academic probation, an approved Probation Form must accompany the Add/Drop Form with each change of registration. Phone permission is not acceptable for students on Academic Probation.

Dropping Courses

Students must drop courses using the web during the registration period or by speaking directly to a registration assistant during business hours. Web registration closes beginning the first day of each term, and ALL drops must be done then by speaking directly with a registration assistant during business hours. Notifying an instructor or other office of intent to drop does not constitute an official drop. Dropping a course does not relieve the deferred payment obligation. Refund checks and credits to credit card accounts are processed by the accounting office after the fourth week of the academic session. Fees are not refundable beginning with the first day of the term.

After the third week and up to the last day of instruction of the course, students may officially withdraw by notifying the registrar's office. Notifying an instructor or other office of intent to withdraw does not constitute an official withdrawal. Withdrawing from a course does not relieve the deferred payment obligation. Students who withdraw are still responsible for the full amount of tuition for the course. A W (withdrawal) is posted on the transcript for withdrawn courses.

Students who fail to complete a course or to officially drop or withdraw will receive a failing grade or UW (Unauthorized Withdrawal). The UW has the academic weight of F in a letter-graded course or NC in a Credit/No Credit course.

Law students who do not complete a course and fail to drop or withdraw will receive a failing grade or a grade of FW (Failure to Withdraw) which has the academic weight of 50 in a numerically graded course and NC in a Credit/No Credit course.

Students on financial aid and withdrawing from all courses should contact the financial aid office. Refunds are calculated following federal regulations and supersede University policy.

Refunds of Tuition

The number of scheduled course meetings that have already been held at the time of the change in registration is the determining factor in granting refunds for dropped courses and in assessing processing fees. Non-attendance at course meetings has no bearing on eligibility for a refund.

Field placements, online courses, and other courses without a specified meeting pattern use the week of the term to determine approvals and refunds. Drops receive 100% refund less the processing fee through Friday of Week 2 and 80% refund less the fee through Friday of week 3. After Friday of Week 3, courses may be withdrawn with no refund.
### Approvals and Refunds for Registration and Schedule Changes

</table>
Non-Registered Students

Persons whose names do not appear on the class list or roster are not registered for the course. Fundamentally, a person who is not registered has no relationship with the University and is not entitled to any services including instruction, testing, evaluation, disability services, or submission of a grade.

Persons registered in a course who have not arranged for payment of tuition and fees or are deviating from the curriculum without approval will be administratively withdrawn. The college dean and the instructor(s) will be notified of the withdrawal. After payment is received, students may be reinstated in the course.

Persons who are sitting in class and are not on the class list or roster will be asked to leave the course until they are registered. Return to the class is only allowed when a copy of the Student Data Sheet showing enrollment in the course with stamped proof of payment is provided to the instructor.

Graduate Work by Undergraduates

Undergraduates who are adequately prepared to undertake advanced work may enroll in master-level courses. Written permission must be obtained from the student’s undergraduate advisor and the dean or program chair of the graduate college prior to registration. In some circumstances, written approval must also be obtained from a graduate advisor. If approval is granted, the graduate units apply only to the bachelor’s degree, unless the student has been admitted to a linked-degree program.

Maximum Unit Load

Both undergraduate and graduate students who wish to register for more than 12 units per quarter must obtain written approval from the college dean.

Independent Study

Independent study offers students opportunity for individual or tutorial instruction in areas not covered by regularly offered courses. Such study is initiated and planned by the student but it must be directed by a JFK University faculty member.

A student who wishes to undertake independent study must obtain the permission of the college dean or program chair. The student is expected to demonstrate to the dean’s satisfaction that: (1) the planned course of study cannot be completed through a regularly offered course; (2) the proposed study is demonstrably upper-division or graduate-level academic work; (3) the student workload standard of 30 hours per unit of credit will be met; and (4) the content, objectives, and timetable of the study have been carefully planned.

When independent study is approved, the dean or program chair assists the student in selecting a faculty member to supervise the project. The student and faculty supervisor prepare a Contract for Independent Study detailing the objectives of the course, the materials and projects to be completed, arrangements for meetings between student and supervisor, units of credit to be given, number of student-applied hours required, number and dates of examinations and written assignments, and criteria for evaluation. The contract also establishes a date by which the student must complete all specified work.

When the Contract for Independent Study has been completed and signed by both dean or program chair and faculty supervisor, the student submits it to the registrar’s office and pays the tuition and the appropriate non-refundable fees. The deadline for registration is Friday of the sixth week of the quarter.

No work should begin on an independent study project until all approval and registration procedures have been completed. Forms and instructions may be obtained from the registrar’s office.

The dean has immediate responsibility and the Academic Vice President the ultimate responsibility for the quality of independent study. Independent studies are reviewed periodically by the Academic Vice President to ensure that completed work meets University standards of academic excellence.

Credit by Assessment

Master’s-degree students may use Credit by Assessment (CBA) to fulfill only undergraduate prerequisite requirements. Undergraduate students may petition for credit for prior learning through CBA. Students interested in CBA should contact their department or program chair.

CBA cannot be used to obtain credit for coursework already completed. Some degree requirements may not be eligible for satisfaction through CBA. Check with the department or program.

A maximum of 30 quarter units may be earned through Credit by Assessment. The assessor determines the units awarded and the academic level of those unit (lower or upper division). The program advisor determines how those earned units are applied to the student’s program.

Payment of the assessment fee does not guarantee the outcome of the assessment or ensure that academic credit will be awarded. Units awarded through CBA will be graded on a Credit/No Credit basis. All units earned through CBA will be designated as such on the transcript. Units earned through CBA do not fulfill residency requirements.

Master’s Thesis

When a thesis, research report, or comparable project is required to fulfill degree requirements, the student must arrange an initial conference with the thesis coordinator of the degree program at least one year before expected graduation.

In consultation with the thesis coordinator, the student prepares a formal application and receives thesis instructions specific to the college or degree program. Approval for permission to enroll in thesis research must be obtained from the thesis coordinator prior to registration.

Before beginning a project, the student’s writing abilities and preparation for writing a research paper are assessed. A basic composition course may be required prior to the research course and theses work if, in the judgment of the thesis coordinator, the student needs to strengthen basic writing skills. Specific programs with theses or final project components may require enrollment in a course that instructs the student in writing and research methods.

The thesis coordinator, in consultation with the student, appoints at least one other member of the University faculty to serve with the coordinator as the thesis committee. One member of the committee serves as faculty advisor. The student prepares a thesis proposal that must be approved by the thesis coordinator and the faculty advisor at least two quarters before expected graduation. Approval must also be obtained from the faculty committee established to protect individual and University rights against legal and ethical infringements.
The student meets regularly with the faculty advisor for oral and written critiques of work in progress. The student will be asked to work with a writing instructor if the thesis draft is seriously deficient. Students needing writing assistance may want to contact the JFK University Academic Support Center.

When the rough draft has been approved by all members of the thesis committee, the student prepares the final draft. Instructions on format should be obtained from the thesis coordinator. The thesis coordinator retains copies of all drafts of the proposal as well as copies of critiques written by members of the thesis committee.

The thesis coordinator has immediate responsibility and the Academic Vice President ultimate responsibility for guaranteeing that the instruction and student work meet the university's academic quality standards.

Students who plan to do thesis work in any of the colleges must enroll in all required units of thesis or project research. Students who need further help after completing these courses must enroll for additional units as required by the individual program. Additional units, however, do not count toward fulfillment of unit requirements for the degree.

**Concurrent Enrollment at Other Institutions**

Students may receive transfer credit for coursework being taken at another institution concurrent with enrollment at JFK University. Prior to registration at the other institution, students should contact the registrar's office to verify transferability of the course, to ensure that coursework will be applicable to degree requirements, and that University residency requirements will be met. Students receiving financial aid should also contact the financial aid office. International students must have the written approval of the international student advisor.

**Cross-Registration**

Some courses not offered at JFK University may be taken through cross-registration at the University of California, Berkeley; California State University, East Bay; Laney Community College; and Contra Costa College. Instructions and forms are available in the registrar’s office. Students enrolled in a course through cross-registration pay JFK University tuition and fees. Approval is granted only to students needing these courses for their JFK University residency.

**Grading System**

The University's grading system that appears below governs grading symbols and computations for all undergraduate and graduate students of the University. All grades carry quality points and are computed in student GPAs. Students enrolled in the College of Law follow the grading system as it appears in the College of Law catalog.

The following marks may be assigned to undergraduate, master’s, and doctoral courses and have the same meaning regardless of the level. By definition, marks differ from grades in that they do not carry quality points or count in the GPA (except for the UW—see note following).

1 A Credit (CR) is the equivalent of a C or above for undergraduate students and the equivalent of a B or above for master’s- and doctoral-level students.

2 In CR/NC courses, the UW is equivalent to NC. In letter-graded courses, the UW is equivalent to F. Refer to the following section for additional information.

</table>

1 Grades of B-, C+, and C are acceptable in a master’s degree program. A master’s-level student must achieve a cumulative GPA of 3.0 to earn a degree. A cumulative GPA below 3.0 will place a student on academic probation.

2 A grade of B- is acceptable in a doctoral program. A doctoral student must achieve a GPA of 3.0 to earn a degree. A cumulative GPA below 3.0 will place a student on academic probation.

3 Grades of C- and D are not acceptable in an undergraduate major, but can be applied toward a baccalaureate degree. An undergraduate student must achieve a cumulative grade-point average (GPA) of 2.0 to earn a degree. A cumulative GPA below 2.0 will place a student on academic probation.
Grade-Point Average

The grade-point average (GPA) is determined by dividing the total number of grade points earned by the total number of units completed in letter-graded (quality) courses. See the section on Repeating Courses in the following pages for information about how repeated courses alter the grade-point average calculation. In letter-graded or numerically graded courses, units with grades of W, I, NR, and IP are not computed in the GPA.

In CR/NC-graded courses, the UW is equivalent to NC; it will appear on the transcript, but will not compute in the GPA. In letter-graded courses, the IUW is equivalent to an F; it will compute in the GPA as a failed course (0 points).

In numerically graded courses, FW (Failure to Withdraw) has a numerical weight of 50.

Credit/No Credit Grading

Courses designated for Credit/No Credit (CR/NC) grading are indicated as CA, CN, or CP in the Grading Criteria (GR) column of published course listings.

A grade of Credit (CR) is equivalent to acceptable undergraduate or graduate performance (the equivalent of a C or higher for undergraduate students, a B or higher for graduate-level students, and a 70.0 or higher for law students). A No-Credit (NC) grade indicates that the course was not mastered. CR and NC grades are not included in computing the grade-point average. CR grades are, however, recorded as units completed and included as units satisfying degree requirements.

Graduate students may request CR/NC grading as an alternative to letter grading only in courses designated as fulfilling competency requirements or in undergraduate courses prerequisite to a graduate degree or certificate program. Undergraduate students may request CR/NC grading only in elective courses outside the undergraduate major. A student on academic probation may enroll in CR/NC graded courses only with the approval of the college dean or program director.

Requests for CR/NC grading must be submitted to the registrar’s office before one-third of the scheduled course hours have met. Students should be aware that many employers require letter grades in all courses for tuition reimbursement. See the section on Registration for additional information.

Letter Grading in CR/NC-Graded Courses

Some courses, including courses in the major, are designated for CR/NC grading by the college dean. In such courses, a letter grade normally is not an option. A letter grade is granted in a CR/NC graded course only if the student has written approval of the instructor and the dean of the college offering the course and has submitted the approval form to the registrar before more than one-third of the scheduled course hours have met.

Incomplete

Students are expected to complete all coursework as outlined in the class syllabus—usually by the last meeting date of the course. The mark of I (Incomplete) may be granted when the student has maintained satisfactory attendance and work throughout most of the course (including independent study), but not completed all of the coursework as planned and when there is, in the judgment of the instructor, a reasonable probability that the student can complete the course successfully.

The student must have good reason for requesting an incomplete and must submit a request to the instructor before the date grades for the course are due to be recorded. Ordinarily, good reason will involve matters not wholly within the control of the student such as illness. The mark may not be used to allow a student to improve a grade by performing additional work or by repetition of work already submitted to the instructor.

The mark of I is not appropriate when, in the instructor’s judgment, it will be necessary for the student to regularly attend subsequent sessions of the class. When regular attendance is necessary, the student must register for the class for the term in which attendance is required. In the event of a second registration for the course, the mark of I for the original election will convert to F or NC (which will later be computed as repeated coursework) and the student will be assessed tuition and applicable fees for the second registration.

Instructors may set an appropriate due date at their own discretion, no more than two quarters after the term of the original course election (one session for law courses). The responsibility for completing all coursework rests entirely with the student. The mark of I will be changed to a grade when the student completes the coursework as arranged with the instructor or, if the instructor has left the University, with the chairperson of the department.

If the Incomplete is not made up in accordance with the above policy, the instructor will assign the final grade or the Incomplete grade will be converted to a failing grade: F in a letter-graded course, 50 in a numerically graded course, or No Credit (NC) in a Credit/No Credit course. Failing grades may affect a student’s grade-point average.

A student will not be allowed to graduate with an Incomplete on the transcript.

Grade Reports

For non-law students, final grades are available through the University’s web portal (http://express.jfku.edu) on the Monday following the end of the grade posting period. Printed grade reports are mailed as soon as possible thereafter. Students who want to know a specific grade prior to receiving the official grade report should leave a self-addressed, stamped postcard with the instructor. No grades will be given by telephone, e-mail, or fax.

Grade Changes

Grades, once entered upon a student’s transcript, are final. No grade other than an Incomplete may be changed to reflect submission of additional work by a student. No grade may be changed as a result of an instructor’s re-evaluation of a student’s work.

If a clerical error has been made that can be documented, a petition for grade change with full supporting documentation (including computations) and the dean’s signature must be submitted to the registrar’s office. The registrar’s office will submit the petition to the Academic Vice President for review and a decision.

A petition form is originated by the student and must be received by the registrar’s office (with full supporting documentation) no later than the end of the quarter/session following the term in which the grade was assigned.

Prerequisite Courses for Master’s Programs

To ensure that students have sufficient background for graduate work, master’s degree programs may require undergraduate prerequisite courses. Students who have not completed the courses
prior to admission are required to do so during the first year of graduate study. Certain programs in the College of Graduate and Professional Studies recommends that its students complete prerequisite courses in the quarter prior to beginning the graduate program; however, students may integrate any required undergraduate courses into the first year of graduate work.

Prerequisite courses may be taken for Credit/No Credit grading as an alternative to letter grading. If a prerequisite course is taken for a letter grade, a grade of C or higher must be earned. Letter grades for prerequisite courses completed at John F. Kennedy University are included in the cumulative grade-point average for the graduate program. Students should be aware that many employers require letter grades in all courses for tuition reimbursement.

Undergraduate prerequisite courses may be satisfied through acceptable coursework at an institution whose accreditation is recognized by the Council for Higher Education Accreditation (CHEA), through CLEP or DSST exam, or through Credit by Assessment. Additional information is available from the registrar’s office.

Prerequisite Courses for Doctoral Programs
To ensure that students have sufficient background for doctoral-level work, the program requires undergraduate prerequisite courses. These courses must be successfully completed prior to enrollment in the doctoral program. Prerequisite courses may be taken for Credit/No Credit grading as an alternative to letter grading. If a letter-graded prerequisite course is completed after the bachelor’s degree has been awarded, a grade of B- or higher must be earned.

Program Transfer
Some students decide after matriculation that they are better suited for another program at the University. In such cases, students may apply to transfer provided they have the new program complete a Program Transfer Application, which reflects the application requirements the transferring student must meet in order to be admitted into the new program. Please visit the registrar’s office for more information.

Repeating Courses
Undergraduate students may repeat a course in which they earned a C- and below. Graduate students may repeat a course in which they earned a B- and below. Law students in good academic standing may repeat a course in which they earned less than a 70 or in which they did not receive a Credit grade. Law students not in good academic standing may repeat a course in which they earned a grade or score less than that required for satisfactory academic progress only upon approval of the College of Law. Non-law students on probation must have the dean’s approval to repeat a course. Both the original and repeat enrollments will be noted on the student’s transcript; however, only the units and grade points earned for the higher passing grade are computed in the grade-point average. When both grades are equal or there is no basis to determine which is higher (as in the case, for example, of a NC and an F or a CR and an A), the last occurrence will apply to the grade-point calculation.

Undergraduate Transfer Credit
Effective fall 2006, transfer credit recorded has the computational effect of CR on the student’s record. See additional transfer credit information in the Admissions section in the front of this catalog.

Scholastic Performance

Good Scholastic Standing
Students must maintain a satisfactory minimum cumulative grade-point average to be considered in good standing. The minimum for an undergraduate student is 2.0 (C), for a graduate student, 3.0 (B). The minimum cumulative GPA for a law student is 70.0.

Linked students must maintain a minimum 3.0 GPA in graduate courses and a 2.0 in undergraduate courses to be in good standing.

Dean’s List of Honor Students
Effective fall 2010, an undergraduate student who meets the following criteria during any one quarter will be placed on the Dean’s List of Honor:

- achievement of a minimum 3.5 GPA,
- completion of six or more units of letter-graded coursework,
- no grade lower than C, and
- no marks of I, UW, or NC.

Placement on the Dean’s List will be noted on the student’s transcript.

Dean’s List for College of Law
The Dean’s List honors the top 10 percent of law students in each of the four classes (first-year, second-year, third-year, and fourth-year) based on students’ GPAs for that year (not on students’ cumulative GPAs). First- through third-year students must have earned at least 12 numerically graded units in residence during the academic year to be eligible for the Dean’s List. Fourth-year students are eligible with at least seven numerically graded units completed in residence.

Students earning Dean’s List honors will have their names posted at the College of Law, will have their honors listed on their transcripts, and will receive letters acknowledging the honors with spring semester grade reports showing the transcript notations.

Class Ranks for the College of Law
At the end of each academic year, class ranks will be posted for each of the four classes (first-year, second-year, third-year, and fourth-year) based on cumulative GPA. The class rank list will be published in the College of Law.

Unsatisfactory Academic Performance
When an instructor notifies the registrar at midterm of a potential unsatisfactory grade, the registrar will send a courtesy notice to the student and the college dean. Students so notified should schedule an academic counseling meeting with the dean or instructor.

A student showing a non-completion pattern of W, UW, I, or NC marks in two or more consecutive quarters will be referred to the dean, who may refer the student to the Academic Standards Committee for review and advisement.

Probation, Dismissal, and Reinstatement

The following academic policies and procedures apply to all students except those in the College of Law, for whom a separate set of academic policies and procedures apply.
**Academic Probation**

A student is automatically placed on academic probation upon failure to achieve and maintain a satisfactory grade-point average. The student will be so notified by the registrar. Satisfactory grade-point average is defined as a 3.0 (B) average for a graduate student and as a 2.0 (C) average for an undergraduate student. A linked student is placed on probation for failure to achieve and maintain a 3.0 GPA in all graduate courses and a 2.0 GPA in all undergraduate courses completed during the period of linking. A student on academic probation must have the dean's written approval for a course of study each quarter the student is on probation. No student on academic probation may enroll in any course on a CR/NC basis without written approval of the dean of the college. Probationary status is removed when a probationary student achieves a satisfactory cumulative grade-point average.

**Dismissal**

A student shall be subject to dismissal from the University if any of the following conditions exist:

1. A student has been on academic probation for three consecutive academic quarters in which the student has been enrolled,
2. A graduate student has received a grade of D or F in any graduate course,
3. An undergraduate student has received a grade-point average of 1.0 (D) or below in any single academic quarter,
4. A student violates ethical or other standards associated with the profession for which s/he is in training,
5. A student has committed plagiarism (see the Student Discipline section for more information), or
6. A student has engaged in conduct incompatible with the normal operation of the University (see the Student Discipline section for more information).

**School Academic Standards Committees**

The dean of each college shall appoint an academic standards committee (ASC) during each academic year. Each committee shall consist of at least three members, at least two of whom are members of the college’s faculty. The dean shall not be a member of the committee.

The ASC has responsibility for review and approval of all modifications to the college’s curriculum before being forwarded to the University for additional approval and implementation. Additionally, the ASC is the primary faculty body within each college that serves to review and consider academic issues and student academic performance issues.

**Academic Standards Committee Review**

The case of each student subject to dismissal, as set forth above, shall be reviewed by the academic standards committee of the college in which the student is enrolled. The committee may approve probation or continued probation subject to conditions and for a length of time that the committee specifies, or the committee may schedule a hearing at which the student’s dismissal from the University will be considered. A student who is subject to a decision reached by the committee without a hearing may request a hearing if the student does not agree with the decision of the committee. It is the responsibility of each student to ensure that the University and the student’s school are informed of a current mailing address for receipt of official notices.

**Dismissal Hearing Process**

A hearing will be conducted in those instances when the academic standards committee recommends dismissal. This hearing shall be conducted before a body composed of the academic standards committee, all of whom shall have full voting rights. The student has the right to be accompanied by an advocate of his or her choice. The dean may replace a member of the committee if there is potential for conflict of interest. Each student scheduled for a hearing shall have the right to be notified of the hearing, to personally appear before the committee, to make a statement, and to present facts relevant to the determination to be made by the committee. At the conclusion of the hearing or within five days thereafter the committee shall notify the student of its decision which will be determined by majority vote.

With regard to the academic deficiencies set forth in items 1–4 above, after the hearing, the committee may refer the matter back to the dean, it may place or continue the student on probation subject to conditions and for a length of time that it shall specify, or it may order the student’s dismissal from the University. In reaching this determination, the committee shall consider academic performance, potential for academic success, and the extent to which extenuating circumstances interfered with academic performance.

**Appeal**

A decision of the committee may be appealed by filing a written petition with the dean of the college within 10 days after the student is notified of the decision. In the petition, the student should state in full the facts and arguments in favor of the appeal. The dean will issue a written decision in the matter. The standard of review on appeal is whether, based on the facts presented to the committee at the time of the hearing, the decision was reasonable. In cases arising under items 1–4 above, the student may appeal the decision of the dean by filing a notice with the Academic Vice President within 10 days after the student is notified of the dean’s decision. The Vice President will review the college’s academic standards committee’s decision, the petition to the dean, and the dean’s decision. Great deference will be given to the dean, and the decision will be modified only if it is found to be an abuse of discretion. The decision of the Academic Vice President is final.

**Reinstatement**

A student dismissed for reasons set forth in items 1–4 above may petition for reinstatement to the same degree program after one year. If dismissed, the student may apply for admission at any time to another degree program. The petition shall state in full the facts and arguments in favor of the appeal. The dean will issue a written decision in the matter. The standard of review on appeal is whether, based on the facts presented to the committee at the time of the hearing, the decision was reasonable. In cases arising under items 1–4 above, the student may appeal the decision of the dean by filing a notice with the Academic Vice President within 10 days after the student is notified of the dean’s decision. The Vice President will review the college’s academic standards committee’s decision, the petition to the dean, and the dean’s decision. Great deference will be given to the dean, and the decision will be modified only if it is found to be an abuse of discretion. The decision of the Academic Vice President is final.

**Leave of Absence**

Matriculated students are expected to maintain regular (continuous) enrollment in their program. Students who find it necessary not to enroll for one or more terms must complete a Petition for Leave of Absence. This form is available in the registrar’s office and on the University’s website. Leaves of absence may be granted for up to four terms, whether consecutive or non-consecutive, including any term in which a student enrolled in but withdrew from all courses.
Students are responsible for obtaining approval of the leave of absence as well as withdrawing from courses if necessary. Withdrawal from courses must be done via an Add/Drop Form; course withdrawals are not done automatically upon approval of the leave request.

Non-attendance for one or more terms without an approved leave may impact the student’s matriculation or residency status at the University. Students who are absent without an approved leave or who are absent for a term beyond the approved leave will be required to apply for readmission before enrolling in further coursework. Such students are subject to those admissions requirements in place at the time of reapplication and are not automatically awarded credit for prior coursework upon readmission.

Students who receive financial aid are strongly advised to contact the financial aid office before requesting a leave of absence to discuss the impact of the leave on financial aid eligibility and loan repayment status. Generally, leaves of absence are treated as withdrawals for federal financial aid purposes and may cause federal loans to enter repayment status.

Students should also consult the Readmission section in the front of this catalog.

### Graduation Requirements

All degree and certificate candidates are required to file a Petition for Degree or Petition for Certificate and pay the required fee. Petitions must be filed by the date specified in the following pages. All financial obligations to the University must be paid in full. In addition, students must complete the requirements in the following table, the additional requirements following the table, and all programmatic requirements as indicated in the University’s catalog.

#### General Graduation Requirements by Program Level

<table>
<thead>
<tr>
<th>Award</th>
<th>Units</th>
<th>Residency</th>
<th>Scholarship</th>
</tr>
</thead>
<tbody>
<tr>
<td>Bachelor’s Degree</td>
<td>A minimum of 180 acceptable quarter units must be completed, of which at least 54 must be in upper-division courses.</td>
<td>At least 36 of the last 45 units must be completed in residence (i.e., once 135 units have been accumulated, only nine additional units may be transferred into a degree program). Units transferred from another institution or earned through CLEP, AP, DSST, or CBA do not fulfill residency requirements.</td>
<td>An overall grade-point average of at least 2.0 must be achieved in all coursework including transfer work prior to fall 2006.</td>
</tr>
<tr>
<td>Master’s Degree</td>
<td>Varies by program</td>
<td>The final course and the thesis, project, or master’s examination must be completed in residence. At least 70 percent of the work required for a master’s degree must be completed in residence at the University. Some programs may require a residency greater than 70 percent. Refer to the program-specific sections of the catalog for the number of units required in residence at the university. Transfer credit is not permitted into the Linked MA Sport Psychology/PsyD programs.</td>
<td>A minimum grade of C is required for each course applied to a master’s degree. An overall grade-point average of at least 3.0 must be achieved in all work for the declared master’s degree.</td>
</tr>
<tr>
<td>Doctor of Psychology (PsyD)</td>
<td>A minimum of 180 acceptable quarter units must be completed.</td>
<td>Once admitted to a doctoral program, all requirements must be completed in residence. Refer to the program-specific sections of the catalog for the number of prior units which might be considered for transfer. Transfer credit is not permitted into the Linked MA Sport Psychology/PsyD programs.</td>
<td>A minimum grade of B- is required for each course applied to the doctoral degree. An overall grade-point average of at least 3.0 must be achieved in all work for the declared doctoral degree.</td>
</tr>
</tbody>
</table>
General Graduation Requirements by Program Level

Bachelor’s Degrees
All candidates for a Bachelor of Arts or Bachelor of Science degree from John F. Kennedy University must complete the following requirements.

Major, Core, or Track
All the requirements of an undergraduate major, core, or track must be satisfactorily completed. A minimum grade of C is required in all letter-graded courses applied to the major, core, or track. The CR/NC grading option may not be exercised for letter-graded courses applied to the major, core, or track; however, courses offered only on a CR/NC grading basis may be included.

Competency Areas
All requirements for demonstration of competence in specified areas must be satisfactorily completed. Requirements are indicated in the Bachelor of Arts and the Bachelor of Science program descriptions in the College of Undergraduate Studies section of the catalog.

General-Education Breadth
This group of requirements applies to all baccalaureate students. All requirements for lower- and upper-division general-education breadth must be satisfactorily completed. Upper-division requirements are indicated in the BA and the BS program descriptions in the College of Undergraduate Studies section of the catalog.

Courses taken to fulfill the general-education breadth requirements cannot be used to satisfy a requirement of the major, core, or track. Consult the registrar’s office for appropriate use of any courses in lower- and upper-division general-education breadth areas.

Students must complete 45 units in lower-division general-education breadth. Some upper-division courses offered by the College of Undergraduate Studies may be applied to the lower-division general-education breadth requirements. The list of approved courses is available from the College of Undergraduate Studies and the registrar’s office.

Applicants to JFK University BA and BS degree programs will be considered to have fulfilled all lower-division general-education breadth requirements provided either of the following is true:

- Applicant has a BA or BS degree from a regionally accredited college or university (or the equivalent) or
- Applicant has a California AA or AS degree.

Applicants who have other degree titles—or who are applying to other degree titles—will not receive a blanket waiver for lower-division general-education breadth. These students are eligible to apply to JFK University baccalaureate programs, but their credits will be transferred on a course-by-course basis. After transfer credit is awarded, these applicants must satisfy all remaining general-education breadth requirements.

Lower-division requirements are outlined on the following page:

<table>
<thead>
<tr>
<th>Award</th>
<th>Units</th>
<th>Residency</th>
<th>Scholarship</th>
</tr>
</thead>
<tbody>
<tr>
<td>Juris Doctor (JD)</td>
<td>Successful completion of 84 units of study in accordance with the prescribed curriculum and in compliance with the residency requirement of the Committee of Bar Examiners of the State Bar of California including a minimum of 68 units of numerically graded coursework. Successful completion of all required courses.</td>
<td>Completion of the final two semesters of law study in residence at John F. Kennedy University College of Law.</td>
<td>Achievement of a cumulative grade-point average of 70.0 or higher in all numerically graded courses and fulfillment of all conditions imposed by the Academic Standards Committee.</td>
</tr>
<tr>
<td>Certificates</td>
<td>Varies by program</td>
<td>Students enrolled in a certificate program must complete all courses in residence.</td>
<td>An overall grade-point average of at least 2.0 must be achieved in all work completed for an under-graduate certificate. A minimum grade of C is required for each course applied to a graduate certificate. An overall grade-point average of at least 3.0 must be achieved in all work completed for a graduate-level certificate.</td>
</tr>
</tbody>
</table>
Composition: Nine units of composition. Up to three of those nine units may be satisfied with a critical thinking course.

Mathematics: Three units, one college-level mathematics course.

Natural Science: Nine units chosen from courses in the physical and life sciences.

Humanities: Twelve units chosen from courses in at least two of the following areas: the arts (theory, history, or literature pertaining to the arts), literature, philosophy, religion, humanities (interdisciplinary courses combining the previous four areas), and foreign languages.

Social Science: Twelve units chosen from courses in at least two of the following areas: cultural anthropology, cultural geography, economics, history, political science, psychology, social science, and sociology.

Individualized Programs

In addition to the academic majors outlined in the sections on specific degree programs, a student may be permitted to design an individual program of study. Such individually designed programs are intended for mature students with well-defined, unique educational goals. The program may be an individually planned specialization within a college of the University or a cross-disciplinary concentration integrating courses from more than one college. Individualized programs are considered exceptions to University policy, and are only granted when a compelling case is made to do so.

Any student who wishes to undertake an individualized program should prepare a written proposal that includes the following information:

- A rationale for the proposed program,
- An outline of the proposed program with a list of courses to be undertaken and a statement indicating how these courses form an organic program of study,
- A statement of how comprehensive knowledge of the subject area will be demonstrated (e.g., thesis, research project, master’s examination),
- The proposed degree title, and
- A list of two or more faculty who will be directly responsible for supervising the entire program.

The student must obtain approval of the proposal from the supervising faculty, the dean of the college(s) that will award the degree, the registrar, and the Academic Vice President.

The number of units for the individual program is negotiable, but should be similar to other programs within the college(s). The student undertaking an individualized program must satisfy all of the University requirements for a bachelor’s or a master’s degree.

Emphases within Programs

Graduate and undergraduate programs may offer emphases that encompass a number of related courses on a defined topic. Emphases, unlike specializations, are not recorded on the student’s transcript or noted on the diploma.

Other Information

Graduation and Commencement

A student is graduated on the next available date from when the registrar’s office is notified that all degree or certificate requirements have been completed. (Note that the petition itself is one of the graduation requirements.) Degrees, certificates and specializations are never backdated. A commencement ceremony is held each June to honor students who have completed degree, certificate, or credential program requirements during the academic year or who will be completing requirements during the summer.

Petition for Degree or Certificate

Degrees and certificates are not awarded automatically upon completion of scholastic requirements. To be considered as a candidate for a degree or certificate, students must submit a Petition for Degree or Petition for Certificate form to the registrar’s office accompanied by the appropriate non-refundable fee. Petitions must be on file before a degree or certificate will be awarded. Petition deadlines for all programs except Doctor of Psychology are January 15 for June and September graduation; July 15 for December graduation; October 15 for March graduation. The petition deadline for the PsyD program is February 15 of the year prior to beginning the internships.

Review of Student Records

Upon receipt of the petition, the registrar’s office will review the student’s records and notify the student and program of any remaining requirements to be completed for the degree or certificate.

Awarding of the Degree or Certificate

At the end of the quarter/cohoot/semester of anticipated completion, as stated on the petition, the student’s records will be reviewed to verify completion of all requirements. If all requirements have been completed, the awarding of the degree or certificate will be posted on the transcript and the student notified. Degrees or certificates will be dated as of the Monday after the last day of the quarter/cohoot/semester in which all requirements have been met. Students who have not fulfilled all requirements will be notified, and the file will not be reviewed again for degree or certificate completion until the registrar’s office is notified by the student that requirements have been fulfilled.

Diplomas or Certificates

Diplomas or certificates are printed and mailed after all requirements have been completed, the degree or certificate has been posted on the transcript, and all financial obligations to the University have been fulfilled. They are mailed to the address of record approximately three months after the degree or certificate has been awarded. Diplomas and certificates are printed using the student’s legal name on record. Students wishing a different name on their diploma or certificate must file an official name change with the registrar’s office prior to the issuance of the diploma or certificate.
Recognition of Academic Honors

Undergraduate Students

Students who demonstrate exceptionally high academic scores are eligible for graduation honors. Academic honors are posted to the diploma and final transcript when the student’s degree is conferred. Graduation honors are based upon all courses applied toward the bachelor’s degree and are determined according to the following table:

<table>
<thead>
<tr>
<th>Honor</th>
<th>Minimum GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>Summa Cum Laude</td>
<td>3.85+</td>
</tr>
<tr>
<td>Magna Cum Laude</td>
<td>3.75–3.849</td>
</tr>
<tr>
<td>Cum Laude</td>
<td>3.50–3.749</td>
</tr>
</tbody>
</table>

Students who are not eligible for graduation honors may be eligible for honors in the major instead. Only students whose cumulative GPA is below 3.50 are eligible for honors in the major. To receive honors in major, the student’s major GPA, which is computed as the grade-point average of courses in the major program, must be 3.60 or higher.

Graduate Students

Graduate students do not receive honors based on grade-point average; however, each college selects an outstanding student to honor at commencement (see below).

Graduation with Honors for the College of Law

Students who have completed their degree requirements, have completed at least 39 of the 56 required numerically graded units in residence at the College of Law, and who have taken no more than 17 terms (including summers) to complete their degree requirements are eligible for graduation with honors as follows:

<table>
<thead>
<tr>
<th>Honor</th>
<th>Minimum GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>Summa Cum Laude</td>
<td>88+</td>
</tr>
<tr>
<td>Magna Cum Laude</td>
<td>85–87.99</td>
</tr>
<tr>
<td>Cum Laude</td>
<td>83–84.99</td>
</tr>
</tbody>
</table>

Academic honors will be posted on the students’ transcripts and diplomas.

Commencement Ceremony

The ceremonial recognition of graduation is a very special occasion at the University. Graduating students and prospective graduates who meet the requirements listed in the policies below are encouraged to participate in this June event. Students who meet the following criteria are eligible to participate in the commencement ceremony:

- Prior fall and winter graduates,
- Students who are completing all requirements as of spring quarter or semester,
- Students who have six or fewer quarter or four semester units to complete in summer.

Students must also fulfill the master’s/doctoral examination or thesis/master’s/doctoral dissertation project requirements if relevant to their degree programs. Students in programs requiring a master’s examination must either have passed the exam or be scheduled to take it during summer quarter. Thesis and doctoral dissertation students must have the rough draft of the thesis or dissertation project approved by May 15.

Awards at the Commencement Ceremony

Outstanding Student Award

At the request of the president of the University, each school selects a student to honor at commencement who best exemplifies academic excellence, service to their college or the University, and service to the community. Due to the high regard in which they are held, these awards are the only awards presented to students at the commencement ceremony.

The Founding President Harry L. Morrison Distinguished Teaching Award

A citation and monetary gift is given to honor the memory of Dr. Morrison, founding president of the University. The award recognizes special dedication to the University and its students and is made to the faculty member who best exemplifies excellence in teaching and creativity in the classroom as well as in program and curriculum development and contribution to the enhancement and development of the faculty member’s field of study.

Transcripts

Students may obtain John F. Kennedy University official transcripts by providing a written request with original, inked signature that gives name, student ID number or social security number, current address, major, dates of enrollment, degrees/certificates awarded, name on transcript (if different from current name), address to which the transcripts are to be sent, and any special instructions (e.g., holding for current grades or degree posting). Transcript Request Forms are available in the registrar’s office in Pleasant Hill, Student Services Office in Campbell, and online. All transcript requests must be signed and accompanied by a current fee for each transcript. Rush transcripts will be sent within one working day following receipt of request for the current rush transcript fee. Rush processing cannot be guaranteed during registration periods.

A transcript is issued only if all financial obligations to the University have been paid in full. Unofficial transcripts will not be issued to students by the registrar’s office; however, students may print their own unofficial academic record from the web portal using the Express system. Transcripts are never faxed.

John F. Kennedy University is custodian of records only for American Academy of Family Studies and New College of Law transcripts. The University does not maintain any other New College academic records.

Transferability of JFK University Courses

Each institution has its own policies for transfer credit and students are advised to contact the receiving institution to determine transferability of JFK University coursework. JFK University courses taken credit/no credit may not be accepted by other institutions.

Unit Credit

Units described throughout this catalog, excluding law, are quarter units (credits). The University subscribes to the national standard for student workload, which is a minimum of 500 seat minutes per quarter unit of credit.

The College of Law is on the semester system. Semester units
requirements, and degree audits. Available to answer questions about transfer credit, residency scheduled with a faculty advisor by contacting the appropriate formal academic counseling. Counseling appointments may be scheduled with a faculty advisor by contacting the appropriate formal academic counseling. Counseling appointments may be made by appointment.

Students admitted to a degree or certificate program are entitled to academic counseling. Counseling appointments may be with a faculty advisor by contacting the appropriate formal academic counseling. The registrar’s office will assist faculty advisors and is available to answer questions about transfer credit, residency requirements, and degree audits.

**Academic Term**

The University's academic year, other than the College of Law, is divided into four 11-week quarters, which include ten weeks of instruction and one week of final examinations. For financial aid purposes, an academic year is defined as a minimum of three quarters of enrollment.

The Marriage and Family Therapy programs offered on the Berkeley campus, and at the Cabrillo College campus in Aptos, meet in five academic sessions each year. However, contact and content is structured so that each course awards credit fully equivalent to the University’s academic quarters.

Fall and spring semesters for the College of Law are 18 weeks in duration, which includes 15 weeks of instruction, a one-week reading period, and two weeks for final examinations. Summer Session is 11 weeks in duration, which includes a three-day reading period and four days for final examinations.

**Full-Time Unit Load**

For the purpose of financial aid and enrollment verification, full-time load is defined as 12 units per quarter for undergraduates or undergraduate certificate and credential programs, nine units per quarter for students in master’s degree, graduate certificate programs or the PsyD program, and six units per semester for law students.

**Attendance**

Students are expected to attend all class meetings of courses in which they are enrolled and comply with attendance requirements specified in the course syllabus. Excessive unexcused absences may affect the course grade.

**Non-Degree Student**

Courses may be open to non-degree students. However, the approval of the instructor or college dean may be necessary to register for courses including courses that are part of a certificate program. Refer to the Admission section in the front of this catalog for information regarding application as a non-degree student.

**The JFK University Vision of a Living Culture of Diversity**

In service to our mission of academic excellence, John F. Kennedy University strives to embody a Living Culture of Diversity. We recognize that a diverse college environment is one that supports the academic community in gaining the awareness, knowledge and skills to work effectively with all people. We understand that this goal is an ongoing process requiring an active commitment from all levels of our University. John F. Kennedy University is dedicated to developing a supportive, diversity-rich environment. Recognizing the impact of negative attitudes and systemic discrimination at all levels of individual and group interaction at our University, in our local communities, and in the wider social/global milieu, JFK University seeks to establish a Living Culture of Diversity, characterized by these five principles:

1. An ongoing practice of openness and respect for people with experiences, beliefs, and traditions different from our own;
2. An understanding that diverse cultural backgrounds, life experiences, challenges, and values of faculty, students, staff, and administrators create a dynamic learning community vital for academic excellence;
3. A recognition that, in alignment with our commitment to academic excellence, openness to difference exposes students and faculty to broader perspectives, fosters deeper critical analysis, and opens new vistas for scholarly inquiry;
4. A commitment to eradicating intolerance, oppression, prejudice, discrimination, and harassment in all interactions within the JFK University community in order to impact, through our example, the local, national, and global communities we inhabit. We appreciate the value of self-reflection in reaching these goals;
5. A commitment to supporting and providing accessibility of education and resources to equip the student body, faculty, and administration with the knowledge, skills, and attitudes required to “work together across our differences to forge the bonds of understanding essential for success in our interdependent global community.”

**Religious Pluralism**

JFK University is not affiliated with any denomination or religion. It is customary for the University to observe major national holidays. Personal observance of other religious and/or spiritual holidays is respected by the University. Every effort is made to avoid scheduling university activities which conflict with those religious days or events; however, some conflicts may arise. Students need to contact their departments or instructors if they will be absent due to a religious holiday.

**Student Services**

**Academic Counseling**

Students admitted to a degree or certificate program are entitled to formal academic counseling. Counseling appointments may be scheduled with a faculty advisor by contacting the appropriate college. The registrar’s office will assist faculty advisors and is available to answer questions about transfer credit, residency requirements, and degree audits.

**Academic Support Center**

The John F. Kennedy University academic support center’s mission is to foster academic achievement by providing the necessary support to ensure undergraduate- and graduate-level students’ success both at the University and in their subsequent professional careers. Through one-on-one instruction and quarterly workshops, the center offers students free assistance with study skills such as reading strategies, time-management tools, critical inquiry, and research methods as well as with every stage of the writing process.
process—brainstorming, planning, drafting, revising, and documenting research. Appointments tailored to students’ specific needs are available Monday through Friday—on-site, via email, by fax, or by phone (note: specific hours vary quarterly). Students can schedule to meet with staff at the Pleasant Hill, Campbell and Berkeley campuses. The center also offers a semianual academic skills review (in fall and spring quarters) and an intensive one-day interactive workshop designed specifically for incoming students. Unlike many other higher-education writing centers that are staffed by students, the center is staffed by trained writing instructors who have extensive classroom teaching experience and advanced degrees.

**Libraries**

The Robert M. Fisher Library is located in Pleasant Hill and has branches on the Berkeley and Campbell campuses. The Law Library is also located on the Pleasant Hill campus.

The collections of the University’s libraries number more than 100,000 volumes, 50,000 e-books, 70 online databases, 1,000 print and 35,000 electronic journals. The libraries collect materials in print, audio, video and electronic formats. Media viewing and listening stations are available at each campus.

Currently registered students have web access to the JFK University Libraries’ e-resources and may use their student ID card to borrow materials on site. Document delivery services are available for students and faculty members at a distance. Alumni have borrowing privileges and may access e-resources on site. Members of the public are welcome to access resources on site on a fee basis. Please see the Libraries website at library.jfku.edu for up-to-date information on services, open hours, circulation policies, etc.

Reference assistance and research instruction are available on site or via phone, email or online chat. In addition to formal library research course offerings, course-related workshops are provided at the request of faculty. Guides to research methods and a tutorial are also available on the library web site.

The libraries at JFK University are dedicated to supporting learning, scholarship, professional development and student success. Please visit the library website at library.jfku.edu and contact us if we can assist you in any way.

**Computer Labs**

JFK University provides computer labs on each campus to support the learning, scholarly and professional pursuits of its students and alumni.

Each lab provides Microsoft Office Suite, internet access, printing, and skilled software and hardware support during posted hours.

Please see the library web site for schedule and contact information.

**Alumni Association**

The alumni association is comprised of all John F. Kennedy University graduates. The association provides a lifelong link between alumni and the University. The association’s mission is to have as many alumni as possible serve as volunteers to foster the advancement of the University. The association’s work is overseen by a council made up of alumni representing each of the colleges.

**Career Center**

The JFK University career center is a resource for University students, staff, alumni, and the public. The center’s resource library contains information on careers, labor market trends, potential employers, job-search strategies, and career-specific Internet job resource lists. Use of the career resource center and use of a computer for conducting a job search on the Internet are free. The center also offers workshops and written materials geared toward meeting the career-related needs of JFK University students and alumni.

**Conflict Resolution**

It is the policy of the University to encourage students to resolve misunderstandings or disagreements directly with the faculty or staff members involved. If such discussions do not produce a satisfactory outcome for the student, a review process is available. Procedures for conflict resolution are available in the registrar’s office.

**Office of the Ombudsman**

The objective of the Office of the Ombudsman is to ensure that every member of the John F. Kennedy University community receives fair and equitable treatment in support of a positive work and learning environment. Students may wish to utilize the “Conflict Resolution Policy” before contacting the Ombudsman.

The office is a confidential service open to all students, employees and faculty members of the University. To utilize this service, call (925) 969-3330 and leave a message.

**Continuing Education**

John F. Kennedy University’s Continuing Education (CE) department provides professional development and workforce training programs of superior quality that connect the University with the diverse needs of alumni and surrounding communities.

CE provides courses for mental health professionals and registered nurses who must keep pace with the rapidly changing demands within the fields of psychology and health care. Whether the student is fulfilling pre-licensing or continuing education requirements, building new skill sets in an area of expertise, or looking to take on a new career opportunity, CE courses present a rare blend of practice and theory. CE also offers focused certificate programs which are designed to increase the student’s knowledge level in a particular subject matter.

All CE courses and programs are taught by University-level instructors who are leading-edge practitioners and scholars in their respective areas.

The CE department is approved to sponsor courses by the American Psychological Association, the California Board of Behavioral Sciences, the California Board of Registered Nursing, the National Board of Certified Counselors, the California Association of Alcoholism and Drug Abuse Counselors, and the State Bar of California.

Continuing education (CE) courses cannot be applied toward an academic degree or academic certificate program.
For more information, contact the Continuing Education office at:  
JFK University Continuing Education Department  
100 Ellinwood Way, Suite S205  
Pleasant Hill CA 94523  
(925) 969-3150  
(800) 557-1384  
fax: (925) 969-3155

**Campus Crime**

The University will provide upon request all campus crime statistics as reported to the U.S. Department of Education, http://www.ope.ed.gov/security. To request this information, contact the Office of Institutional Research at (925) 969-3403 or visit the website at http://www.jfku.edu/crimestats.

**Students with Disabilities**

The Office of Disability Services for students (ODS) supports students with disabilities through equal access, empowerment, advocacy, resources, collaboration, and outreach. In addition to providing services and accommodations that allow students with disabilities to fully participate in all of the programs offered on campus as mandated by state and federal laws, ODS works closely with faculty and staff to provide disability representation, information, diversity, and awareness throughout the University community.

Students with disabilities who may require accommodations or auxiliary aids should contact ODS early on to schedule an intake appointment. All accommodations, services, and use of auxiliary aids are determined on an individual basis and must be supported by sufficient documentation. Some examples of accommodations include note-taking assistance, testing accommodations (e.g., extended time, reduced distraction environment), assistive technology such as voice-recognition software, accessible media (e.g., books on tape or electronic text), and sign language interpreters.

For more information, contact ODS at (925) 969-3447 (voicemail) or (925) 969-3448 (TTY).

**Civil Rights Policies and Procedures**

**Complaints Relating to Discrimination or Sexual Harassment**

John F. Kennedy University is committed to maintaining a working and learning environment in which students, faculty, and staff can develop intellectually, professionally, personally, and socially. Such an atmosphere must be free of intimidation, fear, coercion, and reprisal. The University prohibits discrimination or harassment on the basis of race, ethnic or national origin, religion, age, sex, color, physical or mental disability, marital or veteran status under any program or activity offered under its control.

In keeping with this commitment, the University also maintains a strict policy that prohibits sexual harassment, which includes harassment based on gender, sexual orientation, pregnancy, childbirth, or related medical condition. This policy applies regardless of the gender or sexual orientation of the complainant or the alleged harasser.

It is University policy that all persons should enjoy freedom from unlawful discrimination of any kind, as well as from sexual harassment, or retaliation for reporting a complaint. This policy applies to prohibit unlawful discrimination or harassment between members of the University community, including between students and other students and between students and employees or third parties, if the University has notice regarding or control over the third party. Individuals who engage in prohibited conduct will be subject to disciplinary action.

**Grievance Procedures for Civil Rights Violations**

The University encourages prompt reporting of complaints so that a rapid response can be made and appropriate action taken. Note that reporting a complaint need not be limited to someone who was the target of the discrimination or harassment.

The following person is designated to coordinate the University’s responsibilities under the law and to insure compliance with the University’s policies against discrimination:

Chief Operating Officer  
John F. Kennedy  
100 Ellinwood Way  
Pleasant Hill, CA 94523  
Telephone: (925) 969-3304

A complaint may be filed with the Chief Operating Officer by any student who feels that they have been subjected to discrimination by a student or by the University through any of its employees, contractors, entities, policies, procedures, or programs. The University will endeavor to maintain confidentiality to the extent permitted by law. Where the complainant’s desire to maintain anonymity constrains the University from attempts at establishing facts and eliminating the potential discrimination, the University will attempt to find the right balance between the complainant’s desire for privacy and confidentiality and its responsibility to provide an environment free of discrimination.

The University has a duty to investigate even if the student declines to file a complaint or demand action. The University may require complete disclosure of all relevant facts in cases of egregious discrimination.

**Formal Procedures for Civil Rights Issues**

A. Filing a Written Complaint with the Chief Operating Officer or designee

1. The complainant must complete a complaint form. These forms are available in the Office of Chief Operating Officer or designee. To be processed, the complaint must be filed within 120 days of the alleged unlawful discrimination or harassment or within one-hundred twenty (120) days of the complainant’s learning of the discriminatory or harassing action.

2. The Chief Operating Officer or designee dates and logs all written complaints and sends the complainant an acknowledgement that the complaint is under review.

3. If the complaint does not meet the procedural requirements, the Chief Operating Officer or designee immediately notifies the complainant of the specific deficiencies of the complaint. If the complaint meets the procedural requirements, the Chief Operating Officer or designee forwards a copy of the complaint to the alleged offender or unit against which the complaint is made (“respondent”).
4. The Chief Operating Officer or designee will arrange appropriate interim measures when warranted to protect the parties.

5. The Chief Operating Officer investigates the complaint (or the designee, who has been trained in the investigation of such complaints), meeting separately with the student and with others who are either named in the complaint or who may have knowledge of the facts. Generally, the investigation is completed within thirty (30) days from the date the Chief Operating Officer or designee receives the complaint.

On completion of the investigation, the Chief Operating Officer or designee will prepare a report of the witness statements and the evidence and will provide a copy to each party.

B. A review panel is established as follows:

The complainant and respondent each nominate one student or employee who is unbiased, not involved in the complaint and willing and available to serve as a member of the panel. The nominated panel members select, by mutual agreement, another member who will serve as chair of the panel, who will conduct the hearing and rule on procedural matters. If they are unable to agree on a chair, the Chief Operating Officer or designee makes the selection.

C. Once the review panel is established:

The chair sets the time and place for the hearing at the earliest possible time consistent with the schedules of the parties and the panel. The date of the hearing may be postponed or extended by mutual agreement of the parties with the consent of the chair. The panel makes every reasonable effort to conduct its hearing within fourteen (14) days of the panel’s formation. The failure of any party to appear without justifiable cause will terminate that party’s right of appeal. The Chief Operating Officer or designee reviews pertinent evidence and coordinates the hearing process by informing the panel of its role, defining the issues and ensuring that the panel is provided with the complaint, response and other appropriate information. The Chief Operating Officer or designee serves as recorder of the proceedings and advisor to the panel, but does not vote.

The standard of review to be used in all proceedings is fundamental fairness. Strict rules of evidence and procedures are not required so long as the proceedings are conducted in a manner that allows both sides to fairly and fully explain the circumstances. Decisions regarding the admissibility of evidence and the weight to be given to pieces of evidence will be made by the chair. The burden of proof is upon the complainant to prove his or her case by a preponderance of the evidence, which means that the proof need only show that the facts are more likely to be so than not so. The review panel proceedings will be conducted in a closed hearing. The parties will have a reasonable opportunity for oral presentation and to present written evidence. The hearing is not a legal forum and to manifest their commitment to the goals of the University

Appellate Procedures for Civil Rights Issues

A party may file a written appeal within ten (10) days of receipt of the findings with the Academic Vice President. The written appeal must state the objections to the decision. Upon receipt of the appeal, the Academic Vice President will forward a copy to the other party(ies).

Appellate Procedures for Civil Rights Issues

Parties can forward commentary to the Academic Vice President within fourteen (14) days of receipt of the appeal.

Within twenty-one (21) days following receipt of an appeal, the Academic Vice President will render a final decision.

Changes to these procedures may be made as needed to resolve problems. Any request for changes should be directed to the Chief Operating Officer or designee. If the complaint is against the Chief Operating Officer or designee or other officer involved in these procedures, the Academic Vice President will designate a University employee to act in their place in these complaint procedures.

If the decision finds that the complainant falsely accused another of discrimination or harassment knowingly or in a malicious manner, the complainant will be subject to appropriate sanctions.

Retaliatory action of any kind by any member of the University community against anyone seeking redress under these procedures, cooperating in the investigation, or other participation in these procedures is prohibited and will be regarded as the basis for disciplinary action.

In cases of discrimination or sexual harassment, the complainant may, at any time during the informal or formal procedure at John F. Kennedy University, file a complaint with:

Office for Civil Rights
U.S. Department of Education
50 Beale Street, Suite 7200
San Francisco, California 94105

The University will complete its investigation and make findings on a complaint filed at the University, even if a complaint has also been filed with the Office for Civil Rights.

Student Discipline

Students are expected to conduct themselves in a responsible manner that reflects ethics, honor and good citizenship. They are also expected to abide by the regulations of the University. It is the students’ responsibility to maintain academic honesty and integrity and to manifest their commitment to the goals of the University
through their conduct and behavior. Any form of academic dishonesty, or inappropriate conduct by students or applicants, may result in penalties ranging from warning to dismissal, as deemed appropriate by the University. Students will be informed in writing of the nature of the charges against them. They will be given a fair opportunity to refute the charges and there will be provisions for appeal of a decision.

**Drug and Alcohol Policy**

The “Drug-Free Colleges and Communities Act Amendments of 1989” (Public Law 101–226) clearly stated the position which universities are expected to take with regard to drug and alcohol abuse. In support of the purpose of this legislation John F. Kennedy University wishes to make known its concern for the health and well-being of all members of the University community—students, staff, and faculty—as well as the health and well-being of the community as a whole.

John F. Kennedy University policy prohibits the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees on its property or as part of any of its activities. Such prohibition specifically includes, without limitation:

- Possession or use of any controlled substance, including heroin, barbiturates, cocaine, LSD, hallucinogens, and marijuana.
- The sale of any controlled substance which is in violation of local, state, or federal statutes.
- Giving alcohol to any person under the age of twenty-one (21) or the use of alcohol on campus, unless at a specifically authorized University activity.
- Any other conduct which involves a drug-related violation of local, state, or federal statutes is included in this prohibition.

Violations of this policy will result in disciplinary action or referral for prosecution according to local, state, and federal statutes, or both. Disciplinary actions for violations by students will be determined by a Hearing Committee according to the process outlined in “Hearing Procedures” below.

**Academic Dishonesty**

Academic dishonesty includes cheating, plagiarism, and any attempt to obtain credit for academic work through fraudulent, deceptive, or dishonest means. Below is a list of some forms academic dishonesty may take:

- Using or attempting to use unauthorized materials, information, or study aids in any academic exercise
- Submitting work previously submitted in another course without the consent of the instructor
- Sitting for an examination by surrogate or acting as a Surrogate
- Representing the words, ideas, or work of another as one’s own in any academic exercise
- Conducting any act that defrauds the academic process

Plagiarism is the presentation of someone else’s ideas or work as one’s own. As such, plagiarism constitutes fraud or theft. Plagiarism or academic dishonesty in any form is a grave offense and will not be tolerated.

If an instructor determines there is sufficient evidence of academic dishonesty on the part of a student, the instructor may exercise one or more of the following options:

- Require a timed writing sample to be written on the assigned topic to determine the veracity of the suspicion
- Require that the work be rewritten
- Issue a lowered or failing grade for the assignment
- Issue a lowered or failing grade for the course
- Request formal disciplinary action by the Judicial Affairs Officer

If a student’s assignment or course grade is lowered on the grounds of academic dishonesty, the instructor must inform the student that academic dishonesty figured into the calculation of the grade. The student may exercise his/her right to appeal the grade by requesting a disciplinary hearing, convened by the Judicial Affairs Officer. The student must submit a written appeal to the Judicial Affairs Officer within forty-five (45) days of the allegation.

It is the instructor’s responsibility to report any reasonable suspicion of academic dishonesty to the Judicial Affairs Officer so that such behavior may be monitored and repeat offenders identified. Notification may be made through one’s program director. Upon request for disciplinary action or upon repeated offenses, the Judicial Affairs Officer will initiate hearing proceedings that may result in disciplinary action such as probation, suspension, or expulsion.

**Avoiding Plagiarism**

Students must give credit for any information that is not either the result of original research or common knowledge. For example, it would be necessary to give credit to an author who provided an argument about the strategic importance of the Emancipation Proclamation in the American Civil War. Conversely, major historical facts, such as the dates of the American Civil War, are considered common knowledge and do not require that credit be given to a particular author.

If a student borrows ideas or information from another author, he/she must acknowledge the author in the body of the text and on the reference page. If a student borrows the words of another author, he/she must be careful to use the author’s exact words, enclose them in quotation marks, and cite the source in the body of the text and also on the reference page. If students are unsure whether or not they should cite, they are encouraged to cite. They are also encouraged to ask their instructors for guidance on this issue. Students might also consult writing handbooks and/or refer to their departments for specific citation style within that discipline.

**Civility in the Classroom: A Code of Classroom Etiquette**

Freedom of speech and expression is valued not only throughout society but also, and particularly, in the academic setting. No more is this so than in the classroom. As a diverse community of learners, students must strive to work together in a setting of civility, tolerance, and respect for each other in an environment that does not distract from the mutual commitment to academic inquiry and reflection. To that end, the following code of classroom etiquette has been established:

- When participating in class dialogue, no one monopolizes discussions to the exclusion of others, either in terms of time or opinions expressed.
- Conflicting opinions among members of a class are respected and responded to in a professional manner.
• No side conversations or other distracting behaviors are engaged in during class discussions or presentations.
• No offensive comments, language, or gestures are part of the classroom environment.
• Cell phones and other electronic devices (notebooks excepted) are placed in the “off” mode during class time.
• Children and pets (service dogs excepted) are not brought to class.

Adherence to this code of etiquette will enable students to receive the most from their academic endeavors and should be seen as a regular and voluntary compact among faculty and students. Any infraction of this code, however, is deemed to be materially or substantially disruptive of the learning environment is cause for removal of a student from a class or for student disciplinary proceedings.

Online Student Code of Conduct

Freedom of speech and expression is valued not only throughout the society but also, and particularly, in the academic setting. Equally valued is the respect given to University computer systems and information technology. To that end, students will adhere to the following online code of conduct:

• Access John F. Kennedy University courses only for lawful purposes;
• Respect the privacy of other members of the class and other students;
• Respect the integrity of the University’s computer systems;
• Respect the diversity of opinions among the instructor and members of the class and respond to them in a courteous manner;
• Maintain an environment free of harassment, stalking, threats, abuse, insults, or humiliation to the instructor and members of the class. This includes, but is not limited to demeaning written or oral comments of an ethnic, religious, sexist (or sexual orientation), or racist nature; and the unwanted sexual advances or intimidations by e-mail, or on discussion boards and other postings in course shells;
• Abide by all rules and regulations published by the University and agree to be subject to disciplinary actions as described in the General Catalog.

Student Code

Article I: Standards for Student Conduct

The University is committed to maintaining a safe and healthy living and learning environment for students, faculty, and staff. Each member of the campus community must choose behaviors that contribute toward this end. Student behavior that is not consistent with the Student Conduct Code is addressed through an educational process that is designed to promote safety and good citizenship and, when necessary, impose appropriate consequences.

Article II: Student Responsibilities

Students are expected to be good citizens and to engage in responsible behaviors that reflect well upon their university, to be civil to one another and to others in the campus community, and contribute positively to student and university life.

Unacceptable Student Behaviors

The following behavior is subject to disciplinary sanctions:

1. Dishonesty, including:
   a. Cheating, plagiarism, or other forms of academic dishonesty that are intended to gain unfair academic advantage.
   b. Furnishing false information to a University official, faculty member, or campus official.
   c. Forgery, alteration, or misuse of a University document, key, or identification instrument.
   d. Misrepresenting oneself to be an authorized agent of the University or one of its auxiliaries.

2. Unauthorized entry into, presence in, use of, or misuse of University property.

3. Willful, material and substantial disruption or obstruction of a University-related activity, or any on-campus activity.

4. Participating in an activity that substantially and materially disrupts the normal operations of the University, or infringes on the rights of members of the University community.

5. Willful, material and substantial obstruction of the free flow of pedestrian or other traffic, on or leading to campus property or an off-campus University related activity.

6. Disorderly, lewd, indecent, or obscene behavior at a University related activity, or directed toward a member of the University community.

7. Conduct that threatens or endangers the health or safety of any person within or related to the University including physical abuse, threats, intimidation, harassment, or sexual misconduct.

8. Hazing or conspiracy to haze. Hazing is defined as any method of initiation or pre-initiation into a student organization or student body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury to any former, current, or prospective student. In addition, any act likely to cause physical harm, personal degradation, or disgrace resulting in physical or mental harm. Neither the express or implied consent of a victim of hazing, nor the lack of active apathy or acquiescence in the presence of hazing is not a neutral act, and is also a violation of this section.

9. Use, possession, manufacture, or distribution of illegal drugs or drug-related paraphernalia, (except as expressly permitted by law and University regulations) or the misuse of legal pharmaceutical drugs.

10. Use, possession, manufacture, or distribution of alcoholic beverages (except as expressly permitted by law and University regulations), or public intoxication while on campus or at a University related activity.

11. Theft of property or services from the University community, or misappropriation of University resources.

12. Unauthorized destruction, or damage to University property or other property in the University community.

13. Possession or misuse of firearms or guns, replicas, ammunition, explosives, fireworks, knives, other weapons, or dangerous
chemicals (without the prior authorization of the campus president) on campus or at a University related activity.

14. Unauthorized recording, dissemination, or publication of academic presentations (including handwritten notes) for a commercial purpose.

15. Misuse of computer facilities or resources, including:
   a. Unauthorized entry into a file, for any purpose.
   b. Unauthorized transfer of a file.
   c. Use of another’s identification or password.
   d. Use of computing facilities, campus network, or other resources to interfere with the work of another member of the University Community.
   e. Use of computing facilities and resources to send obscene or intimidating and abusive messages.
   f. Use of computing facilities and resources to interfere with normal University operations.
   g. Use of computing facilities and resources in violation of copyright laws.

16. Violation of any published University policy rule, regulation or presidential order.

17. Failure to comply with directions of, or interference with, any University official or any public safety officer while acting in the performance of his/her duties.

18. Any act chargeable as a violation of a federal, state, or local law that poses a substantial threat to the safety or well-being of members of the University community, to property within the University community or poses a significant threat of disruption or interference with University operations.

19. Violation of the Student Conduct Procedures, including:
   a. Falsification, distortion, or misrepresentation of information related to a student discipline matter.
   b. Disruption or interference with the orderly progress of a student discipline proceeding.
   c. Initiation of a student discipline proceeding in bad faith.
   d. Attempting to discourage another from participating in the student discipline matter.
   e. Attempting to influence the impartiality of any participant in student discipline matter.
   f. Verbal or physical harassment or intimidation of any participant in a student discipline matter.
   g. Failure to comply with the sanction(s) imposed under a student discipline proceeding.

20. Encouraging, permitting, or assisting another to do any act that could subject him or her to discipline.

Article III: Application of this Code
Sanctions for the conduct listed above can be imposed on applicants, enrolled students, students between academic terms, graduates awaiting degrees, and students who withdraw from school while a disciplinary matter is pending. Conduct that threatens the safety or security of the campus community, or substantially disrupts the functions or operation of the University is within the jurisdiction of this Article regardless of whether it occurs on or off campus.

Article IV: Disposition of Fees; Campus Emergency; Interim Suspension
The President of the campus may place on probation, suspend, or expel a student for one or more of the causes enumerated above. No fees or tuition paid by or for such students for the semester, quarter, term or summer session in which he or she is suspended or expelled shall be refunded. If the student is readmitted before the close of the term in which he or she is suspended, no additional tuition or fees shall be required of the student on account of the suspension.

During periods of campus emergency, as determined by the President, the President may place into immediate effect any emergency regulations, procedures, and other measures deemed necessary or appropriate to meet the emergency safeguard persons and property, and maintain educational activities.

The President or designee may immediately impose an interim suspension in all cases in which there is reasonable cause to believe that such an immediate suspension is required in order to protect lives or property and to insure the maintenance of order. A student so placed on interim suspension shall be given prompt notice of charges and the opportunity for a hearing within 10 days of the imposition of interim suspension. During the period of interim suspension, the student shall not, without prior written permission of the President or designated representative, enter any campus of John F. Kennedy University other than to attend the hearing.

Violation of any condition of interim suspension shall be grounds for expulsion.

Article V: Sanctions
1. The following sanctions may be imposed upon any student found to have violated the Student Code:
   a. Probation: A period of time during which the privilege of continuing in student status is conditional. The conditions may include, but are not limited to, loss of specified privileges which a current student would otherwise be entitled to and an acknowledgement by the student that any additional violations of the Student Code will result in a more serious sanction.
   b. Suspension: Separation of the student from student status from the University for a definite period of time, after which the student is eligible to return. Conditions for readmission may be specified.
   c. Expulsion: Permanent separation of the student from student status from the University.

2. Multiple Sanctions. More that one of the sanctions listed above may be imposed for any single violation.

3. Denial of Access. After a hearing, any suspension or expulsion based on conduct which disrupted the orderly operation of a campus or other facility and which also violates a provision of a California statute may include denial of access to the campus or facility as a condition of such suspension or expulsion for the
period of the suspension or in the case of expulsion for a period not to exceed one year. A student who willfully and knowingly enters the campus or facility during the period for which access has been denied is guilty of a misdemeanor pursuant to Penal Code Section 626.2. In the case of a suspension, such entry may be grounds for further disciplinary action.

4. Denial of Admission or Readmission. Admission or readmission may be qualified or denied to any student found to have violated the Student Code.

5. Record of Discipline. Probation and suspension shall be made part of the student’s academic record during the term of the probation or suspension. Expulsion shall be made part of the student’s permanent academic record.

**Article VI: Interim Suspension**

1. Grounds. The President may immediately impose an interim suspension where there is reasonable cause to believe that it is required to protect personal safety or property and to ensure the maintenance of order.

2. Notification. A student placed on interim suspension shall be given prompt notice of the charges and the opportunity for a hearing within ten (10) working days of the imposition of the suspension. The hearing shall be held pursuant to the provisions of Article VIII of these procedures.

3. Denial of Presence on Campus. During the period of the interim suspension, the student shall not, without prior written permission of the President, enter any campus of John F. Kennedy University.

**Article VII: Conduct By Applicants for Admission**

Admission or readmission may be qualified or denied to any person who, while not enrolled as a student, commits acts which, were he or she enrolled as a student, would be the basis for disciplinary proceedings pursuant to Article IV or Article V of these procedures. Qualified admission or denial of admission in such case shall be determined by a hearing held pursuant to Article VIII of these procedures.

**Article VIII: Proceedings**

1. Investigation
   a. A complaint alleging that a student has violated the Student Code shall be directed to the Judicial Affairs Officer. Any complaint should be submitted as soon as possible after the event takes place.
   b. A complaint is not necessary for the Judicial Affairs Officer to determine that charges should be initiated.
   c. The Judicial Affairs Officer shall investigate each complaint filed and determine whether or not charges should be brought.

2. Conference

   Except when the student refuses to cooperate, the Judicial Affairs Officer shall hold a conference with the student to obtain his or her response to the alleged misconduct and to determine whether the allegations of misconduct have merit, and if they may be disposed of informally by mutual consent of the student charged and the Judicial Affairs Officer. The student may have another person present to observe and consult with. In addition to the sanctions listed in Article V, an agreement reached during this conference may include voluntary actions by the student charged including but not limited to work assignments, service to a campus department, obtaining psychological counseling or compensations for loss, damage or injury.

3. Notice of Hearing
   a. If the allegations of misconduct have not been resolved by conference as provided in Section 2 of this Article and the Judicial Affairs Officer determines that formal disciplinary action should be taken, the Judicial Affairs Officer shall initiate the disciplinary action process by a written Notice of Hearing served in person or served by certified mail return receipt requested to the student charged at the last known address on campus records.
   b. The Notice of Hearing shall include the following:
      i. A statement of the specific subdivisions of the Student Code which the student is being charged with violating.
      ii. A factual description of the conduct upon which the charges are based.
      iii. A recommended sanction and notification that the hearing officer is not bound by the recommended sanction and may impose a more severe sanction than recommended by the University.
      iv. The date, time and place of the hearing.
      v. The office at the campus where additional information regarding the evidence may be obtained.
      vi. Notification that the student may be accompanied at the hearing by an advisor of his or her choice, who may act on his or her behalf. Such notification must state whether the advisor may be an attorney. If the student’s advisor may be an attorney, notification that the student must inform the Judicial Affairs Officer of the name and address of the student’s attorney at least five (5) days prior to the hearing.
      vii. Notification that the student charged may elect to waive his or her right to a hearing by accepting the recommended sanction.
      viii. Such information as notice of an immediate suspension and/or withdrawal of consent to remain on campus where such action is appropriate.
      ix. A copy of these procedures or notification of where the student may obtain a copy without charge. If consent to remain on campus has been withdrawn from the student at the time of the Notice of Hearing is sent, a copy of these procedures shall be enclosed with the notice.
   c. The Notice of Hearing shall be served on the student at least ten (10) working days prior to the hearing. If all parties agree, the ten day period may be waived.
   d. The charges stated in the Notice of Hearing may be amended at any time. If the amendment would require the student to prepare a defense which is different from that required by the prior Notice of Hearing, any hearing which has been scheduled shall upon request be postponed for a reasonable time. If the charges are amended after a hearing has commenced, the Hearing Officer may postpone the hearing for a reasonable period of time.
4. Hearing

a. All hearings held under these procedures shall be conducted according to the following:

i. Hearings shall be closed to all persons other than the person conducting the hearing, the student charged, The Judicial Affairs Officer, a single advisor for the student charged, a single advisor for the Judicial Affairs Officer, the person designated to record the hearing and witnesses while they are testifying.

ii. The student may be accompanied by one advisor of his or her choice, who may act on his or her behalf. If the campus has elected to exclude attorneys from this part of the proceedings, the advisor may not be an attorney.

iii. The Judicial Affairs Officer representing the campus may be accompanied by one advisor of his or her choice. If the campus has elected to exclude attorneys from this part of the proceedings, the Judicial Affairs Officer’s advisor may not be an attorney.

iv. The campus and the student charged shall have the opportunity of presenting witnesses subject to the right of cross examination as well as questioning by the Hearing Officer. If the student charged elects to testify, he or she shall be subject to cross examination and questioning by the Hearing Officer.

v. The hearing need not be conducted according to technical rules relating to evidence and witnesses. Any relevant evidence shall be admitted if it is the sort of evidence on which responsible persons are accustomed to rely in the conduct of serious affairs. No evidence other than that received at the hearing shall be considered by the Hearing Officer.

vi. The Hearing Officer shall make all rulings on matters relating to the conduct of the hearing, including matters regarding admission of evidence. Any evidence deemed relevant by the Hearing Officer shall be admitted.

vii. A tape recording shall be kept of the hearing. The student charged may, at his or her own expense, request a copy of such recording. No tape recording by the student charged or other persons at the hearing shall be permitted. However, the student charged may, at his or her own expense, furnish a certified court reporter provided that the campus shall be permitted to make copies of the transcript at its own expense.

viii. The student charged shall not be found to have violated the Student Code solely because he or she fails to appear at the hearing. If the student charged does not appear, the hearing shall proceed without him or her and a decision shall be rendered on the evidence presented.

ix. Arguments by the student charged or his or her advisor concerning the legal (as distinguished from factual) applicability, or legal validity of any provision with which the student is charged, or of these procedures shall not be addressed to the Hearing Officer, but to the President in writing within three (3) working days following the conclusion of the hearing. The President shall seek advice on the matter. Such advice shall be considered by the President before a final decision is rendered.

x. Where the person testifying is an alleged victim of sexual or physical assault which is the basis for the disciplinary action, that person may be accompanied at the hearing by another person. The other person is not permitted to speak or to participate directly in the hearing. Cross examination of the alleged victim shall be limited to the alleged incident leading to the charge and the events surrounding the charge.

xi. The Hearing Officer is responsible for maintaining order, and may establish such rules as are necessary or appropriate to conducting a fair hearing. The Hearing Officer shall not permit any person to be subjected to abusive treatment. The Hearing Officer may eject or exclude anyone who refuses to be orderly.

b. Where more than one student is charged with conduct arising out of a single occurrence or out of connected multiple occurrences, if the Judicial Affairs Officer and the students charged consent, a single hearing may be held for all of the students so charged. Students may request that their case be consolidated with others, or separated from others. The Judicial Affairs Officer shall make determinations regarding consolidation. All such determinations shall be subject to revision by the Hearing Officer. In the event of such revision, all cases affected shall be rescheduled for hearing. The separation of one or more cases from a group of cases previously set for a consolidated hearing shall not be considered to affect the remaining cases in the group.

c. At any time during the hearing process, the student charged may elect to waive the hearing and accept a sanction recommended by the Judicial Affairs Officer. The waiver and acceptance of the recommended sanction shall be in writing.

5. Recommendation of the Hearing Officer

a. After the hearing, the Hearing Officer shall make findings of fact and conclusions about whether the facts demonstrate a violation of the Student Code with which the student is charged. The Hearing Officer’s determination shall be made on the basis of whether it is more likely than not that the student charged violated the Student Code (i.e., by a preponderance of evidence).

b. After having made its determination, the Hearing Officer shall submit a written report to the Chief Operating Officer or designee which includes a determination as to whether the student charged violated the Student Code and the Hearing Officer’s recommended sanction, if any. The Hearing Officer’s report shall be submitted to the Chief Operating Officer within ten (10) working days of the conclusion of the hearing.

6. Chief Operating Officer Action

a. After reviewing the Hearing Officer’s report, the Chief Operating Officer or designee shall make the final decision regarding disciplinary action. The Chief Operating Officer may impose the sanction recommended, adopt a lesser sanction, refer the matter back to the Hearing Officer for further findings on specified issues or after reviewing the entire record may adopt a more severe sanction. If the Chief Operating Officer decides to adopt a more severe sanction, the Chief Operating Officer shall articulate the reasons for the more severe sanction in his or her decision. The Chief Operating Officer normally shall render a decision within five (5) working days of receipt of the Hearing Officer’s report.

b. The Chief Operating Officer shall cause notification of his or her decision to be delivered to the student charged. The notification shall be delivered in person or sent by certified mail return receipt requested to the student charged.
Notices addressed to the student at the last known address on campus records and deposited in the United States mail, postage prepaid, shall be presumed to have been received by the student. The report of the Hearing Officer shall be made available to the student charged upon request.

7. Appellate Procedures

Students who believe they have been wrongfully or excessively penalized may appeal the Chief Operating Officer or designee decision. Such an appeal must be submitted in writing within 10 working days of the notification of the action and must be directed to the President. The student must clearly establish sufficient cause for the appeal to be considered. It is the responsibility of the student to submit a clear, coherent, written statement providing the basis for the appeal, including any supporting documentation.

For an appeal to be granted, the student must present:

- A reasonable possibility that the unfavorable decision was clearly wrong, given the Hearing Officer’s interpretation of the evidence or the disciplinary action imposed.
- New evidence (although related to the original evidence) that was not available for presentation at the original hearing and which, if true, creates a reasonable probability of a different decision. A satisfactory explanation must be provided for the failure to present such evidence at the hearing.

At the discretion of the President any disciplinary action previously imposed may be suspended pending disposition of the appeal. The President will make his or her decision within 15 working days and send written notification of the decision to the student. The decision is final.

**Fire Prevention**

In the interest of fire safety, the University prohibits any open flames, lit matches or lighters, or the burning of candles inside any University facility.

**Health Insurance**

A student health insurance policy is available through Sentry Life Insurance Company. The University is not affiliated with Sentry Life Insurance Company or its subsidiaries. A brochure is available in the registrar’s office or the Student Services offices of the branch campuses.

**Housing**

The University has no housing or dormitory facilities.

**Changes of Name or Address**

Students are responsible for filing a Change of Name/Address Form in the registrar’s office if name, residence, phone number, or email address has changed since last registration.

Name change requests must be accompanied by a copy of one of the following: court order, marriage certificate, dissolution decree, social security card, or driver’s license.

**Smoking**

It is University policy to respond to the concerns of nonsmokers who want to be protected against passive smoke as a health hazard. Smoking is not permitted at any time inside University facilities or within 20 feet of any entrance.

**Student Government**

The purpose of the University Student Government is to enhance the quality of student life by making every student’s experience at JFK University pleasant and positive. The overriding goals of the Student Government are to unite students who are registered at JFK University under one University-wide government, to represent the interests and concerns of all students at the highest level of decision-making, to advocate for various student interests, and to enrich the reputation of the University within the general, legal and academic communities. The nominal Student Association fee charged all students at registration enables the student government to fund sanctioned student associations, and support the student store, as well as other University-wide projects. Student government members are elected annually and required to abide by all JFK University policies and procedures.

**Student Photo Identification Cards**

Student ID cards are distributed by the registrar’s office at the time of registration. Contact the registration office for available times of distribution. The cards serve as student identification for a variety of on-campus services, including the library and computer labs, and must be updated each year for a student to have library borrowing privileges.

A current photo ID may be required for students to participate in internship and placement opportunities. IDs may be updated at the registrar’s office in Pleasant Hill or student service office on the Campbell or Berkeley campuses.

**Textbooks and Course Materials**

Textbooks and related course materials (called coursepacks) are available through the University’s virtual bookstore, MBSDirect. Students can access MBSDirect by visiting http://direct.mbsbooks.com/jfku.htm. Links to MBSDirect are also available from the University’s website. Course readers are available from Copy Central. Students can access Copy Central by visiting http://www.CopyCentral.com.

**Policy on Exception to University Policy**

This policy creates a baseline by which all students, faculty and staff have the reasonable expectation of equitable treatment in the review and decision-making process for exceptions to JFK University policies. This policy provides a process by which an exception to University policy is considered for circumstances that can arise, and which a University policy cannot anticipate. Submission and consideration of an exception request does not imply, or guarantee, granting of that exception. Ignorance of University policy and procedures does not constitute valid criteria for granting an exception to University policy. An exception to a University policy may be requested using as a basis one of the following reasons/criteria:

1. Illness of self or family members;
2. Death in the family;
3. Military service;
4. Job-related issues (e.g., re-location, required to work);
5. An error created by the University or its representative.
All exception requests must be accompanied by an Exception to University Policy form, available from the registrar’s office; documentation of illness, death, military service, or job-related changes, or documentation of an error or errors made by the University person or persons acting in his/her/their official capacity; requests are ordinarily initiated and signed by the student requesting the exception; all exceptions must be reviewed by the Dean of the College, with a recommendation to approve or not approve; exceptions may be initiated by the University on behalf of a student in those extraordinary circumstances in which a student is not able to initiate the process, or to otherwise correct an injustice.

The registration office investigates all exception requests which are forwarded to the Academic Vice President and Registrar for review and decision. Once the decision has been made, the registration office notifies the student and all impacted parties regarding the outcome. Questions regarding this policy may be directed to the Registrar.

Family Educational Rights and Privacy Act

The Family Educational Rights and Privacy Act of 1974 (FERPA) affords students certain rights with respect to their educational records. These rights include:

- The right to inspect and review the student’s education records within 45 days of the day the University receives a request for access. (A list of the records that may not be reviewed by a student is available in the John F. Kennedy University Policy and the Family Educational Rights and Privacy Act of 1974, expanded version, a copy of which may be obtained in the registrar’s office, Pleasant Hill; the College of Law, Pleasant Hill; and at the student services office, Campbell.)
- Students shall submit to the registrar, dean, head of the academic department, or other appropriate official, a written request that identifies the record(s) they wish to inspect.
- If the records are not maintained by the University official to whom the request is made, that official shall advise the student of the correct official to whom the request should be addressed.
- The University official responsible for the records will make arrangements for access and notify the student of the time and place where the records may be inspected.
- The right to request the amendment of the student’s education records that the student believes is inaccurate. Students may ask the University to amend a record that they believe is inaccurate. They should write the University official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate.
- If the University decides not to amend the record, the University will notify the student of the decision in writing and advise the student of his or her right to a hearing.
- After the hearing, if the University still decides not to amend the record, the student has the right to place a statement with the records setting forth his or her view about the contested information.
- The right to file a complaint with the U.S. Department of Education concerning alleged failures by John F. Kennedy University to comply with the requirements of FERPA. The name and address of the office that administers FERPA are:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue SW
Washington DC 20202-5920

The University may disclose, without consent, directory information. At JFK University, directory information includes the following:

- Name, address, email address, and telephone number(s)
- Major field of study
- Period of enrollment
- Awards and degrees received from JFK University
- Current enrollment status—full-time/half-time, inactive.

The University must have written permission from the student in order to release any information, other than directory information, from a student’s education record. However, FERPA allows colleges to disclose student records without consent to the following parties or under the following conditions:

- To personnel within the University who maintain educational records and those with a legitimate educational interest including faculty or staff who deal with the student and carry out education duties and employees designated by them to assist in these tasks. John F. Kennedy University defines “legitimate educational interest” as “needs the record(s) to carry out employment responsibilities.” Therefore, any University employee (or person acting on behalf of the university) may have access to student records without the student’s written consent if that person needs the access to carry out his or her employment responsibilities.
- Other colleges to which a student is transferring;
- Specified University officials or contracted agents for audit or evaluation purposes;
- Appropriate parties in connection with financial aid to a student;
- Organizations conducting certain studies for or on behalf of the University;
- Accrediting organizations;
- Appropriate parties in compliance with a judicial order or lawfully issued subpoena; and
- Appropriate officials in cases of a health and safety emergency.

It is JFK University’s policy to release official transcripts only upon the written and signed consent of the student and upon payment of the fee for each. To protect each student, a record is kept for one year of transcripts issued and of any persons or institutions (other than JFK University officials) which have, upon student consent, been granted access to the student’s records.
Financial Policies

Tuition and Fees

Tuition and fees are charged as indicated and are subject to change without notice. All tuition charges are per unit unless otherwise indicated. Tuition is payable by check, MasterCard, Visa, or American Express, and is due in full at the time of registration. Checks should be made payable to John F. Kennedy University. A fee is assessed for checks returned because of insufficient funds (contact the accounting office for the current fee).

Deferred Payment of Tuition

Students may be permitted to defer payment. Due dates for deferred payment are established by the accounting office. Students are only conditionally registered until the request for deferment is approved. Approval is not automatic; students are notified if the deferment is not approved.

Deferred Payment

- Set-up, per term | $50
- Late Payment Charge, per missed payment | $30

Late Registration Fee

- After designated initial registration period | $105
- Adding a course after 2nd meeting (per course) | $75
- Adding a course after term has ended (per course) | $200

Law Exam Fee

- Annual Fee | $60
- Re-scheduling Fee, per exam | $125

Deferred Payment

A deferred payment fee is charged for this service and a late penalty per payment is charged for payments made beyond the deferred payment deadlines. Contact the accounting office for the current fees and penalties. A Deferred Tuition Agreement and Promissory Note must be filed with the accounting office. Withdrawing from classes does not relieve the student from the obligation for full payment of deferred tuition. All accounts must be paid in full prior to registration for the following term.
University Refund Policy

University fees are non-refundable beginning the first day of the term. Course fees are refundable unless the course schedule indicates otherwise.

Tuition is refundable according to the length of the course and the date the registrar’s office is notified of the drop by the student. Note that it is the student’s responsibility to visit or speak with the registrar’s office to drop a course. Consult the table in the Registration section of this catalog for additional information.

Financial Aid

The Financial Aid Office provides financial assistance in the form of loans, grants, and scholarships. Aid is intended to help students who, because of limited resources, would otherwise be unable to attend college, or who, with the aid, are able to take additional courses and graduate at an earlier date. The philosophy underlying administration of federally funded financial aid places primary responsibility for meeting educational costs on students and their families. As a result, most financial aid is available only to help fill the gap between a student’s or family’s expected contribution and a student’s educational expenses.

Students considering applying for financial aid are urged to contact the financial aid office as eligibility for financial aid programs is very individualized. Several booklets containing detailed information about eligibility, procedures, and the financial aid programs available at the University are available from the Financial Aid Office. Basic eligibility requirements include half-time enrollment and enrollment must be in an eligible program. In addition, no prior student loans may be in default status.

Financial aid regulations change frequently. Students should check with the Financial Aid Office for the latest information. Financial aid is available to students who are permanent residents of the U.S. or certain Pacific Islands and any other eligible non-citizens (individuals who can provide documentation from the United States Citizenship and Immigration Services (USCIS) in the Department of Homeland Security (DHS) that they are in the United States for other than a temporary purpose with the intention of becoming a citizen or permanent resident). Students should contact the Financial Aid Office for specific requirements regarding citizenship.

Grants and Scholarships

Grants and scholarships are gifts of money that do not have to be repaid. These funds are extremely limited.

Federal Pell Grants are federally funded entitlements for low-income undergraduates. Grant amounts range from $555 to $5,550 per year and are prorated for half-, three-quarter-, and full-time enrollment. Eligibility is based on financial need.

Federal Supplemental Educational Opportunity Grants (FSEOG), federally funded grants for undergraduates, range from $200 to $2,000 per year. Eligibility is based on extreme financial need and priority is given to students with extremely limited resources.

Cal Grants A and B provide scholarship funds to undergraduates to cover tuition, living expenses, and most fees. Cal Grant eligibility is determined by the California Student Aid Commission and is based on grade-point average and student’s or parents’ financial need. Applications for Cal Grants are due by March 2nd each year.

John F. Kennedy University scholarships are institutionally funded awards for graduate and undergraduate students. Scholarships range from $250 to $2,000 per year; they are designed to reduce students’ reliance on loans and enable additional students to attend the University. Eligibility is based on extreme financial need.

The JFK University Honors Student Merit Scholarship and JFK University Honors Student Full-Tuition Merit Scholarships are available to JFK University law students. These are merit-based scholarships.

Other grants and scholarships are periodically available from the University and outside sources (e.g., private foundations). Notices regarding the application process for these awards are available in the Financial Aid Office and are posted on the JFK University Financial Aid website at www.jfku.edu.

John F. Kennedy University welcomes contributions to the University scholarship fund. All contributions are tax deductible and may be sent to John F. Kennedy University, Office of University Advancement, 100 Ellinwood Way, Pleasant Hill CA 94523-4817.

Loans

Loans are funds that must be repaid with interest. Students should check with the Financial Aid Office for current information on loan limits, interest rates, and terms. As of July 1, 2010 all new student loans will be disbursed through the Federal Direct Student Loan Program.

Federal Direct Loans (subsidized and unsubsidized) are long-term, low-interest loans that are available from the U.S. Department of Education. Both undergraduate and graduate students are eligible for Federal Stafford Loans. Graduate students may borrow up to $20,500 per academic year; lower-division undergraduates, up to $9,500 for the first academic year and $10,500 for the second academic year; and upper-division undergraduates, up to $12,500 per academic year.

The Subsidized Federal Direct Loan exists to assist students that demonstrate financial need. Interest does not accrue while the student is enrolled at least half-time in an eligible program. Repayment begins and interest starts to accrue six months after graduation, withdrawal, or cessation of half-time enrollment, and can take up to ten years. There are additional repayment plans which may extend the repayment time.

The Unsubsidized Federal Direct Loan was created for middle- and higher-income borrowers. With the exception of demonstrating financial need, the Unsubsidized Federal Direct Loan has the same eligibility criteria as the Federal Subsidized Direct Loan. Family income or poor credit will not affect loan eligibility or disqualify a student from obtaining an Unsubsidized Federal Direct Loan. Loan limits and interest rates are the same as those for the Federal Subsidized Direct Loan. Interest on new loans is fixed at 6.8 percent. Unlike Subsidized Federal Direct Loans, interest does begin accruing after the loan is disbursed.

The graduate Direct PLUS loan provides additional federal funding beyond Direct loans and offers a fixed 7.90 percent interest rate. Deferment options are available while in college. The annual award is up to the cost of attendance, as determined by the college, minus financial aid.

U.S. Department of Education regulations (Code of Federal Regulations §34CFR682.604g) requires all recipients of Federal Direct Student Loans (subsidized and unsubsidized) and Federal Perkins Loans to attend or complete an entrance interview prior to
loan certification and an exit interview prior to graduation or withdrawal from school. The exit interview includes information on the average indebtedness of students, the average anticipated monthly repayments on the loan, and the options available to students for repayment and deferment of payment. Failure to complete an exit interview could result in a hold being placed on the student’s diploma and academic transcripts.

Federal Perkins Loans are five percent interest loans for graduate and undergraduate students. They are awarded by the financial aid office from funds consisting of a federal contribution, university contribution, and repayment from previous borrowers. Most Federal Perkins Loans range from $3,000 to $8,000 annually. Repayment begins nine months after graduation, withdrawal, or cessation of half-time enrollment. Repayment may take up to ten years. Eligibility is based on financial need. These funds are extremely limited.

Application Forms and Deadlines

The Free Application for Federal Student Aid (FAFSA) is used to calculate eligibility for the Federal Perkins Loan, Federal Pell Grant, Federal Supplemental Educational Opportunity Grant (FSEOG), the John F. Kennedy University Scholarship, Direct Loans, undergraduate and graduate Direct PLUS loans, and Cal Grants. The Cal Grant application requires a separate GPA verification as well as filing of the FAFSA. Separate application forms are required for the Federal Subsidized Direct Loan, the Federal Unsubsidized Direct Loan and graduate Direct PLUS loans. Private aid requires separate forms. Students should contact the Financial Aid Office with questions regarding any applications for financial aid.

Students must apply each academic year (three terms) to receive financial aid. Any student who knowingly submits incorrect, misleading, or incomplete information in applying for or receiving financial aid will be subject to discontinuation of funds and may be subject to dismissal from the University.

Satisfactory Academic Progress

All students who apply for federal, state, and institutional financial aid at John F. Kennedy University must maintain satisfactory academic progress while receiving financial aid. Satisfactory academic progress is defined as reasonable and timely advancement by students toward completion of their educational goal.

The Financial Aid Office at JFK University monitors academic progress each term, monitoring all units attempted and completed including:

- units that were transferred from another institution and accepted by JFK University
- units from JFK University that were attempted for which the student did not receive any aid.

The University complies with federal regulations to monitor student aid recipients’ academic progress toward a degree or certificate in the following ways:

Qualitatively

The Financial Aid Office reviews students’ academic grades to ensure they are consistent with requirements for receipt of a degree or certificate. Students must maintain a cumulative grade-point average (GPA) of:

- 2.0 (C) if an undergraduate student
- 3.0 (B) if a graduate student

Quantitatively

Because students at John F. Kennedy University pursue a variety of educational objectives, the number of units required for completion will vary from program to program. A standard academic year at John F. Kennedy University is defined as three terms (either three quarters or three semesters). In order to be considered making quantitative satisfactory academic progress, however, all financial aid applicants and recipients must adhere to the following guidelines:

Unit Completion Ratio

Students must complete (receive credit for or earn units in) at least 80 percent of all cumulative units attempted. The following marks are not considered units successfully completed:

- I Incomplete
- W Withdrawal
- UW Unauthorized Withdrawal
- AU Auditor
- NC No Credit
- F Unacceptable performance
- NR No Report
- FW Unauthorized withdrawal (College of Law)

Financial Aid Probation/Disqualification

Any student who fails to meet the satisfactory progress standards for either GPA or units completed percentage will be notified and placed on financial aid probation for one academic year (three terms). Students are still eligible to receive federal aid while on financial aid probation.

By the end of the probationary period, the student’s cumulative GPA and units completed percentage must meet the minimum:

- 2.0 GPA for an undergraduate or for undergraduate courses completed during linking
- 3.0 GPA for a graduate student or for graduate courses completed during linking
- a score of 70.0 for law students.

The student must also have completed at least 80 percent of cumulative units attempted. That being the case, the student would have met the conditions of the probation and financial aid would continue.

When grades have been posted for the final term of the probationary period, any student still failing to meet either the qualitative or quantitative standards for satisfactory academic progress will be disqualified from receiving further financial aid. In addition, students are granted only one probationary period. Once a student has used his or her probationary period and subsequently re-establishes eligibility, he or she will automatically be disqualified if he or she ever falls below the required minimums again.

Students who are dismissed by the University become ineligible for financial aid and all aid will be immediately discontinued.
on the percent of earned aid using the following formula:

\[
\text{percent of "unearned aid" using the following formula:}
\]

Federal aid is returned to the federal government based on the percent of earned aid using the following formula:

\[
\text{Federal aid is returned to the federal government based on the percent of earned aid using the following formula:}
\]

The responsibility of returning unearned aid is allocated between John F. Kennedy University and the student according to the portion of disbursed aid that could have been disbursed to cover the University charges and the portion that could have been disbursed directly to the student once the JFK University charges were covered. JFK University will distribute the “unearned aid” back to the Title IV programs as specified by law. The student will be billed for the amount owed to the Title IV programs and any amount due the University resulting from the return of Title IV funds used to cover university charges.

Withdrawal/Leave of Absence

All undergraduate, graduate, and law students who fully withdraw from John F. Kennedy University during a quarter/semester must do so according to the schedule and instructions published by the registrar’s office.

Reauthorization of the Higher Education Amendments, signed into law on October 7, 1998, resulted in a change in the federal regulations governing the refund or return of federal (Title IV) funds. When a student withdraws from the University, the withdrawal date used in determining the federal refund policy is the date:

- The student files the Add/Drop Form with the registrar’s office;
- The student officially notifies in writing or by phone to the registrar’s office the student’s intent to withdraw; or
- The University determines most accurately reflects the last date of attendance at an academically related activity of the student.

If the student leaves without beginning JFK University’s official withdrawal process or otherwise providing official notification of his or her intent to withdraw, the withdrawal date will be the 50 percent point of the term. In this instance, JFK University could determine an earlier withdrawal date if the circumstances beyond the student’s control (e.g., illness) have prevented him or her from beginning the official withdrawal process. The University could also determine the last date of an academically-related activity of the student.

The date used to determine the return of federal funds may be different from the date used by the University to determine institutional refunds.

The Financial Aid Office at JFK University does not recognize leaves of absence for financial aid purposes.

Veterans’ Benefits

John F. Kennedy University degree programs are approved by the California State Approving Agency for Veterans Education (CSAAVE). Non-academic certificate programs are not approved for VA benefits. Veterans who expect to receive VA educational benefits must complete a notice to the Veterans Benefits Administrator at the time of registration. Contact the Veterans Benefits Administrator in the registrar’s office for current information.

Monthly benefits are based on the number of units taken each quarter, the scheduled meeting dates of each course taken, and the number of the veteran’s dependents. The minimum number of units for each classification is listed in the following table:
<table>
<thead>
<tr>
<th>Status</th>
<th>Undergraduate</th>
<th>Graduate</th>
<th>Law</th>
</tr>
</thead>
<tbody>
<tr>
<td>Full-Time</td>
<td>12</td>
<td>9.0</td>
<td>6</td>
</tr>
<tr>
<td>Three-Quarter-Time</td>
<td>9</td>
<td>6.0</td>
<td>4</td>
</tr>
<tr>
<td>Half-Time</td>
<td>6</td>
<td>4.5</td>
<td>3</td>
</tr>
</tbody>
</table>

Information on monthly benefits for the above attendance rates, for course attendance while on active duty, or for less than half-time attendance may be obtained by visiting www.gibill.va.gov. Disabled veterans are advised to contact the Vocational Rehabilitation and Counseling Division located at 1301 Clay Street, Oakland CA 94612-5209. Disabled veterans should also contact the University’s Office of Disability Services to review accommodation needs. Children of veterans qualify for benefits only if the veteran has a 100 percent service-related disability.

All applicants and recipients of veterans’ benefits must maintain a cumulative grade-point average (GPA) of 2.0 (C) if an undergraduate, 3.0 (B) if a graduate student or 70 if a law student. Linked students must maintain a cumulative GPA of 2.0 (C) in all undergraduate courses and a cumulative GPA of 3.0 (B) in all graduate courses during the period of articulation.

Students who fail to meet the minimum satisfactory GPA requirements will be placed on academic probation and notified. If a student remains on academic probation beyond two quarters or semesters, the University will report a termination of benefits to the Department of Veterans Affairs. The University may not continue to certify the enrollment of a veteran or eligible person whose academic progress remains below graduation requirements.

The University must report the assignment of non-punitive grades (e.g., Incompletes) to the Department of Veterans Affairs within 30 days from the date the grades are assigned. The student is required to submit corroborative evidence to substantiate the student’s claim of mitigating circumstances. This is necessary to ensure compliance with statutory restrictions on benefit payments. If, at the end of one year from the date the Incomplete was assigned, the student’s records still reflect a non-punitive grade for the course, the Department of Veterans Affairs will inform the student that the benefit payments for the course must be retroactively terminated.

**Yellow Ribbon Program**

John F. Kennedy University participates in the Yellow Ribbon Program. The University provides tuition assistance to a limited number of eligible Post-911 (Ch.33) veterans. In order to be eligible for this program a veteran must be 100% eligible for the Post-9/11 (Ch.33) G.I. Bill. For further information on Yellow Ribbon program eligibility please visit the G.I. bill website at http://gibill.va.gov. Veterans interested in applying for the Yellow Ribbon program should contact the Veterans Benefits Administrator at (925) 969-3332.
College of
Undergraduate Studies
The academic excellence of the College’s programs prepares students to pursue graduate degrees, advance their careers, follow a new career path, return to the job market, or advance their own personal growth. The curriculum is continually reviewed to ensure that coursework is grounded, relevant, conceptually interesting and dynamic.

The College’s dedicated faculty and staff create a supportive learning community to encourage students along the path to achieving their educational goals. Classes in Business Administration and Legal Studies are taught by successful practitioners in their fields so that the content is current and lessons learned in class can be readily applied on the job.

To further assist students in realizing their educational goals, the College offers two unique programs:

- **Credit by Assessment.** Students in the Business Administration, Health Sciences, and Psychology programs can earn credit up to 30 quarter units of undergraduate credit for work-related projects, including corporate training, professional workshops, and volunteer training.

- **Link to Graduate Study.** Qualified students in the Business Administration, Health Sciences, and Psychology programs can apply graduate-level units toward both a Bachelor’s and Master’s degree.

The admissions process to the College of Undergraduate Studies examines both the academic and personal qualifications of applicants to ensure that students accepted into its programs have the ability to benefit from and contribute to the University’s integrated educational experience. All applicants must complete the University’s general admissions requirements as stated in the front of this catalog. Individual programs have additional requirements which can be found in the following sections.
Business Administration

BS in Business Administration

The Business Administration program provides an in-depth look at the diverse economic and technical challenges that exist in today's business climate as well as a foundation in basic business management practices and core skill development. It fosters critical thinking processes that examine business operations within the greater social, cultural, economic, technological and political-regulatory environment. The program challenges students to pursue their educational goals in professionally rewarding and personally meaningful ways, and to utilize their education in making directed career and life transition.

The undergraduate business administration program is intended for students who are interested in completing their undergraduate business degree. The program is designed for students interested in transitioning to careers in business, government, and nonprofit organizations. Graduates possess the basic management skills needed to succeed in all environments. In addition, the College of Undergraduate Studies provides students with the opportunity to earn up to 30 quarter units through prior learning experiences and portfolio development.

Specializations

The Bachelor of Science in Business Administration program requires a 12-unit specialization. Management or Marketing are currently offered to students in the Business Administration program.

Linked Degree Option

JFK University offers a linked Bachelor's and Master's degree program in the field of Business Management. Linked degree programs allow qualified students to apply graduate-level units towards both the Bachelor's and Master's degrees. Students interested in seeking a linked degree must have been admitted to the undergraduate business program and have:

- Completed 159 undergraduate units;
- Completed all requirements for the Bachelor's of Science program, except for 12 units in the specialization or general electives or a combination of both;
- Achieved a minimum of 3.0 cumulative GPA.

Benefits of linking Program

- Saves time and money by completing the undergraduate degree while earning up to 21 units towards the MBA program. After completing the 21 linking units, students will need to complete 9 additional graduate courses to complete the MBA program;
- MBA degree can be completed in four quarters or less;
- Ability to expand the depth of learning by attending graduate classes and working with MBA students.

Program Learning Objectives

- General Business Knowledge and Management Application: Students will demonstrate knowledge in the following management areas: computer information systems, accounting, marketing, economics, human resources, finance, and basic management principles.
- Ethics and Social Responsibility: Students will identify and evaluate ethical issues and understand the business enterprise and its workforce, from a corporate citizenship perspective, and explain the business related legal and ethical issues and the interdependence between the enterprise operation and the civic community in which it functions.
- Communication and Collaboration Effectiveness: Students will be able to communicate in a variety of modalities, including written and oral communication, electronic information, and communication systems, while developing communication in a variety of work networks and in a diverse workforce.
- International and Global Perspective: Students will demonstrate an understanding of business operations and markets and recognize the opportunities and risks associated with a borderless society, while developing skills to interact with diverse, multi-cultural leadership, team members, and customers.
- Information Utilization and Problem Solving: Students will learn how to use business tools to gather information, access facts and draw upon resources to make effective business decisions. They will be able to identify, understand, analyze, and make recommendations for business issues.

Admission Requirements

Applicants must submit a JFK University application and forward official transcripts from all universities they attended. The potential student will meet with the Program Chair who makes the final decision on acceptance into the program.
Linking Program Prerequisites

- Meet with BSBA Program Chair to ensure upper division transfer units have been correctly applied and that the approved substitutes are documented for the eligibility review;
- Submit a Request of Linked Eligibility Review form and a Petition for Degree for the BSBA;
- Submit Petition for Graduation and the Application for Linking to the registrar’s office, paying the current applicable and non-refundable fees;
- Supply any additional documentation required for admissions to the MBA program including resume, letter of intent, and references.

Lower Division Breadth 45-90

Total units required 180

Students may complete the lower division coursework by taking approved College of Undergraduate Studies courses, earning credit through the College Level Examination (CLEP), or taking recommended courses from local community colleges.

Units to reach 180 for degree vary, depending on the number of lower and upper division transfer units; upper division units may be fulfilled with upper division electives available through the College of Undergraduate Studies.

Specialization units fulfill the units-to-180 requirement, or may be in addition to the total unit for degree requirement depending on the number of lower and upper division transfer units.

Health Sciences

BA in Health Sciences

The Bachelor of Arts in Health Sciences, offered at both the Pleasant Hill and Costa Mesa campuses, incorporates multidisciplinary approaches to the study of health, illness, and disease in diverse human populations. The BA in Health Sciences builds upon a foundation of a liberal education where core courses emphasize critical thinking and interdisciplinary learning. Students study the biological, social, behavioral and policy sciences, and examine the determinants of health and health outcome. Grounded in discipline of Public Health, the program draws on the Social-Ecological Model a framework to examine the multiple effects and interrelatedness of social elements in an environment on health outcome. Students apply this model in the study of health promotion, disease prevention, health care systems, health policy and utilization of health technology.

Through an engaging and cutting edge curriculum which includes lecture, discussion, debate, problem-solving and experiential learning, our students explore and examine the relationships and interactions of the biological, social, behavioral and environmental factors that influence health and health outcome in diverse populations. We value the whole person - mind, body and spirit - and explore the meaning of illness and healing within diverse cultural contexts. The program offers a Specialization in Community Health Promotion in Diverse Populations. Through the Specialization students deeply explore the social and environmental factors which mediate health focusing on social justice in health - in vulnerable populations, social-ecology of health in global and domestic populations, and the relationship between media and social marketing and health behaviors.

Health Sciences graduates are prepared with the essential skills, both theoretical and practical, needed in community public health practice. The program prepares graduates for jobs in public health and for graduate study in public health; health education; health care administration; and business, just to name a few. Our graduates have developed essential ways of understanding, relating, creating and being that is so vital for professionals, and have become successful professionals in a variety of fields, including health...
education, advanced-practice nursing, public health practice, research, teaching, and mental health counseling.

**ADN-MSN Pathway**

John F. Kennedy University and UCSF School of Nursing have teamed up to offer an ADN-MSN Pathway, a unique opportunity for RNs with an ADN degree. Pathway participants learn ways to enhance their academic credentials and likelihood of admissions to UCSF. Pathway students complete their undergraduate degree in 18-24 months at JFK University and then go on to the graduate program in nursing education at UCSF.

**Program Learning Outcomes**

After completing a Bachelor’s degree in Health Sciences, students will possess the knowledge, skills and abilities to:

1. Demonstrate proficiency in critical thinking and writing, and the application of these skills in critical writing and research
2. Draw on multiple disciplines and research traditions to identify and explain the social, behavioral, and biological determinants of health, wellness, and disease in human communities and populations
3. Understand that health is an outcome of factors that occur on many levels ranging from the social and cultural context to cellular and intracellular processes
4. Articulate the basic elements of the health policy processes and identify and describe the major institutional players in health policy, both domestically and internationally
5. Understand how health needs, and perceptions of health needs, as well as the organizational and social structures through which health sciences are delivered and received, vary cross-culturally
6. Understand the basic structure, organization, and financing principles of contemporary healthcare systems
7. Demonstrate capacity in quantitative reasoning and ability to analyze statistical and graphical data
8. Demonstrate capacity to use research skills for problem-solving and critical thinking in the areas of epidemiology, health care planning, and community health needs assessment
9. Demonstrate effective team-building traits and ability to articulate the essential characteristics of collaborative problem solving and systematic approaches to decision making, and
10. Apply the core principles of health promotion and disease prevention to specific problems in diverse populations.

Total units required 180

Note that the policies and procedures in this section of the catalog apply to both the paralegal certificate and the BA program.

Mission

To provide Legal Studies students with a curriculum that is current and focuses on the practical application of substantive law while encouraging critical thinking, ethical conduct, and social responsibility.

Goals and Objectives

The Legal Studies program will provide students with the knowledge, skills, tools, and values necessary to be effective members of a legal team. We will provide students with:

- Analytical and critical thinking ability;
- Strong written communication skills;
- Proficiency in legal research and legal writing;
- The knowledge of the ethical guidelines and limitations governing the profession in the public and private sectors;
- The ability to navigate the use of various legal technologies.

The specific goals of the Legal Studies program are to provide students with the knowledge, skills, tools, and values necessary to be effective members of a legal team. At the end of the program, all graduates should be able to:

- Demonstrate proficiency in legal writing;
- Describe and assess the ethical obligations and limitations of legal professionals in specific factual situations;
- Demonstrate proficiency in legal research;
- Be proficient in software applications used in legal environments;
- Practice analytical and critical thinking ability.

Note: Paralegals cannot provide legal advice except as directed by an attorney nor can they establish a client/business relationship or represent a client.

Our curriculum complies with CA Business and Professions Code Sections 6450-6456 requiring paralegals to be educated at an accredited institution offering a minimum of 37 quarter units of legal specialty coursework.

Admission Requirements

Applicants with an associate’s degree or equivalent may be admitted to the degree or certificate program. Applicants must have 54 quarter units (36 semester units) of college transferable credit which include at least 27 quarter units (18 semester units) of general education.

Freshman English or college composition must be completed with a C or better prior to admission. In addition to composition, applicants must have completed courses from at least three of the following disciplines prior to admission:

- Communication. Composition, rhetoric, literature, English, and some journalism.
- Humanities. Art or music appreciation, art or music history, literature, religion, theater, philosophy, classics, music theory, film history, logic, foreign language, sign language.
- Natural Science. Natural or physical science that is not vocationally oriented.

LEGAL STUDIES

JFK University is the only school in northern California to offer an American Bar Association (ABA) approved bachelor’s degree in Legal Studies along with an ABA approved paralegal certificate.

The program’s mission is to provide a curriculum that focuses on the practical application of the substantive law while encouraging critical thinking, ethical conduct, and social responsibility. With this in mind, students will gain the knowledge, practical application skills, attitudes, and values that are necessary to excel as legal professionals. Graduates are able to pursue careers as paralegals working for lawyers, law offices, corporations, and governmental agencies.
• Mathematics. Any college-level mathematics course.
• Social Science. Government, economics, sociology, history, political science, anthropology, and psychology

Transfer of Legal Specialty Courses

This transfer policy does not apply to Paralegal Certificate students. All certificate courses must be taken in residency. This transfer policy only applies to students enrolled in the Bachelor’s Degree in Legal Studies.

At the discretion of the Legal Studies program, students may be given credit for other legal specialty courses (LSC) taken at another school or University provided the course is also offered in this program. To be eligible to receive credit for a previously-taken LSC all the following must exist:

• The LSC must be equivalent in content, length and nature to JFK University’s course;
• The LSC must be from an ABA approved paralegal program and taken within the last 7 years;
• The student must have earned a C or better in the LSC;
• The LSC must carry upper-division academic credit.

Up to eight (8) Legal Specialty Courses may be credited towards the BA in Legal Studies.

BA in Legal Studies

The BA in Legal Studies builds upon foundational legal specialty courses by offering a curriculum that enhances students’ critical thinking and analytical and theoretical skills. This combination of legal specialty and business, and liberal arts coursework ensures that each student develops an understanding of and respect for different ways of knowing and a desire for lifelong learning.

Degree Requirements

Any student who receives a D or below in a required course will not receive credit for that course and must re-take the course and earn a C- or better for credit.

Total units for degree 180

1 Students may complete the lower division coursework requirements by taking approved liberal arts courses, earning credit through the College Level Examination Program (CLEP), or taking recommended courses from local community colleges.
2 This course must be taken in the first term of enrollment.
3 The number of units earned will depend on the amount of time spent working at the internship. There is a classroom component to the internship program.
4 Units to reach 180 for the degree vary, depending on the number of lower and upper division transfer units; upper division units may be fulfilled with upper division electives available through the College of Undergraduate Studies.
Paralegal Certificate

The Paralegal certificate curriculum provides students with the practical skills, knowledge, and values necessary to become effective members of a legal team. Outstanding faculty comprised of practicing attorneys guide students in their coursework and their professional goals. Students and alumni of this program are supported by an extensive on-campus law library, access to LexisNexis, and job assistance. Our certificate program offers the most relevant and recent cutting-edge education available.

The Paralegal certificate curriculum includes 12 legal specialty courses (43 upper-division units) that can be applied to the BA In Legal Studies. Students may complete the program in one year.

Psychology

BA in Psychology

The BA in Psychology program in Pleasant Hill and Campbell engages students in a lively process of intellectual inquiry, self-discovery, critical thinking, creative synthesis, and interpersonal communication. We explore traditional and contemporary theories and methods that provide a strong foundation in the field of psychology. We also offer a uniquely expansive and integrative approach that explores emerging trends and innovative applications in psychology and allied fields. In a creative curriculum that includes lecture, dialogue, and experiential processes, our students investigate a variety of theoretical and methodological approaches: psychodynamic, behavioral, cognitive, somatic, humanistic, transpersonal, cross-cultural, family systems, ecological, and postmodern. We value the whole person—mind, body, heart, and spirit—and study human behavior, consciousness, and development within various contexts.

Because we prize good relationships, we are devoted to supporting the growth and well-being of our students and to fostering a sense of community among students, faculty, and staff. Personalized advising, coupled with a dynamic interdisciplinary curriculum, facilitates both academic development and personal transformation and so serves as a powerful pathway to professional or graduate work. Our graduates have developed vital ways of understanding, creating, relating, and being that have made them successful professionals in a variety of fields: counseling, psychotherapy, coaching, research, human resources, marketing, management, teaching, law, and many others.

The program also offers two optional Specializations: one in Transpersonal Studies, and one in Counseling. The Transpersonal Studies Specialization examines the connections between psychology and spirituality, the nature of spiritual experience, and the use of spiritual practices for transforming consciousness and behavior. The Counseling Specialization offers an introduction to key counseling theories and practices, as well as an understanding of group dynamics, somatic psychology, and community psychology.

Program Learning Outcomes

Students completing the BA degree program are expected to demonstrate:

1. Proficiency in critical and creative thinking and writing
2. Proficiency in conducting academic research and using information technologies
3. Proficiency in quantitative thinking, especially statistical skills
4. Proficiency in bringing interdisciplinary perspectives to issues and problems
5. Recognition, understanding, and respect for socio-cultural diversity
6. Knowledge and understanding of major concepts, theories, findings, techniques, and historical trends in psychology
7. Interpersonal communication skills, including effective speaking and listening
8. Ethical understanding and behavior
9. Self-awareness and ability to apply psychological principles and practices to personal issues and questions
10. Understanding of how to implement psychological knowledge, skills, and values in occupational pursuits

Degree Requirements

Note that BA in Psychology courses are offered in Pleasant Hill (COR, PYC) and Campbell (EDJ, PYJ). For simplicity, all courses listed in this catalog will have the COR and PYC prefix, although they also may be offered as EDJ and PYJ.

Choose one of the following courses:

- HSC 3100 Introduction to Living Systems 4
- HSC 4235 Science and Spirituality 4

Required course:

- PYC 3305 Counseling Psychology 4

Choose two of the following courses:

- PYC 4229 Somatic Psychology 4
- PYC 3303 Humanistic Psychology 4
- PYC 4205 Transpersonal Psychology 4
- PYC 3305 Counseling Psychology 4

Lower division breadth requirements 45
Degree requirements 72

Units to reach 180 1, 2, 3 varies

Total units for degree 180

Optional specialization in transpersonal studies (12 units) 4

Required course:

- PYC 4205 Transpersonal Psychology 4

Choose one of the following courses:

- PYC 4202 Psychology of Religion 4
- PYC 4200 Jungian Psychology 4
- PYC 4209 Spiritual Counseling 4
- PYC 4207 Integral Psychology 4

1 Students may complete the lower division coursework requirements by taking approved liberal arts courses, earning credit through the College Level Examination Program (CLEP), or taking recommended courses from local community colleges.
2 Units to reach 180 for the degree vary, depending on the number of lower and upper division transfer units; upper division units may be fulfilled with upper division electives available through the College of Undergraduate Studies.
3 Specialization units may fulfill the units-to-180 requirement, or may be in addition to the total unit for degree requirement depending on the number of lower and upper division transfer units. Students should check with their advisor on the impact of adding a specialization to their degree program and total unit requirement.
BUS 3000 Financial Accounting 4
This course covers the fundamentals of financial accounting, as well as the identification and reporting of the financial effect of economic events on the enterprise. Financial information is also examined from the perspective of effective management decision making with emphasis on the planning and controlling responsibilities of management of the enterprise.

BUS 3010 Microeconomics 3
Business decision making within the firm in a variety of market situations. Topics include supply and demand forces, consumer behavior, theories of cost and production, pricing, concepts of marginal analysis, and antitrust laws.

BUS 3015 Macroeconomics 3
Examines national income measurement and accounting including determination of total national output, employment, prices, and the causes of inflation and deflation. Focus is also on money and the monetary system including the effect of monetary policy, government spending and taxation policies, and fiscal policy. Prerequisite: BUS 3010.

BUS 3020 Business Finance 4
This is an introductory course in the principles and objectives of corporate finance. For those students who will not be taking additional finance courses, it will provide a comprehensive overview of how financial decisions are made in the business world and the considerations that are involved in making these decisions. For those students who will be continuing their study of corporate finance, it will serve as a foundation course for future learning. The course examines the Time value of Money; Analysis of Financial Statements Financial Markets and Interest Rates; Bond, Common Stock and Preferred Stock; Capital Budgeting and Cost of Capital Structure; Working Capital Management and Multinational Financial Issues. Prerequisite: BUS 3000.

BUS 3030 Business Law 4
This course provides students with the basic principles of law that are applicable to business transactions and the legal system. Topics include the legal and social forces that shape our government and business society. In addition, this course examines, analyzes, and applies the nature, formation, and system of law to the modern business environment.

BUS 3032 Essentials of Human Resource Management 4
From a talent management and multicultural workforce perspective, this course critically examines the fundamental principles of human resource management for the contemporary organization, focusing on the building, management, and development of an organization’s workforce. It discusses various approaches to managing, empowering, and motivating employees, as well as evaluating employee performance. It also discusses the role of the human resource department regarding job analysis, recruitment, retention, and training.

BUS 3033 Problem Solving and Managerial Decision Making 4
Problem solving and decision making are fundamental skills needed by all business professionals. This course focuses on developing critical thinking and analysis skills vital for making decisions in complex business situations. It concentrates on developing collaborative problem solving skills, particularly the ability to access, collect and assess information, to draw conclusions with clear supporting rationale, to gain feedback, to discern the most appropriate decision to make when there are multiple viable options, to develop an action plan that implements the decision, and to address conflict created by the decision. This course critically examines fundamental concepts related to these skills, including reason, intuition, bias, risk, groupthink, conflict resolution, decision tree, forecasting, creativity, and innovation.

BUS 3041 Statistics and Research Applications 4
This course presents the fundamental statistics concepts and their application needed by business professionals, and discusses the nature, purpose, and application of research in the business arena. Concepts covered include probability, estimation, and hypothesis testing of means and proportions; sampling techniques; correlation and regression analysis; and chi-square tests. Prerequisite: BUS 3180.

BUS 3151 Principles of Management 4
This course examines and critiques models of organizational design and the present and potential effectiveness. Students explore trends in a multicultural domestic and global society and study the impact of the development and evolution of organizations and employment.

BUS 3160 Organizational Behavior 4
This course critically examines the business enterprise as a living system, an organization comprised of diverse people who form a social unit committed to reaching a common mission. To understand the impact individuals, groups, and organizational structures have on organizational behavior, this course discusses organizational culture, approaches to leadership and management, various human resource management philosophies, organizational communication, the nature of groups and team dynamics, organizational power and politics, fundamental characteristics of job satisfaction and stress management, and conflict resolution methods. Processes for effective cross-cultural communication, team building, and valuing diversity in the workplace are presented.
BUS 3180 Math for Managers  
Introduces simple mathematics and quantitative reasoning foundations. Includes algebra, word problems, and probability and practical applications in business situations. The course will prepare students to successfully complete the Accounting, Finance, Economics and Statistics courses.

BUS 3196 Entrepreneurship  
This course is designed to provide students with an understanding of the process for identifying and evaluating entrepreneurial opportunities. Students will also learn how strategy, marketing, financing, legal matters, and cash flow impact opportunities in terms of execution and growth and how to position a new firm for success.

BUS 3400 Business Communication  
This course was designed in response to industry feedback about the communication skills needed for business graduates to successfully enter into today’s competitive marketplace. Addresses basic skills needed to both write effectively and understand verbal and nonverbal communication, with an emphasis on business presentations, professional business writing, team communication, and identifying techniques to improve effective communication among diverse workplace audiences.

BUS 3405 Ethics in Society  
From a personal, environmental, and business perspective, this course examines the theoretical and practical issues of ethics in today’s society. This course provides a framework for evaluating and improving an organization’s integrity in terms of its culture, interpersonal relations, organizational purpose, social responsibilities, and environmental obligations. Critical discussion of case analyses provide an opportunity for the development of a personal framework for professional ethical decision making.

BUS 3414 Project Management  
This course provides the theory and core methodology used to manage projects. Students learn how to use project management techniques to plan, organize, control, document, and close out their projects successfully with minimum risk. Topics explored include the project management life cycle, project start up, managing and developing diverse project teams, risk management, project plans, project schedule, work-breakdown structures, project budget, project monitoring and control, project status reporting, and project wrap-up. This course develops the principles and techniques to plan, execute, and manage complex projects. Topics include workflow analysis, quality control, and performance evaluation.

BUS 3590 International Business  
This course provides an understanding of the global business environment. The course develops an understanding how business works through application and integration of fundamental business functions. This course includes introductory aspects of marketing, finance, logistics, operations, organizational behavior, and information management.

BUS 4005 Marketing  
This course, emphasizing marketing from a product perspective, discusses the role of the marketing function in today’s organization that must compete in a highly competitive global marketplace. It critically examines core marketing principles, including branding, marketing strategy, market planning, market research, product position, pricing strategies and tactics, promotion, and understanding customers.

BUS 4037 New Ventures: Market Planning  
Building upon core business and marketing principles, critically examines the skills, behaviors, and business intelligence required to create and grow new business ventures. Discussion topics include evaluating market opportunities, designing development and growth strategies, assessing barriers to market entry and exit, building the management team, and incorporating new venture financing.

BUS 4040 Management Information System (Non-Linking)  
With organizations becoming more information driven and dispersed in nature, this course provides a critical overview of core management information system concepts, the technological infrastructure needed to operate a business, approaches to managing telecommunication, data and networking systems, and the practical issues associated with utilizing information technology in a business context.

BUS 4043 e-Business and Commerce  
Grounded in the notion of e-business, this course explores various types of e-commerce, including business-to-consumer, business-to-business, and mobile commerce. It critically examines how the Internet has changed business strategy and the structure of commerce, focusing on the essential components of an e-commerce infrastructure, managing an e-commerce operation, payment systems, the nature of online consumers, e-commerce marking communications, and ethical, social and political issues related to e-commerce.

BUS 4058 Managing Change  
This course examines and applies the process of change management. During this course students begin with an overview of change management, then examine change management models and theories, evaluate strategic and tactical factors in change management, implement a change management initiative, and consider steps for evaluating, refining, and sustaining change. It explores the models and best practices associated with innovative behavior, improvement and risk-taking among business ventures; students employ case studies, selected readings, primary research and class discussion. This course will enable students to develop competencies in managing for innovation and change; to integrate theories, models and practice of innovative behavior, and to identify sources of innovation for sustainable competitive edge.

BUS 4189 Integrated Marketing Communication  
Branding, advertising and promotions are terms used to describe the marketing function, yet each play a distinctive and separate role in an overall integrated marketing communications (IMC) campaign. The purpose of an IMC campaign is to effectively influence targeted consumers and end-users through a coordinated, seamless creative program. This course will provide a solid foundation of key IMC concepts through fun and interactive class discussions, observations of real-world advertising and promotions, plus hands-on work in developing a creative campaign in a group setting.
BUS 4385 Cultures and Comparative Management Styles  
This course is a study of the processes by which shared beliefs and expectations develop in private and public organizations; the effects of these beliefs and expectations on employees and organizational functioning; the transmission of culture to new employees; and problems and strategies in modifying an organizational culture.

BUS 4475 Organizational Collaboration  
Examines interpersonal communication from analytical, critical, and practical perspectives. The focus is on understanding the subtleties of interpersonal communication including interaction patterns, word bias, values, nonverbal behavior, tone and personal perceptions, and the role of leadership in self-managed teams.

BUS 4800 Business Internship  
Provides students the opportunity to explore specific job functions by interning at companies and observing people performing those jobs. Students may experience administrative operations, marketing, sales, finance, technology, and other departments in various capacities.

BUS 4900 Topics in Business Administration  
Topics vary according to student interest. Past topics have included nonprofit management, total quality management, and women, money, and empowerment. May be repeated for credit with a change of topic.

BUS 4995 Independent Study in Business Administration  
To be arranged with consent of instructor and approval of the dean. May be repeated for credit with a change of topic.

BUS 4996 Business Capstone 1  
This course is the capstone course for undergraduate business students. The course demonstrates a student’s acquired knowledge, integrative skills, and the readiness to progress to graduate work. Business Capstone 1 requires the student to write a detailed proposal for a capstone project including a project description, the rationale for undertaking it, level of complexity undertaken, the methodology that will be employed, the resources and sources to be used, a bibliography of theoretical references and data sources, and competencies to be demonstrated. Students will also assess the impact of their educational experience on their ethical perspectives and critical thinking skills. Students will evaluate and reflect on their personal and professional growth, the benefits of continuing their education, and the impact these elements have on their future. Minimum competencies must be demonstrated. During this course, we will investigate a variety of theoretical and practical aspects of ethics, decision-making, and application of the program to a business case. The students will include primary and secondary research into their final project, will present their findings to the School of Management, and invited guests including management representation from their organization. At the end of the proposal phase, the student will make a presentation of the
written proposal to the capstone panel that the student has recruited. Minimum representation on the capstone panel includes a faculty advisor and at least one faculty member with expertise in the project subject area or an external professional with graduate-level academic qualifications. Written approval of the project proposal must be completed in order for the student to progress to Business Capstone 2.

**BUS 4997 Business Capstone 2** 3

This course is the capstone course for undergraduate business students. The course provides an opportunity to integrate and apply learning from their professional programs of studies in a comprehensive manner. Students will also assess the impact of their educational experience on their ethical perspectives and critical thinking skills. Students will evaluate and reflect on their personal and professional growth, the benefits of continuing their education, and the impact these elements have on their future. During this course, we will investigate a variety of theoretical and practical aspects of ethics, decision-making, and application of the program to a business case. The students will include primary and secondary research into their final project, will present their findings to the School of Management, and invited guests including management representation from their organization.

**CREDIT BY ASSESSMENT [CBA] COURSES**

**CBA100 Credit by Assessment** 1-5

Units earned through assessment of prior learning experience such as corporate training; professional workshops, seminars, and conferences; licensure or certification; independent scholar ship; and appropriately supervised volunteer training.

**CBA106 Credit by Assessment** 6-10

Units earned through assessment of prior learning experience such as corporate training; professional workshops, seminars, and conferences; licensure or certification; independent scholar ship; and appropriately supervised volunteer training.

**CBA112 Credit by Assessment** 11-15

Units earned through assessment of prior learning experience such as corporate training; professional workshops, seminars, and conferences; licensure or certification; independent scholar ship; and appropriately supervised volunteer training.

**CORE CURRICULUM [COR] COURSES**

**COR 1000 Prior Learning Experience and Portfolio Development I** 3

Many students at JFKU have returned to college with a wealth of experience in many areas of their lives. Often these experiences can be examined for academic credit. Through a series of steps, beginning with an evaluation of your experiences, and using Kolb’s Experiential Model the student will develop; documentation of the learning can be submitted for a request for academic credit. The process is called Credit by Assessment or Prior Learning Assessment. In order to register for this course, you must meet with your advisor to discuss the rational for your pursuit of CBA credit. This course will prepare the students to submit a Portfolio to the evaluators for review and a request for units, the maximum number of units in any one-competency area is six units. The course introduces Kolb’s Learning Model that will be the foundation of the

**COR 1010 Prior Learning Experience and Portfolio Development II** 3

This course is a follow up to the BUS 1000 if a student wants to continue to work on submitting requests for credit for prior learning experiences. This course builds on BUS 1000 and continues with using Kolb’s Experiential Model. In order to register for this course, you must meet with your advisor to discuss the rational for your pursuit of CBA credit. This course will prepare the students to submit a Portfolio to the evaluators for review and a request for units, the maximum number of units in any one-competency area is six units. The course builds on Kolb’s Learning Model and the development of Critical Thinking Skills. The student must demonstrate writing standards acceptable at the college level, with content at either the upper or lower division level. The instructor will work with each student to ensure that the portfolio meets the requirements for quality and completeness; all required sections are completed, with sample syllabi for professional coursework, documentation for each prior learning experience and correct petition for credit. Prerequisite: COR 1000.

**COR 1170 College Algebra and Trigonometry** 4.5

[No description]

**COR 2100 Introduction to Academic Writing** 4.5

Emphasis on the mechanics and process of writing. Students hone their writing skills through essay and journal exercises, editing, discussion, and revision. Common writing difficulties are addressed. May be applied toward the lower-division general-education communication breadth requirement.

**COR 3000 Education, Self and Community** 2

Explores various dimensions of the learning process including the influence of prior learning experiences; the social construction of knowledge; the impact of culture, class, race, age, and gender on our educational experiences; and the possibilities for developing stimulating and fulfilling learning practices. At the same time, the course provides new students with a survey of the BA program—its vision, objectives and requirements—and offers them guidance in choosing a major and formulating a study plan.

**COR 3001 Introduction to the Bachelor of Arts Program** 0

Introduction and orientation to undergraduate programs in the College of Undergraduate Studies.

**COR 3100 Critical Thinking and Writing** 4

Focuses on academic essay writing, rhetorical analysis, and critical thinking; designed particularly to help upper-division students craft better academic essays. Students work on the organization, mechanics, and coherence of their writing and build greater confidence in themselves as writers. Students also discuss and practice the fundamental tools of critical thinking, analyze rhetorical devices and targeted audiences of different texts, and
attempt to apply their understanding to their own expression. The course helps students examine thesis, types of evidence, and counterarguments as well as movements between concrete and abstract, personal and universal. Each quarter, the course will be organized around a different interdisciplinary theme. Prerequisite: Any lower-division composition course, COR 3146. Hybrid format.

**COR 3145 Research Writing**
4
This course focuses on the writing of an academic research paper. Coursework is directed toward formulating and revising a topic, researching information, writing, and reviewing a quality academic paper. Emphasizes the importance of critical thinking and rhetorical analysis. The course will focus on a different interdisciplinary theme each quarter. Prerequisite: COR 3100; COR 3146. Hybrid/Online format

**COR 3146 Information Literacy**
2
This course is designed to be taken prior to or concurrently with COR 3100. Students receive a brief refresher on basic library and electronic research. Students then focus on the research issues involving their topics in the base course with hands-on work in the computer lab and guidance from the instructor. Hybrid format

**COR 3300 Research Methods**
4
Students will learn about some of the basic concepts of research and how it might be relevant in their lives. Knowledge claims behind the two distinctly different approaches of quantitative and qualitative research will be explored. The course will then concentrate on qualitative research as a method of inquiry that best fits with many questions asked in the social sciences. Student will be exposed to the most common qualitative research approaches through seeking out and reading research with a specific methodology in their field of interest. Prerequisites: COR 3100 and either COR 3146, HSC 3XXX or PLS 3002. Special Requirements or Information: Hybrid.

**COR 4000 Collaborative Problem Solving**
4
Major problems in society are not solved by individuals acting solo, nor are they solved instantly. In this course, students explore the problem solving process and apply theoretical concepts to addressing an identified community-level problem. Working in interdisciplinary teams, social-ecological theory is applied in the problem solving process and apply theoretical concepts to addressing the problem.

**COR 4106 Autobiography**
4
Focuses on identifying major themes, exploring inner meanings, and writing the first phase of an autobiography. As a supplement to this substantial writing project, instructors may design this course to involve an emphasis on some or all of the following: reading published autobiographies, dramatically performing elements of one's autobiography, painting or drawing a self-portrait, and researching the social-historical context of one's autobiography. Hybrid format.

**COR 4800 Introduction to Service Learning**
1
An opportunity for experiential learning, exploring career paths, and contributing to the community. With the service project coordinator, students select an internship appropriate to their specialization or interests and spend an average of six hours per week over two academic quarters applying theories learned in the classroom to supervised training and practice. With instructor's approval, students may forgo the second quarter of internship and instead engage in other service projects such as researching and presenting a public policy proposal or writing a grant request for a nonprofit agency. Special Requirements or Information: Prerequisite for Health Sciences majors: HSC 4200 Social-Ecology of Human Health in Global & Community Population.

**COR 4805 Practicum in Service Learning**
3
A continuation and conclusion of Introduction in Service Learning. Students engage in service relevant to their program and career goals or field study where they integrate theory and practice. Prerequisites: COR 4800.

**COR 4900 Topics in Core Studies**
1–4
Topics vary according to instructor and student interest. May be repeated for credit with a change in topic.

**COR 4995 Independent Studies in Interdisciplinary Core**
1–4
Studies and projects to be arranged with the instructor and the program chair. May be repeated for credit with a change of topic.

**Senior Project A**
4
A consecutive two-quarter course which is intended to serve as the capstone of the BA program. The course provides students the opportunity to thoroughly explore and research a topic of their choice within their area of emphasis and write a lengthy essay on their findings and conclusions. The course is divided into two quarters. The first quarter, Senior Project A, is dedicated to selecting a topic, conducting research, receiving feedback and assistance in writing, and drafting sections of what will become the final product. Prerequisite: COR 3000, COR 3300.

**COR 4999 Senior Project B**
4
A continuation and conclusion of Senior Project A. Students concentrate on drafting, revising and polishing their essays complete with appropriate bibliography and footnotes according to APA guidelines. Prerequisite: COR 4998

**COR 4999C Senior Project C**
4
This course is provided for students that need additional time to fulfill requirements of Senior Project B. In this course, students will receive additional academic support and opportunity to concentrate on rewriting, editing and generally polishing their senior project paper in preparation for final submission. The final Senior Project grade will be submitted on completion of the required work. Prerequisite: COR 4998, COR 4999.

**HEALTH SCIENCES [HSC] COURSES**

**HSC 1310 Mathematics: A Human Endeavor**
3
Mathematics is a universal language, and this course is designed to equip students for the dialogue. As an introductory course, students are invited to increase their quantitative reasoning skills and apply them to everyday problems. By understanding the fundamentals of number sequences, graphical methods, logarithms, and statistics, students will be better able to engage the sciences and humanities. These tools are relevant in the marketplace, and students can
approach their chosen professions with greater confidence. May be applied toward the lower-division general-education mathematics breadth requirement.

**HSC 3100 Introduction to Living Systems**  
4
The basic concepts of systems theory as they relate to life processes are explored including both the dynamics and the levels of complexity in natural and artificial systems and the interdependence of microscopic and macroscopic orders. Special emphasis is given to consciousness, self-replication, and self-regulation via feedback that introduces concepts such as Autopoiesis and bifurcation points. May be applied toward the lower-division general-education science breadth requirements. Prerequisites: COR 3100, COR 3146.

**HSC 3110 Anatomy and Physiology: Dynamic Living Systems Perspective**  
4
This course explores the structure and function of the human body from a dynamic systems perspective. A traditional overview of all body systems and anatomical features will be presented. Additionally, the course will explore the intersection of anatomy and physiology systems with the wellness and psycho-emotional dimensions of embodiment. Various visual, auditory, and kinesthetic learning methods will be utilized to facilitate optimum retention and practical application of primary terms and concepts. Prerequisites: COR 3100, COR 3146.

**HSC 3145 Critical Review and Writing in the Health Sciences**  
4
This course focuses on the development of research and writing skills appropriate for scholarly communication in the broad field of health sciences. Broadly these skills include (but are not limited to) understanding how to research the public health literature and scientific writing that conforms to the disciplinary expectations. Assignments include essays, article critique, a literature review, and scholarly communication. Prerequisites: COR 3100, COR 3146.

**HSC 3300 Mind, Body, Spirit and Healing**  
4
In a lecture, discussion, and experiential format, the following topics will be explored: foundations and practices of mind-body medicine, neuroscience and healing, guided imagery as a transformational tool, psychology and illness, the role of creativity in health and healing, emotions and health, breathing, movement, mindfulness, and somatic awareness.

**HSC 3305 Biology and Consciousness**  
4
This course provides an introduction to the nature, origins, contents, and theories of consciousness. Biological foundations of perception, awareness, and consciousness will be emphasized. The course will consider the phenomenology and causation of normal and pathologic consciousness.

**HSC 3320 The Soul of Caregiving**  
4
In a lecture, discussion, and experiential format, the following topics will be explored: the challenges and rewards of caregiving, self-care, avoiding burnout, stress management, communication skills for caregivers, boundaries, emotional dilemmas, interpersonal challenges, and the psychospiritual dimensions of illness. Prerequisites: COR 3100, COR 3146.

**HSC 3500 Sustainability: Meaning and Practice**  
4
Through case-study analyses, this course critically examines in depth key issues facing us. Factors such as energy conversation and usage, water resources, pollution, and new technologies will be discussed in light of political and social contexts. Students are encouraged to think critically through the lens of public health sciences as they explore and examine environmental sciences, social-ecology, psychology, politics and economics relative to sustainability of culturally diverse populations operating in a global economy. Prerequisites: COR 3100, COR 3146.

**HSC 4100 Introduction to Epidemiology**  
4
Designed to provide an exploration of the basic principles of epidemiology, students learn how to identify and describe problems, formulate research hypotheses, select appropriate
research study designs, and apply the results to prevent and control disease and health-related events. Students come away with a solid foundation of basic causal theory for identifying determinants of adverse health-related states or events and will gain a better understanding of the biological principles underlying the natural cause of disease. Prerequisites: COR 3100, COR 3146, COR 3145/HSC 4105. Hybrid format.

**HSC 4105 Introduction to Public Health Sciences** 4

This course provides a population prospective on the determinants of health and disease and the tools available to protect and promote health. Options for intervention are explored including use of the healthcare system, the public health system, and society-wide systems such as laws and taxation. Through case studies, vignettes, and extensive examples, students learn to apply frameworks for thinking about the issues of public health and gain an understanding about the health sciences. Prerequisites: COR 3100, COR 3146

<tbody>
<tr>
<td><strong>HSC 4117 Race, Class, Gender and Health Disparities</strong></td>
<td>4</td>
</tr>
<tr>
<td>Race, gender and class differences in health risk, health access and health outcome are described as health inequalities. You may ask, exactly, what defines health inequalities or health disparities? What populations experience disproportionate health risk? What are the correlates of poor health access and adverse health outcomes? What causes disparities in health outcomes? This course provides a construct for exploring and formulating answers to these challenging questions. Health continues to be an asset associated with higher education, employment, access to preventive health services and the timely adequate provision of comprehensive health care services. However, racial/ethnic and gender disparities in health persist even after controlling for the beneficial effects of and advantage conferred by education and economic well-being. What then might explain these observations? A study of societal historical and social factors might further elucidate these disturbing health disparities and provide guidance in addressing these health concerns. Prerequisites: COR 3100; HSC 4145; HSC 4200; HSC 4100. Hybrid format.</td>

<tr>
<td>This course studies the complicated political and social forces that shape the research and treatment of cancer. Who or what directs the &quot;war on cancer?&quot; What determines the research conducted, treatments advocated, and patients served? Who is looking at issues of prevention and why or why not? What is the role of cultural practices such as the pink ribbon campaign and fundraising walks in the treatment of cancer? The course addresses concerns of cancer risk and both conventional and alternative approaches to understanding cancer. Prerequisites: COR 3100, COR 3146, HSC 4200.</td>

HSC 4227 Health Behavior Theory & Health Education 4
This course examines the intersection between lifestyles and health behaviors as they relate to disease risk and health outcome. Health beliefs will be explored in the process of determining ways of understanding what causes people to adopt a healthy lifestyle or change a risky health-related behavior. Research has determined that individual characteristics in lifestyles and health behaviors are among the most significant contributors linked to health problems worldwide. However, these questions continue to challenge public health professionals as they endeavor to identify ways of addressing disparities in disease risk, morbidity, and mortality. This course examines the theoretical constructs of health theory. Students will examine the process associated with health behavior change and overcoming modifiable characteristics associated with disease risk. Through this course, students will understand the components of health behavior theory and the application of theory in health education and health promotion. Prerequisites: COR 3100, COR 3146, HSC 4200, HSC 4105.

HSC 4230 U.S. Health Care System and Health Policy 4
Health care delivery systems must adjust to social forces in society such as rising expectations, population aging, increasing prevalence of disability and dynamic population changes over time due to immigration. This course provides an introduction to the U.S. health "system" and together we will examine the components and characteristics of the U.S. health care system and explore current issues confronting the system, as well as potential means for resolving these issues. Prerequisites: COR 3100, COR 3146, HSC 4200, HSC 4220.

HSC 4233 Evolution of the Metaphysical Heart 4
This course is a journey, an exploration of both the physical and metaphysical realms of the heart. While students will learn the anatomical and physiological aspects of the heart, they also will experience the heart through the process of exploring the spiritual, emotional and intellectual manifestations of the heart. Students will consider the metaphorical meanings of the heart in love and romance; ethics and in judgment; and in the theological and spiritual aspects of life / matters of faith. Prerequisites: COR 3100, COR 3146.

HSC 4235 Science and Spirituality 4
The journey of the intellect and the heart, each of which seeks to find and experience the deepest truths of our existence, have most often not even dialogued with one another. They are now finding mutual ground and communicating with (and learning from) one another. Though their approaches are very different (as different as the mind is from the heart), they are complementing and reinforcing understandings and we are the wiser for it. This course will explore quantum physics, parapsychology, and the perennial philosophical and mystical disciplines—plus astrology, which might inform one another. The coursework includes readings on the New Physics—and embraces a living systems perspective on the mystery of spirit. The coursework also takes readings from the paranormal, mystical, and philosophical perspectives in looking at the aspects of a common reality, and moving toward a new paradigm. Prerequisites: COR 3100, COR 3146.

HSC 4300 Nutrition in Living Systems 4
A survey of energy production and use in living systems including the roles of proteins, carbohydrates, lipids, fiber, vitamins, and minerals; the effects of genetic inheritance, age, diet, and lifestyle; and the interaction of diet and the psyche. Prerequisites: COR 3100, COR 3146, COR 3145/HSC 3145. Hybrid format.

HSC 4312 Women and Integral Health 4
Many of the health issues facing us today have more to do with behavior than pathology. As the demands of work and family increase, we take less time to take care of ourselves and our health inevitably suffers. We may not get sufficient sleep, palliate symptoms with pills, or eat the wrong foods. As we age, our bodies change in significant ways. Beyond the usual life stages, we may become more susceptible to infection or allergy. Many of the symptoms we treat medically could either be avoided or mitigated with changes in structures are important to our well-being and that the quality of our relationships affects our health—as do our beliefs and expectations. This course takes a journey at not only the health-care delivery system, but also the political and economic landscape in which it operates. Students will learn about their bodies, the history of medicine (particularly as it relates to differences between standard Western and alternative models), and how politics and culture play an important role in who gets access. Prerequisites: COR 3100, COR 3146.

HSC 4315 Vulnerable Populations: Health and Social Justice 4
The reasons for health disparities are varied. This course explores the characteristics of vulnerable populations such as ethnicity, urban and rural poor, undocumented immigrants, people with disabilities or multiple chronic conditions, to understand how social forces puts members of these groups at risk for adverse health outcomes. Prerequisites: COR 3100, COR 3146.

HSC 4320 Complementary and Alternative Health Practices 4
An examination of alternative models of health care including subtle energies, holism, chiropractic, acupuncture, homeopathy, orthomolecular nutrition, kinesthetic therapies, various herbal remedies, lifestyle changes, and a range of hands-on interactive approaches that enhance the body’s curative powers. Using case studies and recent research, these non-Western, new, and ancient modalities will be evaluated as alternatives to current standard methods. Prerequisites: COR 3100, COR 3146. Hybrid format.

HSC 4325 Biocodemography of Human Aging 4
This course is designed to examine the aging processes seen during both normal and diseased aging and to explore the meaning of aging from a holistic perspective examining meaning within multicultural perspectives. Students apply an integral approach to understanding aging and to addressing the cultural perspectives and challenges associated with aging in the discovery of new possibilities. This approach fosters an understanding of the holistic, person-centered, and dynamic process of health and wellness during the aging process. The implications of aging are considered within the context of a society that is experiencing significant demographic and socioeconomic shifts. Prerequisites: COR 3100, COR 3146. Hybrid format.

HSC 4332 Culture, Illness and Healing 4
Culture informs everything we do. Our view of health and illness and how we treat illness is culturally constructed. This course explores the intersection between culture, health and illness. Case studies will be used to explore folk medicine from a number of
cultures, traditions, and contemporary, western and non-western societies. We will also examine social, historical, and ethical aspects in the application of medical anthropology and end with exploring the future role of biomedicine in a pluralistic global society. Prerequisites: COR 3100, COR 3146, HSC 3145/COR 3145.

**HSC 4377 Stress and Health**  
4  
The objective of this course is to understand the most typical physical and psychological causes of stress. The course explores the underlying physiological mechanisms of stress adaptation and how toxic situations first involve maladaptive behaviors that then might manifest as either physical or psychological diseases. Hybrid format.

**HSC 4350 Health Literacy in Diverse Populations**  
4  
This course takes a critical look at the growing field of health literacy. Students explore the multiple meanings of literacy and how limited literacy has been linked to poor health outcomes. This course explores the predominate debates in this arena from a cross-cultural perspective. Prerequisites: COR 3100, COR 3146, HSC 3145, HSC 4200. Hybrid format.

**HSC 4352 HIV/AIDS and Other Emerging Diseases**  
4  
This course will present to the student an overview of HIV/AIDS and other Emerging Infectious Disease, not only in the United States, but also internationally. Selected topic in order of significance to public health will be examined, with an emphasis on the epidemiology of the infection and its public health impact, either potential or actual. Prerequisites: COR 3100, COR 3146, COR 3145/HSC 3145, HSC 4100. Hybrid format.

**PLS 3001 Introduction to Law**  
4  
This course will provide an overview of real property law. Students will be introduced to the various causes of action and defenses resulting damages, and the various remedies available for breach of contract.

**PLS 3002 Legal Research**  
4  
This course provides an overview of the American legal system and introduces students to various legal fields and topics. Legal vocabulary and legal writing will be emphasized. This course will also provide an overview of the role of paralegals in a work environment while concentrating on the various regulations and ethical guidelines governing the work of paralegals.

**PLS 3003 Legal Writing**  
4  
This course is the advanced writing course, reinforcing the art of analyzing legal problems, writing clear and concise legal memoranda and briefs. This course will emphasize the writing component of the paralegal profession by requiring the student to research various legal problems and communicate their findings in their proper written format. Prerequisites: PLS 3002 Legal Research.

**PLS 3004 Legal Ethics**  
2  
This course provides an overview of the legal ethics facing paralegals today. This course will extensively cover the ethical rules governing paralegals developed by the American Bar Association in conjunction with the various local and state regulations pertaining to the professional work of paralegals. Emphasis will be placed on the evaluation of real-life ethical dilemmas encountered by paralegals in the workforce.

**PLS 3005 Tort Law**  
4  
This course will introduce the student to the broad area of civil tort law including negligence, intentional torts, strict liability, product liability, and nuisance. Privileges and defenses to various torts will also be introduced. Students will acquire the knowledge to define and evaluate tort law to specific factual situations.

**PLS 3006 Contract Law**  
4  
This course is designed to introduce the student to the area of contract law. Contract information will be emphasized along with evaluation of contract disputes, discharge of performance and resulting damages, and the various remedies available for breach of contract.

**PLS 3007 Property Law**  
4  
This course will provide an overview of real property law. Students will be introduced to the various causes of action and defenses...
surrounding basic real property disputes, along with the types of remedies available.

**PLS 3008 Litigation I** 4

This course is designed to introduce the student to civil litigation in federal and state courts. The rules of civil procedure will be the focus, with emphasis in the drafting of complaints, answers, and motion practice. Students will be responsible for the drafting of numerous legal documents by way of practical exercises. Additionally, this course will provide students with various interviewing and investigating skills relevant to paralegal work in a law office setting.

**PLS 3009 Litigation II** 4

This course covers evidence, discovery, trial preparation, trial practice, appeals, and non-judgment matters. Students will continue building expertise in drafting legal documents and will develop skills in organizing documents and preparing for trial including the use of technology.

**PLS 3010 Legal Technology Applications and Management** 4

This course is designed to introduce students to various types of technology often used in legal environments. The student will interact directly with the technology throughout the course. The student will be exposed to the management of a law office, including software utilized by firms.

**PLS 3011 Capstone** 1

This is the capstone course for the Paralegal Certificate Program. Students will use their skills and knowledge acquired throughout the curriculum to interview clients, prepare pleadings and discovery, and perform legal analysis through the drafting of legal memoranda.

**PLS 3015 Wills, Trusts & Estate Planning** 4

This course will introduce the student to the concepts and principles of estate planning with emphasis on the drafting of wills and trusts.

**PLS 3019 Bankruptcy Law and Creditor’s Rights** 4

Students will be introduced to bankruptcy law and procedure. Emphasis will be placed on forms utilized in bankruptcy court under chapters 7, 13, and 11. In addition, the rights of creditors will be explored including garnishments and other judicial attachments.

**PLS 3021 Real Estate Law** 4

This course will provide an introduction to real estate law including property rights, property, contracts, land ownership and sale, recording of deeds, principles of leasing agreements, and other real estate concepts. Emphasis will be placed on working a real estate file from the drafting of real estate documents from inception through closing.

**PLS 3023 Criminal Law** 4

This course is designed to introduce the student to the area of criminal law along with the roles and responsibilities of paralegals working in the private and public sector of criminal law. Criminal procedure is the focus with emphasis placed on pre-trial investigation techniques, pre- and post-trial criminal motions, trial preparation, and criminal appeals.

**PLS 3025 Business Organizations/Corporations** 4

This course will provide the student with the introduction to the formation, operation, and dissolution of various kinds of business organizations including the different types of corporations, sole proprietorships, and partnerships.

**PLS 3027 Family Law** 4

This course will introduce the student to the broad area of family law including the fundamental principles underlying the marital relationship, dissolution, child custody, and support. Students will learn how to become an effective paralegal in a family-law practice by the drafting of the various documents relating to domestic relations.

**PLS 3029 Civil Evidence** 4

This is a survey course designed to examine the basic principles of evidence in the civil trial arena. This course will focus on both the federal and California rules of evidence as well as the application of those rules in the civil trial process.

**PLS 3031 Intellectual Property** 4

This is a survey course of the principal types of intellectual property—trade secrets, patents, copyrights, and trademarks—as set forth in federal and state statutes and further defined by case law.

**PLS 3033 Public Benefits Law** 4

This course examines the law and regulations surrounding our public benefits in both our state and federal government systems. Emphasis is placed on healthcare law, social security, the ADA, welfare, and regulations governing the rights of the elderly.

**PLS 3040 Internship** 1–4

This course will provide the student an opportunity to gain practical paralegal work experience in an office environment. The student must work a certain number of hours in the office environment under the supervision of an attorney or experienced paralegal. (Note: Students are strongly encouraged to take an internship as one of their three). There is also a classroom component to this course, offering advice in resume writing, interview skills, and issues of employability.

**PLS 3105 Jurisprudence** 4

This course studies the nature, purpose, and philosophy of law. Gives the student exposure to the roots of law historically and places the legal system in perspective by examining its antecedents in religion, sociology, and philosophy.

**PLS 3107 History of the US Since WWII** 4

An introductory course designed to provide a thought-provoking treatment of the American past, focusing on the latter half of the 20th century, which at least one historian has called the age of extremes. This course is intended to put into historical perspective the dominant public events of the times. It comprises an approach to the study of history that seeks to identify possible connections among many factors—the political, social, and economic trends and cultural developments that have shaped and reshaped our society.
PLS 3109 Constitution, Supreme Court and American Democracy 4
Introduces the student to major constitutional law decisions of the Supreme Court in selected areas and also explores the role of the Supreme Court in the American government system and the political impact of its actions.

PLS 3111 Law and Social Justice 4
This is a survey course examining the civil rights of the various groups studied including people of color, people with disabilities, and gays and lesbians. Sexual discrimination against both women and men will be studied as well.

PLS 3113 Social, Cultural & Political Issues in Business 4
Addresses the interaction of law and business and the societal issues that must be a part of successful and responsible business activities.

**PSYCHOLOGY [PYC] COURSES**

**NOTE:** Psychology courses are offered in Pleasant Hill (PYC) and Campbell (PYJ). For simplicity’s sake, all courses listed in this catalog will have the PYC prefix, although they also may be offered as PYJ.

**PYC 3000 History of Psychology** 4
Investigates the origins and history of psychology, focusing on key questions, systems, processes, and methods, and how they have influenced contemporary trends. Prerequisites: Introduction to Psychology or Exploring Psychology.

**PYC 3005 Exploring Psychology** 4
Students will learn about motivation and learning, neuroanatomy, sensation, perception and motor abilities, sleep emotionality, development, personality and clinical theories, psychopathology, and clinical psychology. Special attention will be paid to the generality of many of these “Western” notions of human behavior to people of different cultures. Prerequisites: Introduction to Psychology.

**PYC 3100 Developmental Psychology** 4
An exploration of infant, child, and adolescent behavior and growth within the context of developmental psychology and the human life cycle. May be applied toward the lower-division general-education social science breadth requirement.

**PYC 3105 Psychology of Adulthood** 4
A study of the psychology of adulthood including individual development, sexuality, marriage, family life, work and career choices, social environment, mind and body interactions, and peak experiences. May be applied toward the lower-division general-education social science breadth requirement.

**PYC 3110 Aging and Personal Growth** 4
Psychophysical processes and personal growth opportunities in aging are considered in a study of meaning and purpose in late adulthood. Issues include dying, grief, loss and transcendence. May be applied toward the lower-division general-education social science breadth requirement.

**PYC 3115 Death, Dying, and Bereavement** 4
Explores the problems and processes associated with death, dying, and bereavement. Considers theories of dying and death from psychological and religious perspectives.

**PYC 3200 Personality and Psychotherapy** 4
Studies the major personality theories and therapeutic applications in clinical psychology, including body-oriented and transpersonal psychotherapies. Theorists include Freud, Jung, Ellis, Perls, and Rogers. May be applied toward the lower-division general-education social science breadth requirement.

**PYC 3210 Social Psychology** 4
Examines how social factors influence the feelings, beliefs, and behaviors of others. Explores such topics as: conformity, mass communication, propaganda, persuasion, social cognition, self-justification, aggression, prejudice, liking, loving, and interpersonal sensitivity. May be applied toward the lower-division general-education social science breadth requirement.

**PYC 3220 Biological Psychology** 4
Explores the acquisition and processing of sensory information, the neural control of movement, the biological bases of complex behaviors (such as sleep, learning, memory, sex, language, and addiction), as well as the basic functioning of the nervous system. Focuses on the brain’s interrelations with the mind and behavior and how brain malfunctions produce mental disorders.

**PYC 3305 Counseling Psychology** 4
Explores the basic concepts of the helping professions. Includes exercises to integrate practical skills with a conceptual framework. For students who have little or no experience in the field. May be applied toward the lower-division general-education social science breadth requirement.

**PYC 3310 Group Dynamics** 4
Explores theories and techniques for improving communication in personal and professional situations, including interviewing and counseling methods as well as practical exercises in communication and group dynamics.

**PYC 3330 Psychology of Relationships** 1–4
This course explores the psychology of relationships, both the dynamics of healthy relationships and patterns of relationships under stress it examines significant aspects of relationships including codependence and addictive relationships, loving relationships, and relationships in transition. May be repeated for credit with a change of topic.

**PYC 4000 Community Psychology** 4
Examines how the field of psychology can be applied to the community. Explores how psychology relates to and can offer help on such issues as the nature of community, community involvement, community organizations, conflict resolution, mediation, and diversity.

**PYC 4005 Learning and Cognition** 4
This survey course addresses historical and current theoretical assumptions and approaches to learning and cognition. Special attention is given to the relationship between learning and cognitive
process. Topics addressed include operant conditioning, social learning theory, learning styles, perception, memory, problem solving, thinking, and intelligence.

**PYC 4010 Psychological Assessment and Outcomes** 4

Examines the scope and use of various psychological assessment tools. Explores the assumptions, limits, and challenges to psychological assessment. Focuses on the construction and evaluation of psychological tests and their performance in clinical situations. Students will be engaged in self-assessment during their learning experience.

**PYC 4120 Emotions, Intelligence and Awareness** 4

Although emotions have long been considered to be secondary, if not detrimental, to our mental efficiency in finding success in life, mounting evidence demonstrates that thinking is literally impossible without feeling, that it plays an organizing role in thought itself, and that true success is totally dependent upon a highly developed emotional life. EQ is as important as, if not more so than, IQ. This course will examine the evidence and search for practical ways of developing an intelligent heart and a compassionate mind.

**PYC 4200 Jungian Psychology** 4

Examines Carl Jung’s life and works, including the basic structures of Jungian theory, the nature and structure of the psyche, and the four functions of consciousness.

**PYC 4202 Psychology of Religion** 4

This course explores psychological perspectives on the nature of religious belief, experience, ritual, values, and spiritual development. We will consider not only the psychological dimensions of religion but also the religious dimensions of the psyche and psychotherapy. Early formulations by James, Freud, Jung, and others are studied as well as subsequent theories by Fromm, Frankl, Fowler, Maslow, Wilber, and others. These perspectives include psychodynamic, phenomenological, existential, humanistic, transpersonal, and experimental approaches. Contemplative exercises will help students to explore their own relationship to religious experiences, ideas, and practices.

**PYC 4203 Humanistic Psychology** 4

This course explores the major concepts, theories, techniques, applications, and trends in the field of humanistic psychology, often called the Third Force in psychology. Influenced by humanism, existentialism, and phenomenology, humanistic psychology is fundamentally interested in human capacities and potentials. Humanistic psychology helped to birth the human potential movement, transpersonal psychology, and positive psychology. The course examines the nature of self, love, creativity, spontaneity, play, warmth, ego-transcendence, autonomy, responsibility, authenticity, meaning, transcendent experience, courage, and other topics of vital human interest.

**PYC 4205 Transpersonal Psychology** 4

Explores the higher and deeper dimensions of human experience. Examines the nature, validity, development, and value of these extraordinary experiences from diverse disciplinary perspectives: psychology, philosophy, sociology, anthropology, religion. Discusses the philosophical and empirical foundations of transpersonal psychology and the transpersonal principles used in counseling.

Theorists include Roberto Assagioli, Ken Wilber, Stanislav Grof, Francis Vaughn, A.H. Almaas, and John Welwood.

**PYC 4207 Integral Psychology** 4

Introduces the five elements of Ken Wilber’s integral theory, including quadrants, levels, lines, states, and types, and examines their relevance to psychology and as a framework for today’s world. Also explores the theories of Jung, Assagioli, Almaas and Grof. Topics include models of consciousness and human development, the relationship of Self/self, and the potential of Integral Psychology to promote personal psycho-spiritual development and social-global change.

**PYC 4209 Spiritual Counseling** 4

This course introduces the basic approaches, knowledge, and skills involved in interfaith spiritual counseling. Interfaith spiritual counseling is a companioning process that helps individuals to sense, savor, and integrate the presence and movement of spirit in their lives and to cultivate their spiritual lives. We will study interfaith and cross-cultural perspectives on spiritual experience, examine different approaches to spiritual discernment, discuss the spiritual counseling process, learn contemplative listening skills, explore the nature of prayer, and practice offering spiritual support and guidance.

**PYC 4211 Evolutionary Psychology** 4

The course is designed to introduce and critically assess the exciting and often controversial movement of Evolutionary Psychology. The emerging new field of psychology is emphatically interdisciplinary, involving all of the following: evolutionary theory, paleoanthropology, cognitive psychology, philosophy, ethics, sociology, religion, and political theory. The course will be a focused engagement that will give the student a working familiarity with both the breadth of inquiry and the goals of Evolutionary Psychology.

**PYC 4217 Creativity and Intuition** 4

Explores psychological and spiritual approaches to creativity and intuition. Students examine various theories and research findings as well as experience powerful transformative practices. Practices include: methods for inviting intuitions; techniques for overcoming creative blocks and elaborating insights; meditations that clear, focus and energize the mind; and practices that support intuition and sustain creative activity. Creative thinking, writing, drawing, and living are explored.

**PYC 4218 Healing Stories** 4

This course explores how stories and myths powerfully influence our perceptions, desires, values, and behaviors. Indeed, they shape our personal and social identities. By becoming aware of the nature of stories and storytelling, we learn to deconstruct false and disempowering stories and to create truer and more empowering ones. In this course we will examine powerful stories that do not only portray the themes of healing and transformation but also have the power to heal and transform us. As bibliotherapy reveals, when we study the stories of others’ lives, we learn new ways of seeing, valuing, and acting in the world. We will also share stories from our own lives and experiment with telling our life stories in new and more empowering ways.
PYC 4219 Neuropsychology  
This course is an introduction to neuropsychology. Neuropsychological assessment is a powerful tool used by both clinical and experimental psychologists to aid in the diagnosis, treatment, and rehabilitation of individuals with various brain disorders. Neuropsychology focuses on identifying the behavioral deficits that arise from brain pathology. This pathology includes diseases such as Alzheimer’s and Parkinson’s as well as other brain related conditions such as stroke, tumors, and head injury. Through this course students will learn about the history of neuropsychology, details of brain anatomy, various neuropsychological assessments, and the examination of behavioral deficits and neuropsychological profiles associated with a variety of brain disorders and brain conditions.

PYC 4220 Cross-cultural Psychology  
Explores the major concepts, theories, and research in the field of cognitive psychology. Examines how people perceive, learn, remember, and think about information. Topics include: perception, attention, consciousness, memory, knowledge (representation, organization and manipulation), problem solving, reasoning, decision making, language, and intelligence.

PYC 4221 Abnormal Psychology  
This course explores the definitions, categories, and characteristics of abnormal behaviors from biological, psychosocial, and sociocultural perspectives. Examines various treatment concepts while maintaining a sensitivity to cultural constructions of “abnormality.”

PYC 4222 Cognitive Psychology  
This course explores the major concepts, theories, and research in the field of cognitive psychology. We will examine how people perceive, learn, remember, and think about information. Topics include: perception, attention, consciousness, memory, knowledge (representation, organization and manipulation), problem solving, reasoning, decision making, language, and intelligence.

PYC 4223 Writing as a Psychospiritual Tool  
Scientific research has recently documented how putting pen to paper can improve physical health and decrease psychological pain. Writing is also a powerful tool to develop our creativity, access our intuition, and connect with the soul. In a lecture, discussion and experiential format, students will experiment with various writing exercises for emotional healing and spiritual growth. This is not a writing skills class and the sharing of our writing is optional.

PYC 4225 Psychology of Women  
A study of how major 20th-century theories including feminist, psychoanalytic, Jungian, and transpersonal have addressed women’s psychological issues.

PYC 4226 Psychology of Men  
Explores fundamental male issues including father-son and male-female relationships, work, play, and questions of power. Developments in male attitudes toward love, death, the family, and aging are examined.

PYC 4229 Somatic Psychology  
Explores the historical foundations of historical psychology as well as how various somatic psychology practices are applied to the development and evolution of the self. Examines somatic understandings of topics such as anxiety, excitement, stress, and personal development. Emphasizes understanding emotional expression, family systems, family interaction patterns, and self development as somatic issues. Discusses body practices such as work with breath, movement, gesture, and guided self-experience. This work can be applied clinically, socially, and personally.

PYC 4235 Psychosynthesis: Principles and Practice  
The basic concepts and techniques of psychosynthesis including presence and the art of guiding, sub-personality work, imagery, and identification and dis-identification.

PYC 4237 Kabbalah and Psychology  
Kabbalah (Jewish mysticism) offers profound psycho-spiritual insights into individual and social consciousness, action and development. In this seminar, we examine key Jewish mystical ideas and practices and discuss their relevance to contemporary psychology and spirituality. We explore the Kabbalists’ experience of an androgynous divinity, theft mapping of God’s creative androgynous powers onto human beings, and their evolutionary view of the unfolding self and cosmos. We also experience some of their transformative and healing practices: prayers, blessings, rituals, songs, chants, meditation. Comparisons are made with other spiritual traditions. No knowledge of Judaism is needed.

PYC 4241 Healing and Transformation through Poetry  
This course explores how reading, studying, and writing poetry can catalyze profound healing, growth, and transformation. We examine powerful poems by William Wordsworth, Emily Dickinson, Langston Hughes, T.S. Eliot, Maya Angelou, and other master poets. Students also have the opportunity to write their own poems.

PYC 4243 Choice, Empowerment and the Body  
Through somatic understanding and practices, we can shift away from reactive and conditioned responses. When present, grounded, and centered in our bodies, we are empowered to make conscious choices. Students will learn the benefits of being centered and discover how to apply this principle in their daily lives. In a lecture and experiential format, students will learn about the wisdom of the body and ways of integrating somatic awareness, a key to living more fully in the present.

PYC 4302 Psychology of Organizations  
This course presents an overview of the field of organizational psychology. Topics include organizational culture, leadership and management, group dynamics, conflict and negotiation, empowerment and coaching, and work stress.

PYC 4995 Independent Study in Psychology  
Studies and projects to be arranged with the instructor and the program chair. May be repeated for credit with a change of topic.

PYC 4999 Senior Capstone  
This culminating course offers students the opportunity to integrate and apply their knowledge and understanding of major psychological concepts, theories, techniques, research findings, and practices. A significant topic will be explored from the multiple perspectives of the major subfields of psychology.
College of Graduate and Professional Studies
THE COLLEGE OF GRADUATE AND PROFESSIONAL STUDIES

provides an academic environment that is rigorous, supportive, and transformative. Aspiring artists, clinicians, educators, managers, museum professionals, therapists, and consultants are offered an array of opportunities to develop the knowledge, skills, and understanding needed to reach their potential.

Our graduate-level degree and certificate programs provide a solid foundation in the theoretical bases of the field of study, opportunities for specialized study, and an abundance of supervised traineeships, internships, or other types of field studies. All of our programs are also designed to help graduates solidify their commitment and confidence to be effective change agents in their communities and the world. The programs offered are:

- Clinical Psychology
- Consciousness & Transformative Studies
- Counseling Psychology – Holistic
- Counseling Psychology – Marriage and Family Therapy
- Holistic Health Education
- Integral Psychology
- Integral Theory
- Management
- Museum Studies
- Sport Psychology
- Transformative Arts

The faculty of the College of Graduate and Professional Studies are practitioner-scholars who bring their real-world experiences into the classroom to enrich your educational experience. They are also dedicated to the success of our students – they will encourage, challenge and mentor you through your studies at JFK University.

Intrinsic to all of the programs in the College of Graduate and Professional Studies is an appreciation for ethical decision-making, human dignity, character, integrity, and social advocacy. We strive to create an environment in the classroom that reflects these tenets and that encourages student self-exploration and integration of the whole-person perspective into their educational experience and, ultimately, their future professional lives.

The admissions process to the College of Graduate and Professional Studies examines both the academic and personal qualifications of applicants to ensure that students accepted into its programs have the ability to benefit from and contribute to the University’s integrated educational experience. All applicants must complete the University’s general admissions requirements as stated in the front of this catalog. Individual programs have additional requirements which can be found in the following sections.
Arts & Consciousness

Arts & Consciousness (A&C) offers programs for artists who are interested in exploring the deepest personal, social, and spiritual dimensions of art. The curriculum encompasses studio art, academic investigation, personal growth, arts and healing, and the creation of a new multicultural context for art. New methods of artistic expression and community interaction are made possible. The spiritual aspect of art is emphasized as it relates to the individual, the environment, and the role of the artist in contemporary society.

Students bring a diversity of experiences, techniques, and interests to the classroom and studio. Program alumni are artists, teachers, creative facilitators, and cultural activists with a spiritual base—people who are creating new ways for art to serve society and affect human growth and consciousness.

All courses are designed to encourage the integration of body, mind, and spirit through the exploration of individual creative sources and the cultural and philosophical contexts which give art meaning. The program stresses the student’s use of direct experience as an artist for the creation of objects, events, and activities which facilitate growth and wellness in others. Sometimes this takes the form of professional performances and exhibitions, sometimes it manifests as teaching, healing, or ritual. Students are encouraged to explore a variety of media as part of their creative investigation. Media such as painting, drawing, printmaking, digital media, video art, poetry, and "book arts" may be explored in courses offered as part of the degree program. Students also work independently in such diverse media as sculpture, ceramics, film, music, and photography.

Arts & Consciousness offers two graduate degree programs: a Master of Fine Arts and a Master of Arts in Transformative Arts. The Master of Fine Arts (MFA) expands the connections among art, culture, and spirituality into a highly intensive use of critique and advanced philosophical inquiry. In the MFA program, students learn to contextualize their spiritual and artistic search within the framework of contemporary social-cultural dialectic. Emphasis is placed on technical and conceptual achievement as well as the development of critical skills based on academic study and intensive studio critique.

The Master of Arts (MA) in Transformative Arts supports students in their development of links between personal creative expression and social and cultural change. Strong emphasis is placed on self-inquiry and development of skills which will enable students to deepen self-awareness while simultaneously learning to serve others. Transformative Art refers to art that helps the individual or community achieve improved states of wellness and self-integration through art. Technical and formal issues related to art-making are an important part of the MA in Transformative Arts. The greatest emphasis, however, is placed on the spiritual and psychosocial dimensions of art.

Facilities

The JFK University Berkeley Campus allows A&C students to work and exhibit together in a multidisciplinary arts community. This 15,000 square-foot facility is located in Berkeley, California, approximately 20 miles from the main Pleasant Hill Campus. It is here that Arts & Consciousness courses are offered. There is a large general-purpose studio and a separate critique and movement studio. A professional-quality gallery space is available for the exhibition of student work as well as the work of distinguished artists from the community. The campus offers a digital media facility for student use as well as digital video equipment. The building’s library extension includes a collection of books and periodicals pertaining to the arts and museum studies. The Arts and Healing Network Slide archives includes slides, written materials, and a computer database documenting the work of approximately 400 contemporary artists from the United States whose artwork deals with some aspect of healing.

Arts & Consciousness offers a limited number of private studios to students on a space-available basis. These spaces are approximately 200 square feet, available at extra cost, and offer 24-hour access to student work spaces. The studios often function as the center for informal creative dialogues and exchanges. General access to other studio spaces is available to all students providing that use of these common studios does not interfere with regularly scheduled classes. Arts organizations located within a few minutes’ walk of the arts annex offer access to excellent facilities for printmaking, ceramics, photographic processing, and sculpture. Students often use these excellent facilities on a pay-as-you-go basis. Live/work studio space is also available in many nearby neighborhoods.

Mentorships

A&C students often choose to work with specially selected artists and organizations in the Bay Area. These mentorships are an integral part of the A&C curriculum and allow students to explore a broader range of technical and professional perspectives than would be possible in a more traditional academic environment. Students select artists or community organizations whose work is related to their own interests and they work individually with the mentor for a specified period, with clearly stated goals and objectives. Individual mentorships often form the basis for long-term professional relationships with other artists and they introduce A&C students to the Bay Area arts community. Community mentorships give A&C students an opportunity to use their training to serve the community as healers and teachers. Group mentorships allow students to work in small groups with a single mentor in order to facilitate collaborative works or to explore areas of special interest.

Exhibitions

The Arts & Consciousness gallery, located in the arts annex, offers a significant exhibition and performance space for Bay-area artists—particularly those working with some aspect of art and spirituality. Exhibitions and gallery lectures by invited artists give students direct contact with the art and artists who are transforming the world. These exhibitions also allow the larger community to participate in the exciting new developments in Arts & Consciousness. Approximately 3,500 people each year visit the Arts & Consciousness gallery.

Student exhibitions are also held throughout the year. MFA students generally finish the program with a solo exhibition in the A&C gallery. Other student exhibitions are held for groups of MA or MFA students whose work explores common areas related to their studies in studio or transformative arts.

Visiting Artists

An important aspect of the Arts & Consciousness program is the frequent presence of prominent visiting artists, whose work gives students a sense of their own connection to the outside art world. Gallery lectures are generally offered by artists whose work is exhibited in the A&C gallery. Artists are frequently invited to offer
non-credit lectures and workshops through the JFK University continuing education program. In addition, each quarter, visiting artists are invited to offer special classes to A&C students as part of the regular A&C curriculum (as a way of facilitating dialogue with artists whose work connects to the mission of A&C). Many classes taught throughout the year feature invited guests whose lectures are open to all A&C students.

MA in Transformative Arts

The Master of Arts in Transformative Arts (MA) supports students in their development of links between personal creative expression and social and cultural change. Strong emphasis is placed on self-inquiry and development of skills which will enable students to deepen self-awareness while simultaneously learning to serve others.

Transformative Art refers to art that helps the individual or community achieve improved states of wellness and self-integration through art. Technical and formal issues related to art-making are an important part of the MA in Transformative Arts. The greatest emphasis, however, is placed on the spiritual and psychosocial dimensions of art.

Program Learning Outcomes

- **Skill.** Demonstration of technical and formal skills associated with creative activity. Clear understanding and competence in a variety of artistic media.
- **Cultural competence.** Familiarity with cultural perspectives appropriate to work in contemporary society and cultural differences which influence creative self-expression and personal growth.
- **Creative process.** Demonstrated awareness of connections between creativity and group dynamics as well as links between individual creative process and development of pedagogical structures for creative work with others. Demonstrated commitment to ongoing, self-directed, creative activity which informs and inspires community activity.
- **Professional practice.** Competence in all professional practices associated with the candidate’s chosen career path in the arts. Awareness of potential venues for developing individual approaches to creativity in the community.
- **Academic competence.** Knowledge of contemporary and historical philosophical foundations for art as healing and social intervention. Demonstration of competent awareness of contemporary philosophical and psychological principles related to candidate’s creative work and community activity.
- **Spirituality and personal transformation.** Demonstrated awareness of links between inner and outer realities. Evidence of substantial personal and spiritual growth as a result of creative self-expression. Articulation of links between personal creative experience and spiritual awareness.

Admission Requirements

Admission to the MA in Transformative Arts (MATA) program is based on the nature, extent, and quality of undergraduate preparation, including courses in studio art, psychology, and other academic subjects. Quality of studio preparation is best judged through a portfolio of creative or visual work and written material. Any student having earned an undergraduate degree that is not prepared entirely for a graduate-level program may be required to complete undergraduate courses. Prior to admission, the graduate faculty will determine an applicant’s deficiencies in studio art, psychology, and general studies and inform the student of its findings. Any coursework taken at the undergraduate level will not contribute to the minimum number of credits required for the MATA degree. The department Chair or Core faculty may determine in the first year or first 45 units if a student needs additional preparation and, if so, the student may be required to complete additional credits for the degree.

MFA in Studio Arts

The Master of Fine Arts (MFA) in Studio Arts expands the connections among art, culture, and spirituality into a highly intensive use of critique and advanced philosophical inquiry. Students learn to contextualize their spiritual and artistic search within the framework of contemporary social-cultural dialectic. Emphasis is placed on technical and conceptual achievement as well as the development of critical skills based on academic study and intensive studio critique.

The Specialization in Performance Art offers students a performance program that integrates body, mind and spirit with social transformation, self-inquiry and professional practice through time-based artistic expressions such as improvisation, physical theater and movement.

Program Learning Outcomes

- **Skill.** Technical and formal resolution of artwork, consistent with highest contemporary standards for professional artists.
- **Cultural competence.** Integration of cultural concepts from multiple sources and awareness of cultural pluralism.
- **Creative process.** Ability to discuss verbally and in writing, as well as demonstrate through artwork, an awareness and commitment to ongoing creative process, including insight into the psycho-cultural implications of creativity and self-expression as relevant issues in contemporary art.
• Professional practice. Demonstration of professional presentation of artwork and knowledge of personal and professional practices associated with the candidate’s chosen career path in the arts.

• Academic competence. Knowledge of contemporary and historical philosophical foundations for art. Knowledge of cultural, conceptual, and formal dimensions of contemporary arts criticism and its impact on the candidate’s artwork. Demonstration of written and verbal skill which enable participation in philosophical dialogue in contemporary arts.

• Spirituality and personal transformation. Demonstrated awareness of links between inner and outer realities. Evidence of substantial personal and spiritual growth as a result of creative self-expression and cultural significance. Recognition of spiritual issues in contemporary art and culture.

### Clinical Psychology

Clinical psychology is the largest branch of the field of psychology, bringing together science, theory, and practice in order to assess and treat mental health issues. Clinical psychologists can be found working in a variety of settings, including community mental health agencies, college counseling centers, independent or group practices, hospitals, research settings, and private companies.

The demand for mental health professionals, particularly those with doctoral degrees, is expected to increase over the next decade. The rise in the number of company employee assistance programs, as well as the overall need for more counseling services as individuals struggle to cope with the pressures of everyday life and work, will contribute to this growth in demand.

The Doctor of Psychology (PsyD) in Clinical Psychology at JFK University is accredited* by the American Psychological Association and is designed for individuals seeking the highest level of training to become hands-on practitioners in the field of psychology.

Our mission is to create a program with a diverse faculty, student body, and curriculum that focuses on training practitioner-scholars who will provide comprehensive and culturally sensitive services to a variety of communities. Our particular focus on multicultural competency sets us apart from other doctoral programs.

### Doctor of Psychology (PsyD)

The PsyD degree was first recognized by the APA in 1973. Today, many PsyD programs are offered nationwide. The Doctor of Psychology (PsyD) program is designed for individuals seeking the highest level of training to become applied psychologists. Graduates are prepared for the multiple roles which contemporary psychologists must fill to competently serve their communities: clinician, program administrator and evaluator, consultant, educator, supervisor, assessor, and critical consumer of psychological research. Practical applications, advanced clinical training, and specialized fieldwork are emphasized throughout the course of the program.

At JFK University, a dedicated faculty of practitioner-scholars offers a student-faculty ratio of approximately twelve-to-one. In the selection of faculty, staff, and students, the PsyD program aims to reflect the diversity of California’s community including gender, race, physical ability, sexual orientation, and class. The PsyD program incorporates issues of diversity into all courses in the curriculum.

Students may choose to attend the program under the intensive full-time, part-time, or part-time plan. The intensive full-time plan of study takes four years to complete. Intensive full-time students complete three years of coursework (four quarters per year) plus weekly practicum hours each of the first three years. Full-time students complete their coursework in four years. After the coursework is completed, a one-year, full-time internship, or two half-time internships, are required for graduation. Students are also required to complete a clinical dissertation project. Part-time students work with their advisor to develop a modified schedule tailored to each individual student’s needs.

Students interested in a Clinical Sport Psychology degree may link the PsyD program with the Sport Psychology program. See the MA Clinical Sport Psychology Program section of this catalog.

### Accreditation

The Doctor of Psychology (PsyD) program at John F. Kennedy University is accredited* by the American Psychological Association (APA). Interested parties may contact the APA at:

Commission on Accreditation
American Psychological Association
750 First Street NE
Washington DC 20002-4242
(202) 336-5979

*Accredited on probation
Fingerprints and Malpractice Insurance

Students must have fingerprints registered with the Department of Justice, and must have student malpractice insurance (obtainable from APAGS) before beginning practicum placement.

Advisement

After matriculating into the program, students are assigned a faculty advisor with whom they meet at least once per quarter. Student performance in coursework and practica is evaluated on an ongoing basis, with formal yearly reviews. Each year must be completed satisfactorily to be advanced in the program. Failure to meet requirements for advancement will result in a referral to the Review and Advisement Committee to remediate the difficulty. In some instances, students may be required to supplement or repeat certain areas of the program or to take a leave from the program. See the PsyD Student Handbook for Review and Advisement procedure.

Integrated Professional Seminar

The Integrated Professional Seminar (IPS) is a key component of the program. This composite of courses is designed to integrate coursework with practicum throughout the program. Small groups of students meet together with a faculty member over three consecutive quarters. Depending on the year, IPS emphasizes different areas such as working with diverse populations; examining one’s own belief systems, worldview, biases, group process, and clinical case presentations. The IPS provides a supportive setting in which students may collaboratively integrate their applied and academic experiences.

Practicum I

In contrast to both Practicum II and Practicum III which are clinical placements, Practicum I is an ethnographic placement experience. The first year ethnographic practicum lays the foundation for culture- and diversity-sensitive training as well as practice in self-reflection and self-awareness. The ethnographic experience involves immersion in environments that provide unique and diverse cultural experiences for the trainees. This immersion establishes an understanding of diversity and the relationships with power, privilege, and oppression in the practice of psychology.

To this end, the purpose of the ethnographic practicum (Practicum I) is to provide first-year doctoral trainees with experience in an unfamiliar culture/setting. For a minimum of eight hours per week, first-year trainees engage in a cultural immersion experience in a setting specifically selected to expose trainees to a population with whom they have had little or no prior contact.

The ethnographic practicum (Practicum I) is not a clinical placement. Indeed, Practicum I trainees are not permitted to engage in clinical work. This placement is, however, integrally related to trainee development as clinical psychologists. It is one of the principal means by which trainees establish the foundation necessary to work with the diversity of clients that they will encounter in their subsequent clinical placements as well as their future work as professionals. This practicum (Practicum I) and its accompanying Integrated Professional Seminar (IPS-I) are designed to focus on diversity.

Practicum II

Practicum II is a clinical placement at one of over 60 available sites. The focus of Practicum II is on the supervised integration and application of knowledge gained from Practicum I placement experience and ongoing doctoral coursework. In Practicum II, trainees work 16–20 hours per week to develop skills in doing therapy including accurate assessment, conceptualization, and formulation of client cases from a multicultural/diversity perspective.

Practicum III

Practicum III also is a clinical placement at one of over 60 available sites, this time for 20–24 hours per week. The focus of Practicum III is on the supervised integration and application of knowledge gained from previous practica, and ongoing doctoral coursework. As with Practicum II, trainees develop skills in accurate assessment, conceptualization, and formulation of client cases from a multicultural/diversity perspective. However, the focus in Practicum III is extended beyond Practicum II to include advanced skills in the development of systematic and empirically justifiable plans for intervention with individuals, groups, or communities within the larger context of human diversity and social change.

Pre-Doctoral Internship

Trainees apply for pre-doctoral internship when they are in the third year of the intensive full-time curriculum. Trainees need to be registered for the relevant number of internship units for each quarter in which they are accruing internship hours.

JFK University PsyD trainees may apply for full-time or part-time internship programs that are accredited by APA, APPIC, or CAPIC. A full-time internship is completed in four quarters at nine units per quarter for a total of 36 units.
Comprehensive Written Examination

This examination is similar to the Examination for Professional Practice in Psychology (EPPP), which is one of the requirements for state licensure. The exam consists of 200 multiple choice questions and is taken after successful completion of required first- and second-year courses. Passing this exam is a requirement for advancement in the program.

Clinical Proficiency Examination

In the spring of year three, students present a written clinical case report to a panel of two faculty members who examine the student on the case. Students are expected to be knowledgeable about theory, case formulation, empirically supported treatment plans, applicable laws and ethic, and diversity issues. Passing this exam is a requirement for advancement in the program.

Satisfactory Progress

Satisfactory levels of proficiency in all competency areas in coursework and practica must be met by each student to proceed to the next year of the program. Failure to meet requirements for advancement to the next year may result in a student’s being required to supplement or repeat certain areas of the program or a student’s termination from the program.

MA Degree in Clinical Psychology

A student will be awarded a MA degree in Clinical Psychology when he or she has satisfactorily completed all required first- and second-year courses, is a student in good standing, and has passed the comprehensive written examination. This degree is non-terminal and non-licensable. Students who come into the PsyD program with an MA in Psychology are not awarded a second master’s degree.

Clinical Dissertation Project

The clinical dissertation project is an intensive study in an area of interest. Projects must reflect the program’s emphasis on diverse or underserved populations as well as the Doctor of Psychology’s clinical focus. The dissertation should integrate research findings, relevant literature, and original thought, deriving input from the population under study and contributing to the field of applied psychology. Traditional quantitative methodologies may be utilized or students can explore and utilize other research forms. Projects may take the form of a program evaluation, theoretical exploration, meta-analysis, case study or series of case studies, phenomenological study, ethnography, grounded-theory exploration, or other qualitative methodology. The dissertation proposal must be successfully defended prior to the match for pre-doctoral internships and a successful final dissertation defense is required for the degree to be awarded.

Dissertation Extension

Students who have not completed a clinical dissertation project prior to beginning the internship must register for PSD 7302 Dissertation (0.5 units) and pay a dissertation fee for each quarter that the dissertation remains unfinished. PSD 7302 may be taken a maximum of three times for credit (1.5 units). The student must continue to retake PSD 7302 until the dissertation is complete, but will not receive more than 1.5 units in total. (Students who began prior to fall 2006 may take PSD 7302 four times for credit.)

Advancement to Candidacy

In order to advance to candidacy at the end of year three of the program, each student must have satisfactorily completed all coursework, all practica, the Comprehensive Written Exam, the Clinical Proficiency Examination, and the clinical dissertation proposal defense. The student may then enter into an approved internship and begin the final phase of the program.

Individual Psychotherapy

All students in the Doctor of Psychology program are required to complete at least 50 hours of individual psychotherapy within an 18-month time period. Psychotherapy must be with a licensed therapist. Students do not receive academic credit for psychotherapy. It is recommended that students complete the psychotherapy requirement prior to beginning internship.

Licensure

Completion of the PsyD from John F. Kennedy University makes students eligible to apply for licensure as a psychologist. The licensure process is regulated by the California Board of Psychology, and requirements currently include a minimum 3,000 hours of verified supervised professional experience. Licensing statutes and regulations are subject to future legislative and/or administrative revisions. Doctor of Psychology students will be kept informed about licensing requirements and any changes that occur. The PsyD program maintains an active relationship with the licensing board. The Board of Psychology may be contacted directly at:

2005 Evergreen St. Suite 1400
Sacramento CA 95815-3894
phone: (916) 263-2699
e-mail: bopmail@dca.ca.gov
website: http://www.psychboard.ca.gov/

Model, Goals, and Objectives

The PsyD Program subscribes to a practitioner-scholar model of clinical training. The goals of the PsyD Program with their underlying objectives are as follows:

• Goal #1: Students will acquire knowledge of the foundational concepts and guiding principles of scientific psychology.

  Behavioral Science – Students will demonstrate knowledge of the science that forms the foundations of clinical psychology.

  History and Ethics – Students will demonstrate knowledge of the history, philosophy, and ethical principles governing clinical psychology.

  Development and Difference – Students will demonstrate knowledge of norms and theories of human development across the lifespan, as well as knowledge about cultural differences.

  Psychological Measurement – Students will demonstrate knowledge of principles of psychological measurement, research design, and techniques of data analysis.

• Goal #2: Students will acquire developmentally appropriate skills in each of these areas of professional psychology: Relationship, Assessment, Intervention, Research and Evaluation, and Professional Roles.
Professional Studies

College of Graduate and Professional Studies

Relationship – Students can develop, describe, and maintain constructive and culturally sensitive clinical relationships with clients, supervisors, and others with whom they interact professionally.

Assessment – Students can assess clinically relevant client characteristics, and use the information gathered to describe, conceptualize, and diagnose within a sociopolitical and cultural context.

Intervention – Students can engage in effective, theory-informed, research-based, culturally appropriate activities that promote, restore, sustain, or enhance positive functioning and a sense of well-being in clients through preventive, developmental, or remedial services.

Research and Evaluation – Students demonstrate the ability to interpret, design, and implement clinically and culturally appropriate research.

Professional Roles – Students can articulate the theoretical and empirical foundations of, and demonstrate the basic skills of: supervision, management, consultation, and education in a multicultural professional environment.

- Goal #3: Students will demonstrate the personal and professional attributes of multi-culturally competent practitioner-scholars.

Awareness – Students recognize, value, and work consciously with individual and cultural differences within intersecting systems.

Professional Conduct and Attitude – Students conduct themselves in accordance with professional standards, laws, and ethics.

Scholarship – Students demonstrate their commitment to the practitioner-scholar model of clinical psychology.

In addition to the University requirements listed previously in this catalog, applicants to the PsyD program must provide the following:

- Official transcripts from all colleges and universities attended. Note: An undergraduate GPA of 3.0, or a graduate GPA of 3.5, is required.

- For those who do not have or are not currently pursuing a degree in psychology or a related field, transcripts must include at least 4 completed undergraduate or graduate courses in psychology or a closely related field at the time of application.

- A bachelor’s degree from a regionally accredited institution. (International applicants to the PsyD program must have the equivalent of a U.S. bachelor’s degree.)

- A personal statement, no longer than four double-spaced, typewritten pages. The statement should reflect the applicant’s interest in the field of psychology and diversity, and rationale for applying to this program.

- A resume/vitae.

- A recent and representative sample of academic writing (sample academic paper). The sample should be no longer than ten pages and should include the applicant’s name.

- Three letters of recommendation which attest to the applicant’s suitability for a Doctor of Psychology program are required; two of the three recommendations will preferably be from former or current instructors.

Applications will be evaluated by the PsyD Admissions Committee. Applicants deemed most appropriate for admission will be contacted by the program to schedule an interview.

The Graduate Record Examination (GRE) score is not required of applicants.

The early consideration application date is December 13. The general consideration date is January 17. The application and all supporting documents need to be received by this date. Applicants are admitted for the fall quarter only.

The following four classes are required prior to enrollment in the PsyD program. These classes need to have been taken at a regionally accredited University within the past ten years with a grade of C or better in an undergraduate program or a B- or better in post-undergraduate work:

- Diversity-related class
- Introduction to Psychology
- Survey course on Theories of Personality
- Statistics

Transfer Credit

The maximum number of approved credits that may be transferred into the PsyD program from master-level courses is 18. Students requesting course transfer credit must have attained a grade of “Credit” or a letter grade of B or higher from a regionally accredited institution. The course(s) in question must have been taken within the last eight years. A maximum of 30 credits of doctoral-level course work in clinical/applied psychology may be transferred. Although transfer credit may reduce the cost of the program, it will not reduce the overall length of the program.

* A minimum of four psychology classes.
Transfer credit is not permitted into the linked MA Sport Psychology/PsyD programs.

**Degree Requirements**

To receive the Doctor of Psychology degree, the student must meet the following requirements:

- The Comprehensive Written Examination and the Clinical Proficiency Examination must be passed.

- Fifty hours of personal psychotherapy must be completed.

- All training logs and supervisors’ evaluations must be submitted to the Training Office.

- The dissertation must be successfully defended.

- After admission to the Doctor of Psychology program, all academic requirements must be completed in residence, except for transfer credit units.

- A full-time load of 36 units must be carried for a minimum of one year.

- A minimum grade of B- is required in each course applied to the degree.

- An overall grade-point average of 3.0 must be achieved in all work for the PsyD.

- All program requirements must be completed within eight calendar years of matriculation.

- Candidates for doctoral degrees are required to file a Petition for Degree and pay the required fee by February 15 of the year prior to beginning internship.

1 These courses or their approved equivalents are prerequisites to the Doctor of Psychology program. All prerequisite courses must be completed prior
to attending first-year Doctor of Psychology courses, with official transcripts documenting successful completion on file in the registrar’s office. Prerequisite courses completed after the awarding of the bachelor’s degree must have a grade of B- or better. Prerequisite courses may be taken at any regionally accredited, approved college or university.

2 This is a repeatable course and must be taken multiple times to total the number of units indicated.

3 Students in good standing who have passed the comprehensive written examination will be awarded an MA degree in Clinical Psychology after satisfactorily completing all first- and second-year courses. This degree is non-terminal and non-licensable.

Consciousness & Transformative Studies

Consciousness & Transformative Studies program offers a multifaceted approach to the exploration of consciousness, particularly in relation to vocation, mentorship, sustainability and new paradigm thinking. This holistic curriculum integrates five major fields of study—psychology, philosophy, spirituality, deep ecology, sustainability and new science.

The program offers the following graduate degree and certificate:

• Master of Arts in Consciousness and Transformative Studies with specializations available in dream studies; east-west philosophy and religion; science and consciousness; culture and consciousness; and consciousness and healing.

• Certificate in Ecotherapy.

MA in Consciousness & Transformative Studies

The Master of Arts in Consciousness & Transformative Studies degree provides a 68-unit curriculum with courses that challenge students’ beliefs, examine the relationship between consciousness and the world, and explore new possibilities for personal, social, and global transformation.

Courses are designed to provide a new scientific paradigm for the study of consciousness and transformation. Personal growth and creativity are explored through courses in myth, symbol, dreams, and indigenous knowledge. The examination of East/West traditions presents different paths to spiritual awareness. The nature of intelligence, insight, and human consciousness is explored through courses in transpersonal and integral psychologies.

Learning outcomes for the program include awareness and understanding systems theory, innovative thinking, psycho-spiritual transformation, whole-brain learning and metacognition, intra- and interpersonal intelligence, transformational change, and life service.

Students may choose 5–7 units of electives plus an additional three units of self-exploration from various programs throughout the University. There are two options for completing the degree program, either a four-unit thesis or a two-unit integrative project.

Students who wish to focus their MA more deeply in one area may elect to declare an optional specialization in one of the following areas:

• Consciousness and Healing
• Culture and Consciousness
• Deep Sustainability
• Dream Studies
• Ecotherapy
• East-West Philosophy and Religion
• Science and Consciousness
Program Learning Outcomes

Learning outcomes for the program include awareness and understanding of systems theory, new paradigm thinking, psycho-spiritual transformation, whole-brain learning and metacognition, intra- and interpersonal intelligence, transformational change, and life service.

Academically and professionally, students will be able to:

- Explain key theories of consciousness from the perspectives of transpersonal psychology, philosophy of consciousness, quantum physics, living systems theory, and spiritual systems.
- Create a holistic paradigm of consciousness that integrates the above five perspectives.
- Apply a holistic paradigm of consciousness to the development of emotional intelligence and interpersonal communication.
- Apply a holistic paradigm of consciousness to a professional interest or career objective.
- Apply a holistic paradigm of consciousness in some concrete application that fosters social change in the world.

Personally, students will demonstrate the ability to:

- Engage in whole-brain learning that fosters experiential engagement and creative expression as well as knowledge acquisition and skills development.
- Recognize different world views operating in our own lives and society at large and apply that knowledge to personal and global issues that confront us.
- Engage in psycho-spiritual self-reflection and self-inquiry to obtain deeper awareness of our own physical, mental, emotional, and spiritual states.
- Recognize and appropriately acknowledge their own and others’ needs, assumptions, values, and perspectives.
- Recognize the values and contributions of people of different races, genders, sexual orientations, cultures and spiritual traditions and apply that understanding in their interactions with others.

1 These undergraduate courses or their approved equivalents are prerequisite to the graduate program. Students who have not completed them prior to admission are required to do so during the first year of graduate study.
2 This requirement must be satisfied by taking IPP courses 5300-5399. Consult an advisor for guidance.
3 Consult with an advisor for appropriate course selections.
4 Students taking the Integrative Project option complete seven units of electives. Students writing a thesis complete five units of electives. Electives may be chosen from graduate courses offered throughout the University. Students admitted to certificate programs in the College of Graduate and Professional Studies may also apply these courses toward their electives.

Consciousness and Healing Specialization

The relationship between consciousness and physical, mental, emotional, and spiritual healing has been well documented in recent years. Many studies show a direct relationship between objective brain and body functioning and subjective states of mind and consciousness. The 16 units in this specialization allow students to explore the fascinating implications of the mind/body/spirit equation in terms of physical health, psychological well-being, and personal longevity.
The specialization in Consciousness and Healing explores the relationship between consciousness and our ability to heal ourselves, physically, mentally, emotionally and spiritually.

### Culture and Consciousness Specialization

The role of culture throughout the world has been to provide personal and collective meaning that supports and enriches our human experience. The increasing fragmentation of post-modern Western society and our planetary ecological crisis is bringing with it a profound loss of personal and collective meaning. This 16-unit specialization allows students to explore the deeper levels and patterns of our personal and collective experience to create new meaning for the future.

The Culture and Consciousness specialization explores the impact of culture and cultural awareness in expanding individual and collective consciousness.

### Deep Sustainability Specialization

The Deep Sustainability Specialization addresses the increasingly urgent need to position academic and professional work within an environmental context. Students within this specialization learn important and intimate interconnections between self, consciousness, and world. Courses prepare students to be environmentally awake community mentors for the necessary transition toward a life-sustaining civilization that respects and serves human and planetary needs.

### Dream Studies Specialization

The Dream Studies specialization is one of the few accredited interdisciplinary dream studies curricula in existence. The 16 units of courses that make up the specialization are taught by experts, authors, and researchers who have dedicated their lives to exploring this important state of consciousness. Graduates who complete the dream studies specialization use their specialized dream studies knowledge in a variety of careers, including teaching, personal coaching, research, writing, art, and other creative endeavors.

This specialization is open to students in all JFK University programs that have adequate electives to accommodate the specialization. This is an interdisciplinary exploration of dreams from scientific, psychological, spiritual, indigenous and contemporary perspectives.

### East-West Philosophy and Religion Specialization

In this increasingly polarized global society, beset by deep schisms in philosophies and spiritual traditions, it is crucial that we expand our understanding of both Eastern and Western philosophic and spiritual perspectives. The 16 units in this specialization allow students to focus deeply on the wisdom of both the East and the West to foster new awareness of self and the global community.

### Science and Consciousness Specialization

Emerging research in quantum physics, neuro-physiology and brain science is revealing remarkable new mind/body connections with important correlations for understanding human consciousness. The 16 units in this specialization allow students to explore these emerging topics and their dramatic implications for consciousness.

---

Other electives for this specialization include selected courses in CNS, HHE, and A & C. Please consult advisor for specific courses.
Certificate in Ecotherapy

The Ecotherapy Certificate offers training in evidence-supported approaches for transforming the human relationship to nature in the service of healing and well-being. These deep approaches, fashioned for both personal- and community-level work, include horticultural therapy, animal-assisted therapy, time stress management, managing "eco-anxiety," and critically analyzing the media's role in the debate about mass-produced food.

The Certificate is a one-year program open to individuals holding a Bachelor of Arts or Science degree. Students will learn theory and information online and practice by participating in two three-day intensive meetings in person. This is the only academically-based ecotherapy program in the world. This certificate is offered as a combination of online and classroom-based learning.

Program Learning Outcomes

Students completing the Certificate in Ecotherapy will be able to:

- Apply a variety of nature-based techniques for use in social and psychological healing.
- Understand and discuss the research supporting the field of ecotherapy.
- Mentor their communities of origin in the psychological, scientific, somatic, and systemic dimensions of sustainability. This includes a capacity for translating ecological concepts into understandable terms and educational images in a variety of media.
- Enter intelligently into the scientific, financial, and political discourse surrounding sustainability, localization, alternative energy, food production, and climate change.
- Offer constructive alternatives to "eco-anxiety," the deep fears aroused by accelerating climate change.
- Challenge and change entrenched attitudes and biases that prevent adaptation to environmentally wise solutions and habits.
- Apply learnings gained within an internship work setting.

Admission Requirements

Applicants for the Ecotherapy Certificate must submit:

- Official transcripts.
- A personal statement of 5 to 8 pages describing their interest in the program, prior experience (if any) in the healing and teaching arts, and how they plan to use what you learn professionally.

laws of the State of California as they pertain to the profession of counseling psychology and are practiced in making ethical choices and decisions. Recent data implicate that 77% of our graduates passed the California Marriage and Family Therapist (MFT) license examination.

**Field Placement**

Students in the MA in Counseling Psychology - Holistic degree program gain therapeutic experience and develop clinical skills through required 12 units of field placement. Students complete their field placement at the University’s Center for Holistic Counseling in Oakland, Community Counseling Center in Sunnyvale, or at another approved community-based site.

The 12 units (four consecutive quarters) of supervised field placement are integral to students’ clinical training. Students are trained to conduct screening interviews, crisis intervention, assessment, referral, and community outreach. Students have ample opportunity to share their clinical experience with other trainees and to receive feedback on their work from skilled practitioners. Working with the guidance of experienced, licensed therapists, trainees are assisted in developing therapeutic skills through a variety of means, including individual and group supervision, training sessions, individual and family case seminars, direct observation through one-way mirrors, and use of audio and videotape. Students may sometimes be required or have the option to take a fifth quarter of field placement.

Supplemental field placement is for students who wish to gain clinical experience in addition to their required 12 units of field practicum and wish to count those hours of experience towards BBS licensure. In order to be eligible a student must complete at least 18 quarter units of graduate coursework in the counseling program. Those 18 units must include Therapeutic Communication A–B (HSJ 5105–06, SPC 5323–24, or TPC 5213–14), Group Process A–C (HSJ 5101–03, SPC 5004–06, or TPC 5004–06), and Ethics and the Law (HSJ 5235, or HPC 5235). After receiving permission from the field placement coordinator and the program chair or director, a student must register for the one-unit supplemental fieldwork course for each quarter.

**Individual Psychotherapy**

The program considers it essential that a practicing therapist understand the therapy process on a first-hand and personal basis. All students in the counseling psychology program are required to complete at least 12 months or 48 hours of weekly individual psychotherapy with a licensed therapist or intern. In some cases students may be required to complete more than the 12-month minimum requirement. Students receive no academic credit for this and must make financial arrangements directly with the therapist. Students must start their psychotherapy on or before the beginning of the second year in the program.

Individual therapy gives students the opportunity to work on personal concerns and issues that may affect their work with clients. The therapist acts as an exemplar: students studying to become therapists have an opportunity to extend their expertise by direct supervision from an experienced professional. These hours can be applied toward MFT licensing requirements if done with fully licensed practitioner.

**Spiritual/Somatic Practice Requirement**

In keeping with the program’s recognition that daily spiritual/somatic practice is fundamental to growth in consciousness, students in the program are required to practice a discipline. Sitting meditation, somatic disciplines such as tai chi, yoga, or aikido, or the practice of other comparable disciplines are all acceptable possibilities. Students determine which discipline best serve their needs and are expected to articulate how the discipline has contributed to their individual growth in writing or during the year-end review.

**California MFT Licensing Requirements**

The Master of Arts degree in Counseling Psychology - Holistic with a specialization in Transpersonal Psychology, Somatic Psychology, Holistic Studies or Integral Psychotherapy meets the educational requirements for the California Marriage and Family Therapist (MFT) license. Licensing statutes and regulations are subject to future legislative or administrative revisions. (Counseling psychology students will be kept informed about MFT licensing requirements and changes as they occur.)

A description of the requirements of the law (Business and Professional Code §§4980.37 and 4980.38), and the way in which the program meets these requirements are available from the College of Graduate and Professional Studies.

**Performance Review and Evaluation**

Following admission, there is an ongoing evaluation of each student’s academic performance and readiness to continue in the program. When an evaluation indicates that a student’s performance falls below the standards of the Department of Counseling Psychology, a student may be required to take additional coursework, complete additional supervised field experience, undertake personal growth work, take a leave of absence, or withdraw from the program.

After one year in the program and completion of the courses listed below, students are given a year-end progress review. This year-end review is a supportive team process involving the review of written faculty feedback and evaluation, grade standing, and an assessment of the individual’s overall readiness to proceed further in the program.

**Center for Holistic Counseling**

The Center for Holistic Counseling in Oakland provides supervised training for advanced students in the counseling psychology program and offers high-quality, affordable psychotherapy to the community. The Center has provided comprehensive and confidential counseling services to the diverse ethnic and socioeconomic communities of the East Bay for over 25 years.

The Center offers a safe setting where adults, children, adolescents, and seniors have the opportunity to find inner strength and direction through personal counseling. Clients are actively supported as they grow personally and spiritually from the challenges and joy found in their everyday experiences and relationships. A wide variety of issues are addressed, including family conflicts and parenting, relationship problems, anxiety and depression, sexuality, grief, and spiritual crises.
The Counseling Center provides a one-year traineeship for students preparing for the Marriage and Family Therapist (MFT) license. Advanced students are offered a supportive atmosphere to work with clients in a therapeutic setting. The center also helps students ground their spiritual aspirations in practical service to others. Students receive extensive training in clinical skills, while working with individuals, children, couples, families, and groups under the supervision and guidance of experienced, licensed therapists.

- Display the capacity to build a therapeutic relationship with client.
- Demonstrate a high level of clinical skills.
- Articulate theoretical comprehension and apply critical thinking.
- Exhibit holistic self-awareness and embody professionalism.
- Articulate and apply the principles of the program specializations (Transpersonal, Somatic, Holistic, Integral).

### Specialization in Holistic Studies

The Master of Arts degree in the Counseling Psychology - Holistic program with a specialization in holistic studies prepares students for careers as psychotherapists with a special emphasis on transpersonal and somatic approaches to psychotherapy. This program is offered at our Campbell campus only.

This degree specialization offers a strong foundation in basic counseling theory and practice. The program combines theoretical and experiential learning modalities and emphasizes personal growth and development. Students engage in self-reflection throughout the program. Core coursework allows students the opportunity to develop awareness of their own process while developing counseling, interpersonal, and communication skills. Students also explore the integration of body, mind, emotions, and spirit in their work through content in body-oriented psychotherapies, transpersonal counseling, Jungian psychology, and humanistic psychology.

Transpersonal psychology addresses many of the same client issues and utilizes many of the same methods as more traditionally oriented therapies. However, transpersonal psychology also emphasizes the quality of presence and authenticity of the therapist, an openness to expanded states of consciousness, and a trust in the client's innate health and inner guiding wisdom. Transpersonal therapists may also utilize meditation, breath awareness, or imagery methods. The coursework in transpersonal psychology deepens students' knowledge of the role of meditation, dreams, archetypes, myth, and ritual in fostering psychological and spiritual well-being.

Somatic psychology courses investigate the ways emotions, attitudes, and beliefs are often embedded in one's physical structure, posture, expression, or voice. Movement seminars explore the reciprocal relationship between movement and the psyche. Students learn to utilize movement and body meditation techniques, work through emotional and energetic blocks, and cultivate body-mind-spirit integration. Students are encouraged to pursue both spiritual practices and somatic disciplines as a foundation for their work with others. In addition the program provides focused emphasis in Buddhist Psychology and Queer Consciousness.

### Program Learning Outcomes

- Display the capacity to build a therapeutic relationship with client.
- Demonstrate a high level of clinical skills.
- Articulate theoretical comprehension and apply critical thinking.
- Exhibit holistic self-awareness and embody professionalism.
- Articulate and apply the principles of the program specializations (Holistic, Integral, Transpersonal, Somatic).

Specialization in Integral Psychotherapy

The integral psychotherapy specialization is based on the All Quadrant, All Level (AQAL) framework of Ken Wilber and others. The content and pedagogy of this specialization is drawn from courses already offered in the MA degree in Integral Psychology. The Integral Psychotherapy Specialization uses the AQAL Model as a framework for the study of psychotherapy and counseling and the inclusion of an Integral Life Practice.

The integral specialization furthers the evolution of modern psychology by bringing the integrated perspective as articulated in the AQAL model. The AQAL model brings a multi-perspective and systematic view of psychology that recognizes the importance of the individual and collective subjective and the individual and collective objective dimensions of the human experience that are the four quadrants of mind, body, culture and systems. The model further recognizes the importance of developmental levels as well as lines of development. These developmental lines include cognitive, moral, and interpersonal among others. The model also recognizes the various states and types of consciousness that are aspects of the human experience.

Having originally emerged from transpersonal psychology, integral psychotherapy includes the techniques for psychotherapy that have proven useful over the last 40 years; therefore students share many clinically oriented courses with the transpersonal psychology specialization. Integral psychotherapy also includes traditional, modern, and post-modern approaches in an integrated and systematic way, using the AQAL model as its framework.

The Integral Life Practice is also a unique aspect of the program. ILP consists of “modules” that are engaged by students to deepen their development and transformation both in terms of depth and breadth. The core modules include Body, Mind, Spirit, and Shadow. This ILP practice would take the place of the spiritual or somatic practice requirement in the transpersonal, somatic and holistic specializations.

Clinicians with an MA degree in counseling psychology with a specialization in integral psychotherapy are uniquely suited to administer to a growing population of people interested in a more integral approach. By sharing courses with the students and faculty in the MA degree program in Integral Psychology the students in the Integral Psychotherapy Specialization are engaged in an exchange of ideas and perspectives that furthers the important study of human consciousness and psychology.

Program Learning Outcomes

- Display the capacity to build a therapeutic relationship with client.
- Demonstrate a high level of clinical skills.
- Articulate theoretical comprehension and apply critical thinking.
- Exhibit holistic self-awareness and embody professionalism.
- Articulate and apply the principles of the Integral specializations.

### Specialization in Somatic Psychology

The central principle of Somatic Psychology is that soma and psyche are inseparable. Emotional, cognitive, and spiritual experience must therefore be actively interwoven with the embodied process in therapeutic work. The MA degree program in Counseling Psychology with an emphasis in somatic psychology is a professional training in psychotherapeutic practice from an integrative, whole-person model. It provides students with professional clinical skills of assessment, diagnosis, and treatment with a particular emphasis on somatic processes, such as somato-sensory experience, sensorimotor development, movement expression, structural patterning, and regulation of physiological states. This master's level degree program is one of a very few in the world that integrates the study of the body and psycho-emotional process in the practice of psychotherapy.

The program offers a strong foundation in basic counseling theory and practice. It combines theoretical and experiential learning modalities and emphasizes personal attitudes and beliefs that become embodied and expressed in one's posture, gesture, voice, movement, and ways of relating. Movement seminars explore the reciprocal relationship between movement and the psyche. Students learn to utilize movement and somatic awareness techniques to work through emotional blocks, allow tension patterns to soften, and cultivate body-mind-spirit integration. Courses focusing on trauma and stress negotiation provide students with the clinical understanding of hyperaroused physiological states, the importance of working within the “window of tolerance” and practical resourcing skills. Students are encouraged to pursue both spiritual practices and somatic disciplines as a foundation for their work with others.

As an integrative program the JFK University somatic psychology program is informed by several disciplines, including attachment theory, psychodynamic and humanistic therapy models, prenatal psychology, neurodevelopmental and psychobiological perspectives, traumatology, psychoevolutionary theory, and ethology. In addition to a core curriculum, the somatic program offers students the opportunity to explore contemporary schools of somatic psychology, such as neo-Reichian work, Hakomi, Bodynamics, Bioenergetics, Authentic Movement, Biosynthesis, Somatic Experiencing, Sensorimotor Psychotherapy, and Psycho-Physical Therapy.

### Program Learning Objectives

- Display the capacity to build a therapeutic relationship with client.
- Demonstrate a high level of clinical skills.
- Articulate theoretical comprehension and apply critical thinking.
- Exhibit holistic self-awareness and embody professionalism.
- Articulate and apply the principles of the somatic specialization

Specialization in Transpersonal Psychology

The transpersonal perspective includes the wisdom and methods of the psychoanalytic, behaviorist, and humanistic orientations, and expands them to create a more integral/holistic perspective that includes the spiritual aspects of human experience.

This perspective emphasizes the counselor’s presence, openness, and authenticity as central to the therapeutic process. It maintains a respect for the client’s self-healing capacities and views emotional dysfunction as an opportunity for growth. Transpersonal psychotherapists are interested in exploring the interaction and integration of personality, feelings, and spirit, empowering their clients to connect with their essential self and to fulfill their soul’s purpose. Using traditional psychotherapeutic tools, as well as dream work, presence, guided visualization, expressive arts, and meditation, transpersonal therapists facilitate processes that support their clients’ self discovery and access their inner wisdom. Students are asked to pursue embodied spiritual practices as a foundation for their work with others.

The program offers a strong foundation in basic counseling theory and practice. It combines theoretical and experiential learning modalities and emphasizes personal growth and development. Transpersonal psychology courses investigate the relationship between self and spirit, self and body, and body and spirit. In addition to the in-depth core curriculum of the Counseling Psychology - Holistic program, students explore contemporary schools of transpersonal, holistic, and integral psychology. Students are encouraged to pursue both spiritual and psychological practices as foundation for their work with others.

Program Learning Objectives

- Display the capacity to build a therapeutic relationship with client.
- Demonstrate a high level of clinical skills.
- Articulate theoretical comprehension and apply critical thinking.
- Exhibit holistic self-awareness and embody professionalism.
- Articulate and apply the principles of the transpersonal specialization

1 This requirement must be completed prior to year-end review.
2 These undergraduate courses or their approved equivalents are prerequisite to the graduate program. Students who have not completed them prior to admission are required to do so during the first year of graduate study.
3 Choose from PHR 4407, PHR 4412, PHR 4413, PHR 4420, PHR 4430. See course listings for details or consult an advisor for further information.
4 This course is a three units (six elections) of this course.
MA in Marriage and Family Therapy (formerly Counseling Psychology)

Encompassing the mission of John F. Kennedy University and the College of Graduate and Professional Studies (CPS), the Master of Arts (MA) in Marriage and Family Therapy program supports student learning and faculty involvement that integrates academic endeavor, clinical practice, and the unique development of each student. The goal of the program is to develop excellent future practitioners. The program and experienced faculty achieve this by providing intimate classroom learning experiences, offering hands-on supervisory feedback in clinical practicum settings, and encouraging personal exploration and growth in the student’s own psychotherapy experience. Graduates of the program proceed to licensure and professional positions providing mental health services in a variety of settings. The necessity of post-degree learning is encouraged and emphasized.

The Master of Arts (MA) in Marriage and Family Therapy course of study fulfills all educational requirements for the California (CA) Marriage and Family Therapist (MFT) license, and with additional coursework, the requirements of the California Licensed Professional Clinical Counselor (LPCC) license as well. These programs prepare students for future clinical work in both private practice settings, county and community based agencies.

SCOPe OF PrACTiCe – Marriage and Family Therapists

The Scope of Practice of a Marriage and Family Therapist is defined by Section 4980.02 of the Business and Professions Code. This provision allows practitioners to perform services “...with individuals, couples, or groups wherein interpersonal relationships are examined for the purpose of achieving more adequate, satisfying, and productive marriage and family adjustments.” “The application of marriage and family principles and methods includes, but is not limited to, the used of applied psychotherapeutic techniques...”

SCOPE OF PRACTICE – Licensed Professional Clinical Counselors

The Scope of Practice of a Licensed Professional Clinical Counselor is defined by 4999.20 of the Business and Professions Code. “Professional Clinical Counseling means the application of counseling interventions and psychotherapeutic techniques to identify and remediate cognitive, mental, and emotional issues, including personal growth, adjustment to disability, crisis intervention, and psychosocial and environmental problems.” “Professional Clinical Counseling is focused exclusively on the application of counseling interventions and psychotherapeutic techniques for the purpose of improving mental health...” The LPCC license also permits assessment and treatment of families provided additional training and education has been completed. Our degree, the MA in Marriage and Family Therapy includes this additional training and education.

California MFT and LPCC Educational Licensing Requirements

The MA in Marriage and Family Therapy program meets the educational requirements for the California Marriage and Family Therapist (MFT) license. Licensing statutes and regulations are subject to future legislative or administrative revisions. Students will be kept informed about MFT licensing requirements and any changes that occur.

A description of the requirements of the law (Business and Professions Code Sections 4980.37 and 4980.38) and how the program meets these requirements is available from the Counseling Psychology office.

The MA in Marriage and Family Therapy program, with the addition of required course work, meets the educational requirements for the California Licensed Professional Clinical Counselor (LPCC) license. Licensing statutes and regulations are subject to future legislative or administrative revisions. Students will be kept informed about LPCC licensing requirements and any changes that occur.

A description of the requirements of the law (Business and Professions Code Section 4999.10) and how the program meets these requirements is available from the College of Graduate and Professional Studies.

Curriculum

The MA in Marriage and Family Therapy curriculum covers a breadth and depth of core knowledge and skills in the field through a variety of theoretical orientations to therapy. The program is committed to interweaving essential themes such as community mental health practice, cultural diversity, systemic thinking, collaborative treatment, wellness, resiliency, recovery, and the impact of social stressors throughout sequential coursework. Additionally, the program promotes the development of the Self of the Therapist by increasing the student’s self-knowledge through an ongoing examination of the student’s own values, beliefs, cultural background and contexts, abilities and growth areas. The guiding philosophy of the program resides on the perspective that achieving proficiency in these areas prepares future clinicians to provide effective culturally-sensitive services for a wide range of clinical situations, from those that may be brief to those most severe, co-occurring and persistent. The program teaches and trains future
clinicians through a combination of didactic and experiential classroom learning and supervised intensive practicums. The program reflects contemporary issues in the field and essential skills of effective practitioners.

This innovative, applied, 90 unit program, (additional 19.5 units for added LPCC coursework) is composed of three phases: Phase I (coursework), Phase II (practicum, coursework, and written comprehensive examination), and Phase III (practicum, coursework, and oral comprehensive examination). Successful completion of each phase is required in order to advance to the next phase.

Students have a choice of full- or part-time programs at the Pleasant Hill or Campbell campuses, including a morning option as well as the traditional late afternoon/evening program. In addition, an accelerated full-time cohort program is available at the Berkeley campus with consideration being given to a morning option at that site.

The student body is highly motivated and diverse. The faculty consists of an experienced group of Scholar-Practitioners who bring current knowledge and professional experience to the classroom. Alumni of this program enjoy a high pass rate on the state’s MFT examinations. They are considered some of the best, most comprehensively trained providers of psychotherapy and counseling services in the San Francisco and greater Bay Area, and are highly sought after by agencies and other employers upon graduation and licensure.

Program Phases

Phase I—Foundation courses of Phase I combine current and traditional theory applied within the context of the classroom using didactic and experiential methods. Coursework includes the core competencies of the program: theory, diagnosis and assessment, clinical skills, legal and ethical issues, treatment approaches and modalities, and evaluation of treatment.

Phase II—The focus shifts to clinical training as students begin fieldwork practicums while simultaneously completing additional coursework. Most students have their first direct clinical experience at a JFK University community counseling center and all students do a clinical placement in a school. The community counseling centers provide an in-vivo, dynamic, and immensely rewarding experience for the training student-psychotherapists and their clients. Students may also choose from a wide variety of community-based mental health agencies, schools, and hospitals within the greater Bay Area. During this component, students complete the written portion of the MA comprehensive examination, modeled after the state’s MFT licensure examination.

Phase III—While continuing advanced coursework, students continue to focus on their practicum experience, receiving both individual and group supervision, and attending 2-hour group didactic trainings. Late in Phase III, students complete the oral portion of the MA comprehensive examination. Students who choose to complete an optional, in-depth MA thesis do so during this phase.

During Phases II and III, the practicum will be augmented by weekly clinical case seminars for a total of four quarters/sessions.

Academic Advisement and Mentoring

Student advising is readily available with a faculty advisor. Students are required to meet with an advisor at least once per academic quarter/session or participate in a group advisement meeting once per quarter/session to plan each quarter/session’s coursework and schedule. If additional questions arise during the group advisement, the student will be referred to their academic advisor. Students can schedule an additional meeting with their advisor at any time during a quarter/session.

Review and Advisement

Following admission, an ongoing process of student evaluation begins. When such evaluation indicates that a student’s performance related to academics or conduct expected of a member of the profession falls below the standards expected of a member of the MA in Marriage and Family Therapy program learning community, the student will be referred to the Review and Advisement Committee. A plan is developed to address the identified concern and provide further mentoring and direction for the student. Please refer to the specific policies, procedures and guidelines in the Student Handbook as well as to the JFK University 2010-2011 catalog.

Supervised Practicum

The 12 units of supervised practicum completed in Phases II and III provide the student with the opportunity to apply their academic coursework, and may not be completed in less than five quarters. Except for the Berkeley Cohort, students may do the first three academic quarters of their practicum experience at one of the JFK University’s Community Counseling Centers, either in Pleasant Hill, Sunnyvale, or at an approved external site in a community. The practicum experience also includes a school-based placement component. The JFK University’s community counseling centers draw upon the teaching and supervisory skills of psychologists, marriage and family therapists, and clinical social workers, all licensed in their respective disciplines.

At our JFK University community counseling centers, students counsel individuals (adults and children), couples and families, and groups. Relationship difficulties, parent-child conflicts, and adjustment problems of adolescents and children are among the many family issues encountered at the counseling centers. Various teaching tools, including one-way mirrors and audio and video aids, provide direct feedback and help students develop their therapeutic skills. Students are also responsible for the intake procedure with new clients and participate in the administrative operations of the center.

During the first three quarters of practicum, students participate in weekly clinical group supervision in which each student makes at least one comprehensive case presentation. The supervisor facilitates discussion of the theory and practice relevant to the issues at hand. The group supervision also serves as a support group for students as they meet the challenges of providing therapy to clients. Additionally, students for four quarters/sessions participate in 2-hour weekly clinical case seminars taught by faculty.

After completing the first three quarters of the practicum, Pleasant Hill and Campbell students must apply to remain at one of the University’s Community Counseling Centers to complete an advanced program or to begin an external practicum. If approved to go on to an external practicum, students meet with the external practicum coordinator at least one academic quarter before the start-up date.

The MA in Marriage and Family Therapy program maintains ongoing relationships with a range of agencies throughout the
greater San Francisco Bay Area. These include community mental health programs, private nonprofit outpatient clinics, residential treatment programs, and inpatient and outpatient hospital settings. Other placements include substance abuse treatment centers and settings that use specialized techniques, such as sport psychology or expressive arts therapy.

MFT students are required to have 225 hours of direct client contact within their graduate studies in order to pursue MFT licensure. LPCC students are required to have a minimum of 280 hours of face-to-face in order to pursue LPCC licensure. Typically, students satisfy this requirement during their practicums. Occasionally, students who are unable to achieve these minimum hours of direct contact must enroll in PSY/PSJ/PSB 5266 Supervised Fieldwork Experience for an additional quarter/session of fieldwork. Units earned in PSY/PSJ/PSB 5266 do not apply toward the 90 graduate units required for the degree.

In addition, all students are required to purchase their own malpractice insurance and be fingerprinted prior to beginning practicum. Students who have concerns about the fingerprinting requirement are encouraged to speak with the Program Chair and also to contact the Board of Behavioral Sciences early in their educational process to determine any impact with regard to licensure. For more information on practicums, please refer to the student handbook.

**Didactic Training**

As part of our commitment to helping students meet practicum and workshop hours for licensure, students attend a didactic training series that covers specialized topics in the field of psychology. Speakers from public and private agencies, the health care industry, and schools address the latest theories and ideas in community mental health and disparities in mental health care in traditionally marginalized communities. This is in keeping with recent changes in BBS requirements which incorporate principles of wellness, recovery, resilience cultural competence, and community mental health. The didactic training series is a required part of the practicum experience in counseling center, school base or external practicums.

**Comprehensive Master’s Examination**

All MA in Marriage and Family Therapy program students must demonstrate an understanding of theoretical material and their capacity to function effectively and ethically as professional clinicians. As part of the assessment of these competencies, students complete a two-part comprehensive master’s examination similar in format to that of the California MFT Examination. Students must register through the registrar’s office for the master’s examination and pay the appropriate non-refundable fee one quarter/session prior to taking the first component, the written examination (PSY/PSJ/PSB 9090).

Students must take the written examination, which is based on Phase I coursework, during Phase II. This examination is offered twice a year. It is preceded by an orientation meeting and optional practice session to be attended one quarter before the examination. Students who are required to retake the written examination must re-register and pay the appropriate non-refundable fee. Students have three opportunities to pass the written examination. A student who fails the written examination must meet with the Review and Advisement Committee.

At the end of the fifth or sixth quarter/session of practicum, students complete the oral component of the Comprehensive Master’s Examination. (Students must register through the registrar’s office for the oral comprehensive examination, PSY/PSJ/PSB 9091, and pay the appropriate non-refundable fee.) The examination consists of a presentation of a student’s own clinical work that the candidate presents to two examiners which is then followed by an ad hoc vignette given to the candidate. Examiners will then ask predetermined questions. Both parts of the oral examination provide students with the opportunity to demonstrate competence and the breadth and depth of knowledge necessary to become an effective therapist. Students have three opportunities to pass the oral examination. Students who are required to retake the oral examination must re-register and pay the appropriate non-refundable fee. A student who fails the oral examination must meet with the Review and Advisement Committee.

**Master’s Thesis**

A master’s thesis consists of a detailed, systematic, original exploration of a topic. The thesis revolves around one key research question that formulates your approach to the topic. Thesis work is recommended for students who intend to be published, to work in or with academia as part of their career, or to consider eventual doctoral work.

For the master’s thesis option, the required sequence of courses is PSY/PSJ/PSB 5054 Research Methods: Quantitative and Qualitative, PSY/PSJ 5990 Master’s Thesis Proposal, and three quarters (two units each) of PSY/PSJ 5991 Master’s Thesis, namely PSY/PSJ 5991A, B, and C.

In terms of sequence, students must complete PSY/PSJ/PSB 5054 Research Methods before enrolling in PSY/PSJ 5990 and PSY/PSJ 5990—including the master’s thesis proposal, which students will develop in that class—before enrolling in PSY/PSJ 5991A and starting on the master’s thesis itself. This means that students must finish the research proposal during the first quarter.

Once students finish the proposal and enroll in PSY/PSJ 5991A, they must progress to PSY/PSJ 5991B and PSY/PSJ 5991C without missing any quarters in between. This means being registered for a minimum of three consecutive quarters. Upon completion of PSY/PSJ 5991A and PSY/PSJ 5991B, students will receive an in-progress (IP) mark on their transcript. After submission of the final bound thesis and oral presentation of the thesis findings, the IPs will convert to credits. However, units of the PSY/PSJ 5991 classes are not applied toward the total unit requirements for the degree.

Students who have not completed their thesis at the end of PSY/PSJ 5991C will be required to take PSY/PSJ 5992 Supplemental Thesis Assistance for one unit each quarter until the thesis is completed. These supplemental units do not count toward the degree’s unit requirements. The thesis must be completed and approved before the degree can be awarded.

The required number of quarters of practicum is six. However, Pleasant Hill and Campbell students PSY/PSJ who elect the complete a master’s thesis may also elect to do only five quarters of practicum. With the BBS requirement of 225 face-to-face client hours in order to graduate, it is highly recommended that you plan to do six quarters of practicum in order to acquire the necessary hours. Students enrolled in the Berkeley Cohort who desire to write a master’s thesis may elect to do so after completing the academic coursework in the cohort, thus extending their time in the MA in Marriage and Family Therapy program. Note that there will be no leave of absence granted throughout this research process unless
there are urgent extenuating circumstances and you obtain permission from the instructor.

**Professional Development Workshops**

As a part of the MA in Marriage and Family Therapy program, students attend a series of workshops designed to enhance their development as professionals as well as their post-master’s internship and employment opportunities. For new students enrolling in the program in Fall 2010, in Phase I, students enroll in PSY/PSJ/PSB 9010 Issues with HIV and AIDS, which satisfies BBS requirements for seven hours of coursework covering characteristics and methods of assessment and treatment of people living with HIV. Phase I students will also take PSY/PSJ/PSB 9001 diversity Awareness, which is a prerequisite to PSY/PSJ/PSB 5620 Multicultural Competence. PSY/PSJ/PSB 9007 Introduction to School-Based Program is the orientation to, and prerequisite for the required school-based program practicum.

Phase III students enroll in PSY/PSJ/PSB 9008 Aging and Long-Term Care, which satisfies BBS requirements for persons who begin graduate studies on or after January 1, 2004, to complete a minimum of ten hours of coursework in aging and long-term care. In the last quarter/session of the program, students will enroll in PSY/9100 Professional Development: Post Master’s Preparation. This workshop is the culmination of the MA in Marriage and Family Therapy program and prepares students to complete the paperwork requirement to register for their MFT intern status with the Board of Behavioral Sciences (BBS).

**Personal Psychotherapy**

Throughout their course of study, students are encouraged to take responsibility for their personal development and knowledge of self and to become sensitive to the impact that they have on those around them. Consistent with this focus on developing the Self of the Therapist, there is a non-credit requirement that students participate in at least 50 sessions of personal (individual, couple, family, or group) psychotherapy. Guidelines for the student psychotherapy experience are available in the program office. Students are encouraged to begin their personal psychotherapy when they begin PSY/PSJ/PSB 5232, Clinical Skills Training C: MFT Techniques 2, as they will be required to be in therapy when they begin fieldwork. Students register for PSY/PSJ/PSB 9075 Personal Psychotherapy in the quarter during which they will be completing this requirement. Students who receive therapy from a licensed therapist may count those hours toward BBS hours of experience requirements.

**Individualized Program of Study Leading to MA in Psychology Degree**

Students may create their own individually designed MA in Psychology. Students who choose this option need to be aware of the fact this program does not fulfill the educational requirements of the BBS for MFT licensure. This MA degree needs to follow the generic rules as outlined in the Graduation Requirements chapter of the JFK University General Catalog. A program designed according to these rules must be clearly different from any MA program already offered by the College of Graduate and Professional Studies. Typically, an individual program emphasizes a special area of interest or a cross-disciplinary concentration. The program must include a thesis that focuses on the particular area of interest. It should be at least 75 units total and needs to be approved by two advisors, the coordinator of individualized programs, the Program Chair, the Dean, and the Vice President of Academic Affairs.

**Cohort Program**

John F. Kennedy University offers accelerated, an 11-session (approximately 26-months), Master of Arts in Marriage and Family Therapy program in Berkeley. The cohort program duplicates the content of the successful Pleasant Hill and Campbell programs, emphasizing experiential learning, psychological theories and substantial practicum, satisfying the educational requirements for licensure in Marriage and Family Therapy (MFT), and if desired, also for the LPCC license with additional course work (19.5 quarter units), but with some unique differences. Both programs satisfy all BBS requirements for licensure. The curriculum is divided into eleven, 9-week sessions and is a full-time program with 16-20 students in the cohort learning community.

During the first year (5 sessions) one class is held on a designated weekend and two classes are held on Saturdays. In year 2 (5 sessions) and 3 (1 session), students attend one weekend course and attend one Saturday class in the morning while accumulating practicum hours at an external practicum site. There are three required workshops, three elective units and two comprehensive master’s examinations that take place with in the twenty-six month program which are scheduled on assorted weekend-days and may be held at a different campus location.

The practicum component of the program emphasizes our community service orientation as well as hands-on training and will give students direct contact with their own counseling clients. Students complete their practicums at carefully identified community-based agencies in geographically convenient locations where they receive both individual and group supervision from licensed Marriage and Family Therapists (MFTs), licensed clinical social workers (LCSWs), and licensed psychologists. As with our Pleasant Hill and Campbell programs, this fieldwork will help students collect significantly more hours toward licensure than many other MA counseling programs in Northern California while also giving them a competitive edge when applying to post-master’s internships.

Currently, students who wish to can create their own individualized specialization. Normally, students take the additional courses at the Pleasant Hill or Campbell campuses.

**Clinical Training Certificate**

The post-master’s clinical training offers advanced, individualized training to clinicians who have completed a master’s degree in psychology or a related field, and are registered with the Board of Behavioral Sciences as an MFT/LPCC intern, as a pre-licensed associate social worker, or with the Board of Psychology as a psychological assistant. The advanced degree must have been received from an institution with regional accreditation, an example being the Western Association of Schools and Colleges (WASC).

Students have the opportunity to acquire new skills while earning hours toward licensure. The program is individually designed and created to be completed within a year or less. Examples of concentrations of interest could be child therapy, psychodynamic or systemic therapy, couple and family therapy, addiction studies, or expressive arts. Other interests and specialties are open to consideration. A combination of courses and clinical placements are used for the acquisition of new skills.
Each person in the post-master’s clinical training program has an individualized program established to meet his or her unique needs. Courses and fieldwork make up the certificate. The number of units in the program depends on student needs.

**Community Programs**

**Community Counseling Centers**

John F. Kennedy University operates two community counseling centers in conjunction with its Pleasant Hill and Campbell campuses. The centers’ dual mission is to provide supervised training for advanced students in the marriage and family therapist program and to offer high-quality, affordable counseling and psychotherapy to the community. The centers offer individual, couple, family, and group counseling. A wide range of concerns are addressed including family conflicts, parenting, alcohol and drug issues, depression, grief, trauma, aging, and sexuality.

The University opened its first community counseling center in 1973. Today the center, located near the Pleasant Hill campus, is one of the largest community-based, outpatient mental health facilities in the greater San Francisco Bay Area. Under the supervision of licensed professionals, over 75 graduate MFT trainees serve approximately 5,000 clients per year.

The Community Counseling Center in Sunnyvale is located at the Cupertino Union School District’s Center for Children and Families. Counseling services are provided by graduate MFT trainees, who may also serve as counselors on-site in the school district’s elementary and junior high schools.

**School-Based Counseling Program**

Graduate-level psychology students and post-master’s interns provide on-site counseling services at elementary, middle, and high school campuses. JFK University counselors are supervised by experienced clinicians licensed in psychology, social work, and marriage and family therapy.

Services to schools include individual and group counseling with children and adolescents, as well as collaterals with the youths’ parents. JFK University students may also provide psycho-education, parent workshops, and teacher and administrative consultation.

Issues addressed include behavior problems, abuse, academic difficulties, peer relationship conflicts, self-esteem, grief and loss, anxiety, depression, family changes, and other developmental and adjustment challenges.

Counseling utilizes a variety of treatment approaches, such as expressive arts, play therapy, cognitive behavioral techniques, talk therapy, and group work. Services are tailored to the needs of the clients and interests of the schools being served.

**ACT Parent Trainer Certification**

ACT Raising Safe Kids is an innovative, evidence-based, violence-prevention program for parents and caregivers of young children from birth to 8 years of age. It was developed by the American Psychological Association (APA) in 2000 under its Adults and Children Together (ACT) Against Violence initiative to help prevent violence in families and communities before it starts. John F. Kennedy University is the APA’s Western Regional ACT Training Center, and serves the nine states of Alaska, Arizona, California, Hawaii, Idaho, Nevada, Oregon, Utah and Washington.
Completion of the two-day Trainer Certification enables any parent or helping professional (e.g. counselors, therapists, law enforcement, clergy, medical personnel or other service providers) to teach the Raising Safe Kids program in their community. Using an interactive “train-the-trainer” model that incorporates short lectures, slides, videos, discussions, experiential activities, small-group work and role-play, the course teaches participants how to deliver eight simple yet powerful modules on topics that are not covered in typical parent education classes. These include: child development, parenting styles, positive discipline, anger management, conflict resolution techniques and the influence of media violence. Participants also learn how to partner with community organizations to offer the ACT Raising Safe Kids program, get practical information on how to make it a success, and exchange ideas on how to raise community awareness about violence-prevention.

Participants who complete the ACT Trainer Certification are eligible for 14 hours of CE credit for the APA and, in California, for the BBS and BRN. Therapists-in-training are also welcome to attend and may be eligible to count program hours toward their licensure. For more information and upcoming training dates, visit or contact the ACT office at 925-969-3400 or visit www.jfku.edu/act.

Expressive Arts Camps

The MA in Marriage and Family Therapy program offers Expressive Arts Camps for latency-aged children to explore the creative process through a variety of art modalities including visual arts, movement, and drama. In addition to providing a unique setting in which children can acquire new skills in the arts while enhancing their self-confidence and self-expression, these camps provide MA in Marriage and Family Therapy students the opportunity to apply classroom learning through supervised internships. Additional expressive arts course work is required for students wishing to participate. The Expressive Arts Camps are an excellent example of how the MA in Marriage and Family Therapy program in the College of Graduate and Professional Studies offers services to enrich the lives of families in our communities while at the same time broadening the opportunities for our student-practitioners to earn additional clinical training hours towards graduation and Board and Behavioral Sciences (BBS) requirements. For more information, see the JFK University website.

Program Learning Outcomes

The American Association of Marriage and Family Therapists (AAMFT) published objectives for marriage and family therapist training programs in 2003. The faculty of the John F. Kennedy University MA in Marriage and Family Therapy program selected from that publication the objectives which best describe the program’s desired learning results. From the AAMFT objectives, faculty developed the following Program Learning Outcomes (PLOs):

- Knowing the self. Students can articulate and evaluate the role of the self in marriage and family therapy.
- Understanding the client. Students can assess and diagnose client problems systematically and contextually.
- Connecting with the client. Students can establish, maintain, evaluate and utilize the therapeutic relationship to serve the mental health needs of the client.
- Facilitating improved interpersonal relationships. Students can utilize concepts, structures, and theories appropriate to the practice of marriage and family therapy.
- Providing psychotherapy within legal and ethical mandates. Students can identify, explain, and apply state, federal, and local laws that govern the provision of psychotherapy and can employ ethical decision-making processes.
- Providing culturally sensitive services. Students can recognize their own potential biases and deliver culturally sensitive treatment.
- Evaluating outcomes of clinical work. Students will be aware of, evaluate, and respond to measurable outcomes of their work with clients.

Admission Requirements

In addition to the University requirements listed previously in this catalog, applicants to the MA in Marriage and Family Therapy Program must submit the following:

- Official transcripts from the bachelor conferring institution and any post-master bachelor credits (including other master’s degrees). A 3.0 or better GPA is required for admission. In rare cases, lower GPAs may be considered at the discretion of the faculty.
- A bachelor’s degree from a regionally accredited institution. (International applicants to the program must have the equivalent of a U.S. bachelor’s degree.)
- A personal statement, four to six double-spaced, typewritten pages, plus a title page. The statement should reflect the applicant’s interest in the field and rationale for applying to this program.
- Three signed letters of recommendation which attest to the applicant’s suitability for the program, preferably from former or current professors.

Degree Requirements

NOTE: Counseling Psychology courses are offered in Pleasant Hill (PSY), Campbell (PSJ), Santa Cruz/Central Coast (PSC) and Berkeley (PSB). For simplicity, all courses listed in this catalog will have the PSY prefix, although they also may be offered as PSJ, PSC, or PSB.

**Holistic Health Education**

The Holistic Health Education (HHE) program reflects cutting-edge understanding of theory and practice in health education from a holistic perspective, embracing body, mind, spirit, and a non-local understanding of energy. One of the most important values of this paradigm applied to health is a focus on wellness. All courses aim to enable graduates to be leaders in integrating alternative and mainstream approaches, East and West thought approaches, science and spirit, and concept and applications.

In addition to professional training, personal transformation is an essential component. The program offers opportunities for students to enhance their own health and well-being, for example, through working with movement, diet, and developing or solidifying a spiritual practice. The program also recognizes the potential of the holistic health perspective to facilitate positive societal transformation. It seeks to provide an educational experience that enables representatives of this perspective to clearly articulate their position to others. Graduates can also participate in, and contribute meaningfully to, the multifaceted process of transformative health education.

**MA in Holistic Health Education**

The Master of Arts in Holistic Health Education program provides the concepts, applications, and practice necessary so that students can develop themselves personally and professionally to meet their own aspirations to work as teachers, researchers, writers in holistic health, consultants, and professionals who start their own businesses and healing centers, develop programs, or become health coaches, to name a few.

Optional specializations include holistic nutrition; health, consciousness, and spirituality; and somatics in health education.

**Program Goals**

The goal of the HHE program is to promote an integrally informed vision of health and to promote a cadre of health educators who embody this personally and professionally, acting from the highest values, including:

- Professional ethics;
- Respect for diversity and commitment to access to health education for all;
- Interest in integrative approaches;
- Desire to serve and to act as an agent of change
- Active and responsible participation in our communities, local to global.

**Program Learning Outcomes**

- Take an integrally-informed perspective. Graduates will be able to define health, using indicators related to body, mind, and spirit, culture and community, economics and politics, nature and the environment - from an all-quadrant perspective (individual & collective; subjective and objective) recognizes the inherent value of traditional, allopathic, and holistic worldviews and healing paradigms.

**Total Phase III Course Work and Practicum** 22 units

**TOTAL MA in Marriage and Family Therapy Program** 90 units

---

1. Successful completion of Phase I required to advance to first field placement. Courses listed in Phases II & III may be taken earlier in the program if their prerequisites have been met.
2. Phase One students must enroll in and attend two Community Meetings.
3. This course is taken in the last quarter of Phase I.
• Demonstrate knowledge of multiple approaches (as a toolkit for individualizing and contextualizing care) in various areas:

1. wellness and prevention
2. self-care (as a topic, not a personal practice)
3. change and adult education
4. stress management
5. nutrition
6. effective communication and health coaching
7. research methods
8. culture and community

• Demonstrate specific knowledge. Graduates will choose and be able to demonstrate understanding of theory, issues, health information, research, and applications in an area of focus or specialization within holistic health education

• Explain about healing modalities. Graduates will be able to explain the basic philosophies of health and healing and the basics of diagnosis and treatment (to the level appropriate for health educators) in a variety of modalities of health care, conventional and alternative, East and West. They will also be able to demonstrate familiarity with up-to-date research that substantiates the benefits of these modalities.

• Professional practice. Graduates will be able to apply an integrally-informed perspective of health, education, and knowledge of best practices in the field as a foundation for professional practice in health education. They will possess a high level of professional skills, including, but not limited to the following:

  • Ability to present information for health promotion via oral presentation and in rhetorically effective writing
  • Effective relationship skills
  • Information management ability: to access information and data, to analyze, synthesize, and organize it
  • Ability to conduct needs analysis, to develop and direct effective programs, and to assess effectiveness
  • Ability to support and facilitate movement toward healthy choices in individuals and groups
  • Ability to collaborate
  • Professional networking skill and habit
  • Self-reflection ability and habit, and commitment to self-improvement
  • Embody a healthy approach. Graduates will be able to demonstrate a functioning personal practice of wellness, integrally defined.

**Total units required:** 68-82
Electives may be chosen from the Holistic Health Education course listings or from a graduate program within the University. Students taking the Integrative Project option complete 13 units of electives. Students writing a thesis complete 11 units of electives. Students admitted to certificate programs offered by the program and the College of Graduate and Professional Studies may also apply these courses toward their electives.

### Integral Psychology

At the heart of Integral Psychology there is a passion for investigating the profound levels and potential of human existence. Through the study of psychology, spirituality, and consciousness development, students develop a strong theoretical and practical foundation of Western psychology, the world’s wisdom traditions, and the skillful means for applying these principles to personal and professional life.

### MA in Integral Psychology

The MA in Integral Psychology program includes the study of human psycho-spiritual development and stages of consciousness in a variety of contexts, including humanistic, social, cultural, transpersonal, ecological and integral. The program also fosters a deep understanding of interpersonal dynamics and effective communication skills, as well as the capacity for self-reflection and self-inquiry necessary for personal transformation. This approach results in a clearer understanding of human potential and physical, emotional, cognitive and spiritual growth. Graduates of the program can apply this degree in fields as diverse as education, consulting, coaching, human resources, management, leadership and sustainability work with a global emphasis.

The MA in Integral Psychology degree curriculum consists of core courses, studies in sacred psychology, and skill-based professional development classes. Drawing on the world’s wisdom traditions, theories on the evolution of consciousness, and Eastern and Western psychology, the curriculum explores the entire spectrum of human development as the unfolding of the self through the integration of matter, body, mind, soul and spirit. The impact of each of these stages of development on the ecological and social issues of the planet is also examined. Students can use their professional development and elective courses to focus on specific areas such as communication, publishing and media, teaching skills and curriculum development, or work toward a certificate in Integral Theory, Leadership for Sustainable Change, or Ecotherapy. Students can also create their own area of emphasis through independent study.

### Program Learning Objectives

- Describe and apply the major principles of Integral Psychology as a unifying and comprehensive framework of psychological knowledge and spiritual development.
- Apply principles from major schools of psychology, including psychoanalytic, behavioral, humanistic, social, and transpersonal to individual, interpersonal and social situations.
- Apply Integral Psychology principles to professional development and career goals in a way that fosters creative insight and transformative change.
- Apply sacred psychology spiritual practices of inquiry and meditation to daily life.
- Apply major theories of developmental psychology including pre-modern, modern, and postmodern perspectives to personal and planetary transformation.
- Apply integral methodologies to psychological research.

Certificate in Leadership for Sustainable Change

The Leadership for Sustainable Change certificate will guide participants as global citizens to proactively inquire, create and lead transformative changes that are sourced in wisdom, empathy, trust and integrity, and that affect organizations and communities – large and small – as well as the environment. This ensures that our highest values become the driving force for principled, creative action in the world.

Using the Earth Charter as a guiding philosophy, the certificate offers individuals the unique opportunity to work on specific ideas or projects that lead to sustainable beneficial change in any field, including education, business, community development, ecology, health, politics and economics among others. During the course of the program, participants will be able to design or re-design their project and begin implementation of their vision.

This program welcomes:

- Pioneers for transformative change in any field and at any scale
- Participants who wish to be visionary leaders in service of enhancing human potential and planetary well being.
- Policy makers in the fields of education, administration, ecology, business, politics, health, community development and other relevant fields
- Consultants, entrepreneurs
- Non profit organizational directors/managers
- Community organizers
- Lifestyles of Health and Sustainability

Program Learning Objectives

- Learn a conscious full spectrum approach to leadership and project design that results in transformative sustainable change
- Apply an integral/ holistic framework to guide change in an interdependent world.
- Demonstrate capacity to lead and act from deep self-awareness, inner wisdom, presence, empathy and integrity
- Better understand the invisible patterns and systems that shape societal and planetary situations
- Apply visionary leadership skills to create new patterns of communication and interrelationships, new ways of partnering and building synergy to support projects & vision.
• Apply practices that enhance self-empowerment, resiliency and mindfulness in the face of adversity and stress

• Maintain a trans-ideological multiple-perspective approach that cultivates cross cultural understanding and ability to work with different races, cultures, political organizations and all forms of diversity

• Apply leadership skills to inspire, enroll and guide others to become leaders.

Degree Requirements

This Leadership certificate program consists of fifteen graduate units over a period of nine months with three face to face seven day learning sessions. During the remainder of the quarters, students will complete reading, writing and project-based assignments, receive coaching and advising from instructors via email and phone calls, and build an effective and supportive learning community.

Integral Theory

Over the last decade, John F. Kennedy University has established itself as the world’s premier university for the study and exploration of the integral model. Pioneered by Ken Wilber, the integral model is a unifying and comprehensive framework that resonates with people seeking more integrative ways to understand and respond to the complexity of today’s world.

In partnership with the Integral Institute, JFK University:

• Hosts the international biennial Integral Theory Conference;

• Operates the Integral Research Center; and

• Offers the only accredited online Certificate and Master of Arts in Integral Theory.

MA in Integral Theory

Offered in partnership with Integral Institute, the online Master of Arts in Integral Theory at John F. Kennedy University is the most rigorous and complete training available in the integral model. This 68-unit online program is designed to educate the next generation of integrally informed scholar-practitioners to skillfully apply the integral approach to real-world challenges in a variety of fields. The online program will include students from around the globe and will form the heart of the world’s first integral theory learning community.

The courses, taught by leading integral scholar-practitioners, deliver a practical and theoretical foundation in all aspects of the integral model. Students also gain access to the world’s most extensive integral knowledge library, including subscriptions to the Journal of Integral Theory and Practice (JITP), Integral Life.com, and the Integral Institute.org.

The curriculum interweaves experiential learning, perspective taking, academic inquiry, integral research, and professional application. Transformational self-inquiry and intellectually rigorous scholarship are emphasized within a highly supportive student community. A sense of community is fostered by weekly online and telephone contact in addition to two residential intensives per year.

Program Learning Outcomes

• Graduates will be able to communicate to/with the value schemas generated by traditional, modern, and postmodern levels of the values/worldview line.

• Graduates will be able to take/write-from first-person, second-person, and third-person perspectives as differentiated phenomena available to all humans.

• Graduates will be able to use/employ multiple methodologies as defined by the quadrants and zones of Integral Theory.

• Graduates will be able to apply the five elements of Integral Theory: quadrants, levels, lines, states, and types.

• Graduates will be able to successfully engage in an ongoing Integral Life Practice as defined by Integral Theory.

Admission Requirements

Enrollment is available to students who have an undergraduate degree from an accredited institution. In addition to satisfying the entrance standards of JFK University, admission requires the following:

• A writing sample (five to ten pages, double-spaced).

• Two letters of recommendation.

• A five- to ten-page, double-spaced personal statement that discusses one’s use of integral principles in life.

• The application deadline is July 1. Applications received after the deadline will be considered on a space-available basis.

International applicants whose native language is not English must comply with JFK University standards. Requirements relating to the Foreign Student Financial Statement and immigration status will not be applicable as students will not be in residence in the U.S. If foreign students decide to attend the annual face-to-face gatherings, they will be responsible for obtaining visas and making their own travel arrangements.

Professional Studies

College of Graduate and Professional Studies

There are two face-to-face meetings each year—one in the fall, and one in the spring. These gatherings last from three to five days. One takes place in Denver (where the Integral Institute is located) and the other in the San Francisco Bay Area (where JFK University is located).

Courses comprising the 24-unit certificate are divided into two categories—core theory courses and core element courses. A core theory course is offered each quarter, providing the theoretical foundations for the integral model. Core element courses (also taught each quarter) provide professional development by training students to successfully apply the integral model to personal and professional goals and purposes.

Program Learning Outcomes

- Graduates will be able to communicate to/with the value schemas generated by traditional, modern, and postmodern levels of the values/worldview line.
- Graduates will be able to take/write-from first-person, second-person, and third-person perspectives as differentiated phenomena available to all humans.
- Graduates will be able to use/employ multiple methodologies as defined by the quadrants and zones of Integral Theory.
- Graduates will be able to apply the five elements of Integral Theory: quadrants, levels, lines, states, and types.
- Graduates will be able to successfully engage in an ongoing Integral Life Practice as defined by Integral Theory.

Admission Requirements

Enrollment is available to students who have an undergraduate degree from an accredited institution. In addition to satisfying the entrance standards of JFK University, admission requires the following:

- A writing sample (five to ten pages, double-spaced)
- Two letters of recommendation
- A five- to ten-page, double-spaced personal statement that discusses one's use of integral principles in life.

International applicants whose native language is not English must comply with JFK University standards. Requirements relating to the Foreign Student Financial Statement and immigration status are not applicable. If foreign students decide to attend the annual face-to-face gatherings, they are responsible for obtaining visa and making travel arrangements.

Certificate in Integral Theory

Offered in partnership with Integral Institute, the Integral Theory certificate program at John F. Kennedy University explores the integration of body, mind, and spirit in the realms of self, culture, and cosmos. This 24-unit, online program emphasizes the value of utilizing multiple perspectives by offering students an in-depth understanding of the integral (AQAL) model associated with integral theory. The fundamental purpose of the integral model is to ensure that one’s analysis considers all the pertinent aspects of a problem or issue situated in its context.

The Integral Theory certificate program provides students in-depth understanding of ways to integrate knowledge from different disciplines, areas, or domains. The integral model is ideal for realizing more effective solutions to complex social and organizational problems and enhancing personal development.

The online Integral Theory certificate program is delivered using a cohort system in which a strong sense of community emerges among students. A cohort of 10 to 24 students begins every fall and progresses through the program at the same rate. Students take on average six units each quarter for four quarters (one year). This part-time format is ideal for working adults and students who have full-time careers or families and allows more time for student integration of the course material. The online delivery also offers round-the-clock course access, providing students maximum scheduling flexibility.

College of Graduate and Professional Studies

JOHN F. KENNEDY UNIVERSITY
Management

Master in Business Administration (MBA)

Leadership development, entrepreneurship, sustainable business practices, innovative problem solving, and alternative organizational models are hallmarks of the MBA program. By concentrating on analytical, ethical leadership, and business-related skills, the MBA program prepares students for organizational careers at the professional and executive levels. Drawing upon business-management and organizational behavior concepts, traditional and emerging subjects are studied in an interactive environment that encourages critical inquiry and maximizes understanding. The program accommodates both experienced business professionals and individuals who have acquired significant organizational and administrative experience in a non-business setting.

The MBA program provides students with a solid understanding of group and organizational behavior; financial analysis and management; analytical and decision-making skills; practical ethics in the business arena; strategic planning and implementation; marketing theory and practices; the management of change; the impact of technology; and international issues and the expanding global economy.

The Management program at JFK University is designed to prepare qualified students and working professionals for positions of responsibility as managers and leaders who are capable of working collaboratively and making effective and ethical business decisions in a challenging global environment. We emphasize visionary, participatory leadership and strategic thinking from a global viewpoint that values innovation, sustainability and diversity.

Grounded in a humanistic, interdisciplinary, systems-based and socially responsible approach to leadership and entrepreneurship, JFK University’s Master of Business Administration (MBA) program focuses on shaping leaders who can foresee issues, understand their complex causes, shape viable plans and solutions that benefit current and future generations, and gain the support to effectively implement them.

JFK University’s Management program offers a holistic and transformative educational opportunity that enables students to contribute to local and global communities by being innovative and socially responsible leaders and managers in organizations of their choice—for profit, nonprofit, or public.

This program blends theory and practice, equipping students with the perspectives, knowledge, and skills to:

- Lead strategically with vision and integrity;
- Problem solve and make decisions systemically, and by examining interdisciplinary viewpoints and alternative approaches;
- Develop innovative business models that foster fiscal profitability while safeguarding the environment and enhancing the employees’ work performance and experience;
- Devise collaborative, knowledge-sharing organizational cultures, adaptive communication networks, and engaging, team-oriented workplace practices;
- Manage a global, culturally diverse, and dispersed workforce via digital information and communication systems and virtual collaboration platforms;
- Provide professionals with a student-oriented learning experience founded in dialogue, critical reflection, creative problem-solving, and practical application;
- Offer conveniently scheduled face-to-face and online courses and provides a professional staff that enable students to take responsibility for their academic and professional career development.

Specializations

While students master a core of knowledge in the MBA program, they also explore their particular interests in one of the following areas of specialization: Leadership, Strategic Management, Program Management, or an individually planned specialization. Individually planned specializations give students a chance to create a customized specialization which would help in their career path. Individually planned specializations may be a cross-disciplinary concentration integrating more than one school. Refer to the General Information section of this catalog for more information about designing an individualized program.

Students complete a specialization in Leadership, Program Management, or Strategic Management by completing 12 units in one of the specializations listed below. Each specialization is 12 units. In addition, students may create a customized specialization by completing 12 units of graduate-level courses that are of special interest to the student. Students interested in a customized specialization should see information about individualized programs in the General Information section of this catalog. Students should also note that customized specializations must be approved by the MBA chair before beginning any coursework toward the specialization.

Program Learning Objectives

- **Ethical Leadership Style**: Ability to apply collaborative, team-oriented leadership principles in an ethical and socially responsible manner;
- **Systemic Approach to Organizational Vision, Managerial Practices and Operational Processes**: Ability to devise and implement an organization’s vision, strategic goals, operational processes, and managerial practices from a systems-thinking approach;
- **Distributed Diverse Workforce Management Approach**: Ability to apply to the management of a diverse dispersed workforce a human resource philosophy that creates a flexible, engaging work environment, and the opportunity for meaningful work;
- **Transformational Approach to Organizational Learning and Complex Change**: Ability to apply organizational learning and transformational change management principles and processes to organizational innovation and growth;
- **Interdisciplinary Perspective to Problem-Solving Organizational Issues**: Ability to proactively analyze and problem-solve issues from an interdisciplinary, cross-functional perspective founded in an understanding of the organization as a complex, adaptive socio-technical network;
• **Conscious Professional Development**: Ability to take ownership of one’s professional development and career path as required to prosper in an continuously changing international business arena and virtual workplace.

### Admission Requirements

In addition to the University’s requirements, applicants to the MBA program must possess a bachelor’s degree from an institution whose accreditation is recognized by the Council for Higher education Accreditation (CHEA).

Applicants must submit a JFK University application along with a statement of purpose that includes a discussion of:

1. personal qualities and professional experiences that qualify one to participate in an MBA program,
2. why JFK University’s MBA Program—philosophy, content and instructional style—is the best MBA program for one’s career path,
3. how JFK University’s MBA degree will enable one to grow as a person and professional,
4. what potential career opportunities this degree could open up, and
5. one’s commitment to studying for an MBA at this time.

The statement of purpose should be at least three double-spaced, typewritten pages.

Besides providing vital professional background and academic study intentions, the statement of purpose serves as an initial opportunity to assess an applicant’s graduate level writing and analysis skills. Upon admission or within the first three quarters of the MBA program after taking several courses, a student’s writing skill level is deemed to need improvement, a student may be required by the Program Chair to take BUS 5000 Management Communications in addition to the required 48 units.

Finally, applicants must submit a resume of work experience detailing professional background. While the Graduate Management Admissions Test (GMAT) is usually not required for admission, the program may require the applicant to take the exam.

### MA Museum Studies/Master of Business Administration

The College of Graduate and Professional Studies offers a joint MA/MBA degree in museum studies. Students completing this three-year curriculum of full-time study will receive two master’s degrees: an MA in Museum Studies and a Master of Business Administration. Students may also enroll part-time. Museum Studies courses are offered on JFK University’s Berkeley Campus. The MBA is a hybrid program with some face-to-face courses offered in Pleasant Hill and some courses fully or partially online.

The curriculum is designed to build students’ core skills in both disciplines and prepare them for leadership positions in museums as managers, administrators, and directors. It emphasizes the flexible inter-disciplinary thinking and creative problem solving and visioning necessary to sustain museums’ missions and financial viability.

For further details, refer to the following Museum Studies section.

### Juris Doctor/Master of Business Administration (JD/MBA)

The College of Graduate and Professional Studies offers a joint JD/MBA degree for legal and business professionals who want an interdisciplinary education grounded in social justice, community service and socially responsible leadership. Students completing this four-year curriculum of full-time study will receive two degrees: a Juris Doctor and a Master’s of Business Administration. Students may also enroll part-time. Juris Doctor courses are offered on JFK University’s Pleasant Hill Campus. The MBA is a hybrid program with some face-to-face courses offered in Pleasant Hill and some courses fully or partially online.

The curriculum is designed to build students’ core knowledge and skills in both disciplines, preparing them to take leadership roles in the legal field and in organizations.
The JD/MBA is comprised of rigorous graduate coursework in both the legal and business administration fields and is designed to be completed in four years if studying fulltime. Students may also enroll part-time.

The curriculum is designed to build students’ core skills in both disciplines. Usually students begin their studies by taking two years of law studies. Then, during the Summer Session of their second year, they begin their MBA coursework. Over the four-year period, students take all core courses required for the Juris Doctor degree (84 semester units) and all the core courses required in the MBA program (36 quarter units), including the MBA capstone project. The required curriculum is supplemented with a number of law electives relevant to businesses and not-for-profit organizations (e.g., commercial law, tax law, employment and labor law, environmental law).

**Admission Requirements**

In addition to meeting the admission requirements for the MBA program, all JD/MBA applicants must be admitted to the College of Law under the criteria established for all JD applicants. This includes a bachelor’s degree and a complete report from the Law School Admissions Council demonstrating an ability to successfully complete the rigors of law school. Letters of recommendation, a personal statement and an interview with a core faculty member also are required under the admissions criteria. The College of Law is accredited by The Committee of Bar Examiners of the State Bar of California. See the JFK University College of Law catalogue for program and application details.

Students may apply for admission to the JD/MBA program during their initial application to JFK University’s College of Law or they may apply to the JD program first and then apply for the joint program during their first or second year of law school. Students pursuing an MBA at JFK University may apply to be accepted into the JD/MBA program. For students already in the JFK University law program, a minimum grade point average of 75 is required for admission to the joint degree program. (Students may be conditionally accepted into the joint degree program pending receipt of grades.)

**Museum Studies**

The Museum Studies program is committed to preparing museum professionals to meet the demands of an increasingly complex field. Today’s museum professionals must have the knowledge and skills to serve diverse audiences, create collaborative partnerships with communities, design innovative exhibitions and programs, and develop a sustainable financial base of support.

The curriculum covers a wide range of issues and provides fundamental skills while challenging students to critically analyze and creatively reform museums for a diverse society. The training is applicable to all types of museums, historical sites, natural parks, and cultural and discovery centers.

Individuals interested in taking only one or two courses may do so as non-degree students if space is available. Non-degree students must hold a bachelor’s degree and have an interview with the program chair before obtaining departmental approval to enroll in courses.

All Museum Studies faculty members are practicing professionals. Their ranks include conservators, registrars/collections managers, educators, exhibit designers, and museum administrators. Students have close contact with other experts in the field through museum visits, guest speakers, and internships.

The Master of Arts is the preferred credential and recommended for students who intend to pursue a full-time career in the museum field. The MA and MBA dual degree is recommended for students interested in deepening their knowledge and skills in museum leadership and management. The department’s certificate option is designed for professionals who have extensive experience in the field and do not require a master’s degree. Prior advising with program faculty may assist applicants in their selection of the master’s or certificate program.

**Program Learning Outcomes**

- Learn the purpose/history of museums as complex public organizations.
- Develop and refine professional writing and oral and visual presentation skills.
- Demonstrate collaborative working practices, consistent with practices in museum field.
- Demonstrate a range of content expertise associated with a museum studies specialization track.
- Acquire and utilize tools for addressing administrative and fiscal challenges.
- Demonstrate the capacity to engage professionally in the museum field.

**Admission Requirements**

Applications must meet all University requirements for admission in addition to the requirements listed here.

- Interview with program faculty member. Museum Studies will contact applicants to arrange for an interview after the application file is complete. Telephone interviews will be arranged for applicants who live outside the Bay Area.
- Bachelor’s degree from an institution whose accreditation is recognized by the Council for Higher Education Accreditation (CHEA).
- Personal statement: a double-spaced, three-page (typed) essay, carefully edited for content, grammar, and style that answers the following questions:
  - What is the role of the museum in today’s world?
  - Given your response to question one, describe your specific career goals.
  - How has your education and experience prepared you for graduate study in museum studies?
- Three letters of recommendation.
- Official transcripts from all colleges and universities attended.

International applicants must have a minimum TOEFL score of 600 on the paper-based test, 250 on the computer-based test, or 100 on the Internet-based test with a minimum score of 4.5 in the writing section.
MA in Museum Studies

JFK University offers a Master of Arts in Museum Studies with two specializations in collections management, and education and interpretation; and a combined MA Museum Studies/Master of Business Administration program (see the program description for this joint degree below). Collections management trains individuals to manage and care for collections. Education and Interpretation trains students to interpret collections, develop an understanding of diverse audiences and their needs, plan and develop exhibitions, and design education programs in museums.

All students complete the core curriculum, specialization courses, and internships offering independent, individualized study in a museum or museum-related institution. The master’s program concludes with a master’s project, which allows students to explore in depth a specific area of interest in a museum or related organization.

Degree Requirements

In addition to the University’s general requirements (outlined in the General Information section of this catalog), students must also complete the following:

- Upon admission, all students must demonstrate writing competency. Some students may be required to take courses in writing in addition to the 58-unit requirement for the degree.
- No more than six graduate units will be accepted in transfer. See the program advisor for specific limitations on transfer credit.
- This degree program must be completed within five years of the initial date of enrollment.

| Total units required | 58    |

¹ Under the supervision of a project coordinator, each student develops a project that reflects his or her expertise in a special subject area and demonstrates understanding and application of museum studies theory and practice, analytical and imaginative thinking, and mastery of research methods and writing skills. All students must demonstrate proficiency in writing and research prior to beginning the master’s project. These courses must be completed with a grade of B or better. The master’s project, including the oral presentation, must be completed in residence at John F. Kennedy University.

² All museum studies students are required to complete one or more museum internship(s) in the area of specialization. Internships allow students to assume professional responsibilities and gain an understanding of a museum’s operations and relationship to the museum field under the guidance of professionals. Students in the program have interned in local, national and international museums and museum-related institutions.

MA Museum Studies/ Master of Business Administration

The College of Graduate and Professional Studies offers a joint MA/MBA degree in museum studies. Students completing this three year curriculum of full time study will receive two master’s degrees: an MA in Museum Studies and an MBA. Students may also enroll part-time. Museum Studies courses are offered on JFK University’s Berkeley Campus; MBA courses are offered in Pleasant Hill, with occasional meetings on the Berkeley Campus as well as online.

The curriculum is designed to build students’ core skills in both disciplines and prepare them for leadership positions in museums as managers, administrators and directors. The program emphasizes the flexible inter-disciplinary thinking and creative problem solving and visioning necessary to sustain museum’s missions and financial viability.

The curriculum for the program is organized as follows:

- First two quarters of the program: foundational museum studies courses in museum history, finance, visitor experience and collections management;
- Final quarter of the first year: a capstone course in Museums and Communities and begin MBA studies with a course in Systems Analysis;
- First summer quarter and continuing into the second year of study: complete one coursework for the MBA degree, including courses in economics, accounting, marketing and business ethics, among others;
- Second summer quarter: internship at a museum;
- Third year of program: coursework in museums and interactive technologies, exhibition development and a master’s thesis that blends the theory and practice of management and museum studies.

Admissions Requirements

Applicants must meet all University requirements for admission in addition to the requirements listed in this catalog for both the Master of Business Administration and Master of Arts in Museum Studies.

Total units required 71.5

1 Under the supervision of a project coordinator, each student develops a project that reflects his or her expertise in a special subject area and demonstrates understanding and application of museum studies theory and practice, analytical and imaginative thinking, and mastery of research methods and writing skills. All students must demonstrate proficiency in writing and research prior to beginning the master’s project. These courses must be completed with a grade of B or better. The master’s project, including the oral presentation, must be completed in residence at John F. Kennedy University.

Certificate in Museum Studies

The Certificate in Museum Studies is designed for individuals who want to enhance their understanding of museum work but do not need a master’s degree. The one-year program is open to students who have a Bachelor of Arts and substantial experience as a museum employee or volunteer. Applicants without substantial museum experience may be admitted to the program but will be required to complete an additional internship. The certificate is offered with a specialization in either collections management or education and interpretation. Certificate students are required to take the first-year core courses applicable to the specialization and complete an internship in a museum. Students must also demonstrate proficiency in writing. For information regarding the internship, see above.

All students must demonstrate writing competency. Some students may be required to take additional courses in writing beyond the 30-36 units required for the certificate.

  - MUS 5502 Preventive Conservation (4.5)
- Education and Interpretation—select BOTH courses: 9
  - MUS 5610 The Visitor Experience: Learning Theories and Understanding Audiences (4.5)
  - MUS 5612 The Visitor Experience: Interpretive Methods and Applications (4.5)

1 All museum studies students are required to complete one or more museum internship(s) in the area of specialization. Internships allow students to assume professional responsibilities and gain an understanding of a museum’s operations and relationship to the museum field under the guidance of professionals. Students in the program have interned in local, national and international museums and museum-related institutions.

Sport Psychology

The Sport Psychology program provides academically rigorous training to help students become effective sport psychology practitioners. Experiential training is guided by theoretical models, research, ethical principles and how diversity impacts the field of sport psychology. Students who successfully complete the innovative program are able to integrate the core elements of performance enhancement, counseling skills, and sport science within their practice.

Program Learning Outcomes

1) Performance Enhancement Skills. The students will be able to describe, explain, synthesize and apply performance enhancement techniques with individual performers and teams.

2) Theory. The students will be able to describe, explain, synthesize and apply theoretical perspectives from Sport Psychology and related fields.

3) Assessment. Students will be able to describe, explain, synthesize and apply various assessment tools in a continuous and evolving process to create effective action plans. Students will be able to screen clinical issues.

4) Counseling Psychology Skills. The students will be able to identify, describe and explain how to use counseling skills to develop a working relationship with the client. Students will be able to identify, describe, explain and apply how the self impacts the client-consultant relationship.

5) Ethics and Professionalism. The students will be able to identify, explain, synthesize and critically analyze ethical principles in a professional and culturally appropriate manner. Students will be able to utilize decision making principles and explain choices made relating to ethical situations.

6) Multicultural Competence. The students will be able to identify sources of bias within themselves, integrate concepts and adapt their skills to work with a diverse range of populations.
7) Research. The students will be able to summarize, critique and conduct research in the field of Sport Psychology. Students will assess and apply both established and current research findings in their scope of practice.

8) Other Sport & Exercise Sciences. The students will be able to describe basic principles of the other sport and exercise sciences (for example, physiology, biomechanics, motor learning, sport medicine) and be able to refer to appropriate specialists as needed.

Admission Requirements

In addition to the University requirements listed previously in this catalog, applicants to the Sport Psychology Program must submit the following:

- Official transcripts from bachelor conferring institution and any post-bachelor credits (including other master’s degrees). With rare exceptions, a 3.0 GPA is required for admission.
- A bachelor’s degree from a regionally accredited institution. (International applicants to the program must have the equivalent of a U.S. bachelor’s degree.)
- A personal statement, no longer than four double-spaced, typewritten pages. The statement should reflect the applicant’s interest in the field of sport psychology and rationale for applying to this program.
- Three letters of recommendation which attest to the applicant’s suitability for the program are required.

MA Sport Psychology

The MA Sport Psychology program curriculum is designed to expose students to an integrated model of sport psychology education that includes performance enhancement techniques, counseling skills, and sport science. The program consists of 77 units which students can complete within approximately a two-year process. Emphasis is placed on training students to understand the theories behind sport psychology and to be able to apply performance enhancement techniques in diverse settings.

This program is offered at the Pleasant Hill and Costa Mesa campuses and is one of the few in the United States specifically designed to integrate performance enhancement techniques, counseling skills, and sport science within the field of sport psychology. The sport psychology coursework covers research, theory, and the application of psychology to such areas as optimal performance, at-risk youth, and group dynamics. The counseling skills courses include theoretical and experiential learning in fundamental counseling skills, group dynamics, psychopathology, and cross-cultural dynamics. Sport science courses expose students to the major biophysical sub-disciplines of kinesiology, biomechanics, sport injury, and exercise physiology. Students also study the fundamentals of consultation and the theories and techniques of problem solving processes. Students learn how to develop their own consultation practice.

Internship Overview

The internships in the Sport Psychology program are a key component of the educational process. The fieldwork experience is the cornerstone of the program. It allows students to gain a hands-on education in the role of being a sport psychology professional. Because of the importance placed on the internships, a student should approach this aspect of the program with a willingness to structure his or her experience in a manner that will optimize the educational value.

The internships will help students:

- Learn how to teach optimal performance techniques in an applied setting;
- Increase awareness of the interpersonal relationships between themselves and their clients;
- Learn to be aware of their personal style and approach;
- Learn to integrate theories and techniques of sport psychology into diverse settings;
- Learn how to conduct oneself as a professional in the areas of flexibility, accountability, ethical behavior, and responsibility;
- Become skilled in educating potential clients on the benefits of sport psychology skills and securing an internship site;
- Network with others in the field as well as with potential employers;
- Use sport psychology techniques with clients as both life skills and mental training skills for sport.

Project Options

All students have a choice of one of the following options:

1) research project that leads to a research publishable paper
2) a fifth internship plus an applied project that culminates in an applied paper of publishable quality

LEAP Program

The mission of the Life Enhancement through Athletic and Academic Participation program (LEAP) is to help at-risk children and adolescents to succeed in school and life. The “hook” of the LEAP program is participation in interactive and non-traditional games or in organized sports. LEAP uses sport participation as a catalyst to help youth learn more effective life skills and coping techniques.

The LEAP program provides a bridge to opportunity by helping youth:

- Improve personal decision making;
- Recognize choices have consequences;
- Promote personal responsibility and accountability;
- Improve positive self-concept, self-worth, and self-confidence;
- Learn skills to deal with anger and frustration in appropriate ways;
- Learn to work together to solve problems;
- Learn the discipline necessary to be successful in sports, school, and life.

Who LEAP Works With

- Student Athletes. The LEAP program works with at-risk high school student-athletes. The overall goal of the LEAP program is to work with athletic teams on the field and in the classroom helping students, teachers, and coaches build a positive environment where learning is possible. Through working with the athletic teams, the LEAP program provides students with an
opportunity to receive academic support and life-skills education and in the athletic arena to learn team-building skills and sport psychology techniques to improve their performance on the field.

- Challenge Camp. The LEAP Challenge Camp works with youth at Orin Allen Youth Rehabilitation Facility (OAYRF). The core philosophy of the LEAP Challenge Camp is to help juvenile offenders focus on their future. Through an interactive games environment, the LEAP Challenge Camp provides youth with an opportunity to build social skills; learn cooperation, communication and listening skills; to practice problem-solving, decision-making and planning skills; and to learn appropriate outlets for anger and stress.

- Sport Specific Camp. The LEAP Sport Specific Camp focuses on working with girls in sport. The camps provide an opportunity for girls to learn mental strategies that they can use both in the sporting arena and in their life. Team building, communication and group problem solving skills, positive self-talk, and goal setting are the focal point of the camp. These skills are taught to the girls through participation in their sport and then transferred to the classroom and their life.

- Life Skills Workshops. The LEAP Life Skills workshops work with at-risk children and adolescents in the Pittsburgh community. Through an interactive and non-traditional games environment, youth are taught life skills to help them make better choices and navigate the obstacles and stressors they face in life.

Journal of the American College of Healthcare Executives

**Portfolio**

This project involves the students developing a portfolio of their work as consultants. This should include at least one case study from their work, their model of practice, a marketing plan, a social media plan, and group problem solving skills, positive self-talk, and goal setting are the focal point of the camp. These skills are taught to the girls through participation in their sport and then transferred to the classroom and their life.

**Clinical Sport Psychology Linked MA Sport Psychology/PsyD**

Note: Students may not link a bachelor’s degree to a master’s degree and then link the master’s degree to a doctoral degree.

As the field of psychology continues to diversify and expand the range of specialties, it is important for educational institutions to stay on the cutting edge of program development. John F. Kennedy University has achieved this by linking the MA in Sport Psychology program with the clinical doctoral program, the PsyD. Unlike a research-based PhD, the PsyD program is designed to produce practitioners, not researchers, while providing the same high level of scholarly study. Both the MA in Sport Psychology and the PsyD offer the highest level of available training in applied sport and clinical psychology respectively. In the past, students could earn a master’s degree in two years and a Doctorate of Psychology in an additional four years. This innovative linked program allows completion of both degrees within five years of full-time, intensive study.
study (part-time options are also available). Having both degrees (plus a psychology license) will enable graduates to use the title “Sport Psychologist,” allow them to apply for either master’s or doctoral certification through the Association for Applied Sport Psychology (AASP), and work with both clinical and athletic clients by applying the skills and knowledge developed from both fields. Eligibility to take the psychology licensing examination for the state of California will also be earned.

The unique linked program enables completion of two degrees in five years of full-time study (a process that would normally take six years if taken separately. Completion of the MA/PsyD linked program allows graduates to apply a wide range of performance enhancement and clinical skills to both athletic and non-sporting populations. The full-time student starts in the Sport Psychology program for the first year and then moves into the PsyD program for the following four years. Once in the PsyD program, the linked student fulfills all the same curricular and training requirements asked of all PsyD students. The MA component of the linked program consists of 42 units in the Sport Psychology program and 35 units in the PsyD program (completed during the first two years of the PsyD program, i.e., years two and three of full-time study). Upon successful completion of these 77 units and the Master’s Comprehensive Written and Oral examinations, a Master’s degree will be conferred. Upon successful completion of the fifth year of full-time study in the linked program and all requirements for the PsyD, a PsyD degree will also be awarded.

For information on the practicum, internship examinations, and advancement to candidacy, refer to the PsyD section of this catalog.

Fieldwork

Linked students complete two Sport Psychology Internships in addition to the PsyD internship requirements.

Admission Requirements

Applicants must possess a bachelor’s degree from a regionally accredited institution. Prospective students should apply to the MA program and the PsyD program concurrently. In the event that a student in good standing in the Sport Psychology program is not accepted into the PsyD program, the student may continue the master’s degree program. A student must be accepted into the PsyD program before enrollment in a PsyD course is permitted.

Degree Requirements

A student will be awarded an MA degree when he or she has satisfactorily completed all first-, second-, and third-year courses of the linked program (i.e., year one is completed in the Sport Psychology program, years two and three are completed in the PsyD program), is a student in good standing, and has passed the MA comprehensive written and oral examinations in the Sport Psychology program.

3 This is a linked course; it will apply toward both degree programs. 4 This is a repeatable course and must be taken multiple times to total the number of units indicated. The first election is linked to both degree programs.

## Exercise & Sport Performance

The Exercise and Sport Performance Certificate is designed to provide eligible psychologists, marriage and family therapists (MFT), and other psychology professionals the necessary coursework required to apply for certification by the Association for Applied Sport Psychology (AASP). This 26 unit, on-line certificate will provide knowledge in the areas of sport and exercise psychology, sport physiology, and kinesiology to professionals in the psychology, health, sport, and fitness worlds (psychologists, MFTs, coaches, trainers, sport administrators).

This totally on-line certificate for AASP certification can be completed in one year. A one quarter internship in the field is part of the program. Student interns can complete their internship at schools, with individuals, teams, or at recreational facilities. During internship, student interns will be supervised online.

**Total required units: 26**

---

1 These courses or their approved equivalents are prerequisites to the Linked MA Sport Psychology/Doctor of Psychology program. All prerequisite courses must be completed prior to attending first-year Doctor of Psychology courses, with official transcripts documenting successful completion on file in the registrar’s office. Prerequisite courses completed after the awarding of the bachelor’s degree must have a grade of B- or better. Prerequisite courses may be taken at any regionally accredited, approved college or university.

2 In year two, the student moves into the PsyD program. Four units of fieldwork, PSP 5800B Sport Psychology B, and the Sport Psychology comprehensive oral examination will be taken after year one.
College of Graduate and Professional Studies Courses

ARTS & CONSCIOUSNESS [A&C] COURSES

A&C 5010 Image and Process 3
An investigation into the integration of art, process and inner awareness. Exploration of artistic paradigms creates a broad base for understanding creative growth and development. Integration of these principles into individual artwork is emphasized. Special Requirements or Information: Offered only in the Fall and MFA requirement.

A&C 5100 Introduction to Transformative Arts 3
An introduction to the various methodologies and theories related to the use of art and personal creativity as healing forces in the world. A wide variety of topics are explored, including psychological, spiritual and shamanic approaches to artwork. Students are encouraged to draw from their own experiences of creativity and expression as a basis for work in class. Offered only in the Fall.

A&C 5200 Transformative Arts Education 1-3
A variety of course offerings provide an investigation into the use of creativity as a vehicle for human growth and healing. Courses explore aspects of creativity related to teaching, personal spiritual practice, healing and emotional counseling. By participating in a variety of creative modalities, students simultaneously strengthen their own creative processes and form a basis for future professional practice. Offered quarterly MATA requirement MFA elective.

A&C 5255 Transformative Arts Seminar 3
The seminar grants students the opportunity to share their individual creative work with others in a supportive environment. It assists students in deepening their own experience as artists. Students gain insight into how their work can be translated into growth-oriented work with others. Class content is based on the student's artwork. The course offers insights into links between inner and outer work. MATA students only. MATA requirement.

A&C 5260 Transformative Arts Teaching Practicum 3
An investigation into the pedagogy of transformation through creative expression. Lectures, experiential exercises and class presentations by visiting artists and teachers introduce students to the practical approaches to transformative arts. Ethics and boundary issues are considered. Class results in practical application of teaching approaches by students in a community setting of their choice.

A&C 5300 Applied Alchemy 3
An introduction to the transformational symbolic image system of alchemy and its powerful applications to studio art making. Discussion of historical alchemical processes and the modern use of alchemical metaphor and symbol in art. Assigned reading and studio assignments. Offered in Summer Theory and Process elective.

A&C 5305 Art and Altered States of Consciousness 3
Introduces subtle states of consciousness and altered states of consciousness in which inspiration, creativity and insight might arise. Students explore practices meant to access states of heightened lucidity and multidimensional awareness. Studio exercises involving music, movement and visual arts as well as lecture, readings and written assignments. Offered in Summer elective.

A&C 5307 Visual Communications A 3
Using a combination of digital and traditional art materials, this class explores the technical tools and philosophical assumptions regarding the nature of communication through symbol, image, text, color, and composition. Through weekly assignments and critiques, class members develop skills and insights needed for further exploration of the field.

A&C 5308 Visual Communications B 3
Continuation of work in A&C 5307, this course emphasizes advanced skills in digital image-making. Develops further ability to integrate conceptual skills into development of powerful and effective visual images. Expands digital skills to include website design and the use of appropriate software for the creation of basic online venues for visual communication. Prerequisite: A&C 5307.

A&C 5310 Art and the Symbolic Process 3
An exploration of the philosophy of symbolism. Philosophical and experiential insight into the nature of symbol from a variety of cultural and individual perspectives. Students are led into the discovery of their own archetypal visual vocabulary through combination of personal practice and academic investigation essential to creative process. Studio assignments, experiential exercises and written process paper. Offered in Spring MATA and MFA requirement.

A&C 5312 Creativity and Consciousness 3
An exploration of the nature of creativity and its transformative function from both personal and archetypal perspectives. Students are led in an inquiry into their own perspectives of the various aspects of creativity: its energy, rhythms and blocks and how they manifest as the final art product. Studio assignments, experiential exercises and written process papers. Offered in Winter MATA and MFA requirement.

A&C 5315 Dreams and the Arts 2
This course explores the connection between the dreaming mind and the act of creation. Slide lectures, experiential exercises, and studio work will help students understand the transition between symbolic dream imagery and the multidimensional spaces of the inner world. Reading, written project and studio assignments are required.

A&C 5325 Faces of the Soul 3
Students undergo an intensive exploration of the relationship between Asian traditions of Qi Gong and energetic healing with mask-making, movement, and other individual creative acts. Special emphasis is placed on the use of creative self-expression to develop and heal the body and to develop stronger self-image.
A&C 5331 Media of Sacred Art 3
A variety of quarterly courses examine the creation of art intended specifically for sacred and transformative processes. Select topics explore the relationship between creativity and spiritual practice. Various classes focus on mask making, music, movement and/or mixed media in the creation of sacred art. The use of sacred art from diverse cultural settings is considered. Offered quarterly MATA/MFA elective.

A&C 5342 History of Sacred Arts 3
Students will survey sacred art throughout history as seen from a variety of cultural perspectives. Topics will include visual art, architecture, music, and dance as well as philosophical and religious concepts from numerous traditions including Greco-Roman, classical Chinese, shamanism, Buddhism, Christianity, and Islam. Emphasis rests upon how these concepts relate to the development of artistic process of each student. Reading and term paper are required.

A&C 5350 Artist in Society 3
A ‘topics’ course offering a variety of approaches to various ways in which art interacts with contemporary culture: Often taught by visiting artists, topics have included environmental art, generosity, social sculpture, community activism and political change as well as broader surveys of various archetypal roles assumed by contemporary artists through performance, social intervention and other works of social praxis. Offered in Spring MFA requirement MATA elective.

A&C 5360 Beyond the Studio: Community Collaboration A 3
A two-quarter sequence of courses facilitating inquiries into the ways in which art and arts organizations work with the larger community. Individual approaches to moving beyond traditional boundaries between art, social action and community are developed. In the first part of the course, guest lectures and individual research enables students to develop personally appropriate venues through which they explore community-based art. Assigned reading and written project. Offered Fall MATA requirement MFA elective.

A&C 5361 Beyond the Studio: Community Collaboration B 3
A two-quarter sequence of courses facilitating inquiries into the ways in which art and arts organizations work with the larger community. In the second quarter (part B), students undertake community projects through which their individual work as artists is translated into a specific activity that serves the community in some manner. Affiliations and internships with community arts organizations are a part of the course. Individual choice of appropriate venues and activities is strongly emphasized. Assigned reading and community project. Prerequisites: A&C 5360 Community Collaboration A. Offered Winter MATA requirement MFA elective.

A&C 5400 Movement and Improvisation Training 3
An introduction to the foundational practices and contexts of movement and improvisation as solo and ensemble explorations in performance. Emphasis is placed on physical practice and artistic contextualization of body-based activities. This experientially-based course will introduce students to the basic forms and traditions of dance, movement, and improvisation as a gateway into personal and social transformation. The class will focus on increasing the skills in core strength and flexibility, fluidity of movement, timing and presence: synchronizing the mind and body in performance. MATA/MFA elective.

A&C 5403 Performance Composition 3
Development of the essential skills of composition for creating performance using movement, narrative, language, image and sound. Students will be engaged in the structure, process and techniques of composing work for stage such as scoring, mapping, self-scripting, choreographing and directing. Formal elements such as time, space, light, shape, rhythm, emotion, linear and non-linear composition will be considered in depth. Students will be encouraged to develop and recognize their own compositional voice, working with various performance styles, identities and perspectives. MATA/MFA elective.

A&C 5501 Visual Culture 3
Visual Culture Studies examines the production, consumption, philosophy, and psychology of visual images, inquiring into their economic, gender, class, political, social, and aesthetic agendas. Understanding how our seeing is affected by our visual environment and how we participate in the creation of meaning by our conscious or unconscious relations with the visual environment, is an essential aspect of contemporary artistic practice.

A&C 5505 Contemporary Arts Theory and Criticism 3
Intensive exploration of new developments in contemporary art and the philosophical concepts upon which they are based. Various examples of art criticism are examined as expressions of current philosophies of art. The effects of these writings on contemporary art and culture are examined in detail.

A&C 5530 Art, Archetype, and Creative Process 3
Examines the origins and structures of creative self-expression and its relation to culture and spirit. Students gain important insights into the nature of criticism and self-investigation as well as the dynamics of group interaction in support of increasingly deeper levels of skill and insight.

A&C 5550 MFA Mid-point Review 1
A comprehensive review of the student’s work halfway through the program. Submission of mid-point paper required. Student’s original artwork is reviewed by a faculty committee selected by the department chair. All degree candidates must present their artwork and discuss it with the committee in order to continue in the program. The committee determines if the candidate has successfully met the department’s standards and offers suggestions for future investigations. Guidelines provided. Prerequisites: Successful completion of 45 units. Offered quarterly MFA requirement Permission of dept. and signed contract prior to registration.

A&C 5555 Transformative Arts Mid-point Review 1
A comprehensive review of the student’s work halfway through the program. Submission of a mid-point paper along with the student’s work is reviewed by a faculty committee appointed by the department chair. All degree candidates must present their work and discuss it with the committee in order to continue in the
program. The committee determines if the candidate has successfully met the department's standards and offers suggestions for future investigations. Guidelines provided. Prerequisites: Successful completion of 34 units. Offered quarterly MATA requirement. Permission of dept. and signed contract prior to registration.

A&C 5603 Advanced Time-Based Seminar 3

This seminar calls for group critique of individual artworks created by class members. Students explore complex aspects of time- and space-based artwork. Open only to students with substantial experience in new genres, this seminar satisfies studio critique seminar requirements for MFA students.

A&C 5604 Time-Based Laboratory 3

A studio-based exploration of new genres center around the 'black-box' studio. Students participate in class assignments and presentations of individual artworks that explore time, space, light and concept as formal elements. Special emphasis is placed on development of personal approaches to working in experimental media. Offered Spring. MATA/MFA elective.

A&C 5605 Introduction to Performance Art 3

An introduction to the foundational modalities, practices and contexts of solo and ensemble explorations in performance. Using the body and voice as the primary media of expression the class will introduce students to the basic forms and traditions of movement, improvisation and poetics as a gateway into personal and social transformation. The class offers opportunities for creative experimentation and self-discovery, exploring a range of traditions in the performing arts. Offered in Fall. MATA/MFA elective.

A&C 5606 Physical Theater and Performance 3

Development of physical theater skills and techniques associated with body-oriented artwork. This class includes a comprehensive grounding in a dynamic and physical exploration of performance-based traditions, viewing the body itself as an expressive medium and critical site of performative research. Through physical theater exercises and vocal training students will develop confidence in their essential performance skills. Students will investigate the content and concepts of identity, consciousness and the social and political conditions of everyday life through the building of solo and ensemble work.

A&C 5607 Visual Design for Performance 3

Lectures, demonstrations and visits to local theaters will enable students to gain realistic perspectives on the requirements for moving into theatrical productions and producing work in non-traditional art spaces. Investigation into issues of site, audience participation, receptive community and social implications of performance are considered. Internships with existing performance groups as well as independent productions undertaken by each student will offer essential community links. The technical and managerial skills essential to theatrical production are developed by students.

A&C 5608 Advanced Physical Theater 3

This course reviews in greater depth the disciplines of performance and improvisation and culminates with a formal collaborative public performance project with students. It emphasizes professional levels of physical training and conditioning needed to achieve performance values consistent with world-class artwork of this kind. The course requires extensive physical exercise and discipline as well as critical and formal analysis and discussion. Critical skills consistent with MFA level work are also stressed. Prerequisites: A&C 5606 Physical Theater and Performance. MFA students only.

A&C 5609 Advanced Visual Design for Performance 3

In-depth exploration of the tools and techniques needed to create an effective visual and environmental structure for the facilitation of performance works. Using a variety of venues and approaches students will be taught to see space, sound and movement as inter-related dimensions of time-based art work. Emphasis will be placed on minimalistic and environmentally aware approaches to set design, prop costume and interactive approaches to new media. Emphasis on a dynamic and experimental approach to visual design for performance will be encouraged in specific contexts through which students will develop individual approaches appropriate to their own needs and interests as performers. Prerequisites: A&C 5607.

A&C 5610 Drawing from the Body 3

Students explore the technical and psychological dimensions of drawing from direct observations of the human form. Drawing from live models, class assignments, and group critiques help students to develop their skills and awareness of the drawing process and its relationship to our own bodies. Studio Elective.

A&C 5611 Advanced Performance Composition 3

Course is focused on a directing project in which students use the skills they have learned in technique and theory classes to compose, direct and produce sections of a full-length work for their final graduate exhibition.

A&C 5612 Ink, Brush, and Paper 2

In this course, students examine the techniques and philosophies associated with east-Asian painting traditions. An introduction to Asian painting materials, techniques and imagery are important parts of the course. Both calligraphy and landscape painting will be introduced from the Asian perspective. Exercises in tai chi and Qi Gong emphasize the relationship between Asian painting techniques and cultural traditions of energetic flow of nature—“chi.”

A&C 5615 Poetics Seminar 3

Exploration of poem-making as an expression of voice, feeling, and truth. Individual presentation of original poetry to the group in conjunction with experiential exercises aimed at connecting the process of poem-making to individual self-affirmation and wellness. The power of language as a transformative tool and individual development of poetry as an artistic means of self-expression are emphasized. Prerequisites: A&C 5403 Performance Composition. MFA students only.

A&C 5632 Advanced Painting Seminar 3

This seminar is an intensive studio for students who have substantial experience in the field of painting either with oils or acrylics. Individual and group critiques as well as lectures and demonstrations will be offered on alternating weeks, with open studio sessions. Emphasis is placed on developing the philosophical, personal, and formal elements of painting.
A&C 5660 Individual Mentorship 1-3
Mentors are selected by the student from an approved list of successful artists located in the Bay area and nationally. Mentorship choices are based on the student’s artistic and professional goals. Offered quarterly. MFA requirement - 10 total units required. Permission of dept. and signed contract required prior to registration.

A&C 5662 Community Mentorship 1-3
Mentors are selected by the student from an approved list of successful community based art organizations located in the Bay area. Mentorship choices are based on the student’s artistic and professional goals. Offered quarterly. MFA requirement - 10 total units required. Permission of dept. and signed contract required prior to registration.

A&C 5663 Group Mentorship 1-3
Mentorship involving a small group of students working with a single mentor on a specific project or topic. Offered quarterly. Permission of dept. and signed contract required prior to registration.

A&C 5670 Group Studio Practice 1-3
A variety of courses are offered quarterly which address the formal, technical and experiential aspects of art-making. Classes exploring drawing, painting, book-arts, poetry, performance, photography, installation, sound art, video and other studio disciplines are offered. Offered quarterly. Studio elective.

A&C 5675 Artist Resources: Career Pathways 3
An examination of necessary skills and practices for artists to apply creative work to society and the marketplace. Grants, galleries, teaching and other career-related issues are discussed. Resources for the pursuit of appropriate avenues of professional development are examined in depth. Students are introduced to a variety of career options, create individualized career maps and then complete all of the requisite steps in preparing for their entry into a chosen career track. Emphasis is placed upon creating career objectives and strategies that are consistent with students’ personal values and abilities, artistic interests and experiences. Offered in Spring. MATA and MFA requirement.

A&C 5800 MFA Critique Seminar 3
Allows students an ongoing critical dialogue with their peers, under the supervision of an experienced artist faculty member. Students present original artwork to the group and receive in-depth responses. This course develops critical awareness and a sense of community as well as fostering the essential development of language for the examination of issues that a fully functioning artist must possess. Offered quarterly. MFA students only MFA requirement (18 units total required).

A&C 5981/5982 MFA Final Project A/B 2-2
Students present a substantial final exhibition or performance of original artwork which demonstrates a professional level of technical expertise as well as formal and philosophical proficiency. The final exposition presents a professionally viable and cohesive body of original artwork suitable for professional exhibition. All exhibitions and/or performance work must be accompanied by a substantial written corollary statement which thoroughly investigates the artist’s philosophical and historical influences. Offered quarterly. MFA requirement.

Students must allow one quarter between final project A and B. Permission of dept. and signed contract, as well as consultation with gallery director required prior to registration.

A&C 5988/5989 Transformative Arts Final Project A/B 2-2
Requires students to demonstrate their unique perspective on the use of creativity as a transformative agent in the community. The course contains two parts: The written project consists of an original research paper on an approved topic related to an aspect of creative process and community interaction. The community project consists of applying the principles discussed in the written project to an appropriate segment of the community. Documentation of the community project is an integral part of the written project. Offered quarterly. MATA requirement. Permission of dept. and signed contract prior to registration.

A&C 5995 Independent Study in Arts & Consciousness 1-3

BUSINESS [BUS] COURSES

BUS 5008 Operations and Supply Chain Management 3
This course examines operations management, the function of producing goods and services in a quality and efficient manner. In light of this business functional area, it critically discusses supply chain management issues regarding procurement and logistics management, and the planning and management of an organization’s coordination with suppliers. Skills in quantitative analytical methods are developed, including business statistics.

BUS 5020 Financial Management 3
This course discusses the financial function of the contemporary business enterprise and the challenge of managing finances ethically and responsibly. It critically examines theories of financial management including cost of capital, financial leverage, capital structure, dividend policy, long-term capital, working capital, and financial analysis and planning. Prerequisite: BUS 3020 or BUS 5096.

BUS 5025 Talent and Human Resource Management 3
Focused on human resource management and employee training and development, this course critically examines how organizations achieve and sustain a competitive advantage through their human capital. Theoretical and practical issues of effectively attracting, utilizing, retaining, and developing talent are explored with emphasis on system’s thinking, cultural sensitivity in a global workplace, and empowering leadership that fosters collaboration and innovation. Topics include human resource planning, training, recruitment, staffing, regulations, job design, performance appraisals, compensation, recognition, conflict, gender and diversity issues, work attitudes, motivation, and managing globally.

BUS 5030 Power, Leadership and Integrity 3
Understanding organizational power and exemplifying professional integrity are fundamental to effective leadership. Critical to
organizational success are leaders who inspire confidence, evoke loyalty, empower, motivate, and use resources effectively and efficiently. This course analyzes the characteristics and dynamics of organizational power and politics and explores the ethical use of power by leaders when managing employees, creating alliances, making complex decisions, delegating responsibilities, and making changes. Particular attention is given to managing and resolving conflict.

**BUS 5035 Visionary Leadership and Sustainability** 3

Great leaders possess a variety of competencies. Organizational effectiveness is grounded in professionals who have vision, continuously learn, courageously take risks, are decisive and ethical, understand and care about their coworkers, enable work force creativity, and empower employees to take ownership of their jobs. Distinguishing leadership from management, this course analyzes the core qualities and skills that leaders possess, and explores the characteristics of various leadership styles, assessing their strengths and limitations.

**BUS 5037 New Ventures: Business and Market Planning** 3

This course examines the knowledge, skills and business intelligence required for creating and growing new ventures. Topics include evaluating market opportunities with a global perspective, designing development and growth strategies, assessing barriers to market entry and exit, building the management team, and new venture financing. The focus of the course is a creation of a comprehensive new venture marketing plan and feasibility study.

**BUS 5040 Marketing Management** 3

In light of business’ strategic use of the Internet and their desire to compete in global markets, this course analytically examines marketing strategies, objectives, and policies. Discussion topics include managing sales and marketing organizations, market research and site location, advertising and promotion, analysis of buying processes of consumer and industrial markets, Internet marketing and customer relationship management.

**BUS 5052 Managerial Economics** 3

This course critically examines economic theory—both microeconomics and macroeconomics—in light of current business challenges, global issues, and environmental concerns. It analyzes the impact of domestic and international economic policies and major issues on business economics. Discussion topics include the effects of monetary policy, fiscal policy and taxation, forces of supply and demand, theories of cost and production, analysis of consumer behavior, and sustainable economic approaches and business practices. In addition, this course evaluates the response of markets to the forces of supply and demand by using different quantitative and qualitative measures.

**BUS 5055 MBA Capstone: Managing Strategy, Planning and Innovation** 3

The contemporary organization is a strategically managed, information-driven global enterprise that must respond to ever changing markets. Operating in a fast-paced, dispersed work environment, its effectiveness and efficiency is rooted in well-thought out business alliances and partnerships, organization-wide alignment, risk assessment, and innovative problem-solving and decision-making. Using strategic management principles and organizational alignment concepts to integrate the various MBA disciplines, this capstone course builds and enhances professional competencies in business and organizational analysis, collaborative and ethical decision making, innovative strategic planning, and implementation and evaluation of plans. Under-girding this process is an exploration of breakthrough thinking and managing creativity and innovation. The MBA capstone project is completed in this course. Prerequisites: BUS 5020, BUS 5035, BUS 5040, BUS 5052, BUS 5099, BUS 5151, BUS 5385, and BUS 5475.

**BUS 5096 Accounting for Managers** 3

This course discusses core accounting concepts and principles in a manner applicable for managers. Areas of study include financial statement analysis, financial accounting concepts and principles, managerial cost systems, and the use of accounting information in managerial planning and decision making.

**BUS 5099 Organizational Ethics & Corporate Social Responsibility** 3

This course critically examines the inter-related concepts of “business ethics,” and “organizational ethics” and their significant role in developing a company’s mission, culture, strategic plan, operational policies, financial management practices, management style, human resource management, philosophy, work environment, marketing approach, and customer service. Through analytical discussions of ethical systems and case study analyses, this course enables the development of a framework for understanding an organization’s social responsibilities, for improving an organization’s integrity, and for the development of a personal professional code of ethics.

**BUS 5151 Systems Approach to Business Models and Management** 3

Organizations are dynamic and complex systems that are continuously evolving. Applying systems theory to business strategy, organizational operations, and management practices, this course explores business models and theoretical concepts with an emphasis on the nature and challenges posed by dispersed organizations and diverse workforce. Particular attention is given to participative organizational cultures and collaborative management styles.

**BUS 5152 Management Information Systems** 3

Understanding the organization as a dynamic networked enterprise with a sophisticated information technology infrastructure, this course provides a comprehensive overview of management information systems concepts useful to professionals as a user of information systems, and as a future decision maker concerned with the acquisition, application, and management of business information systems. Emphasis is placed on management and technical concepts fundamental to business applications of information systems.

**BUS 5263 Financing New Ventures** 3

This course examines the concepts and institutions involved in entrepreneurial finance and private equity markets. It reviews and evaluates major sources of funding including venture capital firms, informal investors, banks, investment banks, suppliers, buyers, and various government sources. Topics explored include valuation, joint ventures, private placements, forms of buyouts, and IPOs.
BUS 5315 Program Metrics and Measurements 3
Program management involves overseeing a portfolio of interrelated projects that must be aligned with the enterprise’s strategic goals, and whose operational processes must be consistent with the organization’s culture. Budgets need to be established, timelines set, reporting procedures established, and progress evaluation processes put in place. Risk management, benchmarking, and outcomes assessment are critical to successful program planning and progress measurement. Focusing on designing and utilizing appropriate evaluation processes, this course analyzes such methods as the balanced scorecard, six sigma, and total quality management.

BUS 5320 Enterprise Relationship Management 3
Program management is becoming a core competency of organizations because large-scale product development, business enterprise systems’ development, organizational expansion and change usually involve multiple, interrelated projects. Effective management entails consistently communicating with internal and external stakeholders associated with the various projects, managing the relationships with project managers, recruiting team members, and procuring the needed financial resources and materials. With the multicultural nature of the global workplace as the context, this course introduces the core concepts of program management, and critically examines the issues and practices regarding the management of contracts, the supply chain, customer relationships, outsourcing and off-shoring.

BUS 5325 Dispersed Team Dynamics 3
Often work is conducted with colleagues who are dispersed nationally if not globally. Collaboration is supported by various types of online meeting tools and information systems. This course critically discusses the socio-technical nature of virtual teams, successful strategies for building and managing a dispersed team including developing communication channels, and how to establish trust, credibility, a sense of responsibility, and a feeling of community in a virtual work environment. Methods for dealing with cultural issues and working across time zones are also addressed.

BUS 5385 Leading a Global Workforce 3
Globalized business practices, dispersed organizations, and outsourcing have created a global work environment where managers and team members often work 24/7. In light of current workplace issues, this course critically discusses human resource management trends, analyzes workforce engagement principles, explores the pros and cons of a dispersed work environment, analyzes strategies for managing internal and external talent, and develops work-life balance principles. It also examines the challenges a global workforce poses for human resource practices, discusses the leadership and managerial skills needed to successfully function in a geographically dispersed and culturally diverse workplace.

BUS 5450 Emerging Models of Business 3
Globalization, partnerships, innovation, and sustainability are watchwords for the contemporary business enterprise. Organizational agility, business vitality, and competitive advantage must be achieved and maintained while not harming people or the environment. With entrepreneurship, social responsibility, and organizational integrity as guiding principles, this course critically explores approaches to business that enable strategic innovation through the use of sustainable business principles, the creation of a clear business model and plan, the development of collaborative work relationships with employees and other business organizations, and the creation of a virtual knowledge sharing and problem solving network.

BUS 5455 Theory & Practice of Organizational Transformation 3
In a highly competitive business environment, change is inevitable. Organizational leaders and staffs deal with it daily, often without understanding its nature, how it operates, and how its power can be harnessed to unleash innovation to create the organization’s future. This course critically examines the nature of change and how it can be strategically fostered and managed in complex organizations. It also explores the types of organizational cultures that support successful change-management processes and how change-agent leaders can effectively address resistance and resolve conflict.

BUS 5460 Organizational Cultures and Emotionally Intelligent Work Environments 3
Organizational culture is as strategic to success as identified goals and qualified human resources. Grounded in emotional intelligence principles, this course critically discusses how organizational beliefs, values, traditions, and role models shape organizational policies and politics, managerial practices, hiring practices, succession planning efforts, and employee reward systems, as well as how they impact organizational productivity, employee motivation, and job satisfaction. Based upon these discussions, this course presents how to analyze an organization’s present position, assessing its culture’s strengths and limitations and uncovering its culture’s underlying assumptions, viewpoints and ethical principles in order to create an empowering and engaging work environment.

BUS 5475 Organizational Communications and Team Development 3
Communication gives form to organizations. In an information-driven business climate, organizations are complex systems of business partnerships, and a web of networked employees and teams linked via electronic information and communication systems. This course examines the ways companies self-organize in a socio-technical work environment, the nature of organizational social networking in a digital age, and the characteristics of effective interpersonal communication and relationship building in teams. Particular attention is given to the nature of workplace information flow and how to design strategic information and communication systems that enable knowledge sharing and collaboration.

BUS 5800 Business Internship 1-6
This course provides students the opportunity to explore specific job functions by interning at companies and observing people performing those jobs. Students may experience administrative, operations, marketing, sales, finance, technology, and other programs in various capacities.

BUS 5900 Topics in Business Administration 1-3
This course provides an opportunity for current business and organizational trends and issues to be explored. It may be repeated for credit if the topic is different.
### [CNS] Courses

#### CNS 5010 Paradigms of Consciousness 3
This course examines the nature and structure of paradigms and paradigm shifts in scientific, psychological, social, and metaphysical thinking, and emphasizes living systems theory and integral and holistic philosophies as they relate to ecology, health, creativity, and conflict resolution. Prerequisites: Co-requisite: COR 3145.

#### CNS 5015 Body Consciousness/Body Wisdom 2
This experiential course gives students the opportunity to explore their own body sensations, and in so doing, to make contact with its wisdom and power. We explore various areas and systems of the body, listening to their messages about what makes us feel supported, trusting, and strong; what makes us feel alive and passionate; what is right for us; what makes us feel satisfied; what do we care for and what do we want to give; what are our boundaries and what do we want to express; and what makes us feel protected and safe. Along the way, we consider messages that signal stress, anxiety, hunger, fear, and vulnerability.

#### CNS 5017 Introduction to Integral Theory 1
In this course, students are introduced to the five elements of Ken Wilber’s integral theory including quadrants, levels, lines, states, and types. Class activities examine the relevance of this model as a framework for conscious evolution in the modern age.

#### CNS 5020 Archetypal Mythology 3
In this course, students will learn why Freud, Jung, and so many others intrigued by the depths—writers, philosophers, painters, filmmakers, culture critics—have outgrown the notion of myth as “untruth” to encounter its central role in the life of the psyche. This will prepare us to explore archetypal modes of consciousness and deepen our understanding of how archetypes and myths address us every day in our dreams, our relationships, our conflicts, and our mishaps. Prerequisites: Prerequisite: CNS 5010.

#### CNS 5023 Shamanic Traditions 2
Shamanic practices and rituals that acknowledge and strengthen relationship to family, community, and the earth are sorely lacking in our modern culture, yet with each person’s ancestral lineages can be found evidence of earth-based spirituality, nurtured and supported through shamanic traditions. In this class, students will research shamanic practices within their ancestral lineages with the intention of integrating these practices with present-day knowledge.

#### CNS 5025 Quantum Approaches to Consciousness 3
In recent years, with advances in brain research and insights from quantum theory, new light has been shed on the vital question of “what is consciousness?” In this course, students will learn how the brain may take advantage of the strange and revolutionary aspects of quantum theory, deciding for itself how reality may unfold. Prerequisite: CNS 5010.

#### CNS 5027 Non-Ordinary States of Consciousness 2
This course will examine the intersection between the subjective and objective experience of various non-ordinary states of consciousness. Students will explore the brain-based neurophysiology as well as the subjective experience of various non-ordinary states of consciousness. Subjects may include the work of Stan Grof (Holotropic Breathwork, exploration of native science), Charles Tart (psy phenomena), shamanic consciousness, deep meditation, the use of hallucinogenic drugs, and other non-ordinary states.

#### CNS 5030 Sleep, Dreams, and States of Consciousness 2
Students will examine recent scientific research in sleep and dreams and explore a variety of techniques in working with dreams. The course focuses on the states of consciousness within sleep and different phenomena of the dreaming mind. Students will also explore their own dreams through different experiential and creative explorations.

#### CNS 5033 Consciousness and Psychology 2
This course will take a critical and appreciative look at transpersonal theoretical principles in the work of Carl Jung, A.H. Almaas, Roberto Assagioli, Stanislav Grof, and Sri Aurobindo. In class discussions, readings, and experiential exercises, students explore ways in which consciousness, psyche, and spirit intersect in the work of each of these theorists. Prerequisites: Prerequisite: CNS 5017.

#### CNS 5035 Consciousness and Philosophy of Mind 3
This course provides a scholarly grounding in the core philosophical issues surrounding the study of consciousness. This course will explore the three main “problems” in philosophy of mind: (1) the “mind-body” problem (how does consciousness relate to the physical world), (2) the “problem of other minds” (how can we know if other people, animals, plans, or even rocks have consciousness?), and (3) the “problem of free will” (do we really have choice, or are we determined by genetics and environment?). Prerequisite: CNS 5010.

#### CNS 5037 Neurophilosophy of Consciousness 3
The results from recent brain research have sent shockwaves far beyond the boundaries of neurophysiology and neuropsychology. The implications reach into the very nature of the human experience, both personally and culturally. Much of the research has validated what many of us have long suspected to be true: consciousness does indeed affect the brain and thus the entire individual. Our thoughts and feelings directly affect the chemistry of the brain, which in turn largely determines the health of our entire being—both as single organisms and as a species. In this course, students will examine the timely and exciting intersection between neuroscience, philosophy of mind, and ethics. Prerequisites: CNS 5010.

#### CNS 5039 Self-Exploration 1-2
This is a seminar course that explores teachings and practices which encourage self-knowledge and a deeper understanding of the self’s psycho-spiritual journey toward greater consciousness. Focus varies with instructor and student interest. May be repeated for credit with a change of topic.
CNS 5039D Self-Exploration: Ancestral Consciousness and Healing 2
Ancestral stories, family traditions, and the great teaching stories from our culture shape us and condition our perception of presence. In this course, we will examine the “breaking points” in our ancestral heritages—the places where our ancestors may have suffered a loss of connection to place, community, language, traditions, and spirituality. Through readings, class discussion, and personal research, students will learn how to access and reclaim the strengths and wisdom within our ancestral heritage.

CNS 5039E Self-Exploration: Alchemy 2
In this class, students will study the basic principles, history, and practices of alchemy—East and West, exoteric and esoteric, ancient and modern. This course also examines the alchemical states which bring about physical, emotional, mental, and personal transformation.

CNS 5049 Introduction to Consciousness & Transformative Studies 0
This course introduces new students to the Consciousness & Transformative Studies program.

CNS 5060 Philosophy of Consciousness 1-3
Explores the major Western philosophical approaches to understanding the relationship between body and mind as well as the nature of truth and reality, postmodern cosmology, and process philosophy.

CNS 5119 Research and Degree Completion 0
This course will present the requirements and expectations for key professional courses in the second and third year of the program. This course will prepare students for CNS 5126–27 Qualitative Research A–B, externship, and the final integrative project or thesis. Students will begin to explore how to connect and extend their education and coursework into areas of professional application.

CNS 5120 Diversity, Community, and Consciousness 3
This course presents a 21st-century approach to social issues and includes discussion of racial, ethnic, and cultural differences along with ways to build community, harmony, and understanding—diversity in oneness. Prerequisites: IPP 5013.

CNS 5126 Consciousness & Transformative Studies 1
This course provides students with an introduction to the basics and applications of several qualitative research methodologies. Students examine the strengths and weaknesses of qualitative versus quantitative approaches and are asked to explore the implications in terms of master’s-level research. Discussion and exercises in class are geared toward pursuing and developing a research question or topic, discovering its fit with the methodologies introduced in this course, and opening it up with various research skills (triangulation, searching the literature, data collection, etc.). Prerequisites: CNS 5199.

CNS 5127 Qualitative Research B 2
This course continues the multi-perspective approach of CNS 5126 into a deeper understanding of how these approaches and skills translate into a key component of the course—developing the actual research proposal. Students will also survey the research process from proposal stage through completion and discuss effective ways to present the research findings. Prerequisites: CNS 5126.

CNS 5212 Psychology of Dreams 2
This course examines Western psychological traditions of dream interpretation. The pioneering work of Sigmund Freud and Carl Jung, both of whom were directly inspired by their own dream experiences, will be explored, along with later research on the role of dreaming in human development, creativity, and healing. Students will be encouraged to think critically about these psychological theories, to test them in connection with their own dreams, and to seek new creative integrations with the dream theories of other cultures and traditions.

CNS 5215 Integral Approach to Dreamwork 2
A multidimensional, holistic perspective of dreamwork that includes multiple ways of gaining insights into the nature and meaning of dreams. We will explore how dreams affect our body, emotions, mind, spirit, and community. Ken Wilber’s four-quadrant model will also be discussed in relation to levels of consciousness, dream work, and the practitioner’s worldview.

CNS 5216 Lucid Dreaming 2
Lucid dreaming is the act of becoming conscious while dreaming. In this course, scientific research in the field of lucid dreaming will be explored and students will learn methods to become conscious in sleep. This course will interweave cognitive, experimental, and experiential approaches to explore this state of consciousness.

CNS 5219 Dream Practicum 1-3
Participants in the class will share and work with dreams, drawing upon contemporary theories and practices in the field of dream studies.

CNS 5270 Issues in Science and Consciousness 1-3
In-depth research and analysis of specific topics in science and consciousness. Topics may include genetics, chaos, synchronicity, complexity, and biology of consciousness.

CNS 5280 Dreams, Archetypes, and Personal Mythology 2
In this course, students will explore the recurrent dream archetypes that help dreamers become aware of themes generating a personal mythology for one’s life.

CNS 5282 Dreams: Initiation and Indigenous Ways of Knowing 2
Everyone carries ancestral knowledge memory deep within. Through myths and dreams, individuals are able to recover innate wisdom present and potential in the environment. With the world of dreams and myth, all beings hold equal potency and potential. This state of awareness or animated knowing is “native mind.” This course offers students an opportunity to begin a journey of recovery in ancestral ways of knowing. Through dreams and myths, students explore initiation into native mind.
CNS 5284 Consciousness and Sustainability: Solutions for the 21st Century  
This course explores the issues, theories, research, and practices in order to understand/take action on healing and “greening” the planet. Students will examine the current practices and approaches in ecology and sustainability that are making a difference and improving the planet. Students will select a topic of interest in the area of sustainability to research, focusing on innovative practices currently being explored or developed. Prerequisite: CNS 5010.

CNS 5300 Sacred Intention, Sacred Manifestation  
Examines the sacred dimension and importance of clarifying intentions and values. Course also addresses the existential meaning of will and intentionality and their role in directing consciousness, dispelling confusion, empowering vision, and creating a new reality.

CNS 5344 Dream Groups: Facilitation and Ethics  
This course explores the ethical implications of working with dreams in a group setting. Students also examine issues of cultural, gender, and class bias in regard to dream work. Students have the opportunity to gain hands-on experience leading a dream group.

CNS 5345 Shamanism and Dreams  
This course explores the role of dreams in shamanic traditions. Major topics include receiving the “calls” in dreams, healing, dream interpretation, the role of shamans, shamanic misconceptions, and the rise of urban shamanism and ethics. Shamanic states of consciousness and the practice of drumming as a tool for entering the dream state will be introduced. This class will be held on the Berkeley campus.

CNS 5410 Teaching Practicum A  
Students learn to develop teaching outlines and lesson plans for adult education. Course includes class presentations, assessments of personal teaching style and discussion of philosophical principles of holistic education.

CNS 5411 Teaching Practicum B  
Using the skills acquired in CNS 5410, students plan, develop, and present workshops on topics of their choice. Prerequisite: CNS 5410.

CNS 5415 Curriculum Development  
Students will learn how to prepare an academic syllabus and weekly lesson plans for college courses. Topics include holistic teaching philosophy, course objectives and description, reading and research materials, assignments, student evaluations, and the balance between cognitive and experiential learning.

CNS 5453 Integral Coaching  
This is a practical, hands-on class to define and provide coaching skills for managers, consultants, and those in private practice. The course will emphasize and apply an integral approach to coaching based on the work of Ken Wilber. In addition, students will practice basic coaching skills offered by Laura Whitworth’s co-active approach. The emphasis is on practical applications of coaching skills in real-life professional situations. Offered credit/no credit only.

CNS 5455 Exploring Professional Identity A  
Encourages students to begin an inquiry into their future career goals and application of principles learned in their degree program.

CNS 5460 Exploring Professional Identity B  
Students integrate career goals and degree principles by attending a particular internship site. Prerequisite: CNS 5455.

CNS 5465 Starting Your Own Business  
For those considering opening a practice as a consultant, coach, therapist, bodyworker, or developing a start-up company, this class will examine the basics needed to turn a great idea into a business reality. Among the topics covered are analyzing life values and priorities, determining business goals and strategies, launching and managing the business, and dealing with finances and marketing.

CNS 5515 Six Domains of Consciousness: Personal Synthesis  
Second year students prepare to synthesize their learning of six domains of consciousness (the scientific, psychological, transpersonal, ecological/philosophical, and spiritual) into a holistic paradigm of consciousness. Students meld what they have learned about dimensions of consciousness into their own understanding to make personal meaning of the origins, nature, limitations and potentials of consciousness. Prerequisites: CNS 5033 and CNS 5025.

CNS 5600 Planning a Thesis  
In this course, students will explore their thesis topics and clarify the major questions to be addressed.

CNS 5602 Thesis  
Students write their master’s thesis under the supervision of selected faculty members. Prerequisite: CNS 5600.

CNS 5610 MA Integrative Project  
In this class, students prepare their final integrative paper and presentation. This includes a personal statement, psychological and spiritual theory, and application of coursework within a professional and social context. Prerequisite: CNS 5127.

CNS 5615 Publishing and Media  
This course focuses on preparing, packaging and disseminating information to both general and specific audiences. Topics include: writing book proposals and query letters; assessing markets and dealing effectively with contracts, agents, editors and publishers; presentation skills; self-promotion through the media, personal and public relations, and interviews.

CNS 5620 Issues in Consciousness Studies  
Issues will vary according to student interests. May be repeated for credit with a change of topic.

CNS 5670 Advanced Writing and Publishing  
This course is intended for students who wish to publish their research professionally. Students must bring to the course a research paper from a previous class with an A or A+ grade. The focus of the class will be to refine and edit the research paper into a high-quality article that will be submitted for publication to a professional journal.
CNS 5800 Issues in Philosophy 1-3
In-depth research and analysis of specific topics in philosophy and consciousness. Focus varies with instructor and student interest.

CNS 5820 Intensive 1: Methods and Practices of Ecotherapy 3
Learn and practice the use of a wide range of ecotherapy techniques.

CNS 5822 Dimensions of Holistic Sustainability 3
Discover the societal / economic /political facet of ecotherapy. Students will receive and articulate a cross-disciplinary understanding of earth-friendly forms of living and come away with an ability to participate constructively in social and professional discussions to unpack the complexities of sustainability.

CNS 5824 Horticultural Therapy 3
A survey of gardening therapy, including organic food production and the healthful benefits of community gardening. Students will be able to advise their clients on specific gardening techniques for promoting mental and physical health.

CNS 5826 Animal-Assisted Therapy (AAT) 3
Recent research on animal consciousness is combined with research on the inclusion of animals in various human health settings. Assignments will require students to study their own somatic and psychological reactions in the presence of animals in order to understand how and when to apply AAT methods.

CNS 5830 Ecopsychology and Ecotherapy: Deep Cultural Work 3
Includes small group and dream work that connect inner with outer and individual with the wider culture. Also, conservation work has been shown to foster psychological health and new experiments in land-based living. Students will apply various blueprints for creating and promoting earth-conscious community practices.

CNS 5832 Earth, Body, Spirit 3
Learn about and experiment with consciousness-deepening ritual and ceremonial practices that include aspects of the natural world. Taken from a variety of cultural traditions, such practices transform the objectification of nature into an appreciation of its presence, beauty, and powers of healing.

CNS 5834 Ecotherapy Internship 3
Twenty (20) field hours of actual ecotherapy practice gained within an authorized fieldwork setting.

CNS 5995 Independent Study in Consciousness Studies 1-3
To be arranged with consent of instructor and approval of the program chair and dean.

CNS 9210 Dream Studies Fieldwork 0
In this course, students will complete a field project related to dream studies. The specific nature of the project will vary based on student's interests and available mentors and often includes attendance at a dream conference; however, all work must be approved prior to its onset.

HOLISTIC HEALTH EDUCATION [HHE] Courses

HHE 5001 Introduction to HHE Program 0
A required, no cost, no credit course for all students entering the program, it prepares students to get the most out of the program and lets them know what they need to do in order to complete it. Prerequisite: Permission from HHE chair or core faculty.

HHE 5010 Applied Nutritional Biochemistry 2
Food forms the fiber of our being. It is our first line of defense against illness and infirmity. Beyond basic nutrition, this course lays the foundation for using food as medicine focusing on supporting healthy cellular, organ and system function. From a functional medicine approach, we examine the role of carbohydrates, proteins and amino acids, fats, vitamins, and minerals in health and illness. As a result of the course students will be able to communicate the scientific reason for their nutritional recommendations. In an embodied learning model, food sharing is part of this course as we educate our minds and palates. Prerequisite: HHE 5001.

HHE 5012 Effective Communication A: Emotional Dynamics 3
This course is an introduction to some basic principles and practices of effective communication. Students explore the use of communication in day-to-day life, relationships, counseling, teaching, employment settings, and in other contexts for working with people. Topics include presence, centering, listening skills, and discriminating between content and process.

HHE 5013 Effective Communication B: Intersubjectivity 3
This course continues to practice skills and principles of effective communication: topics include emotional dynamics, conflict management, and the importance of communication in social and global issues. Prerequisite: HHE 5012.

HHE 5120 Integrative Health 2
This course provides a foundation in Integrative Health by exploring the development of Western Medicine. We examine historical perspectives that influence the current state of healthcare, explore the scientific basis of integrative approaches, and address the challenges of integrative health care. This provides a context for connecting Western medical practice to holistic practice as a basis for building bridges of communication between traditional and alternative practitioners. Prerequisite: HHE 5001, HHE 5225.

HHE 5125 Energy Models of Healing 2
This course presents an integrally-informed view from many disciplines and traditions that contribute to understanding how health and wholeness may be defined and worked with in energy terms. We look at energy from the perspectives of thinkers and researchers such as spiritual healers, clairvoyants, quantum physicists, biologists, consciousness and psi researchers, poets, and mystics and create a new framework that can integrate these. We also review some of the most prominent approaches and methods of energy healing, including Homeopathy, TCM, and use of Flower Essences, as well as systems that address the chakras and energy bodies; hands-on, and “spiritual” methods of healing, such as Reiki and prayer. Experiential activities are included, focusing on “perceiving the world in energy terms.” Prerequisites: HHE 5225; PHR 3405.
**HHE 5126 Asian Approaches to Healing**  
Two of the oldest holistic healing systems of medicine—Chinese and Ayurvedic—are presented in this introductory course. Their basic philosophies, principles, and standards of treatment are explored both didactically and experientially. Each system is outlined with emphasis on their spiritual roots, cultural and social perspectives, and their growing appeal as global alternative approaches to healing. The role of these modalities within the framework of an integrated medical system is also explored, and recent efficacy research is reviewed. Prerequisite: PHR 3405, HHE 5001.

**HHE 5130 The Collective Body**  
This course enables students to understand and critique social and cultural constructions of the human body, and how such constructions influence social policy, health systems, and individual behavior, as well as their own ideas and beliefs about the body. The approach is interdisciplinary, drawing upon numerous fields of study to examine the collective body, including (but not necessarily limited to) sociology, anthropology, critical race theory, gender studies, legal studies, economics, and epidemiology and public health. In addition, the discourse of the body will provide a way of exploring various issues related to holistic health education from a critical perspective. Prerequisite: HHE 5225.

**HHE 5135 Healthcare Economics and Politics**  
Can we create greater health with more access to quality health care? In this course we explore how and why our health care system has developed as a paradox of excess and deprivation. We consider the advantages and problems of national health insurance and examine medical systems in other industrial democracies as we identify the benefits and disadvantages of our American health care system. We look at the business trends that have pushed Americans to spend more on pharmaceuticals than the people in many other countries. We move beyond the issue of access to health care and into the question of access to what kind of health care and how we can change the orientation from disease treatment to health promotion. Prerequisites: HHE 5200, HHE 5505.

**HHE 5140 Culture, Community, and Health**  
This course examines the influence of culture and community on health status and health outcomes in diverse settings. Through a “whole systems” lens we consider the multiple ways in which a broad range of social and cultural factors shape health, well-being and healthy development in a pluralistic society. We explore the role of community in promoting health among diverse populations. We also explore how culture and community shape the thinking and practice of health professionals, and implications for evidence-based practice. Paying attention to human potential, as well as human problems, we explore effective approaches to holistic health education. Prerequisite: HHE 5185.

**HHE 5145 Health, Environment and Sustainability**  
The earth is a primary determinant of our health. Healing, while intensely personal, occurs within the context of the physical environment, as well as the community in which individuals live daily. This course considers the ecology of health—the human impact on the environment—and the health of ecology—the impact of the environment on our health. We also focus on sustainability, a principle providing an ethical imperative for maintaining and supporting ourselves, our communities, and the environment. The course offers students an opportunity to consider our relationship with the larger world, coming to an acceptance and inclusion of the diversity of life forms. This class integrates aspects of nature, community and personal healing, balancing global perspectives with local environmental awareness. Prerequisite: COR 3145, HHE 5225.

**HHE 5147 Health Education for the 21st Century**  
This course maps out the field of health education, and explores the history of the health education role, the philosophical basis of health education, and directions for the future of the profession. Practical skills needed by health educators are covered, and students have opportunities to practice some of them, including developing a Needs Assessment, and writing a proposal for a health program. Models of health education as part of a mainstream healthcare system and in alternative settings are explored. Professionals in the field may be brought in to share their experiences. Prerequisites: HHE 5200; HHE 5135.

**HHE 5150 Mind/Body Approaches to Self-Care**  
The study of Mind-Body Medicine includes three aspects of inquiry. Students are introduced to various self-care approaches and part of the course involves students’ own engagement and documentation of the process. The second aspect of class time includes in-depth discussions of the principles and practices of mind-body medicines. The third aspect of the class involves small group presentations of one form of mind-body medicine, including meditation, visualization, and other methods. Prerequisites: HHE 5512, CNS 5410.

**HHE 5155 Foundations of Holistic Nutrition**  
This course introduces students to essential issues and principles in the field of nutrition today and to the effects food has on health promotion, disease prevention, and recovery from illness and injury. A whole foods based model of eating is presented along with a holistic model of wellness that centers around whole food nutrition. The basics of macro and micronutrients, anti-oxidants and food issues faced in modern nutrition will be covered. Students will learn how to formulate a personal dietary plan based on health status, metabolic tendencies and levels of commitment to improve their dietary habits and choices. Each class member will also develop educational materials to include in their personalized nutrition program. Prerequisite: HHE 5001.

**HHE 5156 Comparative Dietary Approaches**  
Approaches to nutrition in the U.S. are so varied and so often conflicting; most everyone is confused and overwhelmed about what to eat. We analyze the most current, popular, classic, and cutting edge dietary approaches to provide a basis to resolve the confusion. The approaches are analyzed based on the following: metabolic health and hormone balance; insulin sensitivity, blood typing and other biochemical characteristics; carbohydrate, protein, and fat proportions; food features; and food combining. We discuss which approaches might be best for overweight, Syndrome X, fatigue, mood, digestive and elimination problems, cravings and addictions, skin conditions, disease prevention and other areas of student interest. Prerequisite: HHE 5155.

**HHE 5158 The Challenge of Change**  
This course explores approaches to change, specifically as it relates to health and health behaviors. We look at several different models
of change and explore practical ways to support positive change in individuals, with emphasis on whole person approaches. Prerequisite: HHE 5225.

**HHE 5160 Embodying Spirit**  
2

The ultimate goal of a spiritual practice is awakening, but other gifts are received as well, including psychological, intellectual, and physical benefits and a greater sense of joy in living, purpose, and a feeling of belonging and community. Abundant research shows a strong link between health and spirituality. This course helps students to develop or deepen a spiritual practice by offering concepts and practices designed to embody and make more apparent the essential quality of spirit in health and wellness. Prerequisite: HHE 5001.

**HHE 5167 Nutritional Consultation and Coaching**  
2

In this course, students learn about analyzing the nutrient content of foods and meal plans using the most efficient, up-to-date methods. Nutritional counseling—effective rapport building, listening, and interviewing; keys to motivation; the stages of change (trans-theoretical model); behavior change strategies; barriers to change; goal setting and evaluation; effective documentation; and non-food interventions to improve health; and nutritional coaching are woven together in this course. Prerequisite: HHE 5156.

**HHE 5169 Healing Foods A**  
2

This course introduces the foods, ways of eating, and nutritional therapies that help to bring about and maintain the most vibrant health and also introduces the nutritional deficiencies that contribute to ill health and lack of well-being. Nutrition for men’s and women’s health, a healthy immune system, cardiovascular health, gastrointestinal health, and adrenal stress syndrome are covered. Emphasis is on preventing illness and maintaining wellness. Prerequisites: SCI 3110, HHE 5010, HHE 5155.

**HHE 5170 Healing Foods B**  
2

Complementing HHE 5169, this course provides the foundation for working with specific and diagnosed “medical conditions” such as diabetes, irritable bowel syndrome and disease, allergies (especially food allergies), heart disease, and cancer. Prerequisite: HHE 5169.

**HHE 5172 Healing Foods C**  
2

This course introduces the foods, ways of eating and nutritional therapies that help to bring about and maintain the most vibrant health throughout the lifecycle, highlighting pediatric health, geriatric health and holistic sports nutrition. Preventing childhood obesity and its sequela (liver disease, diabetes, cardiac disease) is a focus of this course. Ways to reverse the trend of the overfed but undernourished child are explored. Special dietary needs of elders are also a focus of this course. Nutritional recommendations for physical and mental vibrancy in the elder years are identified through a holistic approach for preventing illness and maintaining wellness. The nutritional needs of the athlete were also be examined through the lens of holistic nutrition and specific nutritional recommendations for athletes are discussed. Prerequisite: HHE 5171.

**HHE 5173 From Farm to Table**  
3

In this course, students analyze how the production, harvesting, marketing and distribution, shopping, cooking, serving, and enjoying of food determine a wide variety of social processes with profound consequences for the earth and its populations. The role of health educators as advocates of healthier lifestyles is considered, one that will benefit earth communities, families, and every individual. Socially transformative approaches involving sustainable gardens, programs in schools and communities, and other innovations are examined.

**HHE 5175 Holistic Approaches to Weight Management**  
3

Approaches to weight management are examined, including an alternative model of looking at weight and size – Health At Every Size. Working to include a holistic perspective, specific weight management situations are a focus. Weight and fitness issues and the connection between diet, exercise, self-esteem, and social support are presented as essential components of sound, healthy, weight management. The psychology behind issues related to nourishment and poor body image are considered in this course, along with socio-cultural factors that play a role. Eating as a mindful spiritual practice is also incorporated into this holistic approach to weight management. Prerequisites: HHE 5156, HHE 5512.

**HHE 5180 Somatic Education A**  
2

This course presents a review of somatic modalities including those that are movement-and awareness-based and those that are touch-based. A strong experiential component is included so that students may enhance their own somatic awareness and function.

**HHE 5181 Somatic Education B**  
2

This course provides theory and techniques for how health educators (non-practitioners) may work with people one on one and in groups or classes to facilitate development of somatic awareness and enhanced function. Application possibilities and settings are considered. The course may also cover issues such as those that might come up while teaching movement classes and body awareness classes from basics of making people comfortable and adapting classes to particular health challenges, touch, and consequences of teaching practices such as yoga and Qi Gong divorced from the traditional spiritual component. Prerequisite: HHE 5180.

**HHE 5183 Starting an Integrative Center**  
2

Since the early 90s, many integrative center prototypes have been tried and inherent business challenges have been discovered. Some centers have survived and some have not. For a center to be successful, the business model must be as developed as the vision. In this course, students will research what kind of integrative health care. Integral methodology merges 1st person, 2nd person and 3rd person perspectives. Each perspective involves unique modes of inquiry and respective research methodologies. Knowledge and comprehension of integral research will come through application and analysis of key concepts and measures. Students gain insight and experience using vital tools for a career
in holistic health education, understanding the importance of research by participating actively in a heuristic research project. Prerequisites: HHE 5120; HHE 5158.

**HHE 5225 Foundations of Holistic Health Education 2**

This course overviews a holistic approach to health education. We consider health as an interdisciplinary field and look at its defining terms and their usage. During the course we touch upon such topics as salutogenesis; treating whole persons and not illnesses; health, wellness, and metaphors for healing; self-care and client/patient involvement; health and relationship; health and spirituality; health of individuals in communities and as part of the environment. We look into Integral Theory as an integrative model. Also tying everything together is a big theme of language, health, and education, and how to present ourselves in ways that reach people (clients, patients, and fellow professionals). This course is writing intensive. Prerequisite: HHE 5001.

**HHE 5340 Support Group Facilitation 3**

Students gain both a theoretical understanding of support groups as well as practical knowledge with respect to planning and facilitating a support group. We discuss the differences between support groups and other kinds of educational or therapeutic groups, look at the particular skills a facilitator must cultivate, and talk about common issues and problems. Each week the students work on one aspect of developing their own group so that by the end of the course they have created a session-by-session model of a support group on a theme of their choice.

**HHE 5425 Moving and Sensing 3**

Movement expresses various qualities, structured, free-flowing, linear, waving, fast, slow, etc., and happens on all different levels: from visible externally to barely felt on the inside. Sensations are the very flesh of our inner experience, though our kinesthetic sense has often been overlooked. This course presents a conceptual and experiential inquiry into moving and sensing, covering current movement/somatic approaches. Students will explore movement and develop tools to enrich their own sensory awareness as well as to facilitate such growth in clients or students. Prerequisite: HHE 5001.

**HHE 5429 Whole-Health Coaching Foundations 3**

The purpose of this course is to teach beginning coaching skills coming from a holistic/integral perspective so participants can assist others and themselves in a change process. This is an educational offering that is based on evidence based practice and theory. The course work presents skills that enable students to carefully co-create an interactive, embodied conversation that will invite and encourage growth and progress for all those it touches. These skills can be applied to a clinical, organizational and leadership setting. This course provides an understanding and practice of coaching principles such as core coaching competencies, readiness for change and transition theory, energy anatomy in coaching, personal constitution. Prerequisite: HHE 5001.

**HHE 5430 Whole Health Coaching Practicum 3**

Building on the Whole Health Coaching Foundations Course to support students as they apply the principles to an expanded version of individual and group coaching. Additional theory is presented that makes the coaching interaction richer and more comprehensive. Practice with coaching competencies and tools increases the students' coaching effectiveness. Time will be spent discussing practice structure for coaching such as fee setting, marketing and coach-client agreements. Participants who have taken these courses say that they not only improved their work with others but also helped them live a healthier and happier life. Paths to certification are mapped out and supported. Prerequisite: HHE 5429.

**HHE 5505 Student Review: Midpoint 0**

At the completion of the midpoint of the HHE program (completion of approximately 35 units), students are oriented to the second half of the program, which is more focused on professional preparation. A student satisfaction survey is given.

**HHE 5512 Physiology and Psychology of Stress 3**

Does stress cause illness and disease? Why can we both worry ourselves sick and also exercise our cares away? What roles do stress reactivity and the ability to shift perception play in our ability to build both physical and psychological resiliency? These are a few of the questions we explore as we examine the nervous, endocrine, cardiovascular, digestive and immune systems and the impact of stress on these systems. As the speed of life increases, the need for a holistic approach to stress management becomes greater. As a class, we put together a holistic stress management program that can be used in many health education settings. Prerequisites: HHE 5120, SCI 3110.

**HHE 5575 Supervised Internship 1-3**

Students work with ways of bridging their work as students with what they hope to do as professionals by working for one quarter in a professional setting under the guidance of a mentor, keeping a journal, and describing their work in a paper. Prerequisite: Permission of instructor.

**HHE 5608 Demonstrating Mastery 0**

A required, no cost, no credit course in which students are able to demonstrate mastery of general HHE knowledge, as described in the Program Learning Outcomes.

**HHE 5610 MA Integrative Final Project 2**

The MA Integrative Final Project course is designed to assist students in the development of an Integrative Final Project and Oral Presentation on a topic of particular interest to them. Through faculty guidance and peer support students take the final steps in their transition from student to professional in holistic health education. Prerequisite: Minimum of 65 units.

**HHE 5615 Practicum in Holistic Health .5**

Practica are designed to give students exposure to various modalities of holistic health, and cover both an introduction to principles and experience in the work as it relates to their own health. In addition to modalities, practica will be offered in practices such as qigong, yoga, aikido, and movement. Topics such as cooking, the promoting health on-line, issues in working with different age groups, death and dying, and setting up a nutritional consultation practice are also offered.
HOLISTIC STUDIES - COUNSELING PSYCHOLOGY [HSJ] COURSES

HSJ 5000 Introduction to Holistic Studies Program 0
This course will introduce students to Holistic Studies and detail program requirements and student responsibilities. All students entering the Holistic Studies program are required to take this no-cost, no-credit course during their first quarter.

HSJ 5010 Paradigms of Consciousness 3
An introduction to the philosophical concepts of holism. By exploring consciousness, the nature and structure of paradigms and paradigm shifts in psychological thinking, students will gain the theoretical foundation necessary to integrate transpersonal and somatic theories. Students will consider implications of living systems theory and the philosophy of holism as they relate to the field of counseling psychology.

HSJ 5100 Seminar in Holistic Studies 1
This course gives students in-depth exposure to various modalities of somatic and transpersonal counseling and provides practice in the application of clinical and educational skills to the psychotherapy of individuals, groups and families. Seminars will be offered on a variety of modalities, including, but not limited to, Hakomi, Feldenkrais, and meditation. Students will take two courses during their first year of study. This course must be taken for a total of four units.

HSJ 5101-03 Group Process A-C 2/2/2
Using traditional, transpersonal, and somatic counseling techniques, students examine and work with their own and others’ feelings, motivations, and patterns of behavior. Through class participation, students learn group theory and group facilitation skills. Must be taken in three consecutive quarters during the first year of graduate study. Prerequisites: HSJ 5101, HSJ 5102.

HSJ 5105 Therapeutic Communication A 3
An introduction to some basic principles and practices of effective communication. Students explore the use of communication in day-to-day life, relationships, counseling, teaching, employment settings, and other forms of working with people. Topics include presence, centering, listening skills, and discriminating between content and process.

HSJ 5106 Therapeutic Communication B 3
This course will allow students to continue to practice skills and principles learned in the first quarter. The major defense mechanisms will be examined and strategies explored to deepen therapeutic process and classroom participation. Training in recognizing transference and countertransference issues and making effective therapeutic interventions. Assessment of communication patterns in dysfunctional, functional, and optimal individual and couple, family, and educational systems are explored. Prerequisites: HSJ 5105.

HSJ 5115 Fundamentals of Transpersonal Counseling 3
Covers basic postulates of transpersonal psychology. Surveys Jungian psychology, transpersonal approaches to psychotherapy,
psychosynthesis, imagery/movement psychology, and myth, art, and ritual in counseling. Prerequisites: PYJ3200.

**HSJ 5120 Individual Development and Family Life Cycle A** 3  
A review of the stages of individual development and the works of traditional theorists including Freud, Mahler, and Piaget as well as those of contemporary somatic theorists. Introduction to the concept of family life cycle. Prerequisites: PYJ3200.

**HSJ 5121 Individual Development and Family Life Cycle B** 3  
Focuses on family life cycle and the ways in which it is influenced by, and is independent of, the developmental experiences of family members in their families of origin. Major theories of healthy and dysfunctional family development are covered including the somatic theories, relating events in the family life cycle to each member’s health. Prerequisites: HSJ 5120.

**HSJ 5126 Cross Cultural Issues in Counseling** 3  
Provides an overview of the field of cross-cultural issues related to counseling. Special emphasis is placed on fostering an understanding of cross-cultural dynamics in counseling through an examination of the historical, political, and sociocultural issues that impact the lives of ethnic minority clients.

**HSJ 5130 Movement Seminar** 3  
A holistic approach to working with movement in educational and therapeutic settings. Students explore movement development and articulation, re-patterning, and expression and integration. At the end of the course, students will have an understanding of movement in relation to themselves as well as experience in exploring movement with others. Prerequisites: SCI 3110, HSJ 5205.

**HSJ 5150 Supplemental Fieldwork Experience Monitoring** 1  
Individual evaluative consultations which review students’ progress in supplemental external fieldwork placement. Student and faculty meet a minimum of once per quarter to review placement, evaluations, and fulfill BBS requirements for hours of experience toward licensure. Prerequisites: HSJ 5235

**HSJ 5201-02 Diagnosis, Assessment and Therapeutic Strategy A–B** 3/3  
An examination of traditional and somatic diagnostic systems including the DSM-IV-TR and somatic typologies. Assessment methods and therapeutic strategies appropriate to different diagnostic categories are covered. Prerequisites: HSJ 5201

**HSJ 5205 Body Oriented Psychotherapies** 3  
An examination of traditional and somatic diagnostic systems including the DSM-IV-TR and somatic typologies. Assessment methods and therapeutic strategies appropriate to different diagnostic categories are covered. Prerequisites: HSJ 5106

**HSJ 5210 Child Therapy A** 3  
Examines the psychological issues of childhood from traditional and somatic perspectives. Reviews a variety of therapeutic methods for working with children and addresses the child’s expression of energy, physical motility, and health. Prerequisites: HSJ 5121

**HSJ 5211 Child Therapy B** 2  
This advanced course examines the theory and practice of child and adolescent therapy in the school setting. Childhood disorders, basic child interviewing skills, and intervention decisions are also addressed. Prerequisite: HSJ 5210.

**HSJ 5215 Marriage and Family Counseling A** 3  
Introduction to the principles and methods of marriage and family counseling including family systems theories, methods for assessment of family interaction patterns, and intervention strategies appropriate to different types of family dysfunction. The relationship between family systems and principles of holism are discussed. Prerequisites: HSJ 5121.

**HSJ 5216 Marriage and Family Counseling B** 3  
Application of principles and methods of marriage and family counseling and marriage and family systems theory to specific family problems such as terminal illness, psychosomatic disorders, and addictive behavior. Prerequisites: HSJ 5215.

**HSJ 5220 Jungian Psychology** 3  
Presents basic Jungian concepts, models of the psyche and processes. The contributions of Jung and Jungian-oriented therapists to the field of transpersonal and somatic psychology will be explored. Includes the nature of archetypes, myth, ritual, dreams, and how to work with clients using these resources as well as how these elements are present in our own lives and culture. Prerequisites: HSJ 5115.

**HSJ 5225 Basic Addiction Studies** 3  
Basic information about alcoholism and chemical dependency including definitions, impact upon the users and their environments, medical aspects, current theories of the etiology of substance abuse, major treatment approaches, and community resources. Topics are covered from a systems perspective and include spiritual and nutritional issues in chemical dependency.

**HSJ 5230 Sexuality** 3  
The sexual response cycle, male and female sexuality, and sexual development and dysfunction are discussed from physiological, psychological, sociocultural, and somatic perspectives. Explores therapeutic approaches as they apply to individuals, couples, and families.

**HSJ 5243 Community Mental Health and Principles of Recovery** 3  
This course prepares students for challenges and opportunities, taking a holistic approach to working in community mental health settings. Topics include: the history of institutionalization and the community mental health movement; navigating the complex public health and social services systems; working with clients diagnosed with serious mental disorders; useful therapeutic models and effective practices; principles of recovery; strength-based assessment and resilience; fundamentals of case management; coordination of care and family and community involvement.

**HSJ 5301-04 Supervised Field Practicum A–D** 3/3/3/3  
Supervised clinical experience in marriage and family therapy in approved settings. Students gain first-hand knowledge and experience working with clients and receive weekly supervision by qualified, licensed therapists. Supervised field practicum spans four
academic quarters. Permission required to register. Prerequisites: PHJ 4412, PHJ 3405.

**HSJ 5305 Supervised Field Practicum 1-3**

This course may be required if a student needs additional clinical work. Students may also choose to do an extra quarter of placement.

**HSJ 5307 Expressive Arts Camp Prep 3**

Theory and practice of developing an expressive arts laboratory for children. Child development and the psychology of creativity are covered as well as the logistics of planning and implementing a camp experience. Emphasizes skills development in group facilitation and conflict resolution. Required prior to field placement at JFK University’s expressive arts camp.

**HSJ 5313 Advanced Clinical Skills: Being a Psychotherapist 2**

This course, designed for third-year students in field practicum, explores the professional use of clinical interventions from somatic, transpersonal, and holistic perspectives. Case material from the trainee’s current MFT placement will serve as the starting point for discussion, role-play, dyad work, and lecture. This course is taken concurrently with the student’s third quarter of field practicum.

**HSJ 5315 Counseling Case Seminar 3**

Clinical case supervision for students in supervised field practicum. Case presentations from the student’s current placement serve as a starting point for lecture, discussion, role-play, and self-exploration. To be taken concurrent with the student’s second quarter of supervised field practicum.

**HSJ 5325 Case Seminar: Families 2**

Students in supervised field practicum develop formal case presentations of families and receive feedback from the course instructor and peers. This course enables students to compare different ways of working with families and family problems. Prerequisites: HSJ 5315/HSJ 5303.

**HSJ 5330 Clinical Skills: Partner and Spousal Abuse, Elder Care 2**

This course looks at the whole family system and the impact of violence and abuse upon it. Trauma issues and their impact on each family member will be discussed, as well as the physiological effect of trauma on the brain. Topics include identification and treatment of abusers; victims and the children and teens living with them; attachment and physiological issues that keep couples together; identification, treatment, and reporting issues of elder and child abuse; cultural, religious, and GLBT issues and abuse; and countertransference issues. In addition, mental health issues in aging and long-term care will be addressed. Therapeutic strategies will be presented to enhance collaboration between families and care providers and maximize quality of life for the elder client.

**HSJ 5350 Final Integrative Project A 1**

This course examines the philosophical, personal, and professional issues raised in the course of graduate study in counseling psychology. Students develop an outline for an integrative paper that includes their understanding of holistic studies, transpersonal and somatic psychology, and their own personal growth work. This is the first in a two-course sequence.

**HSJ 5351 Final Integrative Project B 2**

This is the second in a two-course sequence. Students complete their integrative paper and give an oral presentation on their topic. Prerequisites: HSJ 5350.

**HSJ 5520 Psychopharmacology 3**

This course offers an introduction and general overview of the field of psychopharmacology as it relates to the practice of psychotherapy. Current medications, research in psychopharmacology, and psychoneurology will be covered. In addition alternative medicine, natural remedies, and cultural issues from a holistic perspective will be covered as well the relationship between the psychotherapist and physician in medication management.

**HSJ 5530 Psychological Testing 3**

This survey course is designed to help students understand the basic concepts and applications of psychological testing and the psychometric properties of psychological tests. This course will emphasize the appropriate applications and limitations of many of the current psychological tests—especially with regard to their use with people of non-dominant cultures. Issues of validity and ethics will be reviewed in this regard.

**HSJ 5620 Approaches to Trauma and PTSD A 2**

This course provides an overview of the history of the concept of trauma and trauma treatment and a basic understanding of the psychobiology and neurobiology of trauma and PTSD. Conceptual distinctions will be made between developmental wounding, developmental trauma, and shock trauma. Current diagnoses overtly linked to trauma (PTSD, Acute Stress Disorder, Complex PTSD and Developmental Trauma Disorder) will be discussed. The topics covered include phase-oriented treatment, dissociation models, countertransference, and building somatic and relational resources. The discussion and training will include application of somatic trauma approaches to help stabilize situations involving personal trauma, disasters, and violence.

**HSJ 5792 Practice of Group Psychotherapy 2**

Students receive comprehensive training and supervision in the practice of group psychotherapy. As an MFT trainee, the student co-facilitates a weekly therapy group and participates in group supervision for two hours each week. Students learn how to plan and publicize a group as well as how to establish and maintain a therapeutic group culture.

**HSJ 5793 Child and Adolescent Therapy in the School 2**

Students receive comprehensive training and supervision in the practice and treatment of children and adolescents in the school setting. As an MFT trainee, the student will work with children and adolescents and participate in group supervision for two hours each week.

**HSJ 5900 Topics in Holistic Studies 1-3**

Topics vary and may be repeated for credit with a change in topic.

**HSJ 9005 Personal Psychotherapy 0**

Students must register for this course when they have completed their personal psychotherapy requirement.
INTTEGRAL PSYCHOLOGY [IPP] COURSES

IPP 5000 Integral Psychology Orientation 0
Introduces new students to the Integral Psychology master’s degree program. This is a required no-cost, no-credit course that includes information for successful completion of the program.

IPP 5005 Research Preparation 0
This course will present the requirements and expectations for key professional courses in the second and third years of the program. This course will prepare students for IPP 5051–52 Integral Research A–B, externship, and the final integrative project or thesis. Students will begin to explore how to connect and extend their education and coursework into areas of professional application.

IPP 5007 Fundamentals of Psychology 3
This course explores the major principles of psychoanalytic, behavioral and humanistic/existential perspectives within an integral context and shows the importance of these principles for psycho-spiritual development. Pre- or co-requisite: COR 3145.

IPP 5010 Developmental Psychology 3
Explores how the development of the self is conceptualized and perceived within a variety of perspectives including Piaget, Kegan, object-relations theory, and self-psychology. These theories will be expressed within an integral development model. Pre- or co-requisite: COR 3145.

HJS 9015 Child Abuse Assessment and Reporting 0
This course covers topics including recognizing child abuse, sexual abuse, neglect, and physical and emotional abuse; legal definitions of child abuse; legal reporting requirements; crisis intervention for victims, families, and abusers; cross-cultural concerns; countertransference issues; and community resources.

HJS 9020 Special Topics 0
This course is reserved for students who have returned to the program after an absence or who have transferred into this program from another program. This zero unit course offers no academic credit, but allows students to enter into the appropriate course at the department’s discretion. Students enrolling in this course will attend the same sessions and be responsible for the same assignments as students enrolling in the appropriate course. Permission of the program is required to take this course. Offered as needed; credit/no credit only.

INTTEGRAL PSYCHOTHERAPY [IPC] COURSES

IPC 5000 Integral Psychotherapy Orientation 0
This course introduces new students to the Integral Psychotherapy master’s degree program. This is a required no-cost, no-credit course that includes information for successful completion of the program.

IPC 9025 Integral Psychotherapy Review 0
This is a zero unit course offered as a review of Integral Psychotherapy for Integral Psychotherapy specialization students. It will be held in the third year and led by the program chair. The main idea is to ground the students experience in field placement from an Integral perspective.

IPP 5012 Effective Communication A: Emotional Dynamics 3
This course is an introduction to some basic principles and practices of effective communication. Students explore the use of communication in day-to-day life, relationships, counseling, teaching, employment settings, and in other contexts for working with people. Topics include presence, centering, listening skills, and discriminating between content and process.

IPP 5013 Effective Communication B: Intersubjectivity 3
This course continues to practice skills and principles of effective communication: topics include emotional dynamics, conflict management, and the importance of communication in social and global issues. Pre- requisite: IPP 5012.

IPP 5015 Social Psychology and Social Transformation 3
Examines existing research on the way human beings influence and affect each other’s behavior in group settings, and explores integral perspectives for visionary leadership and social transformation. Prerequisite: IPP 5018.

IPP 5017 Integral Theory A 3
This course begins with an introduction of the five elements of Ken Wilber’s integral theory, including quadrants, levels, lines, states, and types, and examines their relevance as a framework for today’s world. Topics include models of consciousness, premodern, modern, and postmodern perspectives, the relationship of Self/self, and the potential of integral psychology to deepen our understanding of and help bring about personal psycho-spiritual development as well as social/global change. Prerequisite: COR 3145.

IPP 5018 Integral Theory B 3
Building on the foundation laid down in IPP 5017, this course continues the inquiry into the nuances of integral theory. In particular, we will delve more deeply into Ken Wilber’s AQAL theory—studying the relationship between the domains of subjectivity, intersubjectivity, and objectivity. In addition, we will explore how these three domains of reality interface at each level of being in the world. Students will study the integral methodological pluralism (IMP) of Wilber’s more advanced writings. Prerequisite: IPP 5017.

IPP 5020 Cognitive Theories of Consciousness 2
Explores the integral power of cognitive theory, the nature of conditioning, and the role of mental schemas in constructing meaning and interpreting reality.

IPP 5021 Integral Applications to Global and Social Issues 2
This course will explore how integral theory is being applied to global and social issues. Students will learn about integral work taking place in various countries to address poverty, the environment, post-war trauma, leadership, good governance, community well-being, and HIV/AIDS. Students will develop their own integral application to an issue of concern.
IPP 5023 Jung and Archetypal Psychology 2
This course will push beyond the basics of Jungian and archetypal psychology to discuss the uses of his key concepts as a path for transformation. "No one grows alone," said Jung, and our journey through his thought and some of its offshoots, including the work of James Hillman, will reflect off the alchemical image of the chymical wedding to discuss individuation as a practice of consciousness between people as well as within the self. We will also consider Jung's claim that alchemy, the ancient art of gold-making, was a historical counterpart and forerunner of Jung's complex psychology.

IPP 5025 Somatic Psychology: Integrating Body and Soul 2
This course explores the basic concepts in the field of somatic psychology. Through breath, movement, and the study of somatic principles, students examine the body/mind/soul connection and the importance of embodied life experiences.

IPP 5027 Integral Spirituality and Practice 2
This course explores the following questions: How will religion and spirituality evolve in the 21st Century? How might the insights of modernity and post-modernity impact and inform ancient wisdom traditions? What is the relationship between spirituality and the evolving brain? How are we to create new spiritual visions and contemplative practices that can respond adequately to the personal, social and planetary challenges of our times? The course will also discuss the contours of emerging evolutionary and post-metaphysical approaches to spirituality.

IPP 5029 Integral Field Course 2
This course provides students an opportunity to learn how to apply integral theory to real-world situations. The course is designed in partnership with local organizations, oriented around field trips and daily activities, and involves guided reflection processes. In both its design and curriculum, this course provides a transformative, insightful, and service-oriented educational experience.

IPP 5030 Psyche and Nature 3
This course focuses on the relationship between psyche and nature. Environmental psychology, ecological psychology, eco-psychology, and conservation psychology will be addressed with an integral context.

IPP 5031 Evolutionary Psychology: Time, Instinct and Spirit 2
Evolutionary psychology draws on evolutionary biology, paleoanthropology, genetics, and cognitive psychology to understand the mind from an evolutionary perspective. This course explores intrapsychic processes, cooperation, mating and sex, parental care, perception and language, and environmental aesthetics. These explorations will be situated within an integral framework that includes the evolution of consciousness and human potential. Prerequisite: IPP 5017.

IPP 5033 Living Systems 3
An introduction to the basic principles of Living Systems Theory, which will be explored in the context of Ken Wilber's AQAL model. The course will include both theoretical and experiential components, and students will be asked at the end of the course to apply these principles and practices to a selected area of interest (ecology, psychological development, community/cultural development, education, business or spiritual leadership, etc). Pre- or co-requisite: PHR 3405.

IPP 5040 Professional Inquiry 2
In this course, students will go through a personal assessment process of their work experience, skills, intentions, goals, and vision of present and future career options.

IPP 5041 Professional Application 1
In this course, students will complete an internship of their choice. This may include on-site training, research, or other projects that directly relate to career goals. Prerequisite: IPP 5050.

IPP 5045 Integral Inquiry 1–3
This course offers a variety of topics related to communication and methods of self-exploration from an integral perspective.

IPP 5049 Transpersonal Psychology 3
This course explores the basic theorists in transpersonal psychology including the work of Carl Jung, Robert Assagioli, Stan Grof, and A.H. Almaas among others. Course also includes inquiry into states of consciousness including meditation, dreams, and peak experiences. Co-requisite: COR 3145.

IPP 5051 Integral Research A 2
This course is designed to expose students to the foundations of integral research and guide them in beginning a research project to be completed in the companion course, IPP 5052. Students will explore the history and concept of research design; identify topics for research using the first-, second-, and third-person approaches; and explore the tradition of action inquiry. Finally, students will complete a project proposal that will serve as their research guide for IPP 5052. IPP 5900.

IPP 5052 Integral Research B 2
In this course, students will continue to use the principles of IPP 5051 and complete a research project and paper. Prerequisite: IPP 5051.

IPP 5054 Enneagram Assessment 3
The Enneagram will be presented as a model for understanding defense strategies against experiencing and expressing one's essential self. The course will focus on developmental perspectives and intersubjective dynamics. Co-requisite: COR 3145.

IPP 5057 Issues in Religious Studies 1–3
This course explores changing topics in religious studies such as Advaita Vedanta, women's spirituality, and creation spirituality. May be repeated for credit with a change of topic.

IPP 5309 Taoism 2
This course examines the origins of Taoism in Chinese culture and the thought of Lao Tzu and Chuang Tzu. The resonance of Taoist ideas with contemporary living is also covered.

### IPP 5310 Integral Yoga
This course explores the integral yoga philosophy of Sri Aurobindo and Haridas Chaudhuri as an evolutionary model of psychological and spiritual growth. Course includes integration of the yogas, different levels of mind, and cellular evolution. Spiritual principles and experiential practices are also discussed.

### IPP 5314 Shakti-Kundalini Yoga
This course examines the philosophy and spiritual practice of India’s kundalini yoga as a model of human development and map of consciousness.

### IPP 5315 Christian Mysticism
The course examines a variety of ancient and contemporary Christian mystics, whose spiritual quests have challenged orthodoxy and served as a basis for re-evaluating the Christian vision.

### IPP 5316 Jewish Mysticism
The essentials of Judaism as presented in the Tanakh, and its expression in the movements of Gnosticism, Kabbalah, and Hasidism.

### IPP 5317 Advaita Vedanta: Self-Realization
Advaita Vedanta (the teachings of non-duality) is the meditative and psycho-philosophical system directed at the experiential recognition of the individual “I” as timeless self, sole-existing reality and being/consciousness/bliss. The direct recognition of this identity frees one from sorrow and limitations. Course investigates Vedantic philosophy and meditative practices including Sri Ramana Maharshi’s method of subsiding the “I” sense in the heart.

### IPP 5318 Seminar in Sacred Psychology and Religion
Topics in this seminar vary and include spiritual principles and practices from different religious traditions. Topics include integral yoga, Buddhist psychology, nature spirituality, Sufism, Diamond approach, Kabbalah, and feminine spirituality among others.

### IPP 5319 Seminar in Religious Studies
In-depth research and analysis of specific topics in religious studies. Topics include kundalini yoga, teachings of Jesus, and a mystic’s vision.

### IPP 5320 Sufism: Path of the Heart
The course examines the development of the mystical Islam or Sufism as a path of heart and unconditional love. It includes the Persian mystical poetry of Rumi and Hafez, among others, the spiritual teachings of Sufi masters throughout the ages, and the relevance of Sufism in the modern world.

### IPP 5326 Tibetan Buddhism
This course explores the confluence of original Indian elements of Buddhism with tantric outlooks as well as with Persian and Chinese sources. Attention is brought to the psychology and meditative practices of the Tibetan tradition.

### IPP 5327 Wisdom Yoga and Buddhist Meditation
This course explores the traditions of Yoga and Buddhism from historical and modern perspectives. Practical experience of the subject matter is combined with intellectual examination. The question of spiritual awakening is woven throughout.

### IPP 5328 Alchemy and Spiritual Practice
In this class, the basic principles and practices of alchemy will be explored within a context of psycho-spiritual development. Relevance to modern world and application to personal, social, and global issues will also be discussed.

### IPP 5330 Tai Chi Chuan: Introduction to Principles and Practices
Tai chi chuan, an ancient art of cultivating the body’s vital energy (called chi or Qi), is based on the Taoist philosophy of living in harmony with nature. Students will learn 17 movements of the short Yang form and specific Taoist principles related to spiritual growth.

### IPP 5335 Diamond Approach
This course explores the Diamond Heart approach of A.H. Almaas. Topics include presence, essence, the theory of holes, and the relationship of object relations theory to psycho-spiritual development.

### IPP 5340 Nature Spirituality
Explores the historical role of nature in spiritual experience as well as practices that enhance the integration of body, mind, and spirit.

### IPP 5347 Spirituality, Symbols, and Dreams
In this course, we will explore dreaming as a spiritual practice. Dream symbols are often powerful guides which express our human and spiritual potential. They bring insight, wisdom, life purpose, clarity, and illumination. Through readings, class discussion, and experiential exercises, we will befriend our dreaming guides and bring them to the light of day.

### IPP 5349 Integral Life Practice
This course explores different practices that enhance and foster integral living in the world. The different practices are a map for cultivating and embodying practices that lead to physical health, emotional balance, mental clarity, and spiritual awakening.

### IPP 5350 Degree Completion
This course will present the requirements and expectations to successfully complete the degree requirements for the student’s program.
In this course, students will explore their thesis topics and clarify the major questions to be addressed.

**IPP 5600B Planning a Thesis B** 0.5

In this course, students will complete a literature review of their topic, and an exploration of their research methodology. Final assignment is a complete 15-20 page thesis proposal. Prerequisite: IPP 5600A.

**IPP 5610 MA Integrative Project** 2

In this class, students prepare their final integrative paper and presentation. This includes a personal statement, psychological and spiritual theory, and application of coursework within a professional and social context. Prerequisites: IPP 5052.

**IPP 5615 Thesis** 1-3

Students write a master’s thesis under the supervision of selected faculty members. Prerequisite: IPP 5600B.

**IPP 5615 Thesis Supplemental** 0.5

This course allows students who complete the thesis proposal in Planning a Thesis A or who choose to use elective units for thesis writing to register for added thesis units.

**IPP 5800 Being Change: Visionary Leadership in Action** 5

This course explores the following topics: values, presence, realms of possibility; visionary leadership for sustainable change; global citizenship and the Earth Charter as foundation for leadership; practices that enhance self-knowledge, resiliency, and trust; leadership that is sourced from inner wisdom, empathy and integrity; inner power that leads to generative and transformative change in the workplace and community; designing projects that foster systems shifts in service of all beings.

**IPP 5802 Designing Change: Creating Shifts and New Leadership Practices** 5

In this course students continue to apply a conscious full spectrum approach to designing projects for sustainable, transformative change. Topics include: integral and system theory models of leadership; key principles and leadership practices that foster understanding of patterns and root causes of workplace and societal problems; exploring dynamics of power, team building and cross cultural understanding; communication for project success; marketing, advocacy and enrollment; partnering and synergy; tools for principled action.

**IPP 5804 Leading Change: Actualizing Your Vision and Project** 5

In this course, students deepen their commitment to their vision and continue to work on their projects. Topics include: business for social responsibility; a new paradigm of planet and profit for sustainable change; leadership for inspiring, empowering and enrolling others; tools for helping others to lead; allies and networks; assessing and measuring momentum of leadership practices and projects; tracking change; completing student projects and implementation; discussion of next steps and professional goals.

**IPP 5995 Independent Study in Integral Studies** 1—3

Independent study allows students to do in-depth research on a particular topic. Students work independently with consent and supervision by a faculty member.

**INTEGRAL THEORY [ITH] COURSES**

**ITH 5005 Integral Theory: The Five Elements** 3

This course will be an introduction to the theoretical model that provides the foundation and structure for the program. It will be the first course in the sequence of three integral theory courses. This course will provide a basic introduction to the central five elements of the theoretical model guiding the program. It will provide the foundation upon which more in-depth understanding of the model will be developed.

**ITH 5006 Integral Theory: Integral Methodological Pluralism** 3

This course provides an exploration of the advanced core concepts of integral theory and their applications. The material builds on topics covered in ITH 5005 and extends the discussion into the sophisticated underpinnings of the integral approach focusing on the eight methodological families, post-metaphysics, and perspectives.

**ITH 5009 Integral Theory: Applications** 3

This course provides students with an opportunity to explore the integral approach in action. Through exploring various applications of both the basic and advanced components of the integral model, students gain a working understanding of how to apply the model to their own lives and professions.

**ITH 5039 Developmental Psychology** 3

This course explores how the development of the self is conceptualized and perceived within a variety of perspectives including Piaget, Kegan, object-relations theory, self-psychology, and others. Full spectrum development from pre-personal to personal and transpersonal will be covered. These theories will be expressed within an integral developmental model.

**ITH 5043 Integral Life Practice** 3

This course focuses on applying the integral model to an individual’s own path of transformation. Using various modules, students construct a practice program for their own lives that meets them at their growing edge.

**ITH 5047 Phenomenological Inquiry** 3

This course will use first-person techniques to explore somatic, emotional, mental, and spiritual aspects of one’s direct awareness. It will draw on various traditions—philosophical, psychological, and religious—for encountering one’s interiority. Emphasis will be placed on the experiential correlates to various developmental stages.

**ITH 5054 Types: Enneagram** 3

The Enneagram will be presented as a model for understanding defense strategies against experiencing and expressing one’s essential self. The course will focus on developmental perspectives and intersubjective dynamics.
ITH 5057 Multiple Intelligences 3
This course will present the research for the various lines of development and help students explore their own capacities (cognitive, interpersonal, moral, somatic) and how to develop these dimensions of themselves.

ITH 5059 States of Consciousness 3
This course examines altered states of consciousness including hypnosis, meditation, and dreams as well as creative, ecstatic, and mystical states. Students explore characteristics and scientific implications of these states and research current thinking through personal projects and study.

ITH 5061 Integral Spirituality 33
This course will look at the world’s great religions and examine their unique role in premodern times as well as their increasingly important yet surprising role in the modern and postmodern world. Based largely on Wilber’s recent book Integral Spirituality, students will explore in depth what these religions might offer today’s world. Key concepts to be covered include integral post-metaphysics, myths of the given, and the conveyor belt. Specific emphasis is placed on first-, second-, and third-person methodologies for understanding this material and for synthesizing and applying it to one’s life practice.

ITH 5101 Integral Research 4
In this course, students learn basic principles of qualitative and quantitative research methodology and clarify their goals regarding a research topic. Students will also formulate research questions and begin a literature review of books and articles relevant to their topic. Students will complete a small-scale project using six different methodologies and write a final research paper.

ITH 5210 Subtle Energy Systems 3
This course provides students with an overview of the various models of subtle energy. The various esoteric traditions are examined as well as current research.

ITH 5211 Perspectives on the Body 3
This course examines the many ways the body has been understood historically, philosophically, experientially, and physically. Students will be given opportunities to read, discuss, and analyze classical and contemporary views of the body, including those found in works of art, religion, and literature as well as work on language, metaphors, body image and sexuality, and embodiment practices. The work of somatic theorists such as Reich, Lowen, and Keleman will also be introduced as well as common bodywork modalities.

ITH 5212 Ecological Medicine 3
This course provides students with the opportunity to make connections between their own health and the health of the natural environment around them. Issues of sustainability and environmental toxicity will be covered.

ITH 5213 Cognitive Science 3
This course examines the recent research about the brain and behavior coming from cognitive science as well as autopoiesis. Particular focus will be placed on the embodied mind and how cognitive research can benefit from phenomenological inquiry.

ITH 5214 Intersubjectivity 3
This course explores a number of perspectives on the space between people. Theories of object relations, postmodernism, and infant development will be covered. Students will use various exercises to explore their own lived experience of intersubjectivity.

ITH 5215 Cultural Development 3
This course explores the evolution of consciousness in culture through a seven-stage journey drawing on Gebser’s research. The relationship between individual and cultural development will be highlighted.

ITH 5216 Social Systems 3
This course exposes students to systems theory and its relevance to society. Luhmann’s work on systems and autopoiesis is used to explore the role of communication within social systems.

ITH 5217 Neuro-Religion 3
This course explores the neurological correlates of meditative states, investigating the research and theories relating to this.

ITH 5218 Ethics and Compassion 3
This course will connect existential perspectives and religious understandings in a personal and meaningful way for students using various practices and small-group exercises.

ITH 5219 Emergence 3
This course examines the role of living systems in the phenomena of emergence. It will draw on the systems sciences of complexity and chaos as well as evolutionary theory. Whitehead’s philosophy will serve as a foundation for exploring these topics.

ITH 5300 Integral Ecology 3
This course will focus study on the field of ecology using the integral model to make sense of the main perspectives and approaches to ecology as well as how to work with differences in values and worldviews on ecological systems.

ITH 5301 Integral Business 3
In this course, students will learn about applying an integral approach to business with particular focus on both small-scale entrepreneurship as well as the global economic context for multinational business. Students will learn how to use quadrants, lines, and levels of integral theory in leadership development, capacity building, and conscious communication in a business context. Dr. William Torbert and Dr. Cook-Greuter’s work on self-development and organizational development will be a key part of this course curriculum.

ITH 5302 Integral Art 3
In this course, students will explore how the consciousness of the artist gives rise to the artwork itself and will examine the work of certain artists from different stages of consciousness and cultural contexts.

ITH 5303 Integral Politics 3
This course investigates the complex realm of politics using an integral approach, particularly focusing on the many dimensions of the political left and right, and what a transcendent synthesis of
these might become. In this course, students will look at both healthy and unhealthy expressions of power from different levels of awareness, explore the issue of corruption, and learn about the emergence of good governance. Other aspects to be explored include how to use skillful means for communicating and working with multiple worldviews present in any population and how to integrate spirituality into the field of politics.

**ITH 5304 Integral Medicine** 3

This course will look at various modalities of medicine and health from the perspectives of Ken Wilber’s integral all-quadrants/all-levels (AQAL) model.

**ITH 5305 Integral Science** 3

This course will look at various scientific principles from the perspectives of Ken Wilber’s integral all-quadrants/all-levels (AQAL) model.

**ITH 5400 Integral Buddhism** 3

This course will engage a deep inquiry into Buddhism framed by the integral approach. Important lineages will be covered. Students will learn about and analyze the premodern, modern, and postmodern practices of the religion and explore its relevance in different regions of the world today.

**ITH 5401 Integral Christianity** 3

This course will examine Christianity using the integral approach. Important denominations will be covered including the premodern, modern, and postmodern expressions of the religion in various regions across the world. Students will learn both theoretically and practically these various expressions through experiential exercises and will learn how an integral Christianity might serve to address some of the global issues present in both the global North and South today.

**ITH 5405 Unique Self** 3

This course will distinguish between four core selves: separate self, false self, true self and unique self. The relation of these four selves to old and new conceptions of Enlightenment will be examined.

**ITH 5450 Non-Duality** 3

Students will learn about the ways non-duality has been experienced and explained in different philosophical, spiritual, and scientific disciplines. Students will examine both the theories and practices of these traditions and will explore how to apply this to their professional and personal lives.

**ITH 5451 Vision-Logic** 3

Drawing upon certain theorists who have studied the higher stages of cognitive development such as Piaget, Aurobindo, and Kegan, students will focus on the emergence of the stage of cognition termed vision-logic. Through experiential, reflective, and cognitive practices, students will learn about the nuance of this particular stage of cognitive development, and synthesize this knowledge in application.

**ITH 5452 Shadow** 3

This course will examine the critical contributions about the shadow aspects of the psyche, drawing on the work of key psychologists. This will be examined in context to integral theory and integral life practice, and students will learn both the theory and practice for working with the shadow.

**ITH 5453 Evolutionary Theory** 3

This course will explore theories on evolution presented by different structures of awareness including premodern folk theories, traditional or religious theories, conventional modern or scientific theories, postmodern alternative theories, and integral theories. Key theorists from each will be covered.

**ITH 5454 Love and Eros** 3

This course is an inquiry into the Heart as a path of spiritual development. Students will inquire into the nature of love and Eros, and look deeply into their yearning for the fullness of being. Emphasis will be placed on the study and practice of the 2nd person of Spirit, where autonomy and communion, separation and merging, and masculine and feminine play in relationship to others and to the divine.

**ITH 5455 Integral Metatheory** 3

This course provides students with an overall introduction to integral metastudies. It is integrative in that it seeks to find the convergences and divergences between past and current theories, metatheories and other sources of cultural knowledge. Students will explore a framework for the accommodation of metatheories such as Ken Wilber’s AQAL, Bill Torbert’s Developmental Action Inquiry and Lewis’ multiparadigm inquiry.

**ITH 5610 Integral Final Project** 4

In this course, students will prepare their final integrative paper and presentation which include personal statement, psychological and spiritual theory, and application of coursework within a professional and social context.

**ITH9000 Integral Theory Residential Intensive** 0

Integral Theory students register for this course when participating in the Integral Theory Residential Intensive.

**MUSEUM STUDIES [MUS] COURSES**

These courses are offered on the Berkeley campus.

**MUS 5003 Issues in Museums I: History and Theory** 4.5

What is a museum? What is its role in society? How has the institution evolved since its beginnings? In this course, students analyze, debate, and evaluate current theories of the museum as a social institution. Writing assignments and site visits encourage students to look closely at the museum, its ethical responsibilities, and its public profile.

**MUS 5004 Issues in Museums II: Finance and Administration** 4.5

Review of basic nonprofit management in museums. Discussion and assignments to cover management, governance, fundraising, personnel, museum standards, and finance.

**MUS 5321 Museums and Communities** 4.5

The purpose of this course is to explore issues of diverse communities and their impact on museum programs, exhibitions,
collections, audience, and internal culture. Together, the students, faculty, and guest speakers will engage in dialogue, analysis, reading, and research with the goal of creating more accessible, inclusive, and relevant museums.

**MUS 5405 Exhibition Development I** 4.5
Conceptualization, planning, evaluation, development, design, and interpretation of museum exhibitions. The course emphasizes how a collaborative approach to exhibition development can serve diverse audiences. Students work in groups to develop and mount an exhibition.

**MUS 5420 Museums, Interactive Technologies, and Electronic Access** 4.5
This hands-on course explores how new technologies are impacting and changing museums.

**MUS 5501 Collections Management I: Foundations** 4.5
A practical exploration of the major duties of a museum registrar including developing collections policies, accessioning and de-accessioning, inventory, insurance and risk management, cataloging systems and information management, collections storage and handling, and tracking, packing, and shipping exhibitions.

**MUS 5502 Preventive Conservation** 4.5
Collections conservation with a focus on the physical nature of materials, the agents of deterioration that affect them, and the options for their preventive care and maintenance. Presents preservation guidelines to enable students to spot deleterious conditions and assess and prioritize conservation problems. Many sessions are held in museums and conservation laboratories using actual collections to illustrate the principles discussed.

**MUS 5610 The Visitor Experience: Learning Theories and Understanding Audiences** 4.5
The course examines learning theories from a historical perspective teaching techniques appropriate for diverse audiences and audience development. Additional consideration given to museum philosophy and educational methodology.

**MUS 5612 The Visitor Experience: Interpretive Methods and Applications** 4.5
Survey and discussion of educational materials and programs from a variety of museums. Emphasis is on program development, implementation, and evaluation for diverse museum audiences.

**MUS 5975 Internship** 1–12
Work in a museum locally, nationally, or internationally under professional supervision. May be taken in any specialization: public programming, collections management, or administration. May also be taken as a practicum. Subject to availability and advisor’s approval.

**MUS 5995 Independent Study in Museum Studies** 1–6
Studies and projects to be arranged with the instructor and the department chair. May be repeated with a change of topic.

---

**MUS 5996 Master’s Project: Topic Development** 1
This is the first course of a three-part master’s project sequence. The purpose of this course is to support students in developing a master’s project topic that is relevant to the museum field and builds on prior literature and research in the field.

**MUS 5997 Master’s Project: Research Methodology** 4.5
This is the second of a three-part master’s project sequence. The purpose of this course is to assist students in developing a comprehensive master’s project methodology (design, purpose of study, literature review, and limitations) in support of their topic. Prerequisite: MUS 5996 with a grade of B or higher.

**MUS 5998 Master’s Project: Writing and Production** 4.5
This is the third course of a three-part master’s project sequence. It assists students in producing a bound written thesis and final product that reflects their expertise in museum studies that demonstrates understanding and application of museum studies literature, development of new ideas, analytical and imaginative thinking, mastery of research methods and writing skills, and mastery of oral presentation skills. Prerequisite: MUS 5997 with a grade of B or higher.

---

**DOCTOR OF PSYCHOLOGY (PSD) COURSES**

**PSD 7003 Foundations of Professional Psychology-History and Systems** 3
This course offers discussions of the evolution of modern psychology with regard to theories, systems and practices. It examines the philosophical, epistemological, cultural, and sociopolitical contexts and consequences of the major systems in the development of contemporary psychology. This course will emphasize instances in which psychology as a discipline has failed to recognize the importance of cultural and other forms of diversity, and oversights in the traditional accounts of the history of the field.

**PSD 7007 Clinical Interviewing Skills I** 3
This course is designed to teach students fundamental clinical interviewing skills. Students will learn skills required to establish and maintain a therapeutic relationship. They will also become aware of how culture and ethnicity, language, socioeconomic status, migration, political conditions and other contextual variables influence the interview process. Students will be given opportunities to practice basic attending skills such as empathy, listening, reflecting, focusing, and confrontation. They will also practice skills related to cultural sensitivity and the maintenance of confidentiality. This course will examine multiple forms of clinical competencies such as case formulation, peer supervision, and referrals.

**PSD 7008 Clinical Interviewing Skills II** 3
This course is designed to teach students fundamental clinical interviewing skills. Students will learn skills required to establish and maintain a therapeutic relationship. They will also become aware of how culture and ethnicity, language, socioeconomic status, migration, political conditions and other contextual variables influence the interview process. Students will be given
opportunities to practice basic attending skills such as empathy, listening, reflecting, focusing, and confrontation. They will also practice skills related to cultural sensitivity and the maintenance of confidentiality. In addition, students will integrate basic attending skills, diagnostic interviewing, and appropriate structural elements (e.g., informed consent, summarizing, etc.) into a cohesive and complete clinical session. Prerequisite: PSD 7007

PSD 7015 Adult Psychopathology
This course examines the way in which individual psychopathology is classified, described, diagnosed, and assessed. The Diagnostic and Statistical Manual of Mental Disorders, 4th edition (text revision) (DSM-IV-TR) of the American Psychiatric Association is utilized as a core organizing text for the purposes of diagnostic classification. Students are expected to become familiar with the structure, content, and clinical use of this manual and learn to apply formal diagnostic classification to specific case examples. This course will emphasize the process and problems of individual assessment and diagnosis that arise within the practice of clinical psychology. Students will be introduced to the historical, political, and contextual issues regarding the diagnosis and categorization of human experience.

PSD 7016 Adult Psychopathology II
This course continues to examine the way in which individual psychopathology is classified, described, diagnosed, and assessed. The Diagnostic and Statistical Manual of Mental Disorders, 4th edition (text revision) (DSM-IV-TR) of the American Psychiatric Association is utilized as a core organizing text for the purposes of diagnostic classification. Students are expected to become familiar with the structure, content, and clinical use of this manual and learn to apply formal diagnostic classification to specific case examples. This course will emphasize the process and problems of individual assessment and diagnosis that arise within the practice of clinical psychology. In addition, students learn the fundamentals of treatment planning and the use of the DSM-IV-TR’s Outline for Multicultural Formulation as a process for providing contextual information in psychodiagnosis. Prerequisite: PSD 7015.

PSD 7025 Child and Adolescent Issues: Psychopathology and Treatment
This course includes an exploration of the symptoms, diagnosis and treatment of child and adolescent psychopathology. Child and adolescent development are considered from a range of theoretical perspectives. The strengths and limitations of existing theoretical and clinical approaches to pathology with regard to cultural and related variables are examined. Students will learn assessment and evaluation, treatment interventions, specific therapeutic techniques, and parent and collateral contact skills. Prerequisite: PSD 7016 and PSD 7225.

PSD 7035 Practicum
Students are placed for eight hours per week in settings, generally schools or community mental health agencies, that allow them to engage in an ethnographic observation/participation of individuals and groups that are culturally different from the students in significant ways. The goal is to enhance cultural competence by broadening the student’s exposure and appreciation of “others,” while gaining an in-depth understanding of his or her own assumptions, stereotypes, and biases.

PSD 7046 Group Process
Students function as a group during the three quarter-IPS. They reflect upon the group dynamics of their practicum placement, their own collective experience within the IPS and the range of perspectives encountered in their assigned academic reading, and an exploration of cultural differences in a group context.

PSD 7047 Multicultural Awareness in Professional Psychology
This part of the IPS curriculum focuses on theories of diversity and the history of racism and other “isms.” Students examine the effects of power and privilege—or lack thereof—on psychological functioning. Students will be encouraged to develop self-awareness and a heightened sensitivity to their own values, cultural identity, and biases to understand how these serve as both resources and barriers to the effective delivery of mental health services to diverse populations.

PSD 7052 Writing Like a Psychologist
This course is designed to ground first-year doctoral psychology students in the principles of effective, appropriate, professional communication. Topics addressed will include ethics in writing, issues of cultural diversity relevant to the process of professional writing, an introduction to the dissertation process, and research writing skill acquisition. Students are expected to participate in class discussions and to turn in weekly writing assignments.

PSD 7104 Social and Cultural Bases of Behavior
This course provides students with an overview of Social Psychology and other domains of psychological research addressing the nature and influence of culture, with an emphasis on social psychology research and theory relevant to multiculturalism, social justice and professional ethics. The course will also address some key pieces of organizational psychology research which could also be classified as social psychology.

PSD 7107 Biological Bases of Behavior
This course offers a practical, clinically relevant approach to understanding the involvement of biological factors in normal and abnormal thoughts, feelings, and actions. The course is structured so that basic concepts of neuronal and synaptic activity lead to discussions of basic life processes like sleep/ arousal and internal regulation. Discussions and demonstrations follow of the mechanisms underlying sensori-motor systems, learning and memory, and the higher cortical functions. Emphasis in the course is on functional neuroanatomy as it relates to these processes and to individual and cultural differences. The course establishes the ground work for later courses in psychopharmacology, health psychology, and neuropsychology. The material is presented with an evidenced-based emphasis, but consideration of alternative perspectives is also made when relevant.

PSD 7108 Cognitive and Affective Bases of Behavior
This course provides students with an overview of classical and recent research in the areas of cognitive psychology and theories of emotion with an emphasis on the relevance of these models and findings to diversity-competent clinical practice and research.
**PSD 7115 Assessment I/Intellectual and Cognitive Assessment and Lab**  
This course provides an introduction to intelligence and cognitive assessment. It includes a historical examination of major theories of intelligence and the multicultural implications of these models. One hour of lab is included each week to help students acquire skills in the administration, scoring, and interpretation of cognitive tests. Prerequisite: PSD 7008 and PSD 7016.

**PSD 7116 Assessment II/Personality Assessment I and Lab**  
Focuses on the various ways personality is assessed through objective measures. Students learn to administer, score, and interpret personality inventories with emphasis on the MMPI-2. One hour of lab each week is included to help the student acquire skills in the administration, scoring, and interpretation of objective personality measures. In addition, emphasis is placed on the integration of cognitive and objective personality test findings within the context of history, mental status, behavioral observations, SES, and culture. Students learn to integrate these data into a psychological test report which provides a clear description of the subject and his or her strengths and weaknesses and relevant treatment recommendations. Prerequisite: PSD 7115.

**PSD 7117 Assessment III/Personality Assessment II and Lab**  
An introduction to the use of projective techniques to assess psychological functioning. Particular attention will be given to the Rorschach and the TAT/CAT. One hour of lab each week is included to help the student acquire skills in the administration, scoring, and interpretation of these measures. In addition, emphasis is placed on the integration of cognitive, objective, and projective personality test findings within the context of history, mental status, behavioral observations, SES, and culture. Students learn to integrate these data into a psychological test report which provides a clear description of the subject and his or her strengths and weaknesses and relevant treatment recommendations. Prerequisite: PSD 7116.

**PSD 7121 World Cultures: Diverse Perspectives on Psychological Theory and Practice**  
Exposes students to non-traditional psychological theory as it applies to non-dominant and non-conforming groups, both within and outside the U.S. It contrasts traditional and non-traditional theories and considers postmodern thinking within social and political contexts.

**PSD 7122 Psychodynamic Theory and Its Application to Diverse Populations**  
This course reviews drive theory and ego psychology, object-relations theory, self-psychology, and intersubjective approaches to therapy. The paradigm shift in psychoanalytic thought from a drive theory to a relational theory model and the implications of this shift for clinical practice are examined. A critical review of psychodynamic theory and practice from a cultural perspective is included.

**PSD 7123 Cognitive Behavioral Theory and Its Application to Diverse Populations**  
This course introduces the basic tenets of CBT and the various forms of this perspective. Discussions of the philosophy of CBT and the structure of a CBT case conceptualization set the stage for more detailed work with the kinds of disorders for which CBT has demonstrated effectiveness. The interventions and evaluation procedures commonly used by CBT practitioners are demonstrated and discussed with regard to their applicability to various forms of psychological, emotional, or social problems. Consideration of the applications and limitations of CBT to diverse populations are woven into the fabric of each discussion.

**PSD 7124 Family Systems Theory and Its Application to Diverse Populations**  
This course offers the basics in family systems theory and the historical context from which it arose. Students learn the application of systems theory to the treatment of a variety of family systems. A comparison and critique of systems theory from a postmodern perspective is included. The limitations of systems theory to families of diverse backgrounds is considered as well as modifications of the approaches typical of system models to meet the needs of such families.

**PSD 7131 Psychology of Addiction**  
Focuses on the identification, assessment, and treatment of individuals who are abusing substances. The influence of socioeconomic class and cultural context and the variations in substance use and abuse across groups will be considered. Prerequisite: PSD 7016.

**PSD 7135 Practicum II**  
The second-year practicum is a clinical placement where students apply the knowledge and skills they have acquired in the first year. The practicum is part of the three-quarter integrated professional seminar sequence in which students discuss clinical and diversity issues. Prerequisites: PSD 7008, PSD 7016, PSD 7035, and PSD 7141.

**PSD 7141 Ethical and Legal Issues in Professional Psychology**  
This course focuses upon the legal and ethical issues related to the practice of psychology. Students explore issues which include, but are not limited to, licensing, scope of practice, competence, informed consent, client welfare, confidentiality (and its exceptions), and professional conduct. Also covered are issues related to the treatment of minors, couples, and groups as well as issues related to working with individuals with cultural, contextual, and individual differences from that of the provider. In addition, students will be introduced to methods of critically evaluating their professional behavior. The course emphasizes contemporary professional ethics and statutory, regulatory, and decisional laws that delineate the profession’s scope of practice and role of the psychologist.

**PSD 7146 Advanced Group Process**  
In this component of the second-year integrated professional seminar, key aspects of the leader role will be examined with an emphasis on the effects of different theoretical orientations or group models on the leader role and leadership style. The dynamics of conflict and techniques for conflict resolution will be a particular area of emphasis with attention to the impact of diversity on conflict management. Prerequisites: PSD 7008, PSD 7016, PSD 7046, and PSD 7141.
PSD 7147 Multicultural Proficiency in Professional Psychology 1
In year two of the integrative professional seminar, the multi-cultural dimension shifts toward examining and experiencing how integral aspects of the therapeutic interchange from diverse cultural perspectives are actually experienced in the clinical setting. Focus will be on examining clinical treatment interventions with specific populations and exploring their relative effectiveness and the impacts on both therapist and client. Prerequisites: PSD 7008, PSD 7016, PSD 7047, and PSD 7141.

PSD 7151 Research Methods and Statistics I 3
This course is designed to present an overview of basic research designs and methods including both qualitative and quantitative approaches to research. Additionally the course covers ethics in research, issues of cultural diversity relevant to the process of research, and an introduction to descriptive statistics and correlational analyses.

PSD 7160 Psychopharmacology 3
This course offers a general overview of the applications and limitations of the use of medications to the field of clinical psychology. Discussions of the basic assumptions, advantages, and possible disadvantages of pharmacology set the stage for discussions of the current use of medications for the Axis I disorders forms the bulk of the course. Lectures on the neuronal/synaptic mechanisms of these drugs as well as the pharmacokinetic considerations of such therapy provide practical knowledge base to help educate and prepare clients for therapy. Use of psychopharmaceuticals with diverse populations considers not only ethnic and racial diversity, but also age-related and gender diversity. The use of psychiatric medications for non-Axis I disorders and for various non-psychiatric conditions is also discussed. Finally a consideration of alternative and complementary medications concludes the course. Prerequisite: PSD 7016, PSD 7107.

PSD 7170A-C Clinical Neuropsychology I–III 2-3
This three-quarter long course provides a grounding in functional neuroanatomy and neuropsychology in the context of how these are affect cognition, emotional, and behavior. This first quarter emphasizes functional neuroanatomy and evaluation of mental status. The second quarter delves into various Neuropathologies and disorders and evaluation with the WAIS, WMS and other neuropsychological tools. The third quarter focuses on the various approaches to neuropsychological evaluation, rehabilitation issues, forensic considerations, and evaluation of higher cortical functions. Throughout the course issues of both the manifestations of various forms of pathology, and the evaluation thereof with diverse populations will be discussed as relevant. Moreover, students will have the opportunity to undergo neuropsychological evaluation for additional insight and understanding of the process. Prerequisite: PSD 7107, PSD 7115, PSD 7116, PSD 7117.

PSD 7215 Consultation and Education in Psychology 3
This course introduces students to the consultative and educational processes and roles in the profession of psychology and their application in working with diverse populations. Students become familiar with the basic stages and processes of consultation and various ways in which professional psychologists provide consultation services. Students are also introduced to the issues and processes of teaching in the field of psychology—including but not limited to administrative duties, course, development, and course management. Prerequisite: PSD 7016, PSD 7253 A or B.

PSD 7225 Lifespan Development I: Child and Adolescent 3
Covers the early years of development through adolescence with regard to intellectual, social, moral, and personal maturation. There is an emphasis on child and adolescent identity development, ethnic identity development, sexual identity development, and how teenagers learn to answer the question, “Who am I?” Psychosocial issues such as violence, self-esteem, suicide, gang involvement, body image, and alcohol use will be addressed.

PSD 7226 Lifespan Development II: Adulthood and Aging 3
Lifespan issues from adulthood through aging and death are discussed in this course. Theory, clinical applications, and current research on aging are emphasized. Biological, cognitive, emotional, and social factors are considered in the contexts of culture, ethnic identity, gender, SES, and sexual orientation.

PSD 7230 Management and Supervision: Self, Other, and Organization 3
Aspects of the supervisory process are presented through the use of theoretical and case materials. Each student has the opportunity to participate as a supervisor in training and have his or her work critiqued. This course also includes information and skills related to supervising organizations, i.e., understanding and managing multiple levels of a system including one’s own private or group clinical practice. Prerequisite: PSD 7235 (may be taken as pre- or co-requisite) and PSD 7245 (may be taken as pre- or co-requisite).

PSD 7235 Practicum III 3
Practicum III gives students credit for their third-year training placement. To receive credit for PSD 7235, students must meet the terms of the placement contract, carry an adequate caseload, and receive a satisfactory evaluation by the practicum supervisor. In class, this component of the third-year integrated professional seminar revolves around case presentations and emphasizes the integration of theory into practice, case formulation, and attention to issues of culture, power, and oppression. This class also prepares students for their clinical proficiency examination. Prerequisite: PSD 7135.

PSD 7245 Contemporary Issues in Professional Psychology 1
This component of the third-year IPS examines the increasingly complex interplay of legal, ethical, social, and other concerns encountered in the practice of professional psychology. Issues of diversity are highlighted. Questions, concerns, and case examples from year three practica experiences will be explored in depth. Microanalysis of case problems will be a central feature of this year’s seminar as students fine tune their clinical skills and interests. Prerequisites: PSD 7146 and PSD 7147.

PSD 7250 Research Methods and Statistics II 3
This course is designed to provide students with knowledge of inferential statistics through two-way ANOVA and post hoc analysis with an introduction to selected multivariate techniques. Emphasis is placed on conceptual understanding and appropriate use of statistics including knowledge of assumptions and limitations.
of specific techniques. Critical review of published empirical literature and critique of culturally appropriate analysis and interpretation is an integral part of the course. Students are introduced to the dissertation process and are guided to begin formulating a dissertation research question. Prerequisite: PSD 7151.

**PSD 7251 Qualitative Research: Critical Review** 3

Responding to the program's mission of applied, socially relevant, and culturally congruent research, this course covers major qualitative approaches to research and data analysis and the development of critical thinking skills. Skills will be used to assess the relevance, appropriateness, and utility of various methods with regard to specific research questions, populations, and social contexts. Prerequisite: PSD 7250.

**PSD 7252 Clinical Dissertation Proposal I** 2

This course is designed to begin the dissertation process, determine an area of interest, develop a review of the literature, determine an appropriate research design and choice of methodology (quantitative/qualitative), create a prospectus, and begin the process of developing a dissertation committee. Prerequisite: PSD 7251.

**PSD 7253A–B Clinical Dissertation Proposal II** 2/1.5

This course is designed to assist students in completing literature reviews, obtain a dissertation committee, and develop an appropriately detailed methodology section for their projects. Separate qualitative and quantitative methodology sections are provided. Students who began in fall 2006 or prior take PSD 7253A for two units. All others take PSD 7253B for 1.5 units. Prerequisite: PSD 7252.

**PSD 7254A–B Clinical Dissertation Proposal III** 2/1.5

This course designed to assist students in completing the dissertation proposal. Quantitative and qualitative sections will be offered. It is anticipated that by the end of this quarter, students will have successfully defended their dissertation proposals. Students who began prior to fall 2006 take PSD 7254A for two units. All others take PSD 7254B for 1.5 units. Prerequisite: PSD 7253.

**PSD 7302 Dissertation Completion** 0–0.5

Following successful oral defense of the dissertation proposal, each student enrolls in PSD 7302 until completion of the dissertation. Students work independently under the direction of their dissertation committees with assistance from research faculty until successful final defense of the dissertation project. Course may be repeated for credit three times. After three repetitions, students must continue to enroll in PSD 7302 to completion of dissertation project. A maximum of 1.5 units will apply toward the degree program. (Students who began prior to fall 2006 may take PSD 7302 four times for credit.) Prerequisite: PSD 7253A or B and PSD 7254A or B.

**PSD 7309 Topics in Doctoral Psychology** 1–3

Various elective courses are taught according to student and faculty interest. For example, lesbian, gay, and bisexual issues in psychotherapy, multicultural consultation, and psychology of trauma.

**PSD 7330 Case Management and Clinical Interventions** 0–3

Review of psychological states and psychopathology issues for culturally diverse clients through a survey of literature and case presentations.

**PSD 7400 Internship** 4.5–9

Students will apply for approved internship sites anywhere in the country that are consistent with their individual interests, training needs, and professional goals. Students will build competency in the diverse clinical skills required of a professional psychologist. Students are required to complete either one full-time, yearlong internship or two-half-time, yearlong internships completed over two years’ time.

**PSD 7601 Internship Application and Interview Process** 0

This is not a course of study but, rather, is required meetings with the training office to inform students and answer questions regarding the application and interview process for internships.

**PSD 7602 Summer Field Placement** 0

Summer field placement.

**PSD 7604 Summer Internship Placement** 0

For half-time internship students who either need to finish hours or attend early orientation.

**PSD 7995 Independent Study** 1–4

Allows for individual study in a special interest area not offered as a regular course. To be arranged with consent of instructor.

**SPORT PSYCHOLOGY [PSP] COURSES**

**PSP 5054 Research Methods: Quantitative and Qualitative** 3

Research methods allows a brief introduction to various forms of research methods, both quantitative and qualitative, with particular attention to qualitative methods. The course will address issues around data collection, interviewing, and data analysis. The course will encourage students to focus on research that has been used in their appropriate fields. It will help prepare students for the MA research project process and aid understanding of research once working as a practitioner.

**PSP 5280 Fieldwork** 4

Covers field placement and individual and group supervision. The field-placement aspect requires students to intern at a site working with athletes and applying skills learned in the classroom. Individual and group supervision involves one-on-one meetings, discussions, case presentations, and role-playing and covers ethical issues. Provides students with a supportive environment for discussion and for exploring issues which pertain to their fieldwork experience. This course may be retaken for additional credit. Prerequisites: PSP 5815, PSP 5816, PSP 5800A, PSP 5811, PSP 5826, PSP 5803A.

This is one of the main introductory courses in the Sport Psychology Program. It covers the main theoretical approaches in this area. The course will encourage students to begin to think critically about the research presented and how it relates to working in the field with performers.

This is an advanced course that is the second in a two-part series. The main theoretical approaches in the field of sport psychology will be revisited and addressed from an integrated perspective. The students will be expected to synthesize the various theoretical perspectives and research findings and show how this integrated perspective can help their work with performers. The course will continue to engage students to think critically about the research presented and how it relates to their work in the field as a practitioner. Prerequisite: PSP 5800A.

This as part of the sport psychology program, all students must register for this course each quarter, as field work is an integral part of each class throughout the program.

Examines ethical issues that impact the field of applied sport psychology. Through reading, lecture, and interaction with an experienced professional, students learn how ethical issues influence consultation and develop ways to deal with ethical dilemmas that may arise in sport psychology.

This is an advanced course in ethics and professionalism in the field of sport psychology. Students will explore ethical issues that occur while working as a consultant in sport psychology. Students will critically analyze research and newspaper articles that are pertinent to working in the field. Common ethical challenges will be discussed and ways of handling these situations will be addressed. Prerequisite: PSP 5803A.

Examines a variety of assessment methods used to gain information from athletes, coaches, or teams utilizing sport psychology professionals. Topics to be covered include the role of assessment in the initial stages of work with athletes, methods of informal assessment, sport-specific assessment tools, issues of reliability and validity with instruments, and the ethical use of measures in the practice of sport psychology. Online or in residence.

Addresses psychological disorders from a clinical standpoint while emphasizing their relation to consulting with teams, athletes, and the field of sport psychology. Students gain a working knowledge of psychopathology in order to identify cases requiring referral. Online or in residence.

This course will provide an overview of the sport management industry and its various models. An understanding of intercollegiate and professional athletics will be covered as well as information on the current and future challenges of the field of sport management.

Examines the role of sport in society and the interplay between the two. Includes such aspects as cultural and gender issues, effect of sport on development of youth, and the potential of sport as a vehicle for social change.

Introduction to basic counseling skills and techniques relevant to sport psychology consulting in a safe and supervised environment. Included are tools for building rapport, empathy, listening and life-development skills, treatment versus consulting, ethics, closure, and termination. Students will also develop skills in presenting sport psychology intervention material.

This course goes into more depth in scope of practice, ethics, dual relationships, and the referral process for sport psychology consultants. Students acquire consulting role-play and vignette experience, explore how a consultant works with the dynamics of team and group issues, and examine in-depth sport psychology cases for individuals and teams. Prerequisite: PSP 5811.

This course is designed to offer students an overview of historical and current topics relevant to the understanding of diversity in sport. Students will be exposed to the historical context of how diversity issues have impacted the development of sport. Students will understand the complex nature of gender, ethnicity, socioeconomic status, sexual orientation, age, and disability as it relates to current sport practices. Students will also be exposed to practical strategies for facilitating acceptance of diversity within individual and team sports.

Theory and practice of optimal performance are explored in the realm of sport behavior. Includes motivation theory, stress management, visualization, and mental rehearsal.

Focus is on individual and team consultation. Features role-play, case study, and videotaping. Coursework includes introduction to external field placement opportunities. Second half of a two-quarter sequence with PSP 5815. Prerequisite: PSP 5815 (with same instructor or consent).

This advanced optimal-performance course emphasizes sport psychology skill development and addresses different styles of consulting. Students will be challenged by case studies and will role-play actual consulting scenarios in which they can develop and refine their own consulting style with feedback from their peers. Prerequisite: PSP 5816.

The course examines selected topics within the sociology and history of sport. Particular emphasis will be given to issues related
to the potential of sport to benefit society and its potential to reinforce existent social problems. Students will be encouraged to reflect on their own experiences within sport and to explore in detail one area of special interest within the sociology of sport. The course offers an analysis of sport as a social institution and the interrelations between sport and societal subsystems, as well as a consideration of the attitudes, values, and behaviors associated with sport. Analysis of contemporary problems associated with sport will be made; such problems include race relations, the traditional and emergent role of women, aggression and violence, and political and economic concerns. Historical foundations for sporting behaviors and the philosophy of sport will also be considered.

PSP 5820 Psychology of Coaching
Different philosophies of coaching with a range of athlete populations. Applied psychology provides the foundation to study communication, interpersonal dynamics, decision making and authority, group cohesion, and athlete motivation.

PSP 5821 Gender Issues in Sport
This course examines the role of women in sports both as athletes and consultants. Students will explore the history of women in sports as well as identifying important issues to consider when working with female athletes.

PSP 5822 Social Bases of Behavior Sport
A foundation of knowledge in the sport psychology field relevant to the social bases of behavior in team sport. Students will gain knowledge regarding theories and research explicating the mechanisms of the impact of group and team membership on individual behavior in sport. Students will utilize this knowledge of social psychological factors, the psychology of group interpersonal communication, and theory of group development and dynamics to inform their team-building interventions in applied sport psychology. Students will have the opportunity to learn team building and communication skills and strategies that will enable them to develop a consulting style for working effectively with teams. The course will examine the practical and theoretical application of group process in relation to working in the field of sport psychology. The students will gain an understanding of group dynamics and will be able to use this knowledge with diverse populations. The course will provide hands-on training in how to teach and implement these strategies and skills when working with groups. Students will learn to recognize ethical issues in relation to working with groups and will examine their interpersonal and professional style.

PSP 5823 Mental Skills Training
This course covers an in-depth approach to using the sport psychology techniques and troubleshooting issues that clients may be presenting to the consultant. The students will address professional and ethical issues of consulting in the field and in relation to their own personal consulting style. They will be able to apply these skills to diverse populations.

PSP 5824 Psychological Elements of Addiction in Sport
This course is designed to introduce students to the basic principles, theories, and interventions in addiction studies when working with athletes. It explores a broad range of material regarding mood-altering drug experimentation, abuse, and addiction. Focus will be directed to the role of the sport psychology consultant when working with an athlete who has potential substance-abuse issues. Assessment, treatment options, and specific referral information will be explored.

PSP 5826 Cognitive and Affective Bases of Behavior in Youth Sport
This course focuses on the impact of sport activity on the development and well-being of children and youth in relation to current psychological knowledge. Topics include self-esteem, peer pressure, cooperative and competitive behavior, role of coaches, group interaction, and a systems view of sport teams.

PSP 5827 Economics of Sport
This course will cover the basic theories of sport income and expenditures in both public and private settings. The cost of doing business in the sporting realm will be a focus of this class as well as the practical implications of this aspect of sport management.

PSP 5828 Event Management
This course will explore the logistics, management, and planning of a sporting event. Fan experience and expectations will be covered as well as attracting sporting events to a particular city.

PSP 5829 Management Strategies for Sport
This course will explore traditional models of leadership and management as they apply to sport. Management issues such as leadership, team development, conflict resolution, and group problem solving will also be addressed.

PSP 5830 Sport Marketing
The course will provide information on marketing principles, promotion, sponsorship, and ticketing. Basic principles of public and media relations and how they relate to sport will also be covered. The role of public relations personnel and how it pertains to the handling of the media will be discussed.

PSP 5831 Sport Law
This course will focus on the legal and business aspects of the professional sports industry. Specifically, the ways in which contract, labor, tort, and antitrust law influence, impact, and direct the development of relationships between leagues, teams, athletes, agents, television, Internet, advertisers, and fans. There will also be a critical analysis of professional sports leagues, standard player contracts, collective-bargaining agreements, and player-endorsement agreements.

PSP 5832 Psychology of Injury
The psychology of injury course teaches students how to work with an injured athlete using mental training strategies for rehabilitation.

PSP 5833 Kinesiology
This course introduces students to each of the major biophysical sub-disciplines of kinesiology—anatomy, biomechanics, exercise physiology, motor control, and sport and exercise psychology. Includes an integrated study of human movement and applies this knowledge to human performance and physical activity across the lifespan. Concepts in the various subfields of kinesiology are examined and career opportunities in the field of kinesiology are explored. Students will also gain a better understanding of the course concepts through projects and class discussions.
PSP 5834 Motor Learning and Performance 2
This course will teach students how to apply the principles of motor learning and performance in a variety of real-world situations. Students will learn to identify solutions that address many of the issues and obstacles encountered when teaching and learning motor skills.

PSP 5835 Exercise Psychology 2
This course examines the psychological antecedents and consequences of physical activity relationships. Includes the mental health benefits of exercise as well as motivational factors involved in exercising and the many variables that influence exercise behavior, e.g., stress, emotional states, anxiety, and depression.

PSP 5836 Sport and Exercise Nutrition 2
This course will describe the basic physiology of the major systems, describe the food sources of macro- and micronutrients, and discuss sports nutrition supplements. Body weight, diet, and energy balance will also be addressed. Students will learn the nuances of how nutrition affects sport performance as well as the physical changes that take place in our bodies during exercise.

PSP 5838 Health Psychology 4
In 2001, APA acknowledged the importance of psychology in the promotion of not only psychological health, but also physical health. Since then, Health Psychology (or Behavioral Medicine in medical settings) has become of the fastest growing areas in the APA (Division 38). In this course, students will come to understand the nature of, and degree to which attitudes, beliefs, mood, and lifestyle influence the physical systems and vice versa, and how much of this interaction reflects a choice (or not) on the part of the client. Students will be able to better recognize the effects of poor health choices in their own lives, and in the problems of their clients (and their families). They will also acquire knowledge and a set of skills to help themselves and their clients make better, health-promoting choices (medical adherence, habit control, exercise, sleep hygiene, pain management, etc.). Finally, students will learn how to individually consult on behavior-health related issues, as well as how to work in a short-term, time limited, team treatment setting.

PSP 5850A Seminar in Sport Psychology 1–4
Special topics and issues in the field of sport psychology including such areas as consultation, assessment, ethics, biomechanics, kinesiology, and women in sports. May be repeated for credit with a change of topic.

PSP 5850B Seminar in Sport Psychology 1–4
Special topics and issues in the field of sport psychology including such areas as consultation, assessment, ethics, biomechanics, kinesiology, and women in sports. May be repeated for credit with a change of topic.

PSP 5860 Group Supervision 2
Group Supervision involves students who are concurrently taking PSP 5855 Sport Psychology Practicum. Through group and individual presentations, discussions, and role-playing, students experience a supportive environment for exploring ethical and other issues relating to their practicum experience.

PSP 5880A/B Portfolio A & B 1/1
Required of all students. This project involves the students developing a portfolio of their work as consultants. This should include at least one case study from their work, their model of practice, a marketing plan, a reflective practice element, and the completed AASP application form. The Portfolio would be used and assessed directly in the comprehensive oral examination and should be sent to the examiners at least two weeks before the exam. Prerequisite: PSP 5800B

PSP 5890 Research Proposal 2
This class starts the sequence of classes that leads to the research publication process. It assists students in developing a proposal for their research design. The work needs to meet the submission criteria for the Master’s Research Proposal which can then be submitted to the Human Participants Committee of the College of Graduate and Professional Studies. Students will learn what the necessary components of a research proposal are and how to develop their own ideas for use in a study. Prerequisite: PSP 5054.

PSP 5891A/B/C Research A–C 1/1/1
Required of students taking the research option. The research process typically takes three quarters and covers the publishing process, securing Human Participants Committee approval, finding participants, data collection, data analysis, and write-up. The final product will be a paper of publishable quality. This sequence is under the supervision of the Research Director. The research process begins at least three quarters before anticipated graduation. A maximum of three units may be applied to the degree. Prerequisites: PSP 5054, PSP 5891A/PSP 5891B.

PSP 5895A/B Applied Project 1/1
Required of students taking the extra internship option. This sequence typically takes two quarters and involves effective, appropriate, and professional communication issues. Topics addressed will include ethics and professionalism in writing and the publication process. The final product will be an applied paper that will be of publishable quality in a form that does not necessarily require collection and presentation of data. This sequence is under the supervision of the Research Director. The research proves begins at least two quarters before anticipated graduation. A maximum of two units may be applied to the degree.

PSP 5995 Independent Study in Psychology 1–6
Allows for individual study in a special interest area not offered as a regular course. To be arranged with consent of instructor and approval of the dean. May be repeated for credit with a change of topic.

PSP 5990 Master’s Thesis Proposal 3
Students develop a proposal for a master’s thesis and learn to synthesize prior professional work or study in pursuit of a specific area of research or application. Prerequisite: PSP 5054 or instructor consent.

PSP 5991A–C Master’s Thesis A–C 2/2/2
Required of students completing a master’s thesis. The thesis typically takes three quarters and is completed under the supervision of the Research Director. Research begins at least three quarters before anticipated graduation. A maximum of six units may be applied to the degree. Prerequisite: PSP 5990.
**PSP 5992 Supplemental Thesis Assistance** 1–6
Supplemental assistance addressing individual student needs in completing the master’s thesis. Students consult with relevant faculty to recruit a supplemental advisor. Prerequisite: PSP 5991C.

**PSP 5998 Supplemental Project Assistance** 1–6
Supplemental assistance addressing individual student needs in completing the master’s project. Students consult with relevant faculty to recruit a supplemental advisor.

**PSP 9025 Speaker Series** 0
The JFK University speaker series of the Sport Psychology program is an exciting opportunity to listen and learn from top sport psychology practitioners from all over the world.

**PSP 9030 Developing a Consulting Practice** 0
This professional workshop presents the basic marketing skills for the field of sport psychology. Students will learn ideas to market their services as a consultant and strategies for building a client base. Students will have the opportunity to develop and implement a marketing plan for their business, including client branding, advertising, tax issues, and ethics regarding marketing in the field of sport psychology.

**PSP 9090 Comprehensive Written Examination** 0
Comprehensive written examination covering material of Phase I, to be taken at the end of Phase I. Further guidelines are available in the Sport Psychology office.

**PSP 9091 Comprehensive Oral Examination** 0
Comprehensive oral examination covering material in all phases of the program to be taken in the student’s last quarter. Further guidelines are available in the Sport Psychology office.

**PSY 5001 Effective Writing for the Social Sciences** 2
This optional course is designed to help students achieve excellence in writing for the social sciences. The course reviews foundational principles of professional writing, including grammar, structure, formatting, organization, and clarity of presentation. The course then builds upon these foundational skills to develop proficiency in writing for graduate school and relevant clinical work. This section of the course will focus on building an argument, effectively referencing sources, and using the American Psychological Association (APA) formatting.

**COUNSELING PSYCHOLOGY [PSY], [PSJ], [PSB], AND [PSC] COURSES**
NOTE: Counseling Psychology courses are offered in Pleasant Hill (PSY), Campbell (PSJ), Berkeley (PSB) and the Santa Cruz area (PSC). For simplicity’s sake, all courses listed in this catalog will have the PSY prefix, although they also may be offered as PSJ, PSB, or PSC.

**PSY 5001 Effective Writing for the Social Sciences** 2
This optional course is designed to help students achieve excellence in writing for the social sciences. The course reviews foundational principles of professional writing, including grammar, structure, formatting, organization, and clarity of presentation. The course then builds upon these foundational skills to develop proficiency in writing for graduate school and relevant clinical work. This section of the course will focus on building an argument, effectively referencing sources, and using the American Psychological Association (APA) formatting.

**PSY 5054 Research Methods: Quantitative and Qualitative** 3
The Research Methods course provides a brief introduction to various forms of research methods, both quantitative and qualitative. An overview is presented of the quantitative and qualitative research methods and designs applicable to the systematic analysis of the varieties of human behaviors. Scientific problem-solving will be emphasized to include observational techniques and measurement tools, coding, analytic strategies, and reporting of research. Reviews of applications within the psychological literature will be covered. The course will encourage students to focus on research that has been used in their appropriate fields. This course will help in preparing students for the MA research thesis process and will facilitate understanding of research in later work as a practitioner in the field.

**PSY 5070 Theories and Practices in Community Mental Health** 3
This course provides contextual and practical information for working in publicly-funded community settings. Core elements of the community mental health movement and factors essential for working effectively with diverse communities will be initially provided. Using this as a foundation, other core issues will be addressed including: working with the severely mentally ill; wellness, resilience and recovery; consumers, families and community as key partners in collaborative treatment; continuum of care across human services; cultural competence and accountability; case management principles; disaster and community trauma response. Appropriate therapeutic models, including effective practices, emerging community practices and linking interventions to outcomes will also be core to this course.

**PSY 5080 Student Portfolio Review** 0
In the final quarter/session of phase one, students will present a collection of their academic work to faculty. Students prepare a five to ten minute presentation that reviews their perception of the growth and learning they have received from the program so far, areas in which they believe they need to continue to grow, and hopes and concerns they have regarding the beginning of their practicum training. Faculty will provide reflections on their perception of the student’s growth, need for continued growth, and hopes and concerns for the student based on the presentation,
coursework portfolio, and previous experience with the student. Prerequisite: PSY 5231.

**PSY 5112 The Family Life Cycle** 3

Students study individual and family life cycle stages and transitions, including childhood, adolescence, launching, courtship, early marriage, child birth, divorce, blended families, aging, and death. Intergenerational theory and multicultural considerations form a framework for the examination of life cycle stages and transitions. Students reflect on clinical applications and implications for self-of-the-clinician development.

**PSY 5115 Theories of Individual Therapy** 3

This course teaches various theoretical approaches to human development and therapeutic treatment. Primary focus is placed on individual approaches to psychotherapy including psychodynamic, existential, and humanistic models. Further exploration includes cognitive-behavioral, feminists and postmodern orientations. Assessment and treatment planning for individuals, couples, and families is examined, and cultural implications of each theory are evaluated.

**PSY 5120 Specific Theories of Change** 2

This course is for students who began the program before fall quarter 2005. Students who began the program in fall 2005 or later should take PSY 5120C, PSY 5120F, PSY 5120G, and PSY 5120I instead. Explores a specific theoretical approach to psychotherapy selected from such schools of thought as psychodynamic-psychoanalytic, cognitive-behavioral, and humanistic-existential systems, and postmodern. May be repeated for credit with a change of topic. Co-requisite: PSY 5121 (may audit PSY 5121 if student has already completed PSY for credit). Prerequisite: Completion of Phase I courses.

**PSY 5120C Specific Theories of Change: Child Therapy** 3

Explores a specific theoretical approach to psychotherapy with children selected from such schools of thought as psycho-dynamic, attachment, cognitive-behavioral, humanistic-existential systems, and postmodern. This course may be repeated for credit with a change of topic. Prerequisites: PSY 5154, PSY 5167.

**PSY 5120F Specific Theories of Change: Family Therapy** 3

Explores a specific theoretical approach to psychotherapy with families and other systems selected from such schools of thought as structural, strategic, object-relational, and postmodern. This course may be repeated for credit with a change of topic. PSY 5262 or PSY 5251.

**PSY 5120G Specific Theories of Change: Group Therapy** 3

Explores a specific theoretical approach to psychotherapy with groups selected from such schools of thought as psychodynamic-object-relational, cognitive-behavioral, and humanistic-existential. This course may be repeated for credit with a change of topic. Prerequisites: PSY 5262 or PSY 5251.

**PSY 5120I Specific Theories of Change: Individual Therapy** 3

Explores a specific theoretical approach to psychotherapy with individuals selected from such schools of thought as psychodynamic-psychoanalytic, cognitive-behavioral, and humanistic-existential. This course may be repeated for credit with a change of topic. Prerequisites: PSY 5262 or PSY 5251.

**PSY 5121 Theory and Practice Integration** 1

This course is for students who began the program before fall quarter 2005. Students who began the program in fall 2005 or later should take PSY 5120C, PSY 5120F, PSY 5120G, and PSY 5120I instead. This one-unit, special topics course is part of a three-unit requirement connecting a theoretical framework with a practice of psychotherapy. Taken while the student is in field placement working with real clients, preparing real treatment plans.

**PSY 5142 Advanced Family Therapy** 3

Considers the evaluation of individuals and families and the formulation of treatment goals and treatment plans. Includes the psychodynamic and interactive approaches to brief therapy and the systems and structural approaches to family therapy. Couple and family students only.

**PSY 5143 Use of Self as Family Therapist** 3

Focuses on psychotherapeutic treatment strategies for clients with particular character styles (e.g., hysterical, obsessive, borderline narcissistic). Course concentrates on the “how” of doing therapy with such clients. Couple and family students only. Fulfills three units of PSY 5309 for couple and family students.

**PSY 5144 Advanced Couple Therapy** 3

Recurring issues in the life of a family. This course covers developmental theory, critical incidents, problem assessment, and family therapy treatment approaches. Couple and family students only.

**PSY 5145 Advanced Treatment Issues in Family Therapy** 1–3

Advanced topics and issues concerning specific approaches to family therapy. Designed to help students learn and practice ways of working with specific issues presented by families in treatment. May be repeated for credit with a change in topic. Couple and family students only. Fulfills three units of PSY 5309.

**PSY 5154 Couple Therapy** 3

Covers psychodynamic family-of-origin, behavior systems, and social-psychological approaches to couple therapy. Resistance, marital burnout, sexual jealousy, and working with alcoholic couples are addressed as well as domestic violence issues and working with non-dominant culture couples. Prerequisite: PSY 5304; Co-requisite: PSY 5260 or 5249.

**PSY 5156 Systemic Theory and Family Therapy** 3

This course examines the historical emergence and use of systems theory in psychotherapy. This course includes modern, psychodynamic, or family-of-origin approaches as well as first-order approaches (cybernetic, structuralist, functional), and postmodern approaches (second-order cybernetic or constructionist). Assessment and treatment planning from these specific individual lenses are reviewed.
**PSY 5167 Brief Therapy**  
3  
This course examines theories and methods of brief therapy from systemic and individual psychotherapy perspectives. Topics include problem identification, goal formulation, language, problem solving and solution building. Students will learn philosophical and theoretical premises of approaches, and practice clinical application through experiential activities. Prerequisites: PSY 5304; Co-requisite: PSY 5260 or 5249.

**PSY 5179 Basic Addiction Studies**  
3  
This course is designed to provide core information about alcohol and drugs including their physical, psychological and systemic impact. Differences between experimentation, use, abuse, and dependence will be discussed. Chemical addiction, process addictions and co-occurring disorders will be presented along with contributing biological, psychological and social dynamics. Students will learn identification, assessment and treatment of addiction among diverse communities through different modalities and approaches.

**PSY 5181 Positive Confrontation in the Treatment of Addiction**  
3  
This course is designed to provide non-confrontational methods of dealing with the denial of addiction to include interviewing, assessment, and intervention for the purpose of reducing resistance for the client. Coursework will include developing healthy boundaries and limit setting. Assessment and treatment planning will be focused on in depth.

**PSY 5182 Group Approaches in the Treatment of Addiction**  
3  
Examines group approaches to facilitating interpersonal communication and dealing with denial and resistance. Includes techniques for the presentation of educational materials to groups. Fulfills PSY 5120G for Addiction Studies specialization students. Prerequisite: PSY 5179.

**PSY 5184 Family Approaches in the Treatment of Addiction**  
3  
Effective group leadership styles with chemically dependent individuals, application of family techniques during each phase of treatment with alcoholics, and structural family therapy with families in long-term recovery treatment. Prerequisite: PSY 5179.

**PSY 5190 Seminar in Addiction Studies**  
1–3  
Special topics and problem areas in the field of addiction studies. Topics include adolescent substance abuse, relapse prevention, women and addiction, dual diagnosis and others. May be repeated for credit with a change of topic. Prerequisite: PSY 5179. Fulfills three units of PSY 5309 for Addiction Studies specialization students.

**PSY 5230 Clinical Skills Training A: Self as Clinician**  
3  
This course focuses on the person of the therapist with an emphasis on one’s own values, beliefs, attitudes, personal biases, and expectations. Students are invited to examine how their personal history has led up to a decision to enter the field of counseling psychology. Through personal reflections and interpersonal interactions students are also invited to consider how their context shapes who they are as individuals, and impacts interactions between self and other. In this class “context” will be examined as one’s personal history, family of origin, cultural dimensions of race, ethnicity, gender, sexual orientation, social class, religion, and physical ability, as well as community, national, and global realities. Theoretical and experiential learning applies this contextual awareness of self and other to communication and counseling skills.

**PSY 5231 Clinical Skills Training B: Therapeutic Techniques**  
3  
Training in basic counseling skills including first sessions, developing the therapeutic alliance, listening and observing on individual and systems levels, recognizing therapeutic themes and metaphors, tracking, focusing, reflecting, mirroring, and deepening. Basic skills in recognizing process vs. content, underlying or unconscious meanings, transference and counter-transference, and the therapist’s relationship to the system in family and couples work are addressed as well as suicide assessment and the basic mental status examination. This course is the first in the two-quarter sequence with PSY 5232. Prerequisites: PSY 5115, PSY 5156, PSY 5230.

**PSY 5232 Clinical Skills Training C: Issues in Treatment**  
3  
Further refinement of assessment, diagnostic, and counseling skills and understanding technical aspects of doing therapy including integration of theory and practice, treatment planning, crisis intervention, and clinical supervision. Students are individually supervised and specifically directed in understanding their own biases and frames of reference as they apply to working with clients. Includes issues involving ethnicity, gender, sexual orientation, and class. Coursework includes an introduction to a JFK University Community Counseling Center and external field placement opportunities. This course is the second in the two-quarter sequence with PSY 5231. Prerequisites: PSY 5231 (with same instructor or consent of program chair) and PSY 5403.

**PSY 5235 Review of Counseling Skills**  
3  
Review and practice of basic counseling skills. Topics include rehearsal of various components of interview skills through experiential exercises and role-play, videotaping, process recording, and journal writing. Prerequisites: PSY 5232 and consent of advisor.

**PSY 5249–54 Supervised External Field Experience**  
A–F  
Outside placement in settings that meet BBS requirements offer clinical training experiences. Includes one hour of individual supervision and at least two hours of group supervision per week. Prerequisite: Completion of Phase I and written consent of field placement coordinator. Prerequisites: PSY 9000, PSY 5080.

**PSY 5260–65 Supervised Internal Field Experience**  
A–F  
Field experience at the JFK University Community Counseling Center in Pleasant Hill, Sunnyvale, or Pittsburg with individuals, couples, families, and groups. Prerequisite: Completion of Phase I and written consent of community counseling center director. Prerequisites: PSY 9000, PSY 5080.
PSY 5266 Supplemental Supervised Internal Field Experience  0–4
Placement in internal, external, or school-based settings that meet BBS requirements and offer clinical training experiences. Prerequisite: Completion of Phase I and the written consent of program director required. This course does not substitute for PSY 5249–54 or PSY 5260–65.

PSY 5302 Sand Tray and Sandplay Therapy  2
This course provides an in-depth foundation in the theory and practice of sandplay therapy. Using lecture, videos, and slides, students will gain a cognitive understanding of the theoretical concepts of sandplay; learn about the practical aspects of using sandplay with clients; and, through viewing slide presentations of clinical material, students will gain an understanding of the sandplay process. Two complete case presentations will be shown.

PSY 5303 Child and Adolescent Therapy: Assessment and Treatment A  3
This course provides an introduction to the theory and practice of child and adolescent treatment. Topics include developmental theories, assessment, diagnosis, case conceptualization and treatment planning. This course considers diverse children in multiple contexts in the first of a two-quarter sequence with PSY 5303. Prerequisite: PSY 5115, PSY 5156, and PSY 5403.

PSY 5304 Child and Adolescent Therapy: Assessment and Treatment B  3
This course examines the theory and practice of child and adolescent psychotherapy within an individual and systemic context. Topics include clinical techniques and treatment modalities within theoretical frameworks. This course is the second in the two-quarter sequence with PSY 5303. Prerequisite: PSY 5303 (with the same instructor or instructor consent).

PSY 5306 Advanced Child Therapy  3
Theory and practical approaches to clinical work with children and their families. Topics include play-therapy theories, therapeutic process, verbal and nonverbal techniques, toys and materials, and parent involvement. This course fulfills PSY 5120C. Prerequisite: PSY 5304.

PSY 5307 Advanced Adolescent Therapy  3
Theory and practical approaches to clinical work with adolescents and their families. Topics include refinement of interviewing skills, diagnosis and assessment, therapeutic process and special issues (e.g., adolescent substance abuse and adolescent sexuality). Prerequisite: PSY 5304, PSY 5249 or 5260 (may be co-requisite).

PSY 5309 Seminar in Child, Adolescent, and Family Counseling  1–3
Special topics, current issues, and problem areas pertaining to the field of family therapy. Includes such topics as child and adolescent psychopathology, parent consultation skills, narrative therapy, and women in midlife. May be repeated for credit with a change of topic. Prerequisite: PSY 5262 or PSY 5251.

PSY 5403–04 Diagnosis and Assessment of Psychopathology A–B  3/3
A two-quarter sequence that examines notions of normalcy and pathology from differing theoretical perspectives. Explains the history, development, and use of the DSM-IV-TR and issues of treatment from individual, familial, and systemic perspectives.

PSY 5405 Psychological Testing  3
An overview of tests utilized and interpreted in the practice of marriage and family therapy with the goal that students learn to develop referral questions and to review psychological reports conducted by other professionals. Projective tests (Rorschach, TAT), objective tests (Millon, MMPI), and behavioral rating scales (Hamilton, Connors) will be covered with the emphasis on managing and assessing client outcome. Introduces the principles of intellectual and cognitive assessment so that learning disability diagnosis can be discussed. Ethical and legal issues involved in psychological testing including the influences of gender, cultural, and socioeconomic context are included.

PSY 5406 Psychopharmacology  3
Provides a comprehensive overview of psychotropic medication options utilized to treat mental disorders including biochemical makeup, function, and possible side effects. Students will be exposed to the basic physiology and function of the brain as it relates to the use of psychotropic medications and some basic psychological dysfunctions, e.g., mood disorders, ADHD, ADD, OCD, intermittent explosive disorder, and psychotic disorders. Also examines the increased collaboration among mental health and medical practitioners as psychopharmacological interventions become more common in client populations served by MFTs.

PSY 5620 Multicultural Competence in Counseling and Community Practice  3
This course provides specific exposure to core elements in multicultural counseling. The course is specifically designed to enhance students’ a) awareness and appreciation of their own cultural identities through theoretical frameworks; b) understanding of variables that affect engagement, assessment, treatment and optimal therapeutic outcomes for diverse individuals, couples and families; c) knowledge of evidence-based practices, community-defined evidence and cultural adaptation of effective practices; d) essential understanding in working with systems including agencies, organizations and communities; and e) skills in committing to cultural competence (and related influences such as power, privilege, historical inequities, social justice, immigration, acculturation, social marginalization, etc.) as an ongoing, developmental process in becoming and practicing as therapists. Prerequisite: PSY 9001.

PSY 5635 Ethics and the Law  3
Examines legal and ethical issues related to the professional practice of psychotherapy and counseling, focusing on the field of marriage and family theory. Includes therapeutic, clinical, and practical considerations; legal trends; practitioner values; sense of self; and professional behavior. Co-requisite: PSY 5231.
Theory and practice of developing an expressive arts laboratory for children. Child development and the psychology of creativity are covered as well as the logistics of planning and implementing a camp experience. Emphasizes skill development in group facilitation and conflict resolution. Required prior to field placement at JFK University’s expressive arts camp. This course fulfills PSY 5120C for Expressive Arts specialization students.

Histotical and theoretical overview and the therapeutic use of the creative process. Includes experiential exposure to a variety of visual, movement, and other arts modalities and media.

Participation in and study of group dynamics through the use of expressive arts. Modalities such as movement/dance, visual arts, music, and drama are used to facilitate and examine the group process. This course fulfills PSY 5120G.

Students develop a proposal for a master’s thesis and learn to synthesize prior professional work or study in pursuit of a specific area of research or application. Prerequisite: PSY 5054.

Required of students completing a master’s thesis. Thesis typically takes two to three quarters and is completed under the supervision of a faculty advisor. Research begins at least two quarters before anticipated graduation. A maximum of six units may be applied to the degree. Prerequisite: PSY 5990 and completed thesis contract.

Supplemental assistance addressing individual student needs in completing the master’s thesis. Students consult with relevant faculty to recruit a supplemental advisor. Prerequisite: PSY 5991C.

Allows for individual study in a special interest area not offered as a regular course. To be arranged with consent of instructor and approval of the dean. May be repeated for credit with a change of topic.

Required of students completing a master’s project. Project typically takes two to three quarters and is completed under the supervision of a faculty advisor. Research begins at least two quarters before anticipated graduation. A maximum of six units may be applied to the degree. Prerequisite: PSY 5996 and completed project contract.

This course is designed to provide supplemental assistance for individual student needs in completing the master’s project. Students consult with relevant faculty to recruit a supplemental advisor. Prerequisite: PSY 5997C.

Advanced field experience at the JFK University Community Counseling Center for students in the post-master’s training program. Includes individuals, couples, groups, and families. Must be taken each of the program’s three quarters. Post-master’s students only.

Considers the evaluation of individuals and families and the formulation of treatment goals and treatment plans. Includes the psychodynamic and interactive approaches to brief therapy and the systems and structural approaches to family therapy. Post-master’s students only.

Focuses on psychotherapeutic treatment strategies for clients with particular character styles (e.g., hysteric, obsessive, borderline narcissistic). Course concentrates on the “how” of doing therapy with such clients. Post-master’s students only. Post-master’s students only.

Recurring issues and areas of difficulty in the life of a family. Includes a developmental perspective, the emergence of critical incidents, problem assessment, and treatment approaches. Post-master’s students only.

Advanced topics and issues concerning specific approaches to family therapy. This course is designed to help the student learn and practice ways of working with specific issues presented by families in treatment. May be repeated for credit with a change in topic. Post-master’s students only.

Furthers and deepens the student’s understanding in current areas of theory and treatment. May be repeated for credit with a change of topic. Post-master’s students only.

This workshop covers the following topics: recognizing and assessing physical, sexual, and emotional abuse and neglect; legal definitions of child abuse; legal reporting requirements and process; crisis intervention for the victim, families, and abusers; cross-cultural concerns; counter-transference issues; and community resources. It meets the requirement of AB141 for seven hours of training for MFT licensure and must be taken prior to the beginning of field placement. Co-requisite: PSY 5635.

In this workshop, students engage in activities and discussions designed to increase awareness of diversity issues on both the personal and social levels. It is intended to be taken in the first or
second quarter and must be completed prior to enrollment in PSY 5620 and field placement.

**PSY 9004 Human Sexuality Workshop** 0
Addresses human sexual behavior pertaining to pairing, sexual orientation, sexual intercourse, reproduction, contraception, abortion, myths, and attitudes about sex. Major areas of sexual dysfunction and the basic principles and techniques of modern sex therapy are discussed.

**PSY 9007 School-Based Program Workshop** 0
This workshop is taken in Phase II prior to a student beginning the school-based experience. Students will be oriented to the organization and dynamics of working in a school-based setting. The politics of working with children and adolescents in the schools will be addressed including the legal and ethical issues inherent in the schools. Training will be conducted regarding consultation with school personnel and parents. Information regarding assessment and treatment planning in the school system will be conducted. Introduction into the specialized recordkeeping and procedures of the school-based program will be implemented.

**PSY 9008 Aging and Long-Term Care** 0
This course offers an overview of mental health issues for older adults. Differential diagnosis of dementia from depression along with the impact of retirement, altered family roles, decline in social and economic status, and increased disability. The psychological, social, and financial aspects of long-term care are discussed. Psychodynamic treatment strategies focus on maximizing quality of life and functional capacity for the elderly client, and facilitating collaboration with family, medical personnel, and caregivers. This course satisfies the BBS requirement for persons who began graduate studies on or after January 1, 2004 to complete a minimum of ten hours of coursework in aging and long-term care for California licensure as a Marriage and Family Therapist. Recommended in Phase III.

**PSY 9009 Domestic Violence Workshop** 0
In this course, participants will gain an understanding of the underlying factors that contribute to family violence and gain the ability to identify and assess family violence with women, men, children, and couples. They will become knowledgeable regarding therapeutic interventions and techniques when counseling victims, perpetrators, couples, and families of domestic violence. Other issues addressed are legal and ethical implications and community resources for clients. This course satisfies the BBS requirement for persons who begin graduate studies on or after January 1, 2004 to complete 15 hours of coursework in domestic violence for California licensure as a Marriage and Family Therapist. Recommended in Phase II.

**PSY 9010 Issues with HIV and AIDS** 0
This course covers the current medical, psychosocial, and mental health realities of those infected with HIV/AIDS as well as the uninfected, but nonetheless affected, family members and caretakers. Specific concerns addressed include working with chemically addicted clients; ethnic, sexual, and gender sensitivity; legal issues; the therapist’s countertransference; and effective models for service delivery and care. This course satisfies the BBS requirement for Marriage and Family Therapists to complete a course at least seven hours in length that covers the characteristics and methods of assessment and treatment of people living with HIV and AIDS. Recommended in Phase I.

**PSY 9075 Personal Psychotherapy** 0
Students are encouraged to take responsibility for their personal development and knowledge of self and to become sensitive to the impact that they have on those around them. Consequently, and consistent with the BBS guidelines for MFT training, there is a non-credit requirement for at least 50 sessions of personal (individual, couple, family, or group) psychotherapy. Students register in the quarter they will complete the requirement or later. Further guidelines are available at the Counseling Psychology office.

**PSY 9090 Written Examination** 0
Comprehensive written examination covering material of Phase I to be taken during the first or second quarter of fieldwork in Phase II. Further guidelines are available in the Counseling Psychology office. The written examination must be passed before advancing to Phase III of the program. Pre-requisites: PSY 5154, PSY 5179, PSY 5304, PSY 5620, PSY 9009; Co-requisite: PSY 5249 or 5260.

**PSY 9091 Oral Examination** 0
Comprehensive oral examination covering material in all phases of the program to be taken in Phase III during fifth or sixth quarter of fieldwork. Further guidelines available in the Counseling Psychology office.

**PSY 9100 Exit Meeting** 0
This exit meeting formalizes the preparation of paperwork that must be processed as students complete field placement and change from trainee to intern upon graduation. This meeting allows students to reflect upon and bring closure to their graduate experience as they prepare for their future as practitioners.

**SOMATIC PSYCHOLOGY [SPC] COURSES**

**SPC 5000 Introduction to Somatic Psychology Program** 0
This is a required, no-cost, no-credit course for all students entering the Somatic Psychology program. Taken during the student’s first quarter, this course will orient students to program standards and procedures and provide other information that students will need to complete their program.

**SPC 5004–06 Group Process A–C** 2/2/2
Using traditional, holistic, and somatic group therapy techniques, students examine and work with their own and others’ feelings, motivations, and patterns of communication and behavior in a group context. Through class participation, students experience and learn group theory and group facilitation skills. This class must be taken in three consecutive quarters.

**SPC5103 Applied Clinical Philosophy** 1
Learn to articulate their clinical philosophy by drawing on their client counseling experience. Using traditional, somatic, integral and transpersonal sources, clinical theory and methods are explored through discussion and written papers.
SPC 5115 Cross-Cultural Issues in Counseling 3
An overview of the field of cross-cultural issues related to counseling. Special emphasis is placed on fostering an understanding and awareness of cross-cultural dynamics in counseling through an examination of the historical, political, somatic, and biopsychosocial issues that impact life in a multicultural, heterogeneous society like the Bay Area.

SPC 5205 Diagnosis, Assessment, and Therapeutic Strategy B 3
Examination specific diagnosis, assessment, and treatment skills and concepts from traditional and somatic psychology perspectives including character analysis, formative psychology, and other somato-psychological systems for evaluating and developing psychotherapeutic treatment strategies.

SPC 5216 Sexuality 2
The sexual response cycle, male and female sexuality, gender diversity, sexual development, and sexual dysfunction are discussed from physiological, psychological, multicultural, and somatic psychology perspectives. The course explores therapeutic approaches as they apply to individuals, couples, and families from a variety of sexual orientations.

SPC 5220 Principles of Somatic Psychology 3
An introduction to the fundamentals of somatic psychology, the field, and its basic concepts and values. Areas of focus include history, issues, principles, and practices with attention to the origins and psycho-emotional consequences of the mind-body split. Students are introduced to basic practices such as sensory tracking, centering, and self-forming, and the concepts of dynamic systems and self-regulation.

SPC 5241 The Cultural Body: Society, Body Image, and the Self 2
Examines the manner in which family, society, and culture act as intervening variables in our relationship to bodies. Beliefs (personal, familial, social, and cultural) and mythologies regarding the body and the impact of these beliefs on our somato-psychological experience will be examined. Eating disorders such as anorexia nervosa, bulimia, and compulsive eating are examined as specific examples of cultural distortion of bodily self-awareness. In addition, the course will also look at cross-cultural differences in the manner and meaning of embodiment and the ramifications for clinical practice.

SPC 5243 Community Mental Health and Principles of Recovery 3
Preparation for challenges and opportunities, taking a holistic approach to working in community mental health settings. Topics include: the history of institutionalization and the community mental health movement; navigating the complex public health and social services systems; working with clients diagnosed with serious mental disorders; useful therapeutic models and effective practices; principles of recovery; strength-based assessment and resilience; fundamentals of case management; coordination of care and family and community involvement.

SPC 5250 Basic Addiction Studies 3
Basic information about alcoholism and chemical dependency—definitions, impact upon the users and their environments, medical and neurological aspects, current theories of the etiology of substance abuse, cross-cultural issues, and somatic psychology perspectives on addiction major treatment approaches including 12-step and harm-reduction approaches and a survey of the community resources available.

SPC 5323 Therapeutic Communication A 3
This course is an introduction to basic principles and practices of therapeutic communication. Students will study and practice basic psychotherapeutic concepts, skills, and self-awareness. Through lectures, films, and experiential practice, students will be helped to develop the clinical skills of somatic reflection, awareness, clear communication, flexibility, insight, compassion, cross-cultural sensitivity, and personal presence.

SPC 5324 Therapeutic Communication B 3
This course introduces students to specific Somatic Psychology clinical processes and practices within a holistic and psycho-dynamic model. Training in recognizing transference and countertransference issues and in developing effective therapeutic interventions is the focus. The emphasis is on understanding and working with nonverbal and verbal communication and somato-psychological defense patterns in individuals, couples, and family systems. Prerequisites: SPC 5323.

SPC 5430 Movement Seminar A: The Self in Movement 3
This course is an experiential and theoretical introduction to movement as a process of somatic inquiry, clinical exploration, and therapeutic intervention. Students will become familiar with a variety of both directive and free-movement approaches including psychodynamic traditions, developmental movement, authentic movement, body mind centering, and continuum movement. Prerequisites: SCI 3110.

SPC 5431 Movement Seminar B: Clinical Technique 2
This course focuses on the learning and practice of movement-based psychotherapy interventions with diverse populations in a variety of therapeutic settings. Students explore the development of movement patterns, the process of re-patterning, and the use of movement for exploration, expression, and psycho-emotional integration in the psychotherapy process. Prerequisites: SPC 5430.

SPC 5512 Somatic Psychology Perspectives on Stress and Psychobioimmunology 2
This course introduces students to the neurobiology of stress, stress profiling, and stress reduction techniques for clinical practice in everyday life. Psychobioimmunological theory and practice is also explored. Among the technical approaches introduced are stress evaluation, autogenic training, progressive relaxation, guided meditation, visualizations, and somatically based techniques such as parasympathetic breathing, grounding, mindful movement, and conscious self-regulation through awareness.
SPC 5520 Psychopharmacology 3
An introduction and general overview of psychopharmacology as it relates to the practice of psychotherapy. Current medication, research in psychopharmacology, and psychoneurology will be covered. The course will also look at alternative remedies, natural medicine, and cultural issues from a holistic perspective as well as the relationship between psychotherapist and physician in medication management.

SPC 5535 Individual Development and Family Life Cycle A 3
This course introduces students to classic developmental theorists from a dynamic living systems and somatic psychology perspective. The emphasis is placed on early bodily and sensory organization and on the primacy of relationship in development. A holistic theory of self and ego development is presented. This course will consider how Freud, Reich, Mahler, Winnicott, Piaget, Bowlby, Kohut, Stern, Schore, Fogel, and Greenspan help us understand the process by which we come to inhabit our embodied self across the lifespan. Prerequisite: PYC 3100.

SPC 5536 Individual Development and Family Life Cycle B 3
This course focuses on the phase-specific, holistic process of development from adolescence to the end of life. A biopsychosocial perspective is applied to the areas of cognitive, emotional, and relational development. Contemporary family life is explored through the in-class use of the family genogram and through discussion of multicultural family patterns and the “family body.” Sources include McGoldrick, Erickson, Kegan, Cook-Greuter, and Ram Das. Prerequisite: SPC 5535.

SPC 5540 Child Therapy 3
This course provides an overview of theories and “best practices” approaches in the treatment of children. Students will become familiar with therapeutic work in various treatment settings and develop an appreciation of the overarching importance of multicultural, social, and developmental contexts in understanding child behavior. Students will develop skills for working in collaborative relationships in child therapy and study psychodynamic and child centered approaches to child therapy. Prerequisites: PYC 3100, PYC 3200, SPC 5535, and SPC 5536.

SPC 5551 Marriage and Family Counseling A 3
This is an introduction to the principles and methods of marriage and family counseling including family systems theories, methods for assessment of family/couples interaction patterns, and intervention strategies appropriate to different types of dysfunctions. Clinical interventions include experiential and somatic techniques. The relationship between family systems and principles of holism are discussed. Multicultural family and relational diversity is a focus. Prerequisites: SPC 5535 and SPC 5536.

SPC 5552 Marriage and Family Counseling B 3
This course focuses on the application of principles and methods of experiential and somatic techniques, marriage and family counseling, and marriage and family systems theory to specific family problems—terminal illness, psychosomatic disorders, addictive behavior, relational conflict, divorce, blended families, and multiracial families. Prerequisites: SPC 5551 or permission of the advisor.

SPC 5572 Body-Oriented Psychotherapies 2
This course examines the conceptual themes and clinical approaches common to all somatic psychotherapies and exposes students to the theory and practice of a number of contemporary modalities such as Hakomi, Somatic Experiencing, Formative Psychology, Bioenergetics, Core Energetics, Bodywork, Integrative Body Psychotherapy, Biosynthesis, Process Work, and Psycho-Physical Therapy.

SPC 5612 Supervised Practica in Somatic 0.5
Through a variety of different practica, students explore somatic practices that can be used with individuals, couples and families. These practica provide students with the opportunity to practice and experience the application of somatic psychology clinical skills.

SPC 5620 Psychology Approaches to Trauma and PTSD A 3
An overview of the history of the concept of trauma and trauma treatment and a basic understanding of the psychobiology and neurobiology of trauma and PTSD. Conceptual distinctions will be made between developmental wounding, developmental trauma, and shock trauma. Current diagnoses overtly linked to trauma (PTSD, Acute Stress Disorder, Complex PTSD and Developmental Trauma Disorder) will be discussed. The topics covered include phase-oriented treatment, dissociation models, countertransference, and building somatic and relational resources. The discussion and training will include application of somatic trauma approaches to help stabilize situations involving personal trauma, disasters, and violence.

SPC 5621 Psychology Approaches to Trauma and PTSD B 3
An exploration into the complexities of traumatic experience, and will explore the particulars of developmental trauma. Topics covered will include models of understanding and treating dissociation and fragmentation, the intersubjective field, vicarious traumatization and compassion fatigue as well as working with positive states of experience. The application of somatic trauma approaches with disaster populations, violence, childhood trauma, and intergenerational trauma will be addressed. Advanced phase 1 and 2 skills of the trauma treatment model will be taught and phase 3 skills will be introduced. Students will learn to help clients process, metabolize and integrate personal historical experiences of trauma as well as ongoing challenges with activation. This course draws on the work of theorists such as Levine, Ogden, Rothchild, van der Kolk, and others.

SPC 5705 Counseling Case Seminar 3
This course focuses on clinical case presentation for students in field placement. Case presentations from the student’s current placement serve as a starting point for lecture, clinical discussion, exploration of diversity issues, role-play, and self-exploration within a somatic psychology perspective. This class supports students in acquiring professional competence in the important clinical skill of case presenting. Prerequisites: SPC 5762

SPC 5760 Supplemental Fieldwork Experience Monitoring 1
This course consists of individual consultations which review students’ progress in supplemental external fieldwork placement. Student and faculty meet a minimum of once per quarter to review
placement and evaluations and to fulfill BBS requirements for hours of experience toward licensure. The permission of the program director and advisor is required. Prerequisites: Permission of the program director and advisor.

**SPC 5761–64 Field Placement A–D** 3/3/3/3

In this four-quarter sequence, the focus is clinical fieldwork under supervision. Students train at community mental health sites, schools, hospices, and other sites. Students gain firsthand knowledge and experience working with individuals, couples, and families. Supervision is provided by qualified, licensed therapists. Permission of the program director is required. Prerequisites: Permission of the program director.

**SPC 5765 Field Placement** 2

This course may be required if a student needs any additional quarters of clinical work.

**SPC 5792 Practice of Group Psychotherapy** 2

In this course, students receive comprehensive supervision for their field placement practice in group psychotherapy. MFT trainees who are facilitating weekly therapy groups participate in group supervision for two hours each week. Students learn how to plan and publicize a group and to maintain a therapeutic group culture.

**SPC 5793 Child and Adolescent Therapy in the Schools** 2

Comprehensive training and supervision for the counseling of children and adolescents in the school setting. MFT trainees work with children and adolescents and participate in group supervision for two hours each week.

**SPC 5900 Topics in Somatic Psychology** 1-3

Topics vary and may be repeated for credit when the subject matter changes.

**SPC 5905 Personal Psychotherapy** 0

Students must register for this course in the quarter in which they expect to complete their personal psychotherapy requirement of 48 therapy hours.

**SPC 5920 Special Topics** 0

This course is reserved for students who have returned to the program after an absence or who have transferred into this program.

from another one in the College of Graduate and Professional Studies. This zero unit course offers no academic credit, but allows students to enter into the appropriate course at the program’s discretion. Students enrolling in this course will attend the same sessions and be responsible for the same assignments as students enrolling in the corresponding course. Permission of the Program is required to take this course. Offered as needed; credit/no credit only.

**TRANSPERSONAL PSYCHOLOGY [TPC] Courses**

**TPC 5000 Introduction to the Transpersonal Psychology Program** 0

This course will orient students to how the program flows and what they need to know in order to complete their program.

**TPC 5004–06 Group Process A–C** 2/2/2

In a group context, students use traditional and transpersonal counseling techniques to examine and work with their own and others' feelings, motivations and patterns of behavior. Topics include group theory and dynamics, stage development, leadership and implications for group therapy. During the third quarter students gain first-hand experience in facilitating the group (with the instructor as consultant).

**TPC 5103 Applied Clinical Philosophy** 1

Learn to articulate their clinical philosophy by drawing on their client counseling experience. Using traditional, somatic, integral and transpersonal sources, clinical theory and methods are explored through discussion and written papers.

**TPC 5104 Professional Integrative Project A** 1

This first course in a two-course sequence helps students clarify their professional focus and articulate their theoretical perspective. Students develop an outline for an integrative paper about their work that explores their transpersonal directions.

**TPC 5105 Professional Integrative Project B** 2

Students take this course when ready to complete their paper and give an oral presentation on it. This is the second in a two-course sequence. Prerequisites: TPC 5104 and permission of the instructor.

**TPC 5140 Expressive Movement** 3

This course will be a holistic, experiential journey through the moving body, exploring the mind, body, spirit connection and some educational/therapeutic uses of expressive movement. The coursework will include readings, drawing, writing, movement, and visualization.

**TPC 5141 Spiritual Systems** 2

Students select from a variety of spiritual systems, exploring the underlying theory of the system and engaging in in-depth practice. Sample topics may include African-based spirituality, music and spirituality, art as a spiritual practice, and nature-based spirituality, among others.

**TPC 5152 Marriage and Family Counseling A** 3

An introduction to major family systems theories, methods for assessment of interaction patterns, and intervention strategies.
appropriate to separation, divorce, and family dysfunction. Spousal
or partner abuse assessment, detection, and intervention will be
addressed. Also covers relationships between family systems theory
and transpersonal theory. Prerequisites: TPC 5006, TPC 5161, and
TPC 5193.

**TPC 5153 Marriage and Family Counseling B** 3
Applies principles and methods of marriage and family counseling,
and marriage and family systems theory to specific problems (e.g.,
spousal abuse, terminal illness, psychosomatic family members, and
addictive families). Transpersonal issues in working with optimal
family systems are also explored. Prerequisites: TPC 5152

**TPC 5158 Child Therapy** 3
Psychological/developmental issues of childhood are explored from
traditional and transpersonal perspectives. The developmental
impact of such issues as family dysfunction and child abuse are
discussed. Various practical therapeutic methods for working with
children are reviewed.

**TPC 5161–62 Fundamentals of Transpersonal Counseling A–B** 2/2
Covers basic postulates of transpersonally oriented counseling.
Surveys Jungian psychology, transpersonal approaches to psychotherapy, psychosynthesis, imagery and movement
psychology, and myth, art, and ritual in counseling. Prerequisites:
PYC /PYJ 3200

**TPC 5171–72 Systems of Transpersonal Counseling A–B** 3/3
A specific therapeutic approach to psychotherapy is explored in
depth (e.g., Jungian-archetypal, expressive arts therapy,
existential-transpersonal psychotherapy, or transpersonally
oriented analysis). May be repeated for credit with a change of topic.
Prerequisites: PYC /PYJ 3200

**TPC 5192 Individual Development and the Family Life Cycle A** 3
Covers how the development of the self is conceptualized and
perceived, both personally and therapeutically, from a variety of
traditional and transpersonal perspectives including Jungian, object
relations, self-psychology, and self-in-relation theory. Deepens
understanding of how developmental arrest has an impact on adult
development and becomes expressed in relationships.

**TPC 5193 Individual Development and the Family Life Cycle B** 3
Focuses on traditional and transpersonal views of the family life cycle and ways it is influenced by and independent of the
developmental experiences of individual members in their families of
origin. By drawing on research, literature and personal experience, students explore specific dynamics of the family life cycle. Prerequisites: TPC 5192.

**TPC 5204–05 Diagnosis, Assessment, and Therapeutic Strategy B–C** 3/2
A review of traditional and transpersonal diagnostic systems
including DSM-IV and alternative typologies (such as the
Enneagram, a phenomenological approach, or a body-oriented
approach), assessment methods including interviewing and
projective and objective testing, and therapeutic strategies
appropriate to different diagnostic categories.

**TPC 5213 Therapeutic Communication A** 3
Development and application of communication skills to individual,
couple, and family therapy. Students learn centering, attention and
listening skills, and means of discriminating between content and
process.

**TPC 5214 Therapeutic Communication B** 3
Training in recognizing transference and countertransference issues
and in making effective therapeutic interventions. Assessment of
communication patterns in dysfunctional, functional, and optimal
individual, couple, and family systems are explored. Prerequisites:
TPC 5213

**TPC 5231 Sexuality** 2
The sexual response cycle, male and female sexuality, and sexual
development and dysfunction are discussed from physiological,
psychological, sociocultural, and transpersonal perspectives.
Therapeutic approaches are explored as they apply to individuals,
families, and couples.

**TPC 5235 Psychological Testing** 3
This survey course is designed to help students understand the basic
concepts and applications of psychological testing and the
psychometric properties of psychological tests. This course will
emphasize the appropriate applications and limitations of many of
the current psychological tests—especially with regard to their use
with people of non-dominant cultures. Issues of validity and ethics
will be reviewed in this regard.

**TPC 5243 Community Mental Health and Principles of Recovery** 3
Preparation for challenges and opportunities, taking a holistic
approach to working in community mental health settings. Topics
include: the history of institutionalization and the community
mental health movement; navigating the complex public health and
social services systems; working with clients diagnosed with serious
mental disorders; useful therapeutic models and effective practices;
principles of recovery; strength-based assessment and resilience;
fundamentals of case management; coordination of care and family
and community involvement.

**TPC 5250 Basic Addiction Studies** 3
Basic information about alcoholism and chemical dependency
including definitions, effects on substance users and their
environments, medical aspects, etiology of substance abuse, major
treatment approaches, and available community resources. The
course is taught from a systems perspective and covers spiritual and
nutritional issues in chemical dependency.

**TPC 5422 Cross-Cultural Issues in Counseling** 3
An overview of cross-cultural issues related to counseling. Special
emphasis is placed on fostering an understanding of cross-cultural
dynamics in counseling through an examination of the historical,
political, and sociocultural issues that impact ethnic minority
clients.

TPC 5620 Holistic/Somatic Approaches to Trauma and PTSD

An overview of the history of the concept of trauma and trauma treatment and a basic understanding of the psychobiology and neurobiology of trauma and PTSD. Conceptual distinctions will be made between developmental wounding, developmental trauma, and shock trauma. Current diagnoses overtly linked to trauma (PTSD, Acute Stress Disorder, Complex PTSD and Developmental Trauma Disorder) will be discussed. The topics covered include phase-oriented treatment, dissociation models, countertransference, and building somatic and relational resources. The discussion and training will include application of somatic trauma approaches to help stabilize situations involving personal trauma, disasters, and violence.

TPC 5705 Counseling Case Seminar: Individuals

Students present internship cases from the field to be used as sources of discussion and analysis. Open only to students in the counseling degree program. Prerequisites: TPC 5751 or TPC 5756

TPC 5749 Supplemental Fieldwork Experience Monitoring

Individual evaluative consultations which review students’ progress in supplemental external fieldwork placement. Student and faculty meet a minimum of once per quarter to review placement, evaluations, and fulfill BBS requirements for hours of experience toward licensure. Prerequisites: TPC 5214 and TPC 5325

TPC 5751-54 Field Placement A-D

In this four-quarter sequence, the focus is clinical fieldwork under supervision. Students train at community mental health sites, schools, hospitals, hospice centers, therapeutic nurseries, the JFK University Center for Holistic Counseling, or other sites. Students gain firsthand knowledge and experience working with individuals, couples, and families. Supervision is provided by qualified, licensed therapists. Prerequisites: Permission of program director is required.

TPC 5755 Field Placement

A fifth quarter of field placement may be arranged by special permission.

TPC 5792 Practice of Group Psychotherapy

Students receive comprehensive training and supervision in the practice of group psychotherapy. As an MFT trainee, the student co-facilitates a weekly therapy group and participates in group supervision for two hours each week. Students learn how to plan and publicize a group as well as how to establish and maintain a therapeutic group culture.

TPC 5793 Child and Adolescent Therapy in the School

Students receive comprehensive training and supervision in the practice and treatment of children and adolescents in the school setting. As an MFT trainee, the student will work with children and adolescents and participate in group supervision for two hours each week.

TPC 5900 Topics in Transpersonal Psychology

Topics vary and may be repeated for credit with a change in topic.

TPC 5995 Independent Study in Transpersonal Counseling Psychology

To be arranged with consent of instructor and approval of the Program chair and dean. May be repeated for credit with a change of topic.

TPC 9005 Personal Psychotherapy

Students must register for this course when they have completed their personal psychotherapy requirement.

TPC 9020 Special Topics

This course is reserved for students who have returned to the program after an absence or who have transferred into this program from another one in the College of Graduate and Professional Studies. This zero unit course offers no academic credit, but allows students to enter into the appropriate course at the Program’s discretion. Students enrolling in this course will attend the same sessions and be responsible for the same assignments as students enrolling in the appropriate course. Permission of the Program is required to take this course. Offered as needed; credit/no credit.
College of Law
JOHN F. KENNEDY UNIVERSITY COLLEGE OF LAW offers both a three-year, full-time program and a four-year, part-time program leading to the Juris Doctor. The law program is flexibly designed both for people who want to study law while maintaining family, work, or other outside responsibilities and those able to devote themselves to full-time study. The College of Law is accredited by The Committee of Bar Examiners of The State Bar of California.

In conjunction with the College of Professional Studies, the College of Law also offers a JD/MBA joint degree program which students can complete in four years. Students in the joint program take College of Law courses for two years and then take a mixture of law and business courses over the following two years. Successful students receive both a Juris Doctor and a Master of Business Administration degree.

The College of Law is committed to providing the highest quality legal education in an environment that encourages mutual support rather than competition. Students receive a thorough grounding in both the theoretical and practical skills necessary to become effective attorneys. The curriculum emphasizes analytical and advocacy skills, combined with multiple clinical opportunities. This multi-modal approach includes a focus on law in its wider political, social, and economic contexts. The College believes that law can be a tool for social change and encourages its students to examine and share their experiences to reach a more comprehensive understanding of social justice.

JFK University College of Law not only prepares individuals to successfully practice law, but also to become leaders in their communities. To achieve this, the College of Law offers:

- **World-class faculty.** A faculty consisting of full-time professors and working professionals with outstanding records as lawyers and judges, nationally and internationally, who bring the most up-to-date professional perspectives to the classroom.

- **Exceptional support.** Day and evening classes are available to help students balance law school with other professional and personal responsibilities. A wide range of academic support services is offered, including workshops and teaching sessions to assist students in developing skills essential to success on the Bar Exam and in legal practice as well as in law school itself.

- **Practical experience/Clinical programs.** Students have the opportunity to gain real world legal experience either in the Legal Clinic for Elders or the Housing Advocacy Clinic, or through placements in law offices, government agencies, and the courts. These experiences teach practical legal skills, expose students to a valuable professional network, and provide a chance to engage in valuable public interest work. Students work under the supervision of core faculty or practitioners in these specialties.
Program Learning Outcomes

- **Legal Research.** Students will demonstrate effective use of the tools of legal research, both in traditional and online formats, be able to create an effective research plan, and work through the issue to a sound understanding of the applicable legal doctrine.

- **Communication.** Students will be able to communicate in written forms both to members of the profession and to the lay community in a manner that is clear, logical, well-organized and persuasive, and will be able to verbally communicate legal positions and viewpoints in an articulate manner.

- **Fundamental Lawyering Skills.** Students will develop competency in the skills associated with practicing law such as client interviewing, problem solving, counseling, drafting legal documents, negotiation, advocacy in a variety of settings, and non-adversarial dispute resolution practices.

- **Legal Analysis.** Students will be able to assess complex legal problems by identifying legal issues and critical facts, apply astute legal reasoning skills, and assess the potential options, solutions, and strategies.

- **Knowledge of Legal Doctrine.** Students will demonstrate competency in the fundamental legal doctrine covered on the California Bar Examination, such as Contracts, Torts, Criminal Law, Real Property, Constitutional Law, Civil Procedure, Business Associations, Community Property, Professional Responsibility, Criminal Procedure, Evidence, and Remedies, as well as in other areas deemed important in the general practice of law.

- **Professional Ethics.** Students will demonstrate competency in understanding the standards of professional responsibility required of members of the legal profession, be able to recognize ethical dilemmas and resolve them appropriately, and recognize the moral dilemmas often faced in the practice of law.

- **Professional Values.** Students will demonstrate an awareness of the value of community service and the role of law in promoting social justice and will recognize the value of diversity within the legal profession and society.

- **Critical Thinking.** Students will have the ability to identify and understand the legal and social policy implications of various legal conflicts and will have an understanding of how the law can serve to either promote or diminish justice, individual dignity, equal opportunity, or the sanctity of nature.

Accreditation

John F. Kennedy University is accredited by the Western Association of Schools and Colleges. The College of Law is accredited by The Committee of Bar Examiners of the State Bar of California. This accreditation permits graduates from JFK University College of Law to take the California Bar Examination upon graduation and, when the graduate passes and complies with other admission requirements, to practice law anywhere in the state, in both California and federal courts.

Study at, or graduation from, this law school may not qualify a student to take the bar examination or be admitted to practice law in jurisdictions other than California. A student who intends to seek admission to practice law outside of California should contact the admitting authority in that jurisdiction for information regarding its education and admission requirements.

Admission Requirements

The application deadline for admission is July 15. The deadline for transferring or visiting students is March 1.

Applicants are encouraged to apply before the deadlines to take advantage of a rolling admissions policy. As part of the commitment to make law school a feasible reality, admissions decisions for qualified students are made on an ongoing basis to give students as much time as possible before starting the program.

All applications must be on file by the deadline in order to ensure a timely admissions decision. This includes the completed application form with fee, personal statement, transcripts, and any other supporting documentation. LSAT scores are requested by the College of Law from the Law School Admission Council. Transcripts and other documents may also be accepted through LSDAS. In rare cases, LSAT scores and transcripts may be accepted after the deadline. Please contact the Records Coordinator for more information.

For information on admission, course offerings, degree requirements, academic policies, and faculty backgrounds, please visit the University website or contact the Admissions Office to obtain for the College of Law Catalog. Prospective students are invited to visit the College, attend some of the classes, and talk with students, faculty, and staff about careers in law.

Student Body

Students in the College of Law range in age from their early 20s into their 60s, bringing a rich diversity of backgrounds and life experiences. Some have advanced degrees and work experience in law-related fields; others begin their studies with no professional knowledge of the law.

Class Size and Times

Classes are small—usually no more than 40 people per class—and are offered during the day and evening. Most day classes are scheduled Monday through Thursday from 9 a.m. to noon, and 2 p.m. to 5 p.m.; most evening classes are scheduled from 7 p.m. to 10 p.m.

Clinical Program

After the second year of study, students are encouraged to obtain practical experience at the on-site Housing Advocacy Clinic, Legal Clinic for Elders, or through placement with government agencies, public interest firms and clinics, or private law firms. During this experience, students engage in a wide array of legal activities—legal research, drafting legal documents, client and witness interviewing, and trial preparation. Participation may be voluntary or for academic credit.

Law Library

The Law Library houses a collection of over 35,000 volumes and more than 175 periodical titles. Primarily supporting students, alumni, and faculty of the College of Law, the library is also available to the public for a fee. In addition to titles required by The State Bar of California for accreditation, the library’s collection includes practical resources for law clerking and the practice of law. These include California and federal form books, procedure guides, and specialty materials in such areas as bankruptcy, criminal, employment, environmental, family, immigration, property, and tax law.
Academic Support Services

The administration of the College of Law is dedicated to providing academic support that is responsive to students’ needs. The College of Law has an extensive academic support program (ASP) available throughout a student’s law school career, focusing on skills and topics of particular interest to law students. In addition, the University has an academic support center to help on issues ranging from time management to writing.

The ASP provides an interactive learning environment for law students. The goal of the program is to improve students’ understanding of the most challenging subject matter. For first-year students, the program focuses on Contracts, Torts, and Criminal Law. For second-year students, the focus is on Real Property, Civil Procedure, and Evidence. For third-year students, Constitutional Law is the focus. The program also provides assistance to advanced students in the form of preliminary Bar Exam preparation including exam writing and multiple-choice testing skills.

The ASP has three opportunities for learning: Saturday workshops, Teaching Assistant (TA) review sessions, and practice examinations.

- The Saturday workshops are periodically offered for Contracts, Torts, Civil Procedure, Evidence, Constitutional Law, and Real Property. These sessions are led by an experienced master teacher and are designed to provide students with issue-spotting and writing assistance in discrete areas of the law. The Saturday workshops include a practice exam. Students may turn their practice exams in for written feedback on their examination performance.

- The TA review sessions are led by student teaching assistants and focus on material selected by the master teachers.

- Practice exam sets are from past JFK University law courses and past California Bar Exams in most subject areas. Past JFK University law exams (with answers) are available online or in the law library. Past California Bar Exam sets are available with Bar-published answers from the library.

- **Michael Graney-Mulholland**, Dean, College of Undergraduate Studies. University of Phoenix, BS and MBA; Golden Gate University, DBA.

- **Penny Harrington**, Administrative Director, Student Services, Campbell Campus.

- **Scott Hassler**, Director of Grants and Contracts. Oberlin College, AB; University of California, Santa Barbara, MA; PhD.

- **Mary Hunter**, Director, Information Technology.

- **Lisa Hutton**, Faculty Senate President; Chair, Legal Studies Program; Associate Professor. California State, University, Chico, BA; John F. Kennedy University, JD.

- **Cyd Jenefsky**, Assistant Vice President, Office of Academic Affairs. University of California, Davis, BA; University of Wisconsin, MA, PhD.

- **Joshua Lachs**, Dean, Extended University. University of California, Berkeley, BA; Columbia University, MEd; MA.

- **Linda Mandel**, Assistant to the President for Diversity. University of California, Berkeley, BA; John F. Kennedy University, MA.

- **Jen Miller-Hogg**, Director of Admissions and Records. University of Southern California, BA; New York University, MA.

- **Lisa Noshay Petro**, Director of Disability Services for Students. Audrey Cohen College, BPS; University of California, Hastings College of the Law, JD.

- **Nancy Orr**, Campus Director, Campbell Campus. University of Texas, MFA.

- **Michael Raine**, Registrar. University of California, Santa Barbara, BA; John F. Kennedy University, MA.

- **David Sadler**, Director of Facilities.

- **Theresa Rodgers**, Director of Human Resources.
Steven A. Stargardter, President. Fordham University, BA; Boston College, MA; PhD; University of Washington School of Law, JD.

Sandi Tatman, Vice President of Research & Effectiveness. Anna Maria College, BA; College of Notre Dame, MA; Pacific Graduate School of Psychology, PhD.

Anne Marie Taylor, Vice President of Advancement. Scripps College, BA; University of Missouri, MA.

Mary Tuchscherer, Campus Director, Berkeley Campus. North Dakota State University, BS; Concordia University, BA; Holy Names College, MA.

Deborah Washnak, Accounting Manager. Macomb College, AA.

College of Undergraduate Studies

Daramola Cabral, Associate Professor; Chair, BA Health Sciences Program. Emory University, BMSc; PA; University of California, Berkeley, MPH; DPH.

Terri Davis, Associate Professor; Chair, BA Psychology Program. Virginia Union University, BA; Ohio State University, MA, PhD.

Gail Lynam Dutcher, Assistant Professor; Chair, BSBA Program. Boston College, BA; John F. Kennedy University, MA.

Lisa Hutton, Associate Professor; Chair, Legal Studies Program. California State University, Chico, BA; John F. Kennedy University, JD.

Michael Graney-Mulholland, Dean, College of Undergraduate Studies. University of Phoenix, BS, MBA; Golden Gate University, San Francisco, DBA.

Charlene Tuckerson, Administrative Director; Adjunct Professor. California State University, Hayward, BA; John F. Kennedy University, MBA.

College of Graduate and Professional Studies

Sean Esbjorn-Hargens, Chair, Integral Theory Program. Lewis & Clark College, BS; California Institute of Integral Studies, PhD.

Ruth Fassinger, Dean, College of Graduate and Professional Studies. University of New York, BA; State University of New York, MA; Ohio State University, MA; PhD.

Marilyn Fowler, Associate Professor; Chair, Consciousness & Transformative Studies Program. San Diego State University, BA; John F. Kennedy University, MA.

G. Ray Greenleaf, Professor; Chair, Counseling Psychology – Holistic Program. University of California, Berkeley, BA; John F. Kennedy University, MA.

Gail Kinsley-Dame, Professor; Chair, Marriage and Family Therapy Program. John F. Kennedy University, BA; MA.

Sukie Magraw, Professor; Chair, PsyD Program. Harvard University, BA; California School of Professional Psychology, PhD.

Rebecca Pegoda-Hallock, Director, Sunnyvale Community Counseling Center. University of California, Santa Cruz, BA; University of San Francisco, MA.

Marjorie Schwarzer, Associate Professor; Chair, Museum Studies Program. Washington University, BA; University of California, Berkeley, MBA.

Karen Sjoholm, Associate Professor. Chair, Arts & Consciousness Program. California College of Arts and Crafts, BFA; John F. Kennedy University, MA.

Miriam Smolover, Adjunct Professor; Clinical Director, Center for Holistic Counseling. University of Pittsburgh, BA; California State University, Hayward, MS.

Vernice Solimar, Professor; Chair, Integral Psychology Program. Hunter College, BA; Long Island University, MS; California Institute of Integral Studies, PhD.

Gail Solt, Professor; Chair, Sport Psychology Program. California State University, Hayward, BA; John F. Kennedy University, MA.

Paula Szloboda, Assistant Professor; Chair, Holistic Health Education Program. Costra Costa College, RN; John F. Kennedy University, BA; MBA.

Victoria Timpe, Adjunct Professor; Field Placement Coordinator, Center for Holistic Counseling. Cornell University, BA; John F. Kennedy University, MA.

Linda Waters, Administrative Director, Faculty Coordinator. University of Illinois, Chicago, BA.
**College of Law**

**Dean E. Barbieri**, Dean. University of California, Davis, BA; University of San Francisco, JD.

**Ora Prochovnick**, Director of Clinical and Public Interest Law Program, Professor. New College of California, JD.

**Audrey Smith**, Director of Legal Research and Writing Program, Professor. University of California, Irvine, BA; University of Santa Clara, JD.

**Sherrill M. Hall**, Administrative Director.

**Libraries**

**Fisher Library**

**Bill Ames**, Cataloging Librarian. Massachusetts Institute of Technology, BS; California Institute of Technology, MS; University of Washington, PhD; University of California, Berkeley, MLIS.

**Joan Bewley**, Psychology and Collection Development Librarian. Humboldt State University, BA; MA; University of California, Berkeley, MLIS.

**Claudia Chester**, Technical Services Librarian; Interim University Librarian. San Francisco State University, BA; University of California, Berkeley, MLIS.

**Jason Dezember**, Public Services and E-Resources Librarian. University of California, Davis, BA; San Jose State University, MLIS.

**Steven Moody**, Systems Librarian. University of New Hampshire, BA, MA; San Jose State University, MLIS.

**Berkeley Campus Library**

**John Taylor**, Berkeley Branch Librarian. Oral Roberts University, BA; University of Arizona, MLS.

**Campbell Campus Library**

**Heather Martin**, Campbell Branch Librarian. University of California, Santa Cruz, BA; University of Toronto, MIS.

**Law Library**

**Tina Miller**, Law Librarian. University of San Diego, BA; San Jose State University, MLIS.

**Jane Chittenden Minor**, Assistant Law Librarian. University of California, Berkeley, BA; MLIS.
Faculty

Aaronson, Julie, Adjunct Professor. University of California, Los Angeles, BA.

Acedo, Maite, Universidad Católica Andres Bello, Venezuela, BA; California Institute of Integral Studies, MA.

Agudelo-Silva, Fernando, Adjunct Professor. Universidad de Caldas, BS; Harvard University, MA; University of California, Berkeley PhD.

Aiken, Sue, Adjunct Professor. Colorado College, BA; John F. Kennedy University, MA.

Alderman, Bruce, Adjunct Professor. University of Texas, BA; John F. Kennedy University, MA.

Alexander, Robbyn, Assistant Professor. University of Kansas, BS; San Francisco State University, MFA.

Allen, Pat, Visiting Professor. Tufts University, BFA; Goddard College, MA; Union University, PhD.

Artega, Danielle, Adjunct Professor. San Francisco State University, BA; John F. Kennedy University, JD.

Auerbach, Loyd, Adjunct Professor. Northwestern University, BA; John F. Kennedy University, MS.

Baima, Timothy, Assistant Professor. University of California, BA; Alliant International University, MA; Syracuse University, PhD.

Baker, Rina, Adjunct Professor, Director, School-based Programs. San Diego State University, BA; University of California, Berkeley, MA; PhD.

Lutman, Sharon, Adjunct Professor. Sant Jose State University, BS; John F. Kennedy University, MA.

Madsen-Brooks, Leslie, Lecturer. Grinnell College, BA; University of California, Davis, MA, MA, PhD.

Mabry, John, Adjunct Professor. California Baptist College, BA; Holy Names College, MA; California Institute of Integral Studies, PhD.

MacBride, Bonnie, Adjunct Professor. University of California, Berkeley, AB; John F. Kennedy University, MA.

Magraw, Sukie, Professor; Chair, PsyD Program. Harvard University, BA; Alliant International University, PhD.

Mallor, Doreen, Assistant Professor. North Carolina School of the Arts, BFA; California Institute of Integral Studies, MA.

Mandell, Linda, Adjunct Professor. University of California, Berkeley, BA; John F. Kennedy University, MA.

Marco, Marilyn, Adjunct Professor; Supervisor, Center for Holistic Counseling. University of California, Berkeley, BA; San Francisco State University, MA.

Margulies, Ann, Lecturer. Princeton, BA; Santa Clara University, MA.

Marrero, Frank, Adjunct Professor. John F. Kennedy University, BA.

Martire, Heather, Lecturer. California State University, Hayward, BA; John F. Kennedy University, MA; PsyD.

Martin, Ann, Adjunct Professor. San Jose State University, BA; John F. Kennedy University, MA.

Martin, Carole, Adjunct Professor. San Jose State University, BA; John F. Kennedy University, MA.

Martin, Fred, Adjunct Professor. University of California, Berkeley, BA; MA.
Martin, Randy, Adjunct Professor. West Liberty State College, BA; University of Nebraska-Lincoln, MA; PhD.

Martin, Susan, Adjunct Professor. Stanford University, BA; Sonoma State University, MA.

Mattar, Sandra, Associate Professor. Universidad Catolica Andres Bello, Venezuela, BS; Massachusetts School of Professional Psychology, MA; PhD.

Mattioli, Maria, Adjunct Professor. San Jose State University; BA, MS.

Maushardt, William, Adjunct Professor. University of California, Berkeley, BA; University of Phoenix, MBA.

McCarter, Gordon, Lecturer. University of California, Santa Cruz, BA; PhD.

McCourt, Kim, Adjunct Professor; Supervisor, Center for Holistic Counseling. Southern Methodist University, BA; John F. Kennedy University, MA.

McCullagh, Penny, Adjunct Professor. State University College, Brockport, BS; University of Washington, MS; University of Wisconsin, PhD.

McHenry, Gary, Visiting Professor. University of California, San Diego, BA; Stanford University, AM.

McHugh, Jamie, Adjunct Professor. University of Wisconsin, BS.

McLean, Alvin, Adjunct Professor. Kansas University, BA, BMed; University of Wisconsin, PhD.

McManus, Mary Ellen, Adjunct Professor. State University of New York, BS; Syracuse University, MS.

Medina, Arman, Lecturer. University of San Francisco, BS; MS.

Metzler, Marilyn, Adjunct Professor. San Jose State University, BA; Saint Mary’s College of California, MA.

Meyer, Beverly, Adjunct Professor. University of Michigan, BA; The University of San Diego, JD.

Michaels, Carolyn Ruth, Adjunct Professor. University of Michigan, BA, University of Manitoba, MA.

Micha helles, Thomas, Professor. University of Munich, Germany, MA, PhD (law); John F. Kennedy University, MA.

Miller, Jill, Adjunct Professor. University of California, Berkeley, BA; The Wright Institute, PsyD.

Mischke-Reeds, Manuela, Adjunct Professor. Naropa University, BA; California Institute of Integral Studies, MA.

Mitnick, Mordecai, Adjunct Professor. Long Island University, C. W. Post Campus, BS; Adelphi University, MSW; University of California, Berkeley, MA.

Mock, Matthew R., Professor. Brown University, BA; California School of Professional Psychology, MA; PhD.

Moilanen-Harper, Jennifer, Adjunct Professor. Metro State College of Denver, BA; John F. Kennedy University, MA; MBA.

Montenegro, Haydee, Professor; Director of Training, PsyD Program. New School for Social Research, MA; Rutgers University, PhD.

Moore-McDowell, Jennifer, Assistant Professor. University of California, Berkeley, BA; California School of Professional Psychology, MA, PhD.

Moorhead, W. Douglas, Adjunct Professor. Furman University, BS; Emory University, PhD.

Morales, Rey, Adjunct Professor. University of California, Davis, BS; California State University, Hayward, MS.

Moran, Jamie, Adjunct Professor. University of the Pacific, BA; San Francisco State University, MSW.

Morelli, Giovanna, Adjunct Professor. New York University, BA.; San Jose State University, MSW.

Morgan, Jeremy, Adjunct Professor. University of Oxford, England, Certificate of Fine Art; Royal Academy Schools, England, Advanced Diploma in Fine Arts; San Francisco Art Institute, MFA.

Morin, Tom, Adjunct Professor. Louisiana State University, BA; John F. Kennedy University, MA.

Morrison, Frederic, Adjunct Professor; Supervisor, Center for Holistic Counseling. Minot State University, BS; University of Arizona, MEd.

Mulgrew, Sharon, Adjunct Professor; Towson University, BA; Yale University, MPH.

Murakami, Tomodo, Adjunct Professor. Tokyo National University of Fine Arts & Music, BFA; San Francisco Art Institute, MFA; John F. Kennedy University, MA.

Muscatelli, Patricia, Adjunct Professor. Hunger College, BA; Queens College, MS; University of California, Berkeley, MBA.

Neff, Douglas, Adjunct Professor. Ithaca College, BA; John F. Kennedy University, MA.
Nelson, Karen, Adjunct Professor. California State University, San Bernardino, BA; MA.

Newton, Gregory, Adjunct Professor. Cornell University, BS; John F. Kennedy University, MA.

Nickel, Tricia, Adjunct Professor. Saint Mary’s College of California, BA; John F. Kennedy University, MA.

Nowacki, Melissa, Adjunct Professor. California Polytechnic State University, BA.

O’Fallon, Terri, Adjunct Professor. Eastern Montana College, BS; MS; California Institute of Integral Studies, PhD.

Osborne, Shelden (Shelly), Adjunct Professor. University of California, Berkeley, BA; State University Teachers College, Oneonta, MA.

Ostrem, Francine, Adjunct Professor. University of Wisconsin, BA; University of California, Berkeley, MA; PhD.

Oveissi, Mohammad Ali, Adjunct Professor. Pars College, BS; California State University, Hayward, MS; University of San Francisco, EdD.

Owen, Mary, Adjunct Professor; Supervisor, Center for Holistic Counseling. Northwestern University, BS; Boston University, EdM.

Palkoff, Rena, Adjunct Professor, University of Wisconsin, BA; MSW; Fielding Graduate Institute, MA; PhD.

Palmer, Wendy, Adjunct Professor. Sarah Lawrence College, BA.

Pantell, Steven, Adjunct Professor. California State University, Chico, BA; California State University, Fresno, MA; American School of Professional Psychology (formerly California Graduate School of Psychology), PhD.

Panter, Deborah, Adjunct Professor. University of California, Irvine, BA; Golden Gate University School of Law, JD.

Pardini, Eileen, Adjunct Professor. California State University, East Bay, BA; John F. Kennedy University, MA.

Parker, Charlotte, Adjunct Professor; Supervisor, Center for Holistic Counseling. DePaul University, BS; John F. Kennedy University, MA.

Parsons, Christina, Adjunct Professor. University of San Diego, BA; San Diego State University, MA.

Patterson, Brandolyn, Adjunct Professor. University of California, Davis, BS; San Jose State University, MS; University of Arizona, PhD.

Pegg, Addrienne, Adjunct Professor. California State University, Hayward, BS; John F. Kennedy University, MA.

Pegoda-Hallock, Rebecca, Adjunct Professor; Director, Sunnyvale Community Counseling Center. University of California, Santa Cruz, BA; University of San Francisco, MA.

Peng, Peiying, Adjunct Professor. Culver-Stockton College, BA; Loyola Marymount University, MA; University of Chicago, MA.

Penn, Stephen, Adjunct Professor. California State University, Los Angeles, BS; Pepperdine University, MBA; Glendale College of Law, JD; Golden Gate University, MS; John F. Kennedy University, MA.

Pereira, Sharon, Adjunct Professor. Sophia College, India, BA; Marywood College, MA.

Perlman, Sharon, Lecturer. San Francisco State University, BA, MA; John F. Kennedy University, PsyD.

Peter, Kenneth, Adjunct Professor. Southern Illinois University, BA; MBA.

Peticolas, Michelle, Adjunct Professor. Rutgers University, BA; Indiana University, MA; PhD.

Pettit, Louanne, Adjunct Professor. California State University, Long Beach, BS; California State University, Hayward, MS.

Piazza, Charles, Associate Professor. Saint Mary’s College of California, BA; University of San Francisco, MA.

Pleasant, David, Adjunct Professor. University of North Carolina, BA; John F. Kennedy University, MA.

Pojman, Andrew, Adjunct Professor. Adams State College, BA; University of Northern Colorado, MA; EdD.

Polcin, Douglas Lawrence, Adjunct Professor. Thomas Jefferson College, BPh; San Francisco State University, MS; Northeastern University, EdD.

Polinetti, Frank, Adjunct Professor. University of Washington, BA; California Institute of Integral Studies, MA.

Polevoy, Justine, Assistant Professor. California College of Arts and Crafts, BFA; California Institute of Integral Studies, MA.

Polin, Stephen, Adjunct Professor. City College of the City University of New York, BA; San Jose State University, MA.
Poon, Henry, Adjunct Professor. Santa Clara University, BS; California Institute of Integral Studies, MA; PhD.

Porter, Eugene, Adjunct Professor; Supervisor, Center for Holistic Counseling. Antioch University, BA; MA.

Powell, Amy, Adjunct Professor. Saint Mary’s College of California.

Press, Douglas, Adjunct Professor. Tufts University, BA; Boston University School of Law, JD.

Price, Isabella, Adjunct Professor. University of Zurich, MA.

Pulleyblank Coffee, Ellen, Lecturer. University of Michigan, BA; Bank Street College, MS; Pacific Graduate School of Psychology, PhD.

Quinn, Dan, Adjunct Professor. John F. Kennedy University, BA.

Ramrattan, Lall, Adjunct Professor. St. Francis College, BA; New School University, MA; PhD.

Ramsay, C.A., Adjunct Professor. California State University, Long Beach, BA; John F. Kennedy University, MA.

Ranstrom, Kathy, Adjunct Professor. University of California, Davis, BA; JD.

Rapko, John, Adjunct Professor. University of California at Berkeley, BA; University of California at Berkeley, MA; University of California at Berkeley, PhD.

Rasbury, Robbin, Assistant Professor. California State University, Los Angeles BA; California School of Professional Psychology, PsyD.

Rawlings, Emma Farr, Adjunct Professor. International College, BS; Ryoken College, MA, PhD.

Raymer, Theresa, Professor. University of Oregon, BS; MS.

Readett, Brenden, Adjunct Professor. State University of New York at Buffalo, BA; Michigan State University MA; PhD.

Regan, Marianne, Adjunct Professor; Supervisor, Center for Holistic Counseling. State University of New York at Buffalo, BA; John F. Kennedy University, MA.

Reynolds, Robin, Adjunct Professor. Hunter College, BA; New York University, MPA.

Rhodes, Sheri, Adjunct Professor. Arizona State University, BA; MA.

Rhodius, Alison, Professor; Research Coordinator, Sport Psychology Program. University of Stirling, Scotland, BSc(Hons.); Liverpool John Moores University, England, MSc; PhD.

Rider, Eva, Adjunct Professor. McGill University, BA; John F. Kennedy University, MA.

Riniiti, Jo Ann, Adjunct Professor. Rutgers University, BA; San Jose State University, MS; Georgia State University, PhD.

Rivera-Lopez, Hector, Adjunct Professor. University of Puerto Rico, BA; Caribbean Center for Advanced Studies, MS; The Wright Institute, PhD.

Robinson, Sara, Lecturer. New York University, BFA; John F. Kennedy University, MA.

Roffler, Juerg, Adjunct Professor. Swiss Mercantile College, England, BA; School for Business Administration, Switzerland, MA; College for Social Work & Social Pedagogies, Switzerland, MSW.

Rohwer, Gary, Adjunct Professor. University of California, Irvine, BA; San Jose State University, MA.

Rome, Kate, Adjunct Professor. Williams College, BA; John F. Kennedy University, MA.

Ross, Merry, Adjunct Professor. George Washington University, BA; Webber Douglas Academy of Dramatic Arts, MA; California Institute of Integral Studies, MA.

Rotman, Judith, Adjunct Professor. City University of New York, BA; Bank Street College of Education, New York, MS.

Rubin, Sheila, Adjunct Professor; Supervisor, Center for Holistic Counseling. Maryhurst College, BA; California Institute of Integral Studies, MA.

Russell, Martha, Adjunct Professor. Texas Woman’s University, BS; California State University, Sacramento, MS.

Salman, Meira, Adjunct Professor; Supervisor, Center for Holistic Counseling. University of Maryland, BA; John F. Kennedy University, MA.

Samuels, Michael, Adjunct Professor. New York University of Medicine, MD.

Sanchez, Shellie, Adjunct Professor. University of California, Santa Cruz, BSc; California State University, Hayward, MS.

Sandberg, David, Adjunct Professor. University of Minnesota, BA; Ohio University, MS, PdD.

Sardella, Stephen, Adjunct Professor. John F. Kennedy University, BA; MA.
Sarraf, Brigitte, Adjunct Professor. Fresno State University, BA; University of Redlands, MA.

Satchell, Linda, Adjunct Professor. Sierra Nevada College, BA; John F. Kennedy University, MA.

Schabes, Alena, Lecturer. University of Wisconsin, BA; California School of Professional Psychology, PsyD.

Scheid, Mary Gibson, Adjunct Professor. University of Oregon, BA; San Francisco State University, MBA; Fielding Graduate University, MA; PhD.

Schneider-Miedzinski, Sanjen, Adjunct Professor. Pennsylvania State University, BS; City University of New York, MPhil; PhD.

Schwarz, Marjorie, Professor; Chair, Museum Studies. Washington University, St. Louis, BA; University of California, Berkeley, MBA.

Seaberry, Benny, Adjunct Professor. University of Oregon, BS; California State University, Los Angeles, MA.

Selby, Judith, Adjunct Professor. Pitzer College, BA; San Francisco State University, MA.

Serrano, Maria Rosa, Adjunct Professor. Holy Names College, BA.

Shankar, Sandaya, Adjunct Professor. Bangalore University, India, BA; MSW; National Institute of Mental Health and Neuro Sciences, India, MPhil.

Shapiro, Richard, Adjunct Professor. University of California, Berkeley, BA; MA.

Sharp, Matthew, Lecturer. New College, BA.

Shekerjian, Laura, Adjunct Professor. Oakland University, BA; University of Michigan, MA; California Institute of Integral Studies, MA.

Shelby, Robert, Adjunct Professor; Supervisor, Center for Holistic Counseling. DePauw University, BA; John F. Kennedy University, MA.

Shogan, Jo Ann, Adjunct Professor. Westminster College, BS; University of Pittsburg, MEd.

Shulakoff, Allen, Adjunct Faculty. Michigan State University, BA; San Francisco State University, MA; University of Pittsburg, MA.

Siegert, Frank, Adjunct Professor. Loyola College, BS; John F. Kennedy University, MBA.

Silow, Theresa, Associate Professor; Specialization Director, Somatic Psychology. Stiftungsfachhochschule Munich, Germany, MSW; Ohio State University, PhD.

Silva, Vivian, Lecturer. San Jose State University, BS; MSW.

Simmons, Charline, Adjunct Professor. Columbia University, BA; Tulane Medical School, MD.

Simmons, Ronald, Adjunct Professor. Michigan State University, BA; Golden Gate University School of Law, JD.

Simons, Jeffrey, Adjunct Professor. University of California, Davis, BA; University of California, Davis, MA University of Illinois, PhD.

Sirabella, Mirabrana, Adjunct Professor. Università di Bologna, Italy, Dottorato di Laurea; California State University, Sacramento, MS.

Siskin, Sharon, Adjunct Professor. Temple University, BFA; University of New Mexico, MA; University of California, Berkeley, MFA.

Sjoholm, Karen, Associate Professor. Chair, Arts & Consciousness. California College of Arts and Crafts, BFA; John F. Kennedy University, MA.

Smith, Arlando, Adjunct Professor. California State University, Fullerton, BA; MA.

Smith, Maureen, Adjunct Professor. Ithaca College, BS; MS; Ohio State University, MA.

Smith, Teri, Adjunct Professor. Shippensburg State College, BA; San Francisco State University, MS.

Smolover, Miriam, Adjunct Professor; Clinical Director, Center for Holistic Counseling. University of Pittsburgh, BA; California State University, Hayward, MS.

Solimar, Vernice, Professor; Chair, Integral Psychology. Hunter College, BA; Long Island University, MS; California Institute of Integral Studies, PhD.

Solomon, Gloria, Adjunct Professor. University of Oregon, BS; MS; University of California, Berkeley, PhD.

Solt, Gail, Professor; Director, Sports Psychology. California State University, Hayward, BA; John F. Kennedy University, MA.

Soltani, Sophie, Adjunct Professor. Roosevelt University, BS; John F. Kennedy University, MA; Alliant International University, PsyD.

Soo-Hoo, Terry, Adjunct Professor. California State University, Northridge, BA; San Francisco State University, MS; University of California, Berkeley, MA; PhD.

Speno, Ann Marie, Adjunct Professor. Boston University, BA; University of North Carolina, MA; John F, Kennedy University, MA.

Spero, Susan, Associate Professor. Ohio State University, BA; MA; PhD.
Spinrad, Mark, Adjunct Professor. University of California, Santa Cruz, BA; San Francisco State University, MA.

Stargardter, Steven A., Professor. President, John F. Kennedy University. Fordham University, BA; Boston College, MA, PhD; University of Washington School of Law, JD.

Stark, Marilee, Adjunct Professor. University of California, Los Angeles, BA; International College, MA; Sierra University, PhD.

Stearns, Sharon, Adjunct Professor. Syracuse University, BS; John F. Kennedy University, MA.

Steck, Ron, Adjunct Professor. Humboldt State University, BA; John F. Kennedy University, MA.

Stenger, Mel, Adjunct Professor. Duns Scotus College, BA; California State University, Hayward, MS.

Stephens, Michael, Adjunct Professor. Fresno State University, BS; John F. Kennedy University, MA.

Stephens, Noreen, Adjunct Professor. San Francisco State University, BA...

Stern, Joan, Adjunct Professor. University of Missouri, BJ; John F. Kennedy University, MA; MA.

Sterrett, Jill, Lecturer. University of California, Santa Barbara, BA; John F. Kennedy University, MA.

Strongman, Kenneth, Adjunct Professor. University of California, Davis, BS; Golden Gate University, MBA; John F. Kennedy University, JD.

Sugarman, Karlene, Associate Professor; Field Placement Coordinator; Sport Psychology Program. Saint Mary's College of California, BA; John F. Kennedy University, MA.

Sung, Kenzo, Adjunct Professor. University of California, Berkeley, BA; Howard University, MEd.

Szloboda, Paula, Assistant Professor; Chair, Holistic Health Education Program. Costra Costa College, RN; John F. Kennedy University, BA; MA; MBA.

Tan, Suzanne, Adjunct Professor. University of California, Berkeley, BA; John F. Kennedy University, MA.

Tatman, Sandi, Adjunct Professor; Director of Institutional Research. Anna Maria College, BA; College of Notre Dame, MA; Pacific Graduate School of Psychology, PhD.

Taylor, Jeremy, Adjunct Professor. State University of New York at Buffalo, BA; MA.

Teish, Luisah, Adjunct Professor.

Thorsen, Daniel, Lecturer. California State University, Fresno, BS; Washington State University, MA.

Timpe, Victoria, Adjunct Professor. Cornell University, BA; John F. Kennedy University, MA.

Thomen, Korena. Adjunct Professor. University of California, Berkeley, BA; John F. Kennedy University, MA.

Toews, Margaret, Adjunct Professor. San Jose State University, BA; University of San Francisco, MA.

Tomtania, Jim, Adjunct Professor. East Carolina University, BA; MA.

Torres, Eduardo, Adjunct Professor. Saint Mary's College, BA; San Francisco State University, MA.

Torres, Erica, Lecturer. California State University, Long Beach, BA; John F. Kennedy University, MA, PsyD.

Townsend, Karen, Adjunct Professor. John F. Kennedy University, BA; MA.

Tracy, Thomas, Lecturer. University of California, BA; John F. Kennedy University, MA., PsyD.

Tuchscherer, Mary, Adjunct Professor; Berkeley Campus Director. North Dakota State University, BS; Concordia University, BA; Holy Names College, MA.

Tuckerson, Charlene, Adjunct Professor; Administrative Director. California State University, Hayward, BA; John F. Kennedy University, MBA.

Turner, Jimmie, Adjunct Professor. University of California, Berkeley, BA; MA; PhD.

Tutashinda, Kweli, Adjunct Professor. University of Arkansas, BA.

Vanderburgh, Susan, Adjunct Professor; Supervisor, Center for Holistic Counseling. California State University, Hayward, BA; MS; Graduate Theological Union, MDiv.

Van Gaasbeek, J. Kyle, Lecturer. Kansas State University, BA; Fort Hays State University, MA; Forest Institute of Professional Psychology, PsyD.

Van Oot, Peter, Professor. University of Delaware, BA; University of British Columbia, MA; Pennsylvania State University, PhD.

Vernon, Stephen, Adjunct Professor. Michigan State University, BS; John F. Kennedy University, MA.

Vinson, Debra, Adjunct Professor. Greenville College, BA; John F. Kennedy University, MA.

Vogel, Eric, Associate Professor. University of California, Santa Cruz, BA; John F. Kennedy University, PsyD.

Appendices
Course Numbering System

Courses of instruction are numbered according to the following system:

1000–2999 Lower-Division Courses
3000–4999 Upper-Division Courses
5000–5999 Graduate Courses
6000–6999 Post-Master’s Courses
7000–7999 Doctoral Courses
9000–9999 Non-Credit, Field Placement, and Workshops

Course Prefixes

Prefixes ending in J designate courses offered at the Campbell campus.

A&C  Arts & Consciousness (Berkeley)
BCM  Health Science (Costa Mesa)
BUS  Business Administration and Management
CBA  Credit by Assessment
CNS  Consciousness and Transformative Studies
COR  Core Curriculum
EDJ  BA Completion in Education (Campbell)
EDN  Education
EDU  Education (undergraduate)
HHE  Holistic Health Education
HPC  Counseling Psychology - Core
HSC  Health Science (Pleasant Hill)
HSJ  Counseling Psychology - Holistic (Campbell)
HUM  Humanities - Lower Division
IPC  Integral Psychotherapy
IPP  Integral Psychology
ITH  Integral Theory
MUS  Museum Studies (Berkeley)
PHJ  Philosophy and Religion (Campbell)
PHR  Philosophy and Religion
PLS  Paralegal Studies
PSB  Counseling Psychology (Berkeley)
PSC  Counseling Psychology (Santa Cruz)
PSD  Doctor of Psychology
PSJ  Counseling Psychology (Campbell)
PSP  Sport Psychology
PSY  Counseling Psychology
PYC BA Completion in Psychology
PYJ BA Completion in Psychology (Campbell)
SCI  Science, Health, and Living Systems
SCJ  Science, Health, and Living Systems (Campbell)
SCM  Sport Psychology (Costa Mesa)
SEC  Social Ecology
SPC  Somatic Psychology
TPC  Transpersonal Psychology
Map of Pleasant Hill Campus

Address:
100 Ellinwood Way
Pleasant Hill CA 94523-4817

Phone:
(800) 696-JFKU (5358)
(925) 969-3300

Directions:
From San Francisco:
Take I-80 east toward the San Francisco–Oakland Bay Bridge and cross into Oakland.
Exit onto I-580 east.
Follow I-580 east and take exit for CA-24 east toward Walnut Creek.
Follow CA-24 east and take exit for I-680 north toward Concord and Sacramento.
Follow I-680 north and take exit number 42A for Contra Costa Blvd. and Pleasant Hill.
Follow Contra Costa Blvd. north to Ellinwood Drive and turn right onto Ellinwood Drive.
Follow Ellinwood Drive straight through to its end and turn right onto Ellinwood Way.
Follow Ellinwood Way to campus on the left.

From the north:
Take I-780 east or I-680 south to the George Miller Jr. Memorial Bridge (Benicia-Martinez Bridge).
Follow I-680 south and cross the bridge into Martinez.
Continue on I-680 to exit 51 for Willow Pass Road and turn right.
Follow Willow Pass Road to Contra Costa Blvd. and turn left.
Follow Contra Costa Blvd. south to Ellinwood Drive and turn left onto Ellinwood Drive.
Follow Ellinwood Drive straight through to its end and turn right onto Ellinwood Way.
Follow Ellinwood Way to campus on the left.

From Campbell, San Jose, and the south:
Take I-280 south to I-680 north.
Follow I-680 north and take exit number 42A for Contra Costa Blvd. and Pleasant Hill.
Follow Contra Costa Blvd. north to Ellinwood Drive and turn right onto Ellinwood Drive.
Follow Ellinwood Drive straight through to its end and turn right onto Ellinwood Way.
Follow Ellinwood Way to campus on the left.
Map of Campbell Campus

Address:
One West Campbell Avenue, Bldg. A
Campbell CA 95008-1052

Phone:
(408) 874-7700
(800) 868-2359

Directions:

From San Francisco:
Take US-101 south to exit number 398B for CA-85 south.
Follow CA-85 south to I-280 south.
Follow I-280 south to exit number 5B and exit onto CA-17 south.
Follow CA-17 south to exit number 25 for East Hamilton Avenue and turn right.
Follow East Hamilton Avenue west to South Winchester Blvd.
and turn left.
Follow South Winchester Blvd. to Campbell Avenue.
The campus is on the corner of Campbell Avenue and South Winchester Blvd.

From Pleasant Hill and the north:
Take I-680 or I-880 south to I-280 north.
Follow I-280 north to CA-17 south.
Take exit number 25 for Hamilton Avenue and turn right.
Follow East Hamilton Avenue to South Winchester Blvd. and turn left.
Follow South Winchester Blvd. to Campbell Avenue.
The campus is on the corner of Campbell Avenue and South Winchester Blvd.
Map of Berkeley Campus

Address:
2956 San Pablo Avenue, Second Floor
Berkeley CA 94702-2471

Phone:
(510) 649-0499

Directions:
